WEST FRANKLIN U.S.D. #287 DISTRICT MISSION STATEMENT
We are committed to serving our school community by providing a safe, structured learning environment that develops productive citizens who persevere through challenges.

USD #287 PHILOSOPHY OF EDUCATION
Unified School District #287 is organized to provide a comprehensive elementary, middle, and secondary education, which will meet the needs of every child.

The school district will strive to instill in each student: a positive self-image, self-discipline, self-respect for others and others' property, a sense of patriotism, and a respect for authority.

The school district will provide a curriculum that enables individuals to think creatively, critically, constructively, and to recognize and solve problems logically.

The school district will provide the best personnel and facilities within its means to meet the needs of all students.

The school district will emphasize that each student's family has a major role in training and educating their children. The district acknowledges that it cannot replace the family but does commit itself to assist each family in the maturing and educating processes that will enable each child to function as effective and responsible citizens.

This handbook has been developed as a guideline for students, parents, and staff. It is not intended to cover every circumstance that may arise. Administrators are responsible for the enforcement of the rules of the handbook. However, it is recognized that administrative discretion will be used on a case by case basis.

School Board Approval Date: August 12, 2026

Academic Policies

Career and Technical Education Programs (WFHS Only)

The purpose of career and technical education programs is to better prepare graduates to directly enter the workforce or continue their education in a related vocational field. Programs offered at West Franklin High School that have met the criteria to merit full career and technical education accreditation from the State Board of Education include the following:

- Agricultural Technology & Mechanical Systems
- Business Finance
- Construction & Design
- Diversified Agricultural Science
- Family, Community, & Consumer Services
- Marketing
- Media Design & Communications
- Restaurant and Event Management

Concurrent Enrollment (WFHS Only)

Concurrent enrollment classes are offered at West Franklin High School. Students are able to take classes at Neosho County Community College in Ottawa or online through accredited colleges and universities. All costs are the responsibility of the student.

Students enrolling in concurrent enrollment classes will receive both high school and college credit for their respective courses. Students enrolling in these classes must apply to the college institution and approved by administration. Students must be juniors or seniors on track to graduate and maintain a 3.0 GPA to enroll in these courses. The exception is Mr. Hahn's NCCC Chemistry class. In special circumstances, the building principal and counselor may also approve enrollment for students who do not meet the GPA requirement.

Credit Recovery (WFHS Only)

Students may be eligible for credit recovery with approval from the principal. If the course(s) are successfully completed, the grade earned will appear on the student's transcript as a pass (P).

Drivers Training

Driver's education will be offered as a summer program. Students must meet the state age requirements to participate and will be assessed a fee for participation in the program. The fee will be determined annually by the administration and approved by the board.

Early Graduation

Students who have completed all state and local graduation requirements may request early graduation. Each year, the school will inform students and parents of the procedures for applying. Once a student has met all graduation requirements and is approved for early graduation, they are no longer considered a student of USD 287 and may not participate in school activities. However, they are welcome to participate in the graduation ceremony held at the end of the school year in which their diploma is awarded. To apply for early graduation, students must:

1. Have attended USD 287 for the two semesters prior to applying, unless the principal grants a waiver.
2. Meet with a school counselor to develop a graduation plan.
3. Submit the following documents to the principal:
    - The completed graduation plan,
    - A written statement explaining the reason for the early graduation request, and
    - A letter of support from a parent or guardian.

The principal will review the application and make a decision based on the individual circumstances. The principal's decision is final unless appealed to the Board of Education.

Embedded Credits

Students can earn one credit in technical English and one credit in technical math by completing specific Career and Technical Education (CTE) programs at a partnering technical school. A complete list of eligible programs is available through the high school counselor. The credits will be awarded on a pass/fail basis. To receive these credits, students must obtain a certification. If a student completes only part of a program, they will not meet the necessary course outcomes, objectives, or standards to receive high school credit, which could jeopardize their graduation.

Falcon Hour Student Expectations
Falcon Hour is a dedicated time built into the school day to support students' academic, personal, and postsecondary success. During Falcon Hour, students may:

- Complete homework, missing assignments, or other classwork.
- Study for quizzes, tests, and upcoming assessments.
- Read independently or participate in other academic enrichment activities.
- Receive additional academic support from teachers and staff.
- Meet with teachers, counselors, or other school personnel as needed.
- Participate in social-emotional learning, career exploration, college and career readiness, or other school-directed activities.
- Meet with approved student organizations or groups for planning and leadership activities when scheduled.
- Participate in other instructional or enrichment opportunities as assigned by the school.

Students are expected to use Falcon Hour productively, follow staff directions, and contribute to a respectful learning environment. Students should report to their assigned Falcon Hour location promptly and remain there unless given permission by a staff member to report elsewhere for an approved school purpose.

Flex Schedule
Seniors on track to graduate in eight semesters may apply for a part-time (flex schedule) during their second semester. Applications will be available starting the first school day in October in the counseling office. Students will be reminded through email and student announcements. Completed applications are due on the first school day of December during the student's senior year, unless a waiver is granted by the principal.
Application Requirements:

- Submit a signed application (student and parent/guardian) to the counselor.
- The application will be reviewed by the counselor and administration.
- If approved, all parties will sign the agreement, which will be filed in the student's record.

Flex Schedule Guidelines:

- Students may remain on campus only during scheduled classes, teacher meetings, or lunch.
- Part-time seniors may participate in senior activities.
- To remain eligible for KSHSAA, students must be enrolled in five credit-bearing classes.

Food in Classrooms
Staff have the authority to permit food and drink in classrooms, provided it doesn't burden custodial staff or disrupt teaching and learning. Additionally, staff are responsible for clearly communicating their expectations regarding food and drink in their classrooms to students. Students, in turn, are accountable for ensuring that all food and drinks are appropriately stored and disposed of in accordance with these guidelines

Grading & Report Cards
Parents and guardians can monitor their student's academic progress at any time through the PowerSchool Student Information System (SIS). This platform provides real-time access to grades, attendance, and other important academic information. Grade cards are issued each quarter via the parent PowerSchool portal and sent to parent emails. Each grade card becomes part of the student's permanent file.

Grading Scales

A	100% - 90%
B	89% - 80%
C	79% - 70%
D	69% - 60%
F	59% and below

Graduation (WFHS Only)
The West Franklin Board of Education recognizes that the opportunity for education is a once-in-a-lifetime experience and is committed to providing high-quality educational opportunities for all students. To uphold these standards, students are expected to complete eight semesters of full-time attendance to earn a high school diploma. This requirement may include participation in a work-study program outlined in a student's Individualized Education Plan (IEP), a flex schedule during the second semester of senior year, or attendance at an accredited post-secondary institution—if approved and when dual credit classes are not available on campus.

Exceptions to the eight-semester attendance rule will be considered only in cases of extreme hardship. In such cases, a written request must be submitted by the student and parents to the principal, who will review and forward it to the Board of Education for final determination.

Seniors who do not meet graduation requirements will not be allowed to participate in commencement exercises or the senior trip.

Superior Honor Roll	4.0 GPA
Principal's Honor Roll	3.99 - 3.60 GPA
Student Honor Roll	3.59 - 3.00 GPA

Students must have no grade lower than a C- to qualify for honor roll status.

Late & Make-Up Work
Students are expected to hand work in on time. Students who fail to do so will be assessed a penalty as defined by the individual classroom teacher's late work policy.

Students are responsible for contacting teachers and arranging make-up work. When an absence is excused, a student will have two days for each day of absence to make up the work missed. In no case will a student have more than two weeks to make up work. In the event of an unexcused absence, students may still receive credit for assignments; however, no extra time will be provided to complete the work. Unexcused

absences must be excused within 48 hours for students to qualify for additional time to complete makeup work. If participation points are assigned in specific classes, students are responsible for requesting the alternative assignment within the guidelines established for absentee assignments.

Credit for missed work during a suspension will be granted for all work if received within two days upon returning to school.

Physical Education (PE) Classes
All students are expected to dress out and participate in PE class as scheduled. PE activities that are inside the gymnasium require shoes designated for that purpose and are not allowed to be used for outdoor activities. If a student forgets their clothes for P.E. class, our teachers have shirts and shorts that a student may use on a temporary basis.

Students may be excused from P.E. for a medical reason– a doctor's note is required with specifics about what activities students can participate in. Students excused from P.E. must report to class and follow the teacher's direction.

Lockers and locks are issued to students at the beginning of the school year. School lockers are the property of USD #287 and there is no expectation of privacy by the user of the school lockers. Care of the locker is the responsibility of the student. Students are responsible for all personal clothing and property left in a PE locker. The school district and employees cannot accept responsibility for lost, stolen, or damaged property.

Promotions (WFMS Only)
The West Franklin Board of Education is committed to preparing all students for success in high school. Students are expected to make satisfactory academic progress and successfully complete the requirements for each grade level.

Students who fail one or more core classes during the school year will be required to attend and successfully complete district-approved summer school as a condition of promotion to the next grade level. Students who do not successfully complete required summer school will be subject to additional academic interventions and supports as determined by the building principal.

Participation in the eighth-grade promotion ceremony is a privilege reserved for students who have successfully met the requirements for promotion to high school. Students who are required to attend summer school to satisfy promotion requirements are not eligible to participate in the promotion ceremony.

Recruiting Information
Military recruiters and institutions of higher education are entitled under federal law to a list of names, address, and telephone numbers of high school students unless you object to the release of this information. If you notify your principal in writing at any time that you do not wish your child's name, address, and telephone number released without your written consent, we will honor that request. Family Policy Compliance Office U.S. Department of Education, 600 Independence Avenue, SW Washington, DC 20202-4605

Schedule Changes
Schedule changes will be available the first 2 days of each semester. The counseling department will communicate each semester to remind students and provide instructions on how to request a schedule change. All schedule changes will require a scheduled meeting with a counselor. Schedule changes requested by students will only be approved for the following reasons:

- The class is required for graduation.
- The student needs to complete an incomplete schedule.
- The class is needed to meet the Kansas Scholars Curriculum, pathway completer status, or WFHS honors designations.
- The student is enrolled in a course for which they already have credit.
- The student is enrolled in a course without meeting the necessary prerequisites.
- Special circumstance request to counselor for an academic reason.

