Healdton Public Schools Nondiscrimination Policy

Healdton Public Schools does not discriminate on the basis of race, religion, color, national origin, sex, or disability in accordance with Title VI of the Civil Rights of Act of 1964 as amended; Title IX of the Education Amendments of 1972; Section 504 of the rehabilitation Act of 1973, as amended. **The Title IX Coordinator is Jennifer Terry and may be reached at (3881 Hospital Rd Healdton, OK 73438 Ph.: 580-229-1201)**. Inquiries should be directed to the Superintendent's office at (580) 229-0566.

ABSENCES & TARDIES

STUDENT ATTENDANCE

Healdton Board of Education believes that no single factor does more to aid a student's successful progress in school than regular attendance. The board also values learning experiences that take place in the classroom environment and considers them to be meaningful and essential parts of its education system. In order for students to realize their fullest potential from educational efforts, they should have regular attendance in their classes. Absences tend to disrupt the continuity of the instructional process, and the time lost from class is irretrievable, particularly in terms of opportunity for interaction and exchange of ideas among students and teachers. Therefore, classroom attendance is considered to be an integral part of the student's course of study.

Pursuant to the state statutes and in an effort to provide all students with continuity of instructional experience and expertise, the board requires all students to attend school regularly. The principal has the authority to excuse students for absences due to illness, religious reasons, or an emergency at the request of the parent or guardian. A student who is excused, must, however, still fulfill the school's academic requirements for advancement.

Dismissal during the school day

No staff member shall excuse any student from school prior to the end of the school day, or into any person's custody, without the direct prior approval and knowledge of the building principal or his/her designee.

The building principal should not excuse a student before the end of the school day without a request of early dismissal by the student's parent/guardian. Telephone requests for early dismissal of a student shall be honored only if the caller can be positively identified as the student's parent/guardian.

No student shall be excused from the campus without first checking out through the principal's office along with notification and written approval of parents/ guardians, before leaving campus. Reference: 70 OS 10-105, 10-106 (Sections 229,232, School Laws of Oklahoma)

ATTENDANCE POLICY (REGULATION)Policy FDC-R

The board of education believes that attendance in regularly scheduled classes is a key factor in student achievement. However, it is important for those students who are ill to stay home when sick. Students who have a fever or a measured temperature greater than or equal to 100 degrees Fahrenheit should not be at school or school activities. The board recognizes, however, that the co-curricular program of the school also has educational benefit. Therefore, it shall be the policy of this board to minimize absenteeism from regular classes while providing students the opportunity to participate in co-curricular activities.

Excused absence will be granted for the following reasons:

1. Personal or family illnesses
2. Medical appointments
3. Legal matters, including service on a grand, multicounty grand, or petit jury *
4. Extenuating circumstances

5. Observance of holidays required by a student's religious affiliation.

It is the responsibility of the parent to notify the school if a child is to be absent for one of the above reasons. The school will contact those students' parents who do not call. If no contact is made, the parent must send a note or call the day the child returns before the student can be excused. The student may promptly make up all work missed without penalty. It is the responsibility of the student, on the day of return, to make arrangements to see that the work is made up.

The district will not require medical documentation to support personal or family illness that results in an excused absence. However, students will be required to make up any work that has been missed. Student absences due to a severe, chronic, or life-threatening physical or mental illness, injury, or trauma will be exempted from inclusion in the calculation of the chronic absenteeism indicator of the applicable school site so long as the determination of eligibility is made by the district's medical exemption review committee. The district's medical exemption review committee will be designated by the superintendent on a yearly basis and shall report student absences that are medically exempt to the Oklahoma State Department of Education (OSDE) Office of Accountability.

A student will not be considered absent from school if:

1. They are not physically present at school but are completing work in a distance learning program or virtual online program approved by the school district and are meeting the following attendance requirements:
    a. The student has completed instructional activities for no less than ninety (90%) of the time that services were provided in a virtual or distance learning format. Instructional activities may include online logins to curriculum or programs, offline activities, completed assignments, testing, face-to-face communications or meetings with school personnel via teleconference, videoconference, email, text, or phone,
    b. The student is on pace for on-time completion of the course as required by the school district,
    c. The student has completed instructional activities within the time that services were provided in a virtual or distance learning format during the academic year; or
2. They have a medical condition that incapacitates the student and precludes them from participating in instruction in a traditional school setting and the student is able to progress in instruction via alternative education delivery methods approved by the local board of education.

School Activity

1. The student will be allowed to be absent from the classroom for a maximum of ten days per semester to participate in activities sponsored by the school.
2. The student will be allowed to make up any work missed while participating.

Absence by Arrangement

These are absences in which the parents deem it necessary that a child miss school for reasons other than those that fall within an excused absence.

1. A student may take up to 2 days of absences by arrangement per semester.
2. A student may make up all work missed without penalty. It is up to the student, on the day of return, to make arrangements to see that the work is made up.

