STUDENT POLICY

Students shall not possess any digital device within the testing room when participating in the *Alabama Comprehensive Assessment Program (ACAP)* testing. The possession of a digital device by students participating in ACAP testing is strictly prohibited during the administration of an assessment. For the purposes of this policy, digital devices are defined to include anything that can capture, store, relay, or receive electronic information.

The **ONLY** exception to this policy is for students who have been pre-approved by the school Principal and/or the Building Test Coordinator to have a digital device that is necessary for the health and/or well-being of the student. All exceptions must be pre-approved in writing by the school Principal and/or the Building Test Coordinator by completing the *Digital Device Exception Request* form.

Each local education agency (LEA) shall have in place a *School Test Security Plan* for each school that includes a digital device collection plan for students who will participate in the ACAP. This collection shall take place for students prior to entering the testing room.

If students are in possession of a digital device, whether powered on or off, during the administration of an ACAP assessment, the device will be confiscated, and the student's test will be invalidated. If the appropriate administrator determines there is reasonable suspicion the device was used to capture, record, share test information, or to facilitate cheating on the assessment, the device will be subject to search pursuant to LEA policy for any information directly related to the assessment being administered. Violations may result in disciplinary action by the LEA in accordance with the LEA's disciplinary policy.

Any variance of this policy will be at the discretion of the Alabama State Department of Education, in accordance with guidance in the *ACAP Integrity Handbook for Test Administration*. Student Assessment will provide guidance to the LEA on how to proceed with further testing and the notification of the parent, and or guardian(s) and the district Superintendent.

La posesión de un dispositivo digital por un alumno que participa en las evaluaciones de ACAP es sumamente prohibida durante el período evaluativo. Para los propósitos de esta política, los dispositivos digitales incluyen cualquier aparato que puede capturar, guardar, transmitir, o recibir información electrónica.

La **UNICA** excepción a esta política es para los alumnos que han recibido aprobación de antemano del Coordinador de Evaluaciones del Edificio y/o del director de la escuela dándoles permiso tener un dispositivo digital que es necesario para la salud y/o el bienestar del alumno. Todas las excepciones deben ser aprobadas en forma escrita por el director y/o el coordinador de evaluaciones del edificio por llenar el formulario "Digital DeviceExceptionRequest".

Cada agencia educativa local (LEA, según sus siglas en inglés) debe haber adoptado un Plan de Seguridad de Exámenes Escolares que incluye un plan de recogida de dispositivos digitales para los alumnos que participarán en las evaluaciones ACAP. Esta recogida tendrá lugar **antes de entrar al salón de evaluación**.

Si un alumno tiene posesión de un dispositivo digital, ya sea prendido o apagado, durante una evaluación ACAP, el dispositivo será confiscado y la evaluación del alumno será invalidada. Si el administrador apropiado determina que hay una sospecha razonable que el dispositivo fue usado para capturar, grabar, o compartir información sobre el examen o para facilitar trampa en la evaluación, el dispositivo será sujeto a revisión, según la política de LEA por información directamente relacionada a la evaluación que se está administrando. Las violaciones pueden resultar en acciones disciplinarias por la LEA de acuerdo con la política disciplinaria de la LEA.

Cualquier excepción a esta política será a discreción del Departamento Estatal de Educación de Alabama, según las reglas establecidas en el manual "ACAP Integrity Handbook for Test Administration". Evaluación Estudiantil brindará orientación a la LEA sobre cómo seguir adelante con la evaluación y avisar al padre, y/o el tutor legal, y el superintendente escolar del distrito.

Las LEAs, deberán concienciar a todos los alumnos participando en el ACAP, sus padres, y/o sus tutores legales de esta prohibición a través de incluir esta política en el manual de Código de Conducta Estudiantil, y también puede difundir esta política usando otros métodos normalmente aceptados.

Review of Materials

You may request to review any materials used in the guidance and counseling programs available to students by contacting the student's principal or school counselor.

Information Regarding How to Allow, Limit, or Prevent Your Child's Participation in Mental Health Services

Under Alabama law, no student under the age of fourteen may participate in ongoing school counseling services including, but not limited to, mental health services, unless (1) the student's parent or legal guardian has submitted a written opt-in granting permission for the student to participate or (2) there is an imminent threat to the health of the student or others.

Therefore, if your child is under fourteen, they will only be allowed to participate in mental health services if you opt-in. **If you would like the school system to be able to offer and/or provide mental health services to your child, you must opt-in for each service listed for them to participate in that service.**

Even if you do not opt-in to mental health services, your child may be provided mental health services if there is an imminent threat to their health or others. School employees may determine in their discretion whether such an imminent threat exists and provide any mental health services they deem necessary under the circumstances.