A counselor may approve a schedule change based on a specific student request that is consistent with the student's enrollment form and is deemed necessary for academic progress. This exception will be considered when the change aligns with the student's academic needs, as outlined in their request and

supporting documentation. The counseling department or administration may adjust student schedules for the following reasons:

- To balance class sizes.
- After reviewing the student's transcript, a specific schedule change is required.

Senior Trip and Commencement Ceremony (WFHS Only)
The senior trip and commencement ceremony are held in recognition of students who have met all the requirements necessary for graduation. Students not meeting all requirements for graduation will not have earned the privilege of participating in these activities. Additional eligibility for the senior trip will be announced by the senior class sponsor at the beginning of each school year.

Valedictorian and Salutatorians (WFHS Only)
It is the endeavor of West Franklin USD 287 to provide an education to every student that maximizes the individual's achievement. Honors, scholarships, and other awards are frequently bestowed upon students based upon grades and credits for high school classes. It shall be the policy of this district to select a valedictorian and salutatorian for each high school graduating class. Grade Point Average will be determined by an A(+ or -) equals 4; B (+ or -) equals 3; C (+ or -) equals 2; and a D (+ or -) equals 1. After each semester, grade point averages may be computed. Upon high school completion the grade point average of all graduates will be determined. If a tie exists for valedictorian, there will be shared valedictorians and no salutatorian. If a tie exists for salutatorians, there will be shared salutatorians.

Withdrawal From School
Students who are planning to withdraw from school must do so through the guidance counselor or principal. Withdrawal from school takes parental authorization and must be formally completed well in advance of the student's final day in school.

Athletics, Activities, and Extracurricular Events

This policy applies to the following activities: band, baseball, basketball, cheerleading, cross country, dance team, FBLA, FCCLA, FFA, football, forensics, golf, KAY, play, softball, student government, quiz bowl, track, vocal music, and any other school-sponsored organizations. Students involved in extracurricular activities must also follow the guidelines outlined in the district handbook and policies set by the USD 287 Board of Education.

If a situation arises during the season that is not covered in the student handbook, the coaching staff, in consultation with the athletic director and administration, will make a decision.

Athletic events are emotionally charged for everyone involved. If a parent has a concern, they should not address the coaching staff immediately following the contest, but should wait until the following day. When students or parents have a concern about staff, established protocol should be followed. The parent/student should first give the head coach the opportunity to resolve the issue. If the issue remains unresolved, the athletic director, principal, or superintendent (in that order) should be contacted. The Board of Education is the final authority on school matters.

Athlete Attire
Participants are expected to be well-groomed and dressed appropriately for all athletic and academic events. Head coaches and sponsors will specify acceptable attire for all participants. Non-compliance may result in consequences, including the loss of eligibility, as determined by the head coach or sponsor.

Bona Fide Student
Participation in school-sponsored activities and athletics is a privilege, not a right, and is separate from a student's entitlement to a general education. Rules for athletic programs ensure fairness and promote a positive school image. Under KSHSAA Rule 14, Article 2, a student who is suspended or whose behavior brings discredit to the school or themselves, as determined by the principal, is not in good standing and will be ineligible for a period specified by the principal.

Contests and Conferences
When students are involved in league, regional, state or national level contests or conferences, they are expected to represent themselves, the organization, the school, and the community with pride. Students must remain in good standing and meet eligibility requirements to attend conferences and contests.

Dances (WFHS Only)
The WFHS Student Council and Junior Class sponsor dances throughout the year. These activities are intended for high school students.

- Students must attend at least one-half of the last scheduled school day prior to the dance unless the absence is documented or excused in accordance with the district attendance policy. Students who fail to meet this requirement are not eligible to attend the dance.
- Outside guests are limited to current high school students and individuals who graduated from a verified high school within the last two years. WFHS students must submit an Out-of-School Date Application for approval by Tuesday prior to the dance.
- For safety and security, attendees are not allowed to bring large bags or backpacks to events. All bags are subject to search before entry.
- In all cases, students who leave the activity early will not be allowed to return.

Exceptions to these policies may be granted with prior approval from administration.

Dual Sport Participation Policy (WFHS ONLY)
Students at West Franklin High School may participate in two sports during the same season, provided they follow the guidelines outlined below. These requirements are designed to ensure that all parties involved—students, coaches, parents/guardians, and school administrators—clearly understand expectations throughout the season.

<u>Guidelines for Dual Sport Participation:</u>

1. Application Requirement: Students must complete a dual sport application to be considered for participation. The application must be submitted no later than two weeks before the start of the practice season.
2. Pre-Season Meeting: A meeting must be held before the first practice involving the student, head coaches of both sports, parents/guardians, and school administration or the athletic director. This meeting will outline practice schedules, game schedules, and expectations for all involved.
3. Primary Sport Declaration: Students must declare a primary sport on the application. This selection is final and cannot be changed. The primary sport will take precedence in the event of scheduling conflicts, especially for competitions.
4. Cumulative GPA Requirement: Students must have a cumulative GPA of 3.0 or higher at the time of application to be eligible for dual sport participation.
5. In-Season GPA Requirement: Students must maintain a GPA of 3.0 or higher throughout the duration of the sports season in which they are participating in two sports.
6. Academic Ineligibility: If a student becomes academically ineligible at any point during the season, they may only participate in their primary sport until eligibility is regained.
7. Team Travel Expectations: Students are required to travel with the team to all away events. If two events occur on the same day and do not overlap, the student may be transported between events only by a parent or guardian.
8. Withdrawal from Primary Sport: If a student quits or is dismissed from their primary sport, they become ineligible to continue in the secondary sport. Exceptions may be made in cases involving significant injuries that prevent participation in the primary sport.
9. School Absences for Athletics: Students may not miss school for athletic events more than twice per week. Exceptions may be granted by school administration in cases of weather-related cancellations or rescheduling.
10. Postseason Competition Exception: KSHSAA postseason competitions are exempt from the school absence limit stated in guideline #9. However, guideline #3 regarding primary sport precedence still applies.
11. Practice Limitations: Students are limited to one after-school practice per day during the dual sport season.

Weekly Academic Eligibility Policy: The eligibility list will be compiled starting the 3rd full week of the quarter and continue until the end of the quarter. Once it is determined on the 2nd day of the week that a student is on the eligibility list, their eligibility runs from that day until the 2nd day of the next week or at the discretion of the administration. Students who are ineligible the last Tuesday of the quarter will remain ineligible until the following Tuesday. On the Tuesday following the end of a semester and until the new semester begins, eligibility will be based on the previous semester's final grades. Eligibility will be determined by the administration in accordance with KSHSAA regulations. Additionally, students must meet the following guidelines:

- **Step 1:** The first time a student is on the eligibility list with two failing grades (< 60%) they will be on warning.
- **Step 2:** If the student remains on the eligibility list with two failing grades for the second week in a row, they will be ineligible to participate in games and contests. The student will remain on Step 2 as long as they have two or more failing grades.

Emergency Protocol

The following procedures should be followed in the event of a serious injury, including broken bones, concussions, loss of consciousness, seizures, or any other injury that may be life-threatening.

During the School Day:

1. Assess the situation. Call 911 if the injury is life-threatening.
2. Notify a building administrator or secretary immediately.
3. Once administrative staff arrives, they will determine the next course of action.
4. Call 911 in the event of any loss of consciousness.
5. Office personnel will immediately contact the student's parent or emergency contact.
6. The student can only be released to EMS staff or a parent/emergency contact.
7. Staff must remain with the student until EMS or the parent/emergency contact takes charge.

Outside the School Day:

1. Assess the situation. Call 911 if the injury is life-threatening or if the student has lost consciousness.
2. Immediately contact a parent or emergency contact.
3. The student can only be released to EMS staff or a parent/emergency contact.
4. Staff must stay with the student until EMS or the parent/emergency contact takes charge.
5. Notify administrative staff as soon as possible.

Equipment
Equipment issued to a student is the responsibility of the parent and student. Items must be returned to the coach/sponsor in the same condition in which they were issued. School-issued equipment is to be worn or used only during practice or games. Coaches will determine whether practice or game attire is worn on game day.

All issued equipment must be returned or paid for before a student can participate in any future activities or contests.

Fundraising
All fundraising activities must receive prior approval from building administration and will be scheduled by administration to avoid conflicts with other school organizations.

The Junior Class may conduct one fundraiser each year to help pay for the Junior-Senior Prom. Juniors not fully participating in the minimum requirements may not attend Prom unless they make up the amount of the minimum requirement.

Inclement Weather
In the event of inclement weather, district and/or building administrators will decide whether contests and practices will be held.

Overnight Travel
Coaches/sponsors will set a curfew for all participants and conduct room checks. No visitors of the opposite sex will be allowed in student rooms. Students will be held financially responsible for any damages or stolen property.

Participation
All athletic participants must submit a completed medical consent, concussion, and KSHSAA physical forms before participating in practice or an activity. Medical consent forms will be kept by the coach in the medical kit.

Participation in all activities is based on ability and work ethic. Attending practice does not guarantee playing time in contests. Coaches will notify participants within the first two weeks of the season if they will have little or no playing time. Participants may choose to remain on the team with the understanding that their participation in contests may be limited.

Students must meet all academic eligibility requirements outlined in the student handbook. If a student is ineligible and participating in an activity that is tied to a classroom grade, they will only be allowed to participate in on-campus activities.

Coaches will inform parents if an athlete quits or is removed from the team.

Practices
Practice schedules will be set by head coaches in each sport, after consulting with the Athletic Director, and will be communicated to athletes and parents at the pre-season parent meeting. Student-athletes are expected to attend practices as scheduled by the head coach. Penalties for missing practice will be outlined in each sport's specific handbook, as approved by the Athletic Director. These penalties will be consistent for all players and clearly communicated at the pre-season parent meeting. Athletes who make prior arrangements with the head coach due to family emergencies will be excused.
Exceptions to the rule:
- Athletes with injury or illness (injured athletes are required to attend practice unless excused by the coach)
- New transfer student-athletes
- Prior arrangements made with the head coach

Athletes will be notified of starting dates in advance through regular school announcements.

School Attendance
A student who participates in athletic, academic, or extracurricular activities must be present for the four (4) class periods prior to dismissal time to participate in practice, events, a game, or a competition. Competitors who attend all-day funerals, medical appointments, or face emergencies may practice, play

that night, or participate in academic competitions with documentation of appointments or prior approval from an administrator.