3. In order to take an absence by arrangement, the parent, or guardian, must submit, at least two days prior to the absence, a written request for the student to be absent. If the request is not made as required, the absence will be treated as an unexcused absence.

4. Absences by arrangement will count against a student's exemption from semester tests.

Unexcused Absence

This is any absence that does not fall within one of the above categories. Work may be made up within (2) two days for 100% of the grade will be counted. 10 unexcused absences will result in that student not receiving credit in that class for the semester.

Truancy

A student is considered truant when absent from the classroom without the knowledge of either the school or the parent or if the parent does not compel the student to attend school.

Tardies

1. A student is tardy who is not in the student's seat when the bell to begin the period sounds.

2. A student who is more than 10 minutes late is counted absent for the period.

3. Each 3 tardies will constitute an unexcused absence from that class.

Any student who exceeds the 10 day limit for unexcused absences may appeal to the board of education for reinstatement of credit. Consideration will be given as to the reason for the absences as well as to the attempts by parents to minimize the absenteeism.

Chronic Absenteeism

Chronic absentee means a student who is absent 10 percent or more of the school days in the school year exclusive of a significant medical condition, when the total number of days the student is absent is divided by the total number of days the student is enrolled, and school was actually taught in the regular schools of the district, exclusive of Saturdays and Sundays. When a student is identified as a chronic absentee, the Superintendent or designee shall communicate with the student and his/her parents/guardians to determine the reason(s) for the excessive absences, ensure the student and parents/guardians are aware of the adverse consequences of poor attendance, and jointly develop a plan for improving the student's school attendance. A significant medical condition means a severe, chronic, or life-threatening physical or mental illness, infection, injury, disease, or emotional trauma. Any COVID-19 related absences due to a child's medical needs will be considered a significant medical condition.

TRANSFER STUDENTS Policy FE

The school district will not accept or deny a transfer based on ethnicity, national origin, gender, income level, disabling condition, proficiency in the English language, measure of achievement, aptitude or athletic ability. The school district will begin accepting applications for the next school year starting July 1. Receipt of applications will be documented by the district so that the district may review those applications in the order submitted for purposes of capacity limitations. The administration will not approve or deny transfers received for the next school year until after the July 1 capacity data is determined for each grade level and site within the school district. Transfers that have previously been approved by the school district will remain in effect for future school years unless the district provides notification to the parent or legal guardian that the transfer is not going to be continued for an upcoming school year due to disciplinary action or attendance issues. The district will not require parents resubmit a new application each school year and will advance the previous application of an enrolled student amending only the grade placement of the student. A transfer may be requested at any time in the school year. State law does limit the ability of a student to transfer to no more than two (2) times per school year to one or more school districts in which the student does not reside. Exceptions to this limit will exist for students in foster care. Students are legally entitled to reenroll at any time in his or her school district of residence. Any brother or sister of a student who

transfers may attend the school district to which their sibling transferred as long as the school district has capacity in the grade level and the sibling does not meet a basis for denial as listed below. A separate application must be filed for each student so that the district can timely consider requests in the order applications are received.

It is the policy of the board of education that any legally transferring student shall be accepted by the district under the following circumstances:

1. The district has the capacity to accept the student at the grade level at the school site;
2. The transferring student has not been disciplined for:
    a. violation of a school regulation,
    b. possession of an intoxicating beverage, low-point beer, as defined by Section 163.2 of Title 37 of the Oklahoma Statutes, or missing or stolen property if the property is reasonably suspected to have been taken from a student, a school employee, or the school during school activities, or

    c. possession of a dangerous weapon or a controlled dangerous substance while on or within two thousand (2,000) feet of public school property, or at a school event, as defined in the Uniform Controlled Dangerous Substances Act.
3. The transferring student does not have a history of absences. "History of absences" means ten or more absences in one semester that are not excused for the reasons provided in 70 O.S. § 10-105 or due to illness.

By the first day of January, April, July and October, the board of education shall establish the number of transfer students the district has the capacity to accept in each grade level for each school site within the district. The number of transfer students for each grade level at each site that the district has the capacity to accept will be posted in a prominent place on the school district's website. The district shall report to the State Department of Education the number of transfer students for each grade level for each school site which the district has the capacity to accept.

A student shall be allowed to transfer to a district in which the parent or legal guardian of the student is employed as a teacher as per 70 O.S. § 8-113.

The district will approve or deny the application and notify the parent of the student of the determination in writing within thirty (30) days of receiving an application. The school district shall enroll transfer students in the order in which they submit their applications. If the number of student transfer applications exceeds the capacity of the district, the district shall select transfer students in the order in which the district received the application. Students who are the dependent children of a member of the active uniformed military services of the United States on full-time active-duty status and students who are the dependent children of the military reserve on active duty orders shall be eligible for admission to the school district regardless of capacity of the district. Students shall be eligible for military transfer if:

1. At least one parent of the student has a Department of Defense issued identification card; and
2. At least one parent can provide evidence that he or she will be on active-duty status or active-duty orders, meaning the parent will be temporarily transferred in compliance with official orders to another location in

support of combat, contingency operation or a national disaster requiring the use of orders for more than thirty (30) consecutive days.