Parent/Guardian of students with disabilities: Please note that the opt-in process is not applicable to any school counseling services or "mental health services" contained in a student's IEP or §504 plan. Consent for those services will be obtained and information regarding your child's mental health services will be provided through the usual special education process.

¹ For purposes of this notification and policy, "mental health services" includes services, treatment, surveys, or assessments relating to mental health; however, it does not include instructional activities designed to educate students regarding topics related to mental health (1) contained in the school system's approved curriculum or (2) otherwise required to be taught by law (e.g., Erin's Law; Jamari Terrell Williams Student Bullying Prevention Act). "Ongoing school counseling services" for purposes of a required Opt-In shall not include those school counseling services which are split into domains not requiring a mental health therapist or other mental health therapeutic license.

Our Vision

Promoting Achievement, Respect, and Success

Our Mission Statement

The mission of Leeds City Schools is to develop confident, productive young people and enable them to become independent and successful learners in a global society. We will accomplish this through a dedicated professional staff committed to continued learning. A relevant curriculum will be taught based on thinking and reasoning skills. This will take place in a positive environment recognizing the individual differences in children.

STUDENT-PARENT HANDBOOK AND CODE OF STUDENT CONDUCT

INTRODUCTION

Instruction should occur in an environment that is conducive to learning. Effective instruction requires good order and discipline which may be described as the absence of distractions, friction and disturbances which interfere with the effective functioning of the student, class and school. Leeds City Schools hopes to nurture a friendly - yet businesslike - atmosphere in which students and school personnel work cooperatively toward mutually recognized and accepted goals. Ultimately, the goal of the Board of Education in student discipline is to modify undesirable behavior while maintaining a school environment, which provides maximum learning opportunities for all students.

As students progress in our public schools, it is reasonable to assume that an increase in age and maturity will result in the students assuming greater responsibility for their own actions; however, the procedures identified in this document shall apply to all students in grades PreK - 12.

CODE OF STUDENT CONDUCT

The purpose of the Code of Student Conduct is to provide a safe, business-like, and nurturing environment conducive to teaching and learning in the Leeds City Schools. This section of the handbook has been prepared in accordance with Discipline Procedures of the Leeds City Schools. It contains information for school personnel, students, and parents. The Code of Student Conduct is an outline of expected behaviors and the consequences relating to various violations. Expected behavior is behavior that promotes learning and encourages maturity during the school day as well as during all school related activities. Students and their parents need to know and understand this code in order to achieve these goals.

Each student is expected to:

- Demonstrate courtesy and respect for others
- Behave in a responsible manner at school, on school buses, and at all school functions on or off campus
- Attend all classes regularly and on time
- Prepare for each class, take appropriate materials assignments to class
- Be well-groomed and dress appropriately
- Obey all campus and classroom rules
- Respect the property of others including system property and facilities
- Cooperate with or assist the school staff in maintaining safety, order, and discipline
- Avoid violations of the Code of Student Conduct

The system may impose campus, classroom, or club/organization rules in addition to those found in the Code of Student Conduct. These rules may be listed in the student and campus handbooks or posted in classrooms, published in extracurricular handbooks, state or national organizations by-laws, and/or constitutions, are adopted and approved by the sponsor, principal, and/or system administrator, and may or may not constitute violations of the Code of Student Conduct. A copy of these standards shall be provided to the students and administrators.

Sponsors and coaches of extracurricular activities may develop and enforce additional standards of conduct that are higher than the system general standards and may condition membership or the student's participation in the activity on adherence to those standards. Extracurricular standards of behavior may take into consideration conduct that occurs anytime, on or off school property. However, no provision of an extracurricular behavioral standard shall have the effect of disclaiming on the basis of gender, race, disability, religion, or ethnicity. A copy of these standards shall be provided the students and administrators.

Organizational standards of behavior of an extracurricular activity are independent of the Code of Student Conduct. Violations of these standards of behavior that are also violations of the student Code of Conduct may result in independent disciplinary actions. A student may be removed from participation in extracurricular activities or may be excluded from school honors for violation of Code of Student Conduct.

STUDENT GOVERNMENT

PHILOSOPHICAL BASIS:

Effective student government associations are the forums for the training and involvement of students in the democratic process. Members of the school community share the responsibility for shaping student government associations into instruments for student involvement.

STUDENT RESPONSIBILITIES ARE:

1. To become knowledgeable of Board and individual school policies governing the actions of students,
2. To conduct election campaigns in a positive, mature manner with all respect provided to opponents,
3. To vote for student government officers and representatives who are responsive to the needs of the school(s) and who will work constructively toward the resolution of such needs,
4. To attend regularly scheduled meetings, if elected, as a student representative and to exhibit appropriate conduct at all times.