Sportsmanship
The most visible evaluation of a school by outsiders occurs during athletic events. Our school and our community are judged by others at each contest. According to KSHSAA Rule 52, all students, regardless of participation, and all attendees of athletic events are expected to demonstrate good sportsmanship. For more information about KSHSAA Rule 52 visit: https://www.kshsaa.org/Publications/Sportsmanship.pdf.

Statement of Risk
All extracurricular participants and their parents or guardians should be aware that participation in extracurricular activities carries the risk of mild, moderate, or severe injury, including paralysis or death.

If a doctor removes an athlete from an activity with written consent, the athlete must obtain a written and signed release from the doctor before they can participate again.

If an athlete is removed from a practice or contest due to a possible head injury, they must have a written release from a licensed physician before returning to the contest. The official, coach, or parent cannot return the athlete to the contest without this release.

Student Behavior
All West Franklin athletic and extracurricular participants are expected to conduct themselves in an orderly manner when representing our school. We aim to earn the respect of others and build a positive reputation for West Franklin students. Always act with dignity and respect—be ladies and gentlemen. Ethical behavior is essential, not optional. As a member of any squad or club, you are expected to uphold the highest ethical standards and show respect to your coaches/sponsors, teammates, competitors, and yourself. Additionally, participants are subject to school disciplinary consequences for any behavior that occurs while participating in athletic and extracurricular activities.

Substance Abuse Policy
To ensure uniformity in our activities program, the following substance abuse policy will be enforced. Participation in the West Franklin High School activities program is a privilege, and students are expected to demonstrate self-discipline and control at all times.

Substance abuse is defined as the use of alcohol, drugs, tobacco, or vaping devices by any student during the school year. The following actions are prohibited:

1. Use or possession of alcohol
2. Use, possession, purchase, sale, or distribution of any controlled substance
3. Use, possession, purchase, sale, or distribution of tobacco or vaping devices
4. Use, possession, or purchase of drug paraphernalia

Consequences for violations:

- **First Violation**: The student will be suspended from the next competition or event.
- **Second Violation**: The student will be permanently dismissed from the team or organization.

If a student is found in violation of Kansas statutes, district administrators are required to report the incident to the appropriate law enforcement agencies for investigation, in accordance with Kansas law. Parents and students concerned about substance abuse are encouraged to contact the high school counselor for information about available community resources.

Transportation
In transportation of students to athletic contests or other school activities, the following rules are to be observed:

1. All students and/or team members travel under the supervision of the teacher, coach, and/or the bus driver.
2. All other district and school policies.
3. All students must use school transportation for school activities, with the following exceptions:
   - **Release to Parents:** After an event, students may be released to their parents, but they must sign out with the coach/sponsor. This release requires a face-to-face meeting between the coach/sponsor and the parent.
   - **Release to Someone Other Than Parents:** If a student needs to be released to someone other than a parent, the parent must directly contact a school administrator before the event. The

administrator will approve or deny the release. If approved, the individual signing the student out must be an adult, age 18 or older, and will be required to sign the student out with the coach.

- **Driving to Events:** Students with a legal driver's license may drive to baseball/softball home field activities, provided a signed liability waiver is on file. Students may not transport anyone other than immediate family to these events.

Attendance Policies

Absences from School

A student's absence from the classroom disrupts the continuity of the instructional progress. The benefits of classroom instruction include class discussion, teacher presentations, and student participation. Thus, compulsory school attendance is necessary, and the school district requires regular attendance in compliance with state law.

1. In case of student absence, a parent should call the school office by 9:00 am on the day of the absence.
2. The principal is responsible for determining whether an absence/tardy is excused or unexcused.
3. The following absences may be excused by the principal: illness, doctor appointments, family emergencies, business that cannot be taken care of outside the school day, or religious reasons. The principal reserves the right to request a doctor's note for illness. Absences will not be excused for shopping trips, babysitting, hair appointments, working part-time jobs or general absences for personal business which could be taken care of outside the school day.
4. Absences which are excused will carry no penalty until the number exceeds five full days per semester. Those students who exceed the absence limit will be considered unexcused until legal documentation (i.e., doctor's note) is provided for the school. Obtaining a doctor's note for an absence will not count against the five excused days.
5. The State of Kansas expects schools to have an attendance rate above 90%. All children between the ages of 7 and 18 are required to attend school on a regular basis (KSA 72-3120). Five unexcused absences a semester, three unexcused absences in a row, or seven unexcused absences in a year will lead to referral to the appropriate authorities (KSA 72-3121).
6. Students should understand that attendance in school is a requirement for attendance at or participation in any extracurricular activity. Any exception to this rule must be approved prior to the absence by the principal.

Leaving Class/School – Students

Students are expected to remain in their assigned classroom except in the event of extraordinary circumstances. At no time should any student be dismissed to go to the parking lot or leave school grounds without reporting to the office for administrative permission. Students leaving school grounds after the first bell should check out through the office. Teachers should not dismiss students to go to another classroom without prior knowledge of the receiving staff member.

Tardies

Arriving at school and to class on time is important. A student is considered tardy if they are not in their assigned location within the first 20 minutes of a class period. Tardies accumulate within each quarter and reset at the start of the next quarter.

1st - 5th Tardies - Warning
6th - 11th Tardies - 30 Minute detention
12th & Additional Tardies - Students will be assigned discipline points and may be assigned In-School Suspension or assigned to report to school on a non-student day

Chain of Command

West Franklin Middle and High Schools strive to ensure stakeholders' concerns and/or questions are resolved as quickly and effectively as possible. Many questions are quickly and completely answered by communicating directly with school staff. Use the Chain of Command below as a guide for handling questions or concerns.

Discipline Expectations

Our discipline approach supports a safe, respectful, and academically focused environment. By minimizing disruptions, we help all students stay engaged in learning. We aim to guide students toward making responsible choices, and when expectations are not met, appropriate consequences are used to encourage improved behavior.

Behavior Expectations

- Show respect for yourself, others, and the school environment.
- Resolve conflicts peacefully and respectfully.
- Stay focused and engaged in class.
- Complete academic tasks with your best effort.
- Attend school regularly and be on time.
- Encourage and support positive choices in others.

Falcon Guidelines for Success

- I will respect myself, others, and my environment.
- I will take responsibility for my choices, actions, and attitude.
- I will always do my personal best.
- I will use self-control in my words and actions.

Academic Dishonesty (Plagiarism)

Academic dishonesty is strictly prohibited and undermines the values of learning, fairness, and personal accountability that are essential to the academic community.

Academic dishonesty includes, but is not limited to, cheating, plagiarism, and other forms of misrepresentation in academic work. Plagiarism is defined as using another person's original ideas, words, or work without proper acknowledgment. This includes materials taken from books, articles, websites, or any other electronic sources.

All students are expected to submit work that reflects their own effort and understanding. Submitting work that is not your own, whether copied, purchased, or generated by unauthorized means, violates this policy.

Any student found to have engaged in academic dishonesty may receive no credit for the assignment in question and may be subject to further disciplinary actions as outlined by institutional policies.

Bullying Policy

The USD # 287 Board of Education prohibits bullying in any form during the school day, on school property, in a school vehicle, (school bus, school van, other school vehicle and private vehicle used to transport students or staff members to and from school or any school-sponsored activity or event) or at a school sponsored activity or event.

Bullying is unwanted, aggressive behavior that involves a real or perceived power imbalance. The behavior is repeated, or has the potential to be repeated, over time. Bullying includes actions such as making threats, spreading rumors, attacking someone physically or verbally, and excluding someone from a group on purpose. The following is a list of types of bullying and is not intended to cover every possible situation:

- Verbal bullying is saying or writing mean things. Verbal bullying includes: teasing, name-calling, inappropriate sexual comments, taunting, threatening to cause harm
- Social bullying, sometimes referred to as relational bullying, involves hurting someone's reputation or relationships. Social bullying includes: leaving someone out on purpose, telling others not to be a friend with someone, spreading rumors about someone, embarrassing someone in public
- Physical bullying involves hurting a person's body or possessions. Physical bullying includes: hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's things, making mean or rude hand gestures
- Cyberbullying is bullying that takes place using electronic technology including cell phones, computers, tablets, communication tools including social media sites, text messages, chat and websites. Cyber bullying includes: mean text messages or emails, rumors sent by email or posted on social networking sites, and embarrassing pictures, videos websites or fake profiles

Any individual who feels they have been bullied needs to report the situation to a teacher, staff member or administrator immediately. Situations reported to teachers or staff should be immediately forwarded to a building administrator.

Administrative staff shall investigate each allegation of bullying. Should such allegation be substantiated by the administration, the person responsible for violation of the bullying policy will be disciplined as follows:

- 1st offense: Warning and conference with a building administrator. The student will be given the opportunity to correct the behavior. Parents of the offender will receive notification from the building administrator.
- 2nd offense: Three day in-school suspension
- 3rd offense: Three day out-of-school suspension
- Additional bullying offenses may result in out-of-school suspension of three to ten days and possible long term suspension/expulsion.

Violations of this policy shall be reported by staff, students or parents to the building administrators. Bullying data will be collected and reported in the same manner as all other student conduct violations.

Dress Code

Appropriate student dress and appearance contribute to a safe, respectful, and productive learning environment. Students are expected to use good judgment in their personal appearance and dress in a manner appropriate for the school setting. Clothing shall provide appropriate coverage of the body and shall not be excessively revealing or excessively short. Undergarments shall not be intentionally visible.

Clothing, accessories, and visible tattoos may not display obscene, profane, lewd, or sexually suggestive language, images, symbols, or messages or advertise or promote alcohol, tobacco, nicotine or vaping products, illegal drugs, or weapons. Attire or personal items that create a disruption to the educational environment or present a health or safety concern are not permitted.

Hats and other head coverings may be worn at the discretion of the individual classroom teacher unless otherwise directed by school administration. Coaches and sponsors may establish additional standards of dress and appearance for students participating in school-sponsored activities.

Students who do not meet these expectations will be expected to correct the concern. Parents or guardians may be contacted if necessary. Continued or repeated violations may result in disciplinary action in accordance with the Student Discipline Framework. The building principal or designee shall make the final determination regarding the application of this policy.

Driving and Parking (WFHS Only)

Students who drive to school are expected to follow all parking and traffic regulations on school property. Vehicles may not block traffic, sidewalks, driveways, or fire lanes. Parking in the west staff parking lot is prohibited.