If the transfer application is accepted, the district shall notify the parents of the acceptance. The parent shall provide the district with written notification that the student will be enrolling within ten (10) days of notification of acceptance. Failure to notify the school district within ten (10) days of acceptance shall result in the cancellation of the transfer. The district will provide a written noticed of the cancellation to the parent of the student immediately upon cancellation. If accepted, a student transfer is granted for the existing school year and may continue to attend in future years. At the end of the school year, the district may deny continued transfer of the student due to disciplinary reasons or a history of absences. Written notice of the intention to deny continued transfer of the student shall be given to a parent of a student no later than July 15. The parent may appeal the denial of a continued transfer.

If a transfer request is denied by the school district, the district shall provide notification of the denial in writing to the parent by either hand-delivery, by U.S. Mail or electronic mail. The notification shall include:

1. An explanation including but not limited to any citation to the statute, regulation, or school district policy under which the denial was made;
2. A copy of the policy adopted by the district for determining the number of transfer students the school district has the capacity to accept;
3. A copy of 210:10-1-18.1 from the Administrative Code; and
4. The date upon which the appeal will be due.

If a transfer request is denied by the administration, the parent or legal guardian of the student may appeal the denial within ten (10) days of notification of denial to the board of education. If notification was hand-delivered, the appeal period shall begin the day after the notification is delivered. If notification is sent by U.S. Mail, the appeal period shall begin three (3) days after the notification is mailed. If notification is sent via electronic mail, the appeal period shall begin the day after the notification is sent. The board of education shall consider the appeal at its next regularly scheduled board meeting if notice is provided prior to the statutory deadline for posting the agenda for the meeting. The board of education shall accept an otherwise untimely appeal if a parent of a student can establish that they did not receive actual notice of the notification denying the transfer request, and the appeal was submitted within ten (10) days after the parent of the student actually received notice.

The appeal to the board of education shall be submitted to the office of the superintendent. The appeal shall include the following:

The name, address and telephone number of the parent of the student and the student for whom the appeal is being taken;

1. The date the district gave notice denying the transfer request;
2. The basis for appealing the decision of the school district; and
3. The name, address and telephone number of the legal representative, if applicable.

If the board of education votes to deny an appeal of a request to transfer, the board of education shall instruct the superintendent to provide notification of denial in writing to the parent of the student by either hand-delivery, by U.S. Mail, or by electronic mail. The notification shall include:

An explanation, including the legal citation to the statute, regulation, or school district policy under which the denial was made;

1. A copy of the policy adopted by the board of education for determining the number of transfer students the district has capacity to accept;
2. A copy of the State Board of Education's prescribed form for an appeal; and
3. A copy of 210:10-1-18.1 which identifies the Accreditation standard for appealing the denial of a student transfer.

If the board of education votes to uphold the denial of the transfer, the parent or legal guardian may appeal the denial within ten (10) days of the notification of the appeal denial to the State Board of Education. The parent or legal guardian shall submit to the State Board of Education and to the superintendent of the district, a notice of appeal on the form prescribed by the State Board of Education. The superintendent shall immediately provide a copy of the appeal to each member of the board of education. Upon receipt of notice of an appeal, but not later than five (5) days prior to the date at which the State Board of Education is scheduled to consider the appeal the board of education may submit a written response to the appeal. Responses should not exceed five (5) pages. If not submitted by the parent, the board of education shall provide a copy of the policy adopted to determine the number of transfer students the district has the capacity to accept in each grade level for each school site within the district. The parent and the school district will have an opportunity to appear in person or by authorized representative or by attorney to address the State Board at the meeting.

A student who enrolls in a school district in which the student is not a resident shall not be eligible to participate in school-related extramural athletic competition governed by the Oklahoma Secondary School Activities Association for a period of one (1) year from the first day of attendance at the receiving school unless the transfer is from a school district which does not offer the grade the student is entitled to pursue as per 70 O.S. § 8-103.2.

A student driver must show proof of a valid Oklahoma driver's license and insurance verification for the vehicle the student is driving to school. DISCIPLINE POLICY

STUDENT DISCIPLINE 715

The Healdton Board of Education believes that the school's primary goal is to educate, not to discipline. However, education includes stabling norms of social behavior and assisting

students in understanding and attaining those norms. Occasionally, corrective actions are necessary for the benefit of the individual and the school. The teacher in a public school has the same rights as a parent/guardian to control and discipline a child while the child is in attendance, in transit to or from the school, or participating in any authorized school function. Further, it is the policy of the district that students shall be disciplined for any misconduct related to the programs or activities of the district. No teacher or administrator shall administer formal discipline to his or her own child on behalf of the school except in cases of disruption in the classroom or common areas. Disciplinary matters concerning children of school employees shall be handled by the appropriate principal or the superintendent or the superintendent's designee. The superintendent's child shall be disciplined by someone other than the superintendent.