STUDENT RIGHTS ARE:

1. To form and operate a student government within the respective schools under the direction of the faculty advisor,
2. To have access to policies of the Board and individual school,
3. To seek office in student government, or any school organization, regardless of race, disability, sex, creed, or political beliefs,
4. To attend, as student government officers and representatives, official student government meetings upon approval of such meetings by the school principal or his/her designee.

STUDENT PUBLICATIONS

PHILOSOPHICAL BASIS:

One of the important roles of the school is to provide effective avenues through which students may express themselves on a wide range of subjects. Official student publications, such as school newspapers, should include the viewpoints representative of the student body.

STUDENT RESPONSIBILITIES ARE:

1. To refrain from publishing libelous, obscene, or disrespectful materials,
2. To seek full information on the topic,
3. To observe the accepted rules for responsible journalism under the guidance of the faculty advisor.

STUDENT RIGHT IS:

1. To participate, as part of the educational process, in the development and distribution of publications.

- I. Students may be enrolled in a Leeds City school by a parent or legal guardian who resides within the city limits of Leeds. Legal guardianship must be established according to Alabama law. Any student who enrolls in the Leeds City School System shall be required to present the following documents:
 - A. An official birth certificate;
 - B. Immunization as required for the prevention of those communicable diseases designated by the State Health Officer;
 - C. Three proofs of residency in the name and address of the parent(s), legal custodian(s), or legal guardian(s): A mortgage statement (or alternatively a deed or tax bill) or lease agreement, and two current utility bills (water, sewer, gas, power);
 - D. Proof of guardianship or custody when warranted.

Exceptions may be granted as provided in Alabama statutes and federal law.

- II. The school principal shall determine grade placement of students from a private or non-public school or from home education based on state regulations and Leeds City Board of Education rules regarding transfer of credit as well as other factors including test data, age, and previous school records (See Policy 4.80).
- III. A student may enroll in kindergarten if he/she has attained the age of five (5) years on or before September 1 of the school year. A student may enroll in first grade if he/she has attained the age of six (6) years on or before September 1 of the school year. An opinion of the Attorney General states in effect that under the common law one's age is computed by including the day of birth so that a given age is obtained the day before the birthday anniversary. Therefore, a child whose birthday falls on September 2 is entitled to attend public school at the opening of school for that year (kindergarten for those age five, and first grade for those age 6). A kindergarten or first grade child who transfers from a public school in another state shall be admitted under the same age requirements as established in the state where he/she previously attended school.
- IV. Admission may be denied a resident student who is over seventeen (17) years of age and who has repeatedly been dismissed from previous schools for violation of the rules of the school with the exception of students who have a current IEP or 504 plan.
- IV. When a student facing some type of disciplinary action is withdrawn from school prior to receiving the punishment, said student (and his/her parent/legal guardian) should be informed that prior to admission/readmission to any Leeds City school,

the disciplinary action would have to be completed. This includes any suspension, work assignment, or referral to the Superintendent or Board of Education for a hearing.

- V. Non-resident students may be enrolled in the School System upon approval of a hardship transfer application made to the Superintendent.
- VI. Resident students are defined as those students whose parents or legal or legal guardians live within the jurisdiction of the Leeds City School System. All resident students of the school district shall be entitled to be admitted, subject to policy limitations and judicial constraints, to the Leeds City Schools. In addition, children of employees of the Leeds City Board of Education shall be allowed admission as resident students as long as their parents remain employed by the Leeds City Board of Education.
- VI. All homeless, migratory, immigrant, and limited English proficient children shall have equal access to the same free appropriate public education, including public preschool education, provided to other children and youth. Such children will be provided the opportunity to participate in the same state educational programs and to meet the same state student performance standards as all other children without being isolated or stigmatized.

Students who live in the attendance areas of Leeds City School System and who are homeless, migratory, immigrant and/or limited English proficient shall not be prohibited from school attendance due to any of the following:

- A. Residency requirements
- B. Lack of social security number
- C. Lack of birth certificate
- D. Lack of school records or transcripts
- E. Lack of immunizations
- F. Legal custody requirements
- G. Transportation
- H. Language barriers
- I. Disabilities

TITLE VII-B OF THE MCKINNEY-VENTO HOMELESS ASSISTANCE ACT OF 2001

HISTORY:

ADOPTED: MAY23, 2003

REVISED: MAY 9, 2017

FORMERLY: 5.10, 5.11, 5.12

Alabama law requires all children between the ages of six (6) and seventeen (17) to attend school. The law further provides that a parent, guardian, or other person having control or charge of a school-age child is responsible for that child's regular attendance and proper conduct. Parents and guardians are responsible for enrolling their children in school and ensuring that the children attend school and obey behavior policies adopted by the Board. Parents failing to enroll students and ensuring their proper behavior and attendance are subject to fines and imprisonment under state law.