Students who need to return to their vehicles during the school day must first check out through the high school office.

Students are expected to operate their vehicles in a safe and responsible manner at all times. Unsafe driving or failure to follow school parking expectations may result in the loss of driving and parking privileges and other consequences in accordance with the Student Discipline Framework.

Fighting & Physical Violence

Physical violence is not an acceptable way to resolve conflicts. It is disruptive, immature, and poses serious risks. Students involved in fighting will be suspended. Any actions that result in physical harm to another person or damage to property will lead to appropriate disciplinary action, which may include notifying law enforcement.

Messaging Between Students and Employees

Safety of our students and staff is our top priority. This includes the use of digital communication tools that are used with district oversight. At West Franklin Middle School/High School, messaging between our students and teachers, coaches, sponsors, or other employees will use the district's email system, as well as ParentSquare and district-approved Google communication tools.

Please allow an employee up to 24 hours for a response during a school week. School staff members are not requested nor required to monitor messages over weekends or other times when the school is closed for breaks or holidays, unless they are working in an official capacity during that time.

If you have an urgent need, please contact the school office for assistance. Use of other digital communication tools for direct communication between a student and employee is otherwise limited to academic platforms and direct message services only as authorized by law. Two-way communication between employees and students is not permitted through any social media platform, such as Facebook, Instagram, Snapchat, X, and TikTok. Individuals making unauthorized two-way communications using social media may be subject to disciplinary action.

For assistance accessing your ParentSquare, district email, or district-approved Google communication tools account, contact the West Franklin MS/HS Office. If you ever have concerns about communication between a student and employee, please contact the principal without delay to request assistance or make a report.

Public Display of Affection
Intimate displays of affection are considered inappropriate on school grounds. This includes kissing or any physical contact beyond holding hands. Students are encouraged to express affection in respectful and appropriate ways that maintain a focus on academic and social activities during school hours.

Racial and Sexual Harassment
Any student who believes they have experienced racial or sexual harassment should report it to the building principal, another administrator, guidance counselor, or another certified staff member. If the issue is not resolved to the student's satisfaction, they may file a complaint through the district's discrimination complaint procedure. Reporting harassment will not affect the student's status, grades, future opportunities, or assignments. Confidentiality will be maintained throughout the process.

Use of Cell Phones and Other Personal Electronic Communication Devices
Kansas law prohibits students from using or having access to their cell phones and other personal electronic communication devices from the start of school at 8:10 a.m. until the dismissal bell at 3:32 p.m., except as otherwise provided in board policy JCDC.

Students must check their devices into their assigned storage location between 8:00 a.m. and 8:10 a.m. each school day. When entering the school each day, West Franklin Middle School/High School students will be required to store their devices in a secure locker assigned to their Falcon Hour teacher or, in certain circumstances, a secure lock box in the high school office. Students attending college classes off campus may be assigned to store their devices in the high school office based on their individual schedules, and those designated storage locations will be communicated directly to those students. West Franklin MS/HS employees will be responsible for ensuring devices remain turned off and properly stored away from students during the school day. At the end of the school day, students will retrieve their phones and other personal electronic communication devices from their Falcon Hour teacher or, if applicable, from the high school office.

If you need to contact your child during the school day for any reason, please call or email the West Franklin MS/HS Office so that we may assist. High School families may contact the office at (785) 566-3392, and Middle School families may contact the office at (785) 566-3512. If your child needs to reach a family member or caregiver during the school day, they should notify a staff member and request permission to use a phone in the office for prompt assistance from our team.

We acknowledge the complexity of this issue. We encourage students to leave personal electronic communication devices at home or in a locked vehicle during the school day. We also understand that this is not always possible or preferable. Please note that students failing to comply with this policy will be subject to disciplinary action.

At West Franklin Middle School/High School, we value the partnership of parents and guardians. When families and school staff work together, we can create a positive, healthy, and focused learning experience for every student.

Discipline Framework

Purpose of the Discipline Framework: 20 Point System

West Franklin Middle & High School's Discipline Framework is designed to:

1. Foster a positive and productive learning environment for students, staff, and families.
2. Clearly communicate the rules and policies of USD 287 and West Franklin Middle & High School to students and parents/guardians.
3. Document discipline violations in a clear and systematic manner.
4. Establish a consistent communication process that keeps all stakeholders informed and helps maintain a safe and secure school environment.

It is the responsibility of students and their parents/guardians to understand school policies related to appropriate and inappropriate behaviors. This framework is built on the belief that no individual has the right to interfere with the learning or safety of others. Families are encouraged to discuss expectations for conduct with their students.

To promote fairness and transparency, West Franklin Middle & High School uses a Point System as the foundation for discipline. This system is in effect throughout the entire school year and applies during the school day and at any school-sponsored activities—both on and off campus.

Structure of the Point System

The Point System is in place to ensure that all violations are addressed fairly, consistently, and in alignment with board policy and applicable laws. Discipline consequences will be progressive and proportionate to the severity and frequency of behavior incidents.

- **Points are cumulative throughout the school year.**
    - After 10 points or after a significant incident, a Memorandum of Understanding (MOU) may be created to clarify expectations and next steps for the student, parent/guardian, and staff. This document will remain in the student's file.
    - Students have the opportunity to work off points at the discretion of administration at a rate of 1 point per 1 hour of approved work. Students are responsible for proposing work to administration for approval, and the work must positively contribute to the school or district community.
    - Any student who earns **20 or more disciplinary points** will be **automatically considered not in good standing**.
    - Points reset to **zero (0)** on the first day of each new school year. However, if a student did not finish the previous school year in good standing, administration reserves the right to **partially reset the student's points** at its discretion.
- **Points are assigned by administration** based on the severity, frequency, and intensity of the behavior incident. Administration reserves the right to determine the level of offense and assign consequences based on individual circumstances. All referrals and point tracking are kept confidential within the office and treated as part of the student's record.
- **Illegal or criminal behavior** may also result in law enforcement involvement as required by district policy.

Parent Communication

Parents/guardians will be notified of referrals and point assignments via phone call, PowerSchool email, or mailed letter. Meetings may be scheduled as needed to support the student and address behavior improvement.

Possible Disciplinary Actions
The following consequences may be applied in response to violations of the West Franklin Discipline Framework. Interventions will be determined based on the nature and severity of the behavior, prior incidents, and individual student needs:

- Warning and/or Counseling (Re-Focus) with an administrator or designee
- Re-Focus Process: Emphasizing cooperation, honesty, ownership of behavior, and restitution
- Memorandum of Understanding (MOU): Documented agreement shared with all relevant stakeholders
- Loss of Privileges: Including but not limited to participation in activities, events, or access to specific areas
- Removal from Class or Activity
- Parent Notification
- Parent Conference: May include or exclude student participation
- Detention or Classroom-Based Consequences
- In-School Suspension or Short-Term Out-of-School Suspension
- Referral for Due Process Hearing: May result in long-term suspension, expulsion, or a change in educational placement
- Suspension or Expulsion from School Transportation
- Referral to Law Enforcement

Re-Focus Process
Teachers are expected to address behavior concerns using classroom-level strategies before referring a student to the office. When additional support is needed, the student may be referred to an administrator to participate in the Re-Focus Process.

The Re-Focus Process emphasizes cooperation, honesty, ownership of behavior, and restitution. Students reflect on the behavior that led to the referral, take responsibility for their actions, consider how their behavior affected others, and identify steps to repair harm and avoid future incidents.

The goal of the process is to help students return to class ready to meet behavioral and academic expectations, with a focus on accountability and problem-solving rather than punishment. Time spent in the process may vary depending on the situation and the student's needs.

Students Not in Good Standing
Students will not be able to attend or participate in any West Franklin events or activities if they are not in good standing, including promotion and graduation ceremonies. Any student who earns **20 or more disciplinary points** will be **automatically considered not in good standing**. Students being declared "not in good standing" may appeal their status to the superintendent of schools stating reasons for reinstatement in writing. Infractions which may lead to a student being declared "not in good standing" include, but are not limited to:

- Less than 90% attendance rate
- 15 or more tardies
- 5 or more days of suspensions
- Any suspensions that resulted from physical violence, weapons, tobacco, drugs, or alcohol
- Not on track to graduate

Lockers
School lockers are the property of USD #287 and there is no expectation of privacy by the users of school lockers. Students can request a locker and check out locks in the office for the safety of student belongings. Students may bring a personal lock, but they must provide the office with the combination or extra key. The school district and employees cannot accept responsibility for lost, stolen, or damaged property.

Medications
Should students need to take prescription medication at school, written authorization must be provided by the parent and signed by a medical professional. Parents must also provide written authorization for all over-the-counter medications. All medications, including over-the-counter medications, must be delivered to the school office in an original container. If a student will be self-administering an over the counter medication, office approval is required. Please see the District Handbook for further information.

Searches

Searches of students or their personal possessions may be conducted by the principal or his/her designee when there is reasonable suspicion that a student is in possession of an object that can jeopardize the health, welfare or safety of themselves, other students or staff. All outside beverages may be inspected by the administrator.

FAMILY EDUCATION RIGHTS AND PRIVACY ACT (FERPA)

The purpose of this Act is to ensure access by parents to their child's educational records. However, whenever a student has attained the age of 18 years of age, the rights accorded to the parents then become the rights of the student. At this time parents need to get permission from their child in order to view any educational records.

As part of FERPA, each year the district notifies the public regarding the release of certain types of student information (without parental consent). This type of information is known as "directory information" and includes the following:

- Student's name
- Address
- Phone listing
- Date and place of birth
- Major field of study
- Participation in officially recognized activities & sports
- Weight and height as a member of an athletic team
- Dates of attendance
- Degrees and awards received
- Most recent previous school attended

Parents do have the right to deny release of this information. If you desire to deny release, please notify your student's principal immediately.

PARENT AND STUDENT RIGHTS UNDER THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

(Board Policy JRA – approved by BOE 10-8-01)

Under the provisions of the Family Educational Rights and Privacy Act (FERPA), parents of students and eligible students (those who are 18 or older) are afforded various rights with regard to educational records that are kept and maintained by West Franklin USD#287. In accordance with FERPA, parents/guardians are required to be notified of those rights which include:

(1) The right to review and inspect all educational records, except those which are specifically exempt. Records will be available within 45 days of the day the district receives your request for access.