Each student shall be treated in a fair and equitable manner. Disciplinary action shall be based on a careful assessment of the circumstances surrounding each infraction. The following are some examples of the circumstances:

- The seriousness of the offense
- The effect of the offense on other students
- Whether the offense is physically or mentally injurious to other people
- Whether the incident is isolated or habitual behavior

Swats shall be given and witnessed by certified personnel in a school office, room, or other place out of the presence of other persons. No more than 3 swats shall be given to a student in a school day. The swats shall be given with reasonable force by a wooden paddle on the buttocks of the student.

Failure to comply with these rules shall result in additional ISD for up to 10 days.

OUT OF SCHOOL SUSPENSION - The principal has authority to suspend a student. The student has the right to appeal the suspension decision to a suspension appeal committee designated by the Healdton Board of Education. The decision of the suspension committee is final and cannot be appealed to the board of education or any other school official. A student shall be suspended from school for serious offenses and/or for multiple infractions of lesser offenses. The district shall discipline a student for behavior that occurs in other places if a relationship exists between the behavior and the school, especially if the behavior shall indicate a possible impact on the safety of the school district and its students. No student suspended from school shall participate in nor **attend** extra-curricular activities on school property or other sites where school activities occur during the period of suspension. The superintendent shall schedule the hearing before the school board and notify the parent/guardian of the time and date. They also have the right to be represented by legal counsel. 6. Conduct principal/student/and or parent conference for solutions.

DISCIPLINE GRID

The following is a list of possible discipline measures that shall be available for administrators to use during the school year. It is to be understood that discipline is cumulative. Prior offenses during the year shall be considered when deciding what form of discipline to apply.

Lunch Detention	Detention (Before and After School)
Community Service	Call to Parent/Guardian
Conference with Parent/Guardian	Long-Term Suspension (11 days or more)
Short-Term Suspension (10 days or less)	Extended Time Out

	Behavioral Intervention Plan

Classroom Discipline	Involvement of Local Authorities
Suspension	Financial Restitution
Referring students to social agency	Requiring student to clean or straighten

Other appropriate disciplinary actions as required and as indicated by the circumstances.

ALCOHOL/CHEMICAL ABUSE - Attending classes alert and ready to learn is prime responsibility of students at Healdton Public Schools. The inability to function in class shall occur because of illness, injury, or drug use, prescribed or illegal. A student shall be referred to the principal's office after demonstrating one or more of the following behaviors: sleeping in class, drowsy or listless, slurred speech, poor general health (red eyes, flushed skin, etc.), odor of smoke, abnormal or erratic behavior, inability to concentrate, wearing jewelry or clothing which promotes drugs, alcohol or tobacco use, fighting, possession of an illegal drug, alcohol, or tobacco.

A trained employee of Healdton Schools shall check the neurological function of the student by means of a simple examination of the pupillary reflexes and muscle function of the eyes. This procedure is frequently used in Healdton Public Schools athletic programs to determine if the brain functions have been impaired by injury, illness or disease. If neurological dysfunction is suspected, regardless of the cause, the parent/guardian shall be contacted immediately. The above behaviors as well as the neurological examination shall be sufficient probable cause to search the student (clothes, locker, vehicle, book bag, etc.) for illegal drugs, drug paraphernalia, weapons, or other contraband.

A student found possessing or using alcohol or drugs or other contraband at school (school property) or school-sponsored activity shall receive:

1st Offense: Out of school suspension for ten (10) in session school days.

2nd Offense: Out of school suspension

A student found distributing alcohol, drugs or other contraband at school (school property) or school-sponsored activity shall receive:

Out of school suspension for remainder of current and next semester (this timeline is limited by state law can only do 1 calendar year suspension for gun violation).

ARSON - 1st Offense: out of school suspension for the remainder of the current semester and the succeeding semester.

ASSAULT and BATTERY - *Assault is the Intentional creation of a reasonable apprehension in the mind of the victim of imminent bodily harm. It includes verbal threats.* 1st Offense: ISD or out of school suspension up to ten days per the circumstances. SUBSEQUENT OFFENSES: Out of school suspension for period of time appropriate for the offense.

Report to authorities first of subsequent offenses where appropriate.

BATTERY: *Offensive, nonconsensual touching of another person, fighting and throwing objects.* 1st and SUBSEQUENT OFFENSES: Out of school suspension commensurate with the offense including the current and subsequent semester, and report to authorities where appropriate.