(2) The right to prevent disclosure of personally identifiable information contained in educational records to other persons, with certain limited exceptions. Disclosure of information from the educational records to other persons will occur only if:

a. the school has your prior written consent for disclosure,
b. the information is considered "directory information" and there is no objection to the release of such information; or
c. disclosure without your prior consent is permitted by law, including:

1. The district may disclose, without consent, personally identifiable information to school officials with legitimate educational interest.
2. The district will disclose, without consent, all educational records to officials of another school district in which a student seeks to enroll or intends to enroll.

ASBESTOS ABATEMENT

In 1986, Congress passed the Asbestos hazard Emergency Response Act (AHERA). That law requires all schools, kindergarten through twelfth grade, to be inspected for asbestos-containing building materials. In the past, asbestos was used extensively in building materials because of its insulating and fire retarding capabilities. Virtually any building built before the late 1970's contain at least some asbestos in pipe insulation and structural fireproofing. We also have buildings that contain asbestos materials. The primary concern arises when these materials begin to deteriorate or become damaged.

U.S.D. #287 contracted with Hall-Kimbrell Environmental Services to bring our schools into compliance with the AHERA regulations. Hall-Kimbrell is the nation's largest and most experienced environmental engineering and analytical testing firm specializing in asbestos. The objectives of our contract with the consulting firm were to:

1. Sample, analyze and quantify asbestos-containing materials in our schools.
2. Determine any potential for exposure of building occupants to asbestos fibers.
3. Provide recommendations for corrective actions.
4. Establish priority levels for abatement activities.
5. Provide estimates for removal and replacement of asbestos-containing materials.

Our schools were inspected in accordance with the regulations by the EPA-accredited Hall-Kimbrell inspector. Samples of suspect materials were taken and analyzed at the firm's EPA-Accredited laboratory. Based upon those findings, a Management Plan was written which outlines our intent in controlling and abating any asbestos-containing materials.

The Management Plan has been submitted to the Governor's office, as required by the law. A copy of the Management Plan is on file for your review in the district administrative office at 510 East Franklin and individual building Management Plans can be found in each school's administrative office. The Management Plan includes an Operation and Maintenance Program developed for our schools. This program is the primary foundation by which we will control exposure to any asbestos-containing materials through a systematic schedule of monitoring, employee training, record keeping, and periodic re-inspections. Our maintenance and custodial personnel have received special training to qualify them to conduct their routine activities around asbestos, to handle accidental releases of asbestos fibers if the materials become damaged and to monitor the condition of the materials.

Hall-Kimbrell made recommendations for a phased schedule of removing asbestos-containing materials. Over the years, this removal is expected to cost approximately $285,151. The schedule was determined by the exposure potentials, taking into consideration such factors as location, accessibility, condition, friability (easily crumbled) and the asbestos content of the materials. Concentration of asbestos fibers in building are generally lower (10,000 times) than those levels reported in asbestos industry workplaces which have been linked to disease among workers. Evidence suggests that the mere presence of asbestos in a building does not necessarily pose a hazard. Research indicates that unless asbestos is disturbed, allowing fibers to become entrained into the air, the potential health consequences appear to be negligible. However, our concern is to control the potential for asbestos to be disturbed in our schools, releasing fibers into the air. Therefore, if the material is in a state that requires its removal or containment that will be done. If the material is in controllable form, it will be systematically controlled until the phased plan calls for its abatement.

The Appanoose school buildings as of July 1990 were deemed to be free of all known friable and non-friable asbestos-containing materials.

The West Franklin Middle School at the conclusion of August 1988-89 abatement project was reported to be free of exposed friable asbestos and is currently under the Operations and Maintenance Program as outlined in the District's Management Plan.

The West Franklin High School Buildings were deemed free of exposed friable asbestos at the conclusion of the August 1988-89 abatement project. The buildings are currently under the Operations and Maintenance Program as outlined in the Districts Management Plan.

The West Franklin North High School building was constructed at the period in time where the ACM hazard was known and thus built to asbestos free specifications. The inspection report by Hall-Kimbrell Environmental Services during our initial asbestos inspection verified this fact to be true and was incorporated as such in the Management Plan.

The Williamsburg School building was found free of friable asbestos and is currently under the Operations and Maintenance Program as outlined in the Districts Management Plan.

Supplemental Asbestos Inspections and Management Plans were requested from and results provided by Southeast Kansas Education Service (Kansas Accreditation: #KUVII6388000-24R). The Inspection covered wallboard and joint compound used in building construction throughout the district. Samples were taken in compliance with 40 CFR Part 763 Subpart E. Results were negative or less than 1% and thus none of the materials tested are considered asbestos. These test results are on file.
Please remember, copies of the Management Plan as submitted to the State of Kansas are on file for your review at either the district administrative office or school's administrative office.

CELL PHONES, ELECTRONIC DEVICES and MESSAGING BETWEEN STUDENTS and EMPLOYEES

Student Personal Electronic Devices

Kansas law prohibits students from using or having access to their cell phones and other personal electronic communication devices from the start of school at 8:10 a.m. until the dismissal bell at 3:32 p.m., except as otherwise provided in board policy JCDC.

Each school has specific guidelines within their student handbooks that address this process. Please see each school's building handbook for those specific details.

If you need to contact your child during the school day for any reason, please call or email the individual school office. If your child needs to reach a family member or caregiver during the school day, they should notify a staff member and request permission to use a phone in the office for prompt assistance from our team.

We acknowledge the complexity of this issue. We encourage students to leave personal electronic communication devices at home or in a locked vehicle during the school day. We also understand that this is not always possible or preferable. Please note that students failing to comply with this policy will be subject to disciplinary action.

At West Franklin USD #287, we value the partnership of parents and guardians. When families and school staff work together, we can create a positive, healthy, and focused learning experience for every student.

Messaging Between Students and Employees

Safety of our students and staff is our top priority. This includes the use of digital communication tools that are used with district oversight. At West Franklin USD #287, messaging between our students and teachers, coaches, sponsors, or other employees will use the district's email system, as well as ParentSquare.

Please allow an employee up to 24 hours for a response during a school week. School staff members are not requested nor required to monitor messages over weekends or other times when the school is closed for breaks or holidays, unless they are working in an official capacity during that time.

If you have an urgent need, please contact the school office or for assistance. Use of other digital communication tools for direct communication between a student and employee is otherwise limited to academic platforms and direct message services only as authorized by law. Two-way communication between employees and students is not permitted through any social media platform, such as Facebook, Instagram, Snapchat, X, and TikTok. Individuals making unauthorized two-way communications using social media may be subject to disciplinary action. For assistance accessing your ParentSquare account, contact the school office. If you ever have concerns about

communication between a student and employee, please contact the building administrator without delay to request assistance or make a report.

CHILD ABUSE/ NEGLECT

Adoption

This Children's Internet Protection Act Safety Plan was adopted by the Board of USD 287 at a public meeting, following normal public notice and a hearing on September 10, 2012

CRISIS MANAGEMENT PLAN

Each school has a crisis management plan to direct the staff on procedures to follow in the event of a crisis. In the event of a crisis, a predetermined and trained team of personnel will be in charge of the situation. Please recognize and respect the massive responsibility of the team during a crisis.

Because of advance planning and training, the school has confidence in our ability to maintain a safe and orderly environment during a crisis. However during a crisis we recognize that parents are very anxious to know of their child's well-being, Parents also may want to remove their child from the school to protect their well- being. Should a crisis occur, all children must be accounted for at all times. Therefore, if the parent wishes to remove the child from the crisis, the child must be checked out from the school office.

Following a crisis, some or all students may need counseling to help deal with grief. The crisis team will determine such needs. However, parents need to realize grief needs to be dealt with at home also, and therefore some of the responsibility for counseling will rest with the family through other agencies.

Students who are suspended or expelled under the terms of this policy will be afforded the due process rights contained in board policies and Kansas statutes, K.S.A. 72-6114, et seq. Nothing in this policy is intended to diminish
the ability of the district to take other disciplinary action against the student in accordance with other policies governing student discipline. If a student agrees to enter and complete a drug education or rehabilitation program, the cost of such program will be borne by the student and his or her parents.

A list of area drug and alcohol counseling and rehabilitation programs, along with names and addresses of contact persons for the programs, is on file with the board clerk. Parents or students should contact the directors of the programs to determine the cost and length of the program.

*(Board Policy GAAF – Revised by BOE **7/18/23**)*

The board of education is committed to limiting the use of Emergency Safety Intervention ("ESI"), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school's code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to affect physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition shall be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. In spite of the provisions of this subsection, a student may be subjected to ESI if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall see and hear the student at all times. The presence of another person in the area of purposeful isolation or observing the student from outside the area of purposeful isolation shall not create an exemption from otherwise reporting the incident as seclusion. When a student is placed in or otherwise directed to an area of purposeful isolation, the student shall have reason to believe that the student is prevented from leaving.

If the area of purposeful isolation is equipped with a locking door designed to prevent a student from leaving the area of purposeful isolation, the door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the area of purposeful isolation, or in case of emergency, such as fire or severe weather.

An area of purposeful isolation shall be a safe place with proportional and similar characteristics as those of rooms where students frequent. Such area shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include:

A. The events leading up to the incident;
B. student behaviors that necessitated the ESI;

C. steps taken to transition the student back into the educational setting;
D. the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI;
E. space or an additional form for parents to provide feedback or comments to the school regarding the incident;
F. a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and
G. email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year:

- A copy of this policy which indicates when ESI can be used;
- a flyer on the parent's rights;
- information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and
- information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas.

Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. The documentation shall include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and
- Whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the

superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

ENROLLMENT

To enroll in school for the first time in the state of Kansas, students will need an immunization certificate, a certified copy of birth certificate, and a physical before they can attend school. These certificates should also be brought to Kindergarten Round-Up; however, it is not absolutely necessary to have them until the beginning of school. When enrolling for the first time, please bring record of attendance from previous schools (see Board Policy *JBC).*

EXCLUSION FROM SCHOOL FOR NON-IMMUNIZED STUDENTS

Non-immunized students, including those with a religious, medical, or other statutory exemption, shall be excluded from attending school during an outbreak of a vaccine-preventable disease in their attendance building. This will be determined on a case-by-case basis by a licensed employee. Recommendations from a licensed physician and/or local health department official shall determine the duration of exclusion from school. Vaccine-preventable diseases may include but are not limited to the following diseases: diphtheria, tetanus, pertussis, poliomyelitis, measles, mumps, rubella and varicella (chicken pox).

FIRE DRILLS

The State of Kansas requires each school to have a fire drill four times per year. All persons in the school are to exit during a fire drill. Appropriate fire exits will be posted in a conspicuous place in each room throughout the school buildings.

HEAD LICE

Students may not attend school if infected with head lice. If a student is determined to be infected with head lice, they will be asked to go home and shampoo with Quell or another recommended shampoo. Students may return to school when they are live lice free. This is usually accomplished in two days or no longer than three days. In order to be readmitted, the student's parent must accompany the student to the school office where a check will be made by the principal or their designee. The principal or their designee will make the determination if the student is live lice free and can be readmitted to school. Any students who are absent more than three days will be reviewed and could be counted as truant or as having an unexcused absence.

IMMUNIZATIONS

Kansas State Law requires all students to have up-to-date immunization records prior to starting school in the fall. Parents will be notified by mail if their student's immunizations need to be updated prior to the beginning of the next school year. **Students without up-to-date immunizations by September 30th of each year will be excluded until immunizations are up-to-date.** Students new to the district must show proof of up-to-date immunization status prior to enrolling. Students new to the district who are not up-to-date on their immunizations will be given 30 days to complete immunizations required. Students transferring in from another state will be given 30 days to complete immunizations required in Kansas that were not required by the state in which they are transferring from. Students with medical exemptions or religious exemptions are to have the appropriate form signed yearly. Medical and religious documentation must be provided prior to the students 1st day of school. They are to have the appropriate form signed yearly. Those students with religious exemptions need to sign a form upon entry to school.

Note: During suspected vaccine-preventable disease outbreaks, any student who claims any of the exemptions will be subject to automatic exclusion from school.

KINDERGARTEN SNACKS/AFTERNOON MILK

A nutritional snack will be provided to kindergarten students.

LUNCHES AND BREAKFAST

All schools in the district will have closed lunch periods.

Lunch prices are as follows: Elementary $3.60, Middle School $3.70, High School $3.70, Reduced .40, and Adult is $4.50. Extra milk is .50. We also serve breakfast. Price for breakfast is: Elementary $2.50, Middle School $2.60, High School $2.60 and Adult $3.00. Reduced breakfast is .30.

LUNCHES CHARGED—DISTRICT-WIDE POLICY

(Board Policy EE – Revised by BOE 3/6/24)

The district's meal charging requirements are as follows.

A charge account for students paying full or reduced price for meals may be established with the district. Students may charge no more than 2 meals to this account without triggering the district's delinquent debt proceedings as outlined in this policy and board policy DP. Charging of a la carte or extra items to this account will not be permitted.

When the charge levels identified in this policy have been met, a student's meal account becomes delinquent. The student will be allowed to purchase a meal if the student pays for the meal when it is received. Students who have delinquent accounts and cannot pay out of pocket for a meal will be provided a regular, reimbursable meal from the cafeteria menu, which shall be charged to the student's account while the district proceeds with attempts to resolve the delinquent debt with the student's parent or guardian. If attempts to receive payment for charged meals do not result in full payment of the debt, debt collection proceedings will begin in accordance with board policy DP.

Payments for school meals may be made at the school or district office, at the point of service of school meals, or online on the district's website. Students, parents, and guardians of students are encouraged to prepay meal costs.

The district will provide a copy of this unpaid meal charges policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this policy will also be communicated to all district staff responsible for enforcing any aspect of the policy, a copy of the policy will be posted in district meal service facilities, and the policy will be made available on the district's website and social media accounts. Records of how and when it is communicated to households and staff will be retained.

LUNCHES CHARGED – USD 287 & THREE LAKES STAFF

All West Franklin USD 287 staff, including Three Lakes Coop employees, are allowed to charge no more than two meals. When the two meal limit is reached, no hot lunch will be served until the staff member's account is cleared.

MEDICATION ADMINISTRATION

To ensure the safety of students at school and under the supervision of school personnel, the guidelines listed below will be used when administering medication (s) to students at school or school activities.

The guidelines are as follows:

1. Written permission from the student's parent/guardian and doctor should accompany all prescription medication. The permission form will identify the student, date permission given, identify the medication, dosage, time of day to be given, anticipated number of days to be taken and parent/guardian signature. A form for permission will be available in the school office.
2. All medications must be in a properly labeled container including the name of the student, name of the medication, dosage, and when the child is to take the medication.
3. All medications will be given to the school secretary for safekeeping. MEDICATIONS NEEDING REFRIGERATION NEED TO BE LABELED ACCORDINGLY.
4. Eligible students requiring inhalers may keep them in their possession and are encouraged to be responsible, taking care not to leave them where other students might attempt to use them. Teachers must be aware of all students having inhalers, and as for all other medications, inhalers must have the proper permission forms at school. Any student using his/her inhaler must immediately report to the office to sign medication log.
5. Medications that are taken on "as needed" basis, such as: hay fever, cold, cough medications, etc., need to have the parent permission forms signed only once a school year. Only those doses that might be needed during one school day will be kept in the office. When used, the container will be returned to the parent for a refill. This will also apply to students with bee-sting or allergic reaction kits at school.
6. Any changes in type of drugs, dosage and /or time of administration should be accompanied by a new permission slip signed by the student's doctor or the medication will not be given.
7. Only oral medications will be administered except in emergency situations.
8. An individual record will be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.
9. "Over-the-counter" and non-prescription medications should not be maintained on any school premises, including athletic areas, unless written parent permission has been provided to the administrator.
10. Failure to follow the stated medication administration policy will result in disciplinary action including verbal reprimand up to expulsion. The proper authorities will be contacted if there is a violation of Kansas Statutes.

NONRESIDENT STUDENTS (Board Policy JBCC – approved 11/8/23

Kansas law requires the board to allow nonresident students to enroll in and attend the schools of the district if the board's capacity determination finds there are open seats for such students. In order to determine the district's capacity to accept nonresident students at each grade level in each district school, the board has adopted this policy.

Details concerning the open enrollment and continued enrollment processes for nonresident students may be found in this policy, while general processes on enrollment documentation, assignment to buildings and classes, etc., may be found in board policy JBC.

Definitions

For the purposes of this policy, the following definitions apply.

"Homeless child" means a child who lacks a fixed, regular and adequate nighttime residence and whose primary nighttime residence is:

A. A supervised publicly or privately operated shelter designed to provide temporary living accommodations, including welfare hotels, congregate shelters and transitional housing for the mentally ill;
B. an institution that provides a temporary residence for individuals intended to be institutionalized; or
C. a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for humans.

"Nonresident student" means a student who is enrolled and in attendance at or seeking to enroll and attend a school located in a district where such student is not a resident.

Determining Capacity for Nonresident Enrollment

The superintendent or designee has the responsibility for studying capacity in each school of the school district and at each grade level within each school and for making recommendations to the board regarding the district's capacity to accept nonresident students. To make recommendations to the board to assist with determining capacity, the superintendent or the superintendent's designee(s) shall do the following.

The superintendent or designee shall develop recommendations on capacity and classroom student-to-teacher ratios in each grade level in each school serving kindergarten students and students in grades one through eight. Such recommendations may be based on, but not be limited to, the following factors:

- Present classroom student-teacher ratios in each grade level in each school;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

The superintendent or designee shall develop recommendations on capacity and student-to-teacher ratios for each school building or program serving students in grades nine through twelve. Such recommendations may be based on, but not be limited to, the following factors:

- Present building or program student-teacher ratios;

- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends;
- anticipated demand for particular courses or programming; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

On or before May 1 of each year, the superintendent shall present the recommendations concerning capacity and student-to-teacher ratios to the board for adoption or modification, and the board shall determine, for each grade level in each school building of the school district for the next succeeding school year, the following:

- Capacity based on the study conducted by the superintendent or the superintendent's designee;
- the number of students expected to attend school in the school district; and
- the number of open seats available to nonresidents at each grade, building, or program level.

On or before June 1 of each year, the district shall publish the number of open seats available to nonresident students in each grade level for each school building of the district for the next succeeding school year on the school district's website.

From June 1 through June 30, district administration shall accept applications from nonresident students.

If the number of applications for a grade level in a school building is less than the number of available seats for that grade level in the school building, the nonresident students shall be accepted for enrollment and attendance at the school district, except as provided below for nonresident students regarding continued enrollment.

If the number of applications for a grade level in a school building is greater than the number of available seats for the grade level in the school building, district administration shall randomly select nonresident students using a confidential lottery process. This process shall be completed on or before July 15 of each year.

The district shall provide to the parent or person acting as a parent of a nonresident student who was not accepted for or denied enrollment at such school district the reason for the nonacceptance or denial and an explanation of the nonresident student selection process.

Priority in Filling Open Seats

Subject to having capacity to enroll nonresident students, the district shall give priority in enrollment to the following nonresident students, who shall receive open seats without necessity of being selected through the open-seat lottery:

- Any sibling of a nonresident student who was accepted to enroll in and attend school in the district, with priority given when the nonresident student is first accepted and, if necessary, at any other time the district considers transfer applications; and
- any nonresident student who is a military student as defined in K.S.A. 72-5139, with priority given when the student is first accepted and, if necessary, at any other time the district considers transfer applications.

Regardless of capacity determinations, the following categories of students shall be allowed to enroll as if resident students:

- any child who is in the custody of the Department for Children and Families and who is living in the home of a nonresident student who transfers to the district;
- any nonresident student who has a parent or person acting as parent employed by the district, while the parent or person acting as a parent remains employed by the district; or
- any child who is experiencing homelessness shall be permitted to enroll in and attend the school district of origin or the school district of residence.

If one of these exceptions no longer applies to the student, the student's enrollment status would be subject to review under the terms for continued enrollment under this policy.

Prohibitions Regarding Open Enrollment Provisions of this Policy

The district shall not:

- Charge tuition or fees to any nonresident student who transfers to the district pursuant to this policy, except fees that are otherwise charged to every student enrolled in and attending school in the district; or
- accept or deny a nonresident student transfer based on ethnicity; national origin; gender; income level; disabling condition; proficiency in the English language; or measure of achievement, aptitude, or athletic ability.