ASSAULT ON A SCHOOL EMPLOYEE - A school employee shall mean any duly appointed person, employed by or employees of a firm contracting with the Healdton School system for any purpose, including such personnel not directly related to the teaching process and board members during board meetings. Every person who, without justifiable or excusable cause, knowingly commits any assault, aggravated assault, battery, or aggravated battery upon the person of a school employee is punishable by imprisonment and/or fine pursuant to 70 O.S. Section 5-146.

TRANSPORTATION OF STUDENTS 719

Healdton School District shall provide transportation to and from school for eligible students who attend this school district. The purpose of transportation is to provide opportunities for education that might not otherwise be available. **STUDENTS SHALL ONLY BE PICKED UP AND DROPPED OFF AT SCHOOL DISTRICT DESIGNATED STOPS.** Stops are determined on a yearly basis.

Transportation Provisions

Transportation shall be provided for those students who live more than one and one-half (1 1/2) miles from school. Curb-to-school transportation shall be considered for certain eligible physically handicapped students who require special bus facilities. However, this service is available only upon application to and approval by the superintendent.

Transportation shall be considered for approved activities within and without the district upon approval of the board. The board shall request that any expense of such additional transportation be paid for the children so transported by the school activity or school organization receiving benefit from such transportation or from other private sources.

Transportation by private sources of students attending school sponsored activities is discouraged due to the liability involved. Some conflicts are unavoidable. Prior arrangements must be made with the director of transportation. All activity trips and field trips must be requisitioned to the administration in advance to allow time to obtain transportation units and needed drivers. An approved sponsor/s shall be present during the transportation requirement.

Transportation Privilege

Buses and local school vehicles are off limits to all students at any and all times unless accompanied by the driver, a faculty member or other responsible person. State law is that school district **shall provide** transportation to students. This means that students must follow bus rules and regulations. Riding the school bus is a privilege, not a requirement.

Student behavior on school buses

The school bus is considered an extension of the classroom, and the Board shall require students to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

Only when a student boards the bus does he/she become the responsibility of the bus driver. Such authority shall end when the child is delivered to the regular bus stop at the close of the school day.

In cases when a student does not conduct him/herself properly on a bus, such instances are to be brought to the attention of the building principal by the bus driver, who is required to report misconduct in writing. Students who become a serious disciplinary problem on the school bus shall have their privileges suspended by the principal. In such cases, the parent/guardian of the student involved becomes responsible for seeing that their child get to and from school.

Any complaints regarding transportation of students of Healdton Public Schools shall be handled by the individual student's principal. If the principal cannot help, complaints shall be referred to the Director of Transportation.

Out of State Trips

School buses shall not be used for out-of-state trips unless approved by the board of education. Reference: 70 O.S. 9-101 (Section 207, School Laws of Oklahoma)

BUS RULES - Students must ride the bus on all school activities unless permission has been given by the administration. RULES: (1) Be on time. (2) Observe all safety practices (check traffic both ways before boarding or departing the bus). (3) Keep hands inside the bus. (4) Stay in your seat. (5) Place trash in proper place. (6) No loud, disruptive behavior. (7) Do not throw objects on or out of the bus. (8) Do not leave items on the bus. (9) In case

of emergency, remain on the bus unless the driver instructs you otherwise. (10) Be courteous.

Riding a school bus is a privilege and the privilege shall be removed for not abiding by the bus rules.

The school bus driver has a great responsibility. Each day they carry a "precious cargo" and their only concern should be to see that all of the passengers are transported to and from school safely. Unfortunately, there are times when children (young and old) do things that cause the driver to be distracted from the job.

This is dangerous and cannot be allowed. It is necessary, therefore, that rules and regulations be enforced and that they be followed without question. Each parent/ guardian must see that their child understands the importance of good behavior while riding a school bus.

Healdton Board of Education realizes that a hardship shall result in the parent having to take a child to and from school, but it is sometimes necessary. A student shall not be allowed to ride a school bus when they continue to jeopardize the safety of others.

Extracurricular Trips:

Bus rules and regulations apply to all trips under school sponsorship. The superintendent or a person designated by the superintendent shall assign sponsors for extracurricular trips.

CHEATING/PLAGIARISM - A grade of zero (0) shall be given for all work resulting from the cheating/plagiarism for the student and any student who assisted the student to cheat.

DRESS CODE - Students at Healdton Schools are expected to dress appropriately for the school setting. Scientific research supports the theory that a definite relationship exists between good dress habits, good work habits and proper social behavior. Students shall not be allowed to wear any clothing or accessories which creates a material and substantial disruption to the educational process. Determination of disruptions are determined at the discretion of school principals.

Students in grades PK-3rd grade should dress comfortably for the weather and should wear stable, properly fitting shoes which allow for activity. No blankets or snuggies, no heelys (wheeled shoes).

Students in grades PK-5 are not allowed to wear hoods or hats inside the building unless permission is granted by the building principal.