Except for a child in the custody of the Department for Children and Families or a child who is experiencing homelessness, a nonresident student shall not transfer more than once per school year to one or more receiving school districts pursuant to the provisions of this policy or authorizing Kansas law.

Transportation of Nonresident Students

The district, by virtue of being a receiving school district of a nonresident student, shall not be required to provide transportation to nonresident students unless otherwise required to do so by state and/or federal law, as a related service through a student's individualized education program, or as an accommodation pursuant to the student's Section 504 plan. If space is available on district transportation vehicles, the district may assign nonresident students an in-district bus stop to and from which

transportation may be provided by the district for nonresident students. The district shall ensure that transportation for nonresident homeless students is provided comparably to that of housed students.

KSHSAA Eligibility

Nothing in this policy or state law shall exempt a nonresident student who transfers into the district from the requirements of the Kansas State High School Activities Association ("KSHSAA") regarding eligibility to participate in KSHSAA activities.

Information Share with the Kansas State Department of Education

The superintendent shall submit or have submitted to the Kansas State Department of Education this policy, the number of nonresident student transfers approved and denied in each grade level and whether the denials were based on capacity or in accordance with the policy's terms, as required.

Nonresident Student Continued Enrollment

A nonresident student who has been accepted for enrollment and attendance at a district school shall be permitted to continue enrollment and attendance in the district until such student graduates from high school, reaches the age of 21 (if the student is a student with an exceptionality, not solely eligible for gifted services under an individualized education program), or receives a G.E.D., unless such student is no longer deemed by district administration to be in good standing.

Except as otherwise specified herein, nonresident students who have previously been accepted for enrollment by the school district will be allowed to continue enrolling in the district as specified above. The district will not require parents to resubmit a new application each school year and will advance the previous application of an enrolled student amending only the grade placement of the student unless the district provides notification to the parent, person acting as a parent, or student that enrollment is not going to be continued for the upcoming school year for reasons specified as follows.

Regardless of capacity to accept nonresident students at a nonresident student's grade level or in the student's designated school or program, an individual student may be denied continued enrollment for not being in good standing. Nonresident students admitted to the district shall be evaluated each spring by district administration to determine standing for continued enrollment.

Students may be denied continued enrollment for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Similarly, administration shall consider the adverse impact of homelessness on a student's attendance and any resulting suspensions or expulsions before making a determination on the continued enrollment of a student who is homeless. As part of this reflection, administration shall consider the obstacles a homeless student faces to arrive at school on time or each day due to housing instability, lack of transportation, or lack of other basic resources that can hinder consistent attendance.

A student meeting one or more of the following criteria shall automatically be deemed not in good standing and may be denied continued enrollment based solely thereon.

- the nonresident student failed to maintain a 90% attendance rate in the last school year, excluding excused absences under board policy JBD and/or any relevant student handbook language;
- the student has accumulated 15 or more unexcused tardies during the current school year;
- the nonresident student or the student's parent or person acting as a parent provided false or fraudulent information in the application process;

- the nonresident student is not a resident of Kansas;
- the student is currently under a period of suspension or expulsion from any Kansas school district, and such suspension or expulsion will not expire until after the next school year has begun;
- the student has had 5 or more days of school suspensions in the current school year, excluding suspensions a manifestation determination determined to be a manifestation of the student's disability or a failure on the part of school staff to implement an individualized education program, Section 504 plan, or behavior intervention plan;
- the student has had 1 or more school suspensions in the current school year that resulted from physical violence, threat, weapons, tobacco, drugs, or alcohol, excluding suspensions a manifestation determination determined to be a manifestation of the student's disability or a failure on the part of school staff to implement an individualized education program, Section 504 plan, or behavior intervention plan;
- the student is not regarded to be in good academic standing nor is making acceptable progress toward promotion, graduation, and/or IEP goals; or
- the student has been given a long-term suspension or expulsion by the district in the current school year.

Parents shall be informed of any administrative decision not to continue enrollment of a nonresident student no later than the day after the last day of school for the current school year.

OUT OF ATTENDANCE CENTER STUDENTS

The Superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the Superintendent.

PROTECTION OF PUPIL RIGHTS AMENDMENT

(Board Policy IDAE Regulations– Revised 12/10/12)

Surveys: Parental Inspection Rights

Parents shall have the right to inspect any survey created by a third party before it is administered or distributed to students in the school. Prior to distribution, parents shall have the right to inspect any survey that seeks information about: political affiliations or beliefs of the student or the student's parent; mental or psychological problems of the student or the student's family; sex behavior or attitudes; illegal, anti-social, self-incriminating, or demeaning behavior; critical appraisals of other individuals with whom respondents have close family relationships; legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers; religious practices, affiliations, or beliefs of the student or student's parent; or income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Written Permission Required

If such survey is funded in whole or in part by federal funds, a survey that seeks this information shall not be administered without the express written consent of the parent. If the survey is not federally funded, parents must be given direct notification of the survey, through U.S. mail or e-mail, and provided with an opportunity to opt their child out of the survey. If the survey is part of the curriculum, parents shall have the right to inspect any instructional materials used in conjunction with the survey.

Physical Examinations

Prior to the administration of any non-emergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school, scheduled by the school in advance and not necessary to protect the immediate health and safety of the student, the school shall provide parents with notice of the activity and provide parents with an opportunity to opt their child out of the activity. This requirement does not apply to routine dental, hearing and vision screenings required under Kansas law.

Parental Rights: Marketing Information

If the school collects, discloses or uses personal information from students for the purposes of marketing or selling that information, parents shall have a right to inspect any instrument used for the collection of such information before it is administered or distributed to students in school. Parents shall be provided with notice of such activities and provided with an opportunity to opt their child out of the activity. The requirements concerning activities involving the collection and disclosure of personal information from students for marketing purposes do not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for or to students or educational institutions, such as the following:

1. College or other postsecondary education recruitment, or military recruitment.
2. Book clubs, magazines, and programs providing access to low-cost literary materials.
3. Curriculum and instructional materials used by elementary schools and secondary schools.
4. Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students.
5. The sale by students of products or services to raise funds for school-related or education-related activities.
6. Student recognition programs.

Release of Information – FERPA Rights

Unless the information collected from students is designated as directory information, no information gathered about students shall be released to third parties without the express written consent of the parent or eligible student. (See JRB)

RACIAL AND DISABILITY HARASSMENT

(Board Policy JGECA – Revised by BOE 7/19/21)

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Discrimination or harassment on the basis of race, color, or national origin ("racial harassment") or on the basis of disability ("disability harassment") shall not be tolerated in the school district. Racial or disability harassment of employees or students of the district in any district education program or activity is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial or disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events.

It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Prohibited conduct under this policy includes racially or disability-motivated conduct which:

- Affords a student different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student's academic performance or ability to participate in or benefit from the services, activities or programs of the school.

Racial or disability harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial or disability harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial or disability harassment or has witnessed an act of alleged racial or disability harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial or disability harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable student conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially or disability motivated.
If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of racial or disability harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial or disability harassment shall not reflect upon the student's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.
False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall be published in student handbooks and on the district's website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually, if applicable.

SCHOOL DISMISSAL DUE TO WEATHER

When school is dismissed due to inclement weather, notification to students/guardians will be made through our district's messaging system. That information can also be found on individual school's Facebook pages, KOFO radio, and WIBW TV.

Also, when school is dismissed for ice or snow, no school activities or practices will be held. Any deviation from this policy must be approved by the Superintendent of Schools.

SCHOOL INSURANCE

The school does not carry insurance to cover accidents or injuries of students, staff, or visitors. The school policy protects the school district from loss, but not an injured person. If you or your child is injured at school, the full financial responsibility for the injury rests with the parent. Do not expect or request the school to cover medical expenses or other damages.

SEXUAL HARASSMENT *(Board Policy JGEC – Revised by BOE 7/19/21)*

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination on the basis of sex, including sexual harassment. The district does not discriminate on the basis of sex in admissions, employment, or the educational programs or activities it operates and is prohibited by Title IX from engaging in such discrimination. Discrimination on the basis of sex, including sexual harassment, will not be

tolerated in the school district. Discrimination on the basis of sex of employees or students of the district in any district education program or activity is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs, or events within the United States. It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment shall include conduct on the basis of sex involving one or more of the following: (1) A district employee conditioning the provision of an aid, benefit, or service of the district on an individual's participation in unwelcomed sexual conduct; (2) unwelcomed conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's educational program or activity; or (3) sexual assault, dating violence, domestic violence, or stalking.

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse of a sexual nature; pressure for sexual activity; repeated remarks to a person with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student's grades, participation in extra-curricular activities, etc.
The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of sexual harassment will be promptly investigated and resolved. Any person may make a verbal or written report of sex discrimination by any means and at any time.

The superintendent (785-566-3396) has been designated to coordinate compliance with nondiscrimination requirements contained in Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. Information concerning the provisions of these Acts, and the rights provided thereunder, are available from the Title IX Coordinator. Inquiries about the application of Title IX to the district may be referred to the Title IX Coordinator; to the Assistant Secretary for Civil Rights at the U.S. Department of Education, Office of Civil Rights, 400 Maryland Avenue, SW, Washington D.C. 20202-1100, (800)421-3481, or at OCR@ed.gov; or both.

Response to Harassment Complaints
The district takes all reports of sexual harassment seriously and will respond meaningfully to every report of discrimination based on sex, including sexual harassment, of which the district has actual knowledge. Any students who believe that he or she has been subjected to sexual harassment should report the alleged harassment to the building principal, another administrator, the guidance counselor, the Title IX Coordinator, or another licensed staff member. All employees receiving reports of sexual harassment from a student shall notify the Title IX Coordinator.

Definitions
The following definitions apply to the district in responding to complaints of sexual discrimination including sexual harassment as defined by Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination.
The "complainant" means an individual who is alleged to be a victim of conduct that could constitute sexual harassment.

"Dating violence" means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

The "decision-maker" reviews all the evidence and prepares an impartial written responsibility determination as to whether the alleged conduct occurred and provides an opportunity for the parties and their representatives to prepare prepare written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator or investigator.

"Domestic violence" includes crimes of violence committed by a person who is a current or former spouse, partner, person with whom the victim shares a child, or who is or has cohabited with the victim as a spouse or partner, by a

person similarly situated to a spouse of the victim under Kansas or applicable federal law, or by any other person against an adult or youth victim having protection from such person's acts by Kansas or applicable federal law.