Disallowed clothing (grades 4-12) includes, but is not limited to: clothing that reveals the midriff or inappropriately exposes other areas of the body or undergarments; sunglasses; clothing accessories that promote (directly or indirectly) alcohol, tobacco, substances or activities which are illegal for minors, chemical abuse, criminal behavior, gang colors or symbols (including "sagging" or "baggy" pants); obscenity; profanity; any form of violence; spaghetti strap tank tops; weapons. Sleep wear or house shoes shall not be permitted. Leggings may be worn but must be worn with a top with a length of at least 12 inches below the waist in both front and back.. Shorts, skirts, dresses, and holes in pants or jeans or skirts must be at the length of the middle of the student's thigh or longer unless holes have cloth underneath which prevents the skin from being visible. Blankets and snuggies are not allowed at school. Wheeled backpacks shall be permitted in the elementary school only. Wheeled shoes (Heelys) are not allowed at school. Head coverings may be worn ONLY at the discretion of the principal and according to the principal's guidelines.

WIRELESS TELECOMMUNICATION DEVICES - It is the policy of the Healdton Board of Education that a student shall not possess a wireless telecommunication device while on school premise during the school day. Student use of wireless telecommunications devices during school sponsored activities shall be left to the discretion of the sponsor/coach. Wireless telecommunication devices include, but are not limited to cellular telephones, smart watches, and tablets. Students utilizing wireless communication devices during the school day shall be disciplined. (70 O.S. 24-101.1 et seq. 70 O.S. 24-102). Students must keep communication devices from being visible during the school day at all times. If a staff member sees a student's device, he or she will confiscate the device and will deliver it to the principal's office where it will remain in a securely locked location until the student retrieves it at dismissal for the day. Parents may call the school telephone number at any time they need to leave a message for their child. Students will be allowed to contact parents using the school phone when necessary as determined by the principal or his or her delegates.

ELEMENTARY VALUABLE PROPERTY AT SCHOOL - Do not bring Game Boys, Game Boy games, trading cards, other toys or things of value to school. If a child brings these things to school, they shall be collected by the teacher, taken to the office, and returned to the parent/legal guardian in a timely manner.

EXTORTION - The taking of money/property by anyone who uses threats, fear or coercion in order to obtain money/property, but whose conduct falls short of the threat to personal safety required for robbery.

FAILURE or REFUSAL TO SERVE ASSIGNED DISCIPLINE - If the student fails to serve the discipline assigned due to circumstances genuinely beyond the student's control, the student must make up the discipline. If the student "forgets" to serve the discipline, the discipline is doubled. If the student refuses to serve the discipline, the student shall receive out of school suspension. Upon returning from the suspension, the student must serve the original discipline.

SEXUAL HARASSMENT OF STUDENTS Policy FB

The policy of this school district forbids discrimination against, or harassment of any student on the basis of sex. The Healdton Board of Education will not tolerate sexual harassment by any of its employees or students. This policy applies to all students and employees including non-employee volunteers whose work is subject to the control of school personnel. Policy DA applies to sexual harassment of employees.

1. Sexual Harassment is defined as conduct on the basis of sex that satisfies one or more of the following:
    a. An employee of the school district conditioning the provision of an aid, benefit, or service of the school district on a student's participation in unwelcome sexual conduct. This is referred to as quid pro quo sexual harassment;

    b. Unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a student equal access to the school district's educational program or activity; or
    c. Sexual assault, dating violence, domestic violence or stalking as defined by federal law.

For the purpose of this policy, examples of sexual harassment include, but are not limited to:

Verbal or physical sexual advances, including subtle pressure for sexual activity; touching, pinching, patting, or brushing against;

comments regarding physical or personality characteristics of a sexual nature; and sexually-oriented "kidding" "teasing," double meanings, and jokes.

Demeaning comments about a girl's ability to excel in a class historically considered a "boy's" subject, privately talking to a student about sexual matters, hugging or touching a student inappropriately may constitute sexual harassment.

Writing graffiti that names a student or otherwise identifies a student is potentially slanderous and constitutes sexual harassment. Graffiti of any kind will not be tolerated on school property. The superintendent is directed to cause any graffiti or unauthorized writings to be removed immediately. Use of e-mail, the internet, or technology may constitute sexual harassment as much as use of in-person, postal mail, handwritten or other communication.

Any of the aforementioned conduct that effectively deprives a student of equal access to educational opportunities or benefits provided by the school.

2. Specific Prohibitions

A. Administrators and Supervisors

1. It is sexual harassment for an administrator, supervisor, support employee, or teacher to use his or her authority to solicit sexual favors or attention from students.

2. Administrators, supervisors, support personnel, or teachers who either engage in sexual harassment of students or tolerate such conduct by other employees shall be subject to sanctions, as described below.