A "formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

The "investigator" is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report.

A "respondent" is an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

"Sexual assault" means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

"Stalking" means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

The "Title IX Coordinator" is the individual designated at the district level who has responsibility to coordinate compliance with Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an informal resolution process shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including avoiding prejudgment of the facts, conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to their immediate supervisor, building administrator, or Title IX Coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate district officials may face disciplinary action. District officials who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

If discrimination or harassment has occurred, the district will take prompt, remedial action to stop it and prevent its reoccurrence.

The Title IX Coordinator shall promptly respond in a meaningful way to any reports of sexual discrimination including sexual harassment of which the district has actual knowledge as follows:

- Contact the complainant within 10 business days and discuss the availability of supportive measures, with or without the filing of a formal complaint, and consider the complainant's wishes as to supportive measures; and

- Inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Supportive Measures

The district will treat the complainant and respondent equitably by offering supportive measures. These non-disciplinary and non-punitive measures will be offered as appropriate, as reasonably available, and without cost to the complainant or the respondent. Supportive measures are designed to restore or preserve equal access to the education program or activity without unreasonably burdening the other party. "Supportive Measures" shall include, but not be limited to, measures designed to protect the safety of all parties, to protect the district's educational environment, or to deter sexual harassment. These measures may include counseling, extensions of deadlines or course-related adjustments, modifications of work or class schedules, escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring, and other similar measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

The Formal Complaint

No investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

A formal complaint is a document filed by the complainant or signed by the Title IX Coordinator alleging sexual harassment and requesting an investigation. The procedures for filing a formal complaint are as follows:

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- An investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by a qualified individual designated by the Title IX Coordinator or another individual appointed by the board. The investigation shall be thorough. All interested persons, including the complainant and the respondent, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

Formal Complaint Notice Requirements

Upon filing of a formal complaint, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
  - the identities of the parties involved, if known;
  - the conduct allegedly constituting sexual harassment; and
  - the date and location of the alleged incident, if known.
- An explanation of the district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, notice of the additional allegations shall be provided to known parties.

Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration.

Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;
- Address any district policies and/or conduct rules which apply to the facts;
- A statement of, and rational for, the result as to each allegation, including a determination regarding responsibility; and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies. If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed; or on the date the opportunity for an appeal expires.

Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following bases:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result.

The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give an opportunity to submit further evidence in writing;
- Not have a conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;
- Describe the result of the appeal and the rationale for the result in the decision; and
- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the investigation of the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies, including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

The filing of a complaint or otherwise reporting sex discrimination including sexual harassment shall not reflect upon the individual's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination, including sexual harassment, is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility shall be published in student handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

SPORTSMANSHIP

The ideal of sportsmanship permeates virtually every aspect of our culture. The ethic of fair play may be witnessed in all facets of life. However, its origin has been firmly established in sports, as a training ground for good citizenship and high behavioral standards. The Kansas State High School Activities Association, through its member schools, defines sportsmanship as those qualities of behavior which are characterized by generosity and genuine concern for others. Further, an awareness is expected of the impact of an individual's influence on others' behavior as well. On November 17, 1988, the KSHSAA Board of Directors adopted Citizenship/ Sportsmanship Rule 52. A need to make sportsmanship a primary role and to restore placement of interscholastic activities in an educational perspective was the catalyst for the adoption of Rule 52. Compliance is imperative to accomplish the real purpose: imparting the value of good sportsmanship upon the other components or portions of education.

Section 1: General Regulations (apply to grades 7-12)
Art. 1: SPORTSMANSHIP is a general way of thinking and behaving. The following sportsmanship policy items are listed below for clarification: a. Be courteous to all (participants, coaches, officials, staff and fans). b. Know the rules, abide by and respect the official's decisions. c. Win with character and lose with dignity. d. Display appreciation for good performance regardless of the team. e. Exercise self-control and reflect positively upon yourself, team and school. f. Permit only positive sportsmanlike behavior to reflect on your school or its activities.

Art. 2: Enforcement Procedure: a. It is encouraged and recommended by the Kansas State High School Activities Association that local boards of education adopt these regulations and reinforce them as indicated herein. b. The Executive Board of the Kansas State High School Activities Association shall be responsible for the interpretation of these regulations, including "desirable and unacceptable behavior" and shall publish them in the association's Sportsmanship/Citizenship Manual.

TOBACCO AND NICOTINE DELIVERY DEVICES

(Board Policy JCDAA – *Revised by BOE **1/12/22)***

The use, possession, or promotion of any tobacco product by any student is prohibited at all time in any district facility; in school vehicles; at school-sponsored activities, programs, or events; and on school owned or operated property.

Student violations will result in disciplinary actions as outlined by board policy and/or student handbooks. Disciplinary actions may include parent/guardian notification, participation in a tobacco and electronic nicotine delivery systems education program, referral to a cessation program, and/or community service. Student violations may be reported to law enforcement if use or possession is deemed to be illegal.

Consequences for violation of this policy, as outlined in the high school and middle school handbooks, are as follows:

- 1st Offense – Three day suspension and may contact proper authorities.
- 2nd Offense – Five day suspension and may contact proper authorities.
- Subsequent offenses may result in long term suspension to expulsion from school, and may contact proper authorities.

For the purposes of this policy, "nicotine delivery device" means any device that can be used to deliver nicotine to the person inhaling from the device. Such definition shall include, but may not be limited to, any electronic cigarette, cigar, cigarillo, pipe, or personal vaporizer.

The following definitions apply to this policy.

"Tobacco product" means any product that is made from or derived from tobacco, or that contains nicotine, that is intended for human consumption or is likely to be consumed, whether smoked, heated, chewed, absorbed, dissolved, inhaled, or ingested by any other means, including, but not limited to, electronic nicotine delivery system (hereafter "ENDS"), cigarettes, cigars, pipe tobacco, chewing tobacco, snuff, or snus. Tobacco product also means any component or accessory used in the consumption of a tobacco product, such as filters, rolling papers, pipes, charging devices, cartridges, and any substances used in ENDS, whether or not they contain nicotine. This definition does not include FDA-approved nicotine replacement therapies including transdermal nicotine patches, nicotine gum, and nicotine lozenges prescribed to the student by a medical practitioner or obtained over the counter and used in accordance with label requirements.

"Electronic nicotine delivery system" or "(ENDS)" means any device that delivers a vaporized solution (including nicotine, THC, or any other substance) by means of cartridge or other chemical delivery systems. Such definition shall include, but may not be limited to, any electronic cigarette, vape pen, hookah pen, cigar, cigarillo, pipe, or personal vaporizer. ENDS are not FDA-approved nicotine replacement therapy devices.

"Promotion" includes, but is not limited to, product advertising via branded gear, bags, clothing, any personal articles, signs, structures, vehicles, flyers, or any other materials.

USE OF TOBACCO/ELECTRONIC PRODUCTS BY ADULTS ON/IN USD 287 PROPERTY

Adults, who are not students of any K-12 public school, who wish to smoke or use any kind of tobacco products, must do so in the parking lots, beyond the bus lanes of any school building or facility of USD 287. Adults who wish to smoke at any USD 287 baseball/softball complex, where a school team is playing or practicing, must do so in the parking lot of that facility. No longer will smoking be permitted adjacent to entrances of school buildings.
Individuals violating this policy will be reminded of the policy and asked to comply. Persons who will not comply will be asked to leave school grounds or face trespassing charges and reported to the school resource officer or the Franklin Sheriff's Department.

TORNADO DRILLS

Each school will hold two tornado drills annually. Instructions for tornadoes are to be posted conspicuously in each room and throughout each school.

VISITORS

Parent visitation to school is encouraged with advance permission from the office. All other visitors are discouraged during the school day unless approval has been given by the principal. In general, student-aged visitors will not be approved for visitation since this distracts from the classroom purpose. Any non-student must report to the office if they are on school grounds during the normal school day. The lone exception to this provision is that non-students may pick up students at the end-of-the-day if they wait in their vehicle and the meeting has been pre-arranged. Students may not have visitors during noon hour on school grounds.

Repair, Lost or Stolen Policy

Protection Plan

All students shall be assessed a Technology Fee at the time of enrollment. This fee is not exempted for students who qualify for free lunches. This protection plan does not cover for loss of the Chromebook and/or its accessories, cosmetic damage, or damages caused by intentional misuse and/or abuse. Replacement is at the discretion of the principal.

Repair policy:

The West Franklin Schools Chromebook or portable electronic device repair will follow a three tiered approach.

Tier 1: First breakage of the Chromebook or portable electronic device

On the first breakage, the student will not be responsible for cost of repair. The district will pick up the cost of the repair.

Tier 2: Second breakage of the Chromebook or portable electronic device

On the second breakage, the student will be responsible for 50% of the cost to repair the Chromebook or portable electronic device .

Tier 3: Third or subsequent breakages of the Chromebook or portable electronic device

On the third or subsequent breakages, the student will be responsible for 100% of the cost to repair the Chromebook or portable electronic device .

Intentionally Damaged, Lost or Stolen Chromebook or portable electronic device

Students will be responsible for the full cost of replacement if it is determined that damage has been caused by intentional abuse or misuse, lost or stolen.

Chromebook Personalization Policy

All Chromebooks must stay in their assigned USD 287 cases at all times. Students are **not allowed** to take them out of the case for any reason.

Keep both the Chromebook and its case **clean and plain**. That means:

- No writing or drawings
- No stickers, paint, tape, or labels
- Nothing added or removed—unless done by USD 287 staff

Do **not** remove or change any USD 287 tags, labels, or markings.

Random checks may be done by school staff or tech personnel. Breaking this rule is considered **vandalism** and will be dealt with seriously.

Return

While enrolled at WFMS/WFHS, the District maintains ownership of the device. If requested by the Technology Department, students may be required to turn in their Chromebooks or portable electronic device for maintenance or inspection.

Any student who transfers, withdraws, or is expelled from West Franklin Schools prior to the end of the school year will be required to return his/her Chromebook or portable electronic device and accessories upon termination of enrollment. The Chromebook or portable electronic device and accessories must be in good working order when returned. If the Chromebook or portable electronic device and accessories are not returned in working order, the parent/guardian will be held responsible for payment in full.