BULLYING Policy FNCD

It is the policy of this school district that bullying of students by other students, personnel, or the public will not be tolerated. Students are expected to be civil, polite, and fully engaged in the learning process. Students who act inappropriately are not fully engaged in the learning process. This policy is in effect while the students are on school grounds, in school vehicles, at designated bus stops, at school-sponsored activities, or at school-sanctioned events, and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district. Bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation, or bullying at school. The school district is not required to provide educational services in the regular school setting to any student who has been removed from a public school or private school in Oklahoma or another state by administrative or judicial process for an act of using electronic communication with the intent to terrify, intimidate or harass, or threaten to inflict injury or physical harm to faculty or students.

As used in the School Safety and Bullying Prevention Act, "bullying" means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student. Such behavior is specifically prohibited.
In administering discipline, consideration will be given to alternative methods of punishment to insure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.
In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract
7. Changing student's seat assignment or class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities damaged by the student's behavior
10. Restriction of privileges
11. Involvement of local authorities
12. Referring student to appropriate social agency or to a delinquency prevention and diversion program administrated by the office of Juvenile Affairs
13. Suspension
14. Performing Campus-site services for the school district
15. Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, prom, prom activities, and/or class trips.

Harassment set forth above may include, but is not limited to, the following:

1. Verbal, physical, or written harassment or abuse;
2. Repeated remarks of a demeaning nature;
3. Implied or explicit threats concerning one's grades, achievements, etc.;

The following procedures will be used by any person for the filing, processing, and resolution of a reported incident of harassment, intimidation, bullying, or threatening behavior. The procedures are to be followed by the administration of the school district in an effort to determine the severity of the incident and the potential to result in future violence.

Definitions

1. Bullying" means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

"Electronic communication" means the communication of any written, verbal, pictorial information or video content by means of an electronic device, including, but not limited to, a telephone, a mobile or cellular telephone or other wireless communication device, or a computer.

1. The matter should immediately be reported to the building principal. If the bullying involved an electronic communication, a printed copy of the communication as well as any identifying information such as email address or web address shall be provided to the building principal. As much detailed information as possible should be provided to the building principal in written form to allow for a thorough investigation of the matter.

3. If, during the course of the investigation, it appears that a crime may have been committed the building principal and/or superintendent shall notify local law enforcement and request that the alleged victim also contact law enforcement to report the matter for potential criminal investigation.

4. If it is determined that the school district's discipline code has been violated, the building principal shall follow district policies regarding the discipline of the student. The building principal shall make a determination as to whether the conduct is actually occurring.

5. Upon completion of the investigation, the principal or superintendent may recommend that available community mental health care substance abuse or other counseling options be provided to the student, if appropriate. This may include information about the types of support services available to the student bully, victim, and any other students affected by the prohibited behavior. If such a recommendation is made, the administration shall request disclosure of any information that indicates an explicit threat to the safety of students or school personnel provided the disclosure of information does not violate the provisions or requirements of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, Section 2503 of Title 12 of the Oklahoma Statutes, Section 1376 of Title 59 of Oklahoma Statutes, or any other state or federal laws relating to the disclosure of confidential information.

6. Upon completion of an investigation, timely notification shall be provided to the parents or guardians of a victim of documented and verified bullying. This information should be provided within ___ days of the conclusion of the investigation.

7. Upon completion of an investigation, timely notification shall be provided to the perpetrator of the documented and verified bullying. This information should be provided within ___ days of the conclusion of the investigation.

Reports may be made anonymously. However, no formal disciplinary action shall be taken solely on the basis of an anonymous report. Reports shall be made immediately to the building principal by any school employee that has reliable information that would lead a reasonable person to suspect that a person is a target of bullying.

The Superintendent shall be responsible for enforcing this policy. The building principal should notify the superintendent within twenty-four (24) hours of any report of bullying. Upon completion of an investigation, the building principal should notify the superintendent of the findings of the investigation. Documentation should also be provided to the superintendent to establish that timely notification was provided to the parents of the victim and the parents of the perpetrator.

PROHIBITING BULLYING (REGULATION) Policy FNCD-R

The Healdton Public Schools' student conduct code prohibits bullying. This regulation further explains the negative effects of that behavior and seeks to promote strategies for prevention.

Statement of Board Purpose in Adopting Policy

The board of education recognizes that bullying of students causes serious educational and personal problems, both for the student-victim and the initiator of the bullying. The board observes that this conduct:

1. Has been shown by national and state studies to have a substantial adverse effect upon school district operations, the safety of students and faculty, and the educational system at large.
2. Substantially disrupts school operations by interfering with the district's mission to instruct students in an atmosphere free from fear, is disruptive of school efforts to encourage students to remain in school until graduation, and is just as disruptive of the district's efforts to prepare students for productive lives in the community as they become adults.
3. Substantially disrupts healthy student behavior and thereby academic achievement. Research indicates that healthy student behavior results in increased student academic achievement. Improvement in student behavior through the prevention or minimization of intimidation, harassment, and bullying towards student-victims simultaneously supports the district's primary and substantial interest in operating schools that foster and promote academic achievement.
4. Substantially interferes with school compliance with federal law that seeks to maximize the mainstreaming of students with disabilities and hinders compliance with Individual Educational Programs containing objectives to increase the socialization of students with disabilities. Targets of bullying are often students with known physical or mental disabilities who, as a result, are perceived by bullies as easy targets for bullying actions.
5. Substantially interferes with the district's mission to advance the social skills and social and emotional well-being of students. Targets of intimidation, harassment, and bullying are often "passive-target" students who already are lacking in social skills because they tend to be extremely sensitive, shy, display insecurity, anxiety and/or distress; may have experienced a traumatic event; may try to use gifts, toys, money, or class assignments or performance bribes to protect themselves from intimidation, harassment, or bullying; are often small for their age and feel vulnerable to bullying acts; and/or may resort to carrying weapons to school for self-protection. Passive-target victims who have been harassed and demeaned by the behavior of bullies often respond by

striving to obtain power over others by becoming bullies themselves, and are specifically prone to develop into students who eventually inflict serious physical harm on other students, or, in an effort to gain power over their life or situation, commit suicide.

6. Substantially disrupts school operations by increasing violent acts committed against fellow students. Violence, in this context, is frequently accompanied by criminal acts.

7. Substantially disrupts school operations by interfering with the reasonable expectations of other students that they can feel secure at school and not be subjected to frightening acts or be the victim of mistreatment resulting from bullying behavior.

Bullying often involves expressive gestures, speech, physical acts that are sexually suggestive, lewd, vulgar, profane, or offensive to the education or social mission of this school district, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also disrupts and interferes with the student-victim's or bystander's ability to concentrate, retain instruction, and study or to operate free from the effects of bullying. This results in a reluctance or resistance to attend school.

Definition of Terms

1. Statutory definition of harassment, intimidation, and bullying:

70 O.S. §24-100.3(c) of the School Safety and Bullying Prevention Act defines the terms "bullying," as including, but not limited to a pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication~~,~~ directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student that a reasonable person should recognize will:

A. Harm another student;

B. Damage another student's property;

C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or

D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

2. The "Reasonable Person" Standard

In determining what a "reasonable person" should recognize as an act placing a student in "reasonable" fear of harm, staff will determine "reasonableness" not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self-esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.

3. General Display of Bullying Acts

Bullying, for purposes of this section of the regulation, includes harassment and intimidation, and vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts by students have been described in several different categories.

A. Physical Bullying includes harm or threatened harm to another's body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.

B. Emotional Bullying includes the intentional infliction of harm to another's self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.

C. Social Bullying includes harm to another's group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student; the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities; the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to contempt or ridicule or deprives the victim of the confidence and respect of student peers; or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.

D. Sexual Bullying includes harm to another resulting from, but not limited to, making unwelcome sexual comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would reasonably be

PARENT PARTICIPATION IN THE SCHOOL DISTRICT

The board of education, in consultation with parents, teachers, and administrators, has developed and adopted this policy to promote and encourage the involvement of parents and guardians of children within the school district.

1. Parent participation in the schools is encouraged to improve parent and teacher cooperation in such areas as homework, attendance and discipline. At the beginning of each school year each teacher shall provide parents with contact information so that a parent has the opportunity to contact the teacher or administration to address concerns related to homework, attendance and discipline.
2. Parents may request additional information from the administration to learn about the course of study for their children and review learning materials, including the source of any supplemental educational materials.
3. Parents who object to any learning material or activity on the basis that it is harmful may withdraw their children from the activity or from the class or program in which the material is used. Objection to a learning material or activity on the basis that it is harmful includes objection to a material or activity because it questions beliefs or practices in sex, morality or religion. Parents are hereby informed that the withdrawal of a child from any state mandated courses could prevent their child from being eligible to receive a high school diploma.
4. If the school district offers any sex education curricula pursuant to Section 11-105.1 of Title 70 of the Oklahoma Statutes or pursuant to any rules adopted by the State Board of Education, parents may opt their child out of sex education instruction if the child's parent provides written objection to the child's participation in the sex education curricula.
5. Parents are hereby notified and given the opportunity to withdraw their children from any instruction or presentations regarding sexuality in courses other than formal sex education curricula pursuant to Section 11-105.1 of Title 70 of the Oklahoma Statutes;
6. Parents may learn about the nature and purpose of clubs and activities that are part of the school curriculum, as well as extracurricular clubs and activities that have been approved by the school. A list of school clubs that have been approved by the board of education is available from the administration upon request.
7. Specific parent rights and responsibilities provided under the laws of this state, include the following:
    a. the right to opt out of a sex education curriculum if one is provided by the school district.
    b. open enrollment rights.
    c. the right to opt out of assignments.