Regarding absences, a parent, guardian, or other person having charge of any child officially enrolled in an Alabama public school shall explain in writing the cause of any and every absence of the child no later than three (3) school days following the child's return to school. Failure to furnish such explanation shall be evidence of the child being truant each day he/she is absent. The child shall also be deemed truant for any absence determined by the principal to be unexcused based on the current State Department of Education attendance manual.

A. Excused (Permissible) Absences

Absences are excused for the following reasons:

1. Illness,
2. Death in the immediate family,
3. Inclement weather which would be dangerous to the life and health of the child as determined by the principal and/or Superintendent,
4. Legal quarantine,
5. Emergency conditions as determined by the principal and/or Superintendent, or
6. Prior permission of the principal with the consent of the parent or legal guardian.

B. Unexcused Absences/Truancy

Unexcused absences are those for which no acceptable written explanation is provided by the parent, guardian, or person having control of the child, or for other reasons other than those noted above in "Excused (Permissible) Absences" section or those after eight (8) days per school year for which no physician or court documentation is provided.

If any student fails to attend school without an approved excuse for more than five (5) days, the student and his or her legal guardian shall be referred to an early warning meeting with the LCS Hearing Officer. Eight (8) unexcused absences and/or failure to appear for a truancy hearing within a school year may result in a student being considered truant for the purpose of filing a petition against a legal guardian to appear in municipal court with the City of Leeds.

C. Excessive Absences

Excessive absences are defined as any absence above eight (8) days for a student per school year. Days of absences beyond eight (8) days must be documented by a physician's statement or by a court order to be considered excused. A parent/guardian note of explanation is not acceptable beyond the eight (8th) day of such absences. Absences without a physician's statement or court documentation beyond these numbers shall be considered unexcused absences.

D. Early Warning/Tuancy Intervention Program

State law requires parent/guardians who enroll a student in school to be responsible for the child's regular attendance and proper conduct. The Leeds City Board of Education, The Leeds City District Attorney's Office, and the Leeds City Juvenile Probation Office, adhere to procedures published annually in the Code of Student Conduct to reduce truancy and to promote school attendance. The Leeds City School System Early Warning Program consists of a local truancy meeting with the school district's hearing officer.

E. Make-Up Work

Schoolwork missed due to excused absences may be made up, and a grade shall be awarded. Students shall have two (2) days for each day of excused absence to complete and return make-up work. It is the responsibility of the student to request and return make-up work.

F. Credit Not Awarded for Excessive Absences

Any student who accumulates excessive absences in any course may not receive credit or Carnegie units in that particular course. In a traditional period schedule, a student may not exceed more than nine (9) absences per class per semester. In accordance with a student's Individualized Education Plan, 504 Plan, Problem Solving Team Recommendation, or with Permission from the Principal, credit or Carnegie units may be allowed for a student who has more than nine (9) absences per class per semester. The principal may stipulate that the absences be certified in writing from the court or a physician. Furthermore, the principal may require the student to attend additional educational instruction through a Board recognized program to receive Carnegie units or credits.

2. False or Altered Medical Excuse by Parent/Guardian or Other: Any medical excuse submitted to the school attendance clerk/office that has been validated as altered, fake or includes validated false information shall be admissible in Jefferson County Family Court and/or Leeds City Court and reported to the medical provider's practice. Every student residing in the area served by the Leeds City School System between the ages of six (6) and seventeen (17) years shall be required to attend a state-approved school for the entire length of the school term in every scholastic year. Every student must attend the entire length of each school term through the day preceding the seventeenth (17th) birthday. FORMERLY: NEW

All students must comply with the Leeds City School System attendance policy to be promoted to the next grade. No student will be recommended for retention unless their case has been presented to the school's problem solving team. Any teacher recommending retention must document using intervention strategies and their results. Promotion or retention decisions for students who transfer after the beginning of the final quarter of the school year will be made on a case-by-case basis.

The promotion determination process should involve the principal and teacher(s) with the authority for determining promotion and retention resting entirely with the teacher(s) and principal, except that a kindergarten student may be retained only upon approval/agreement of the student's parent(s) or guardian(s).

Grades 1-5

To be promoted to the next grade, a student in grades one (1) through five (5) should be proficient in reading and mathematics to grade level standards. The process of making decisions as to promotion and retention of students should take into consideration a variety of factors including age, maturity, motor coordination, capacity for learning, and academic progress.

If a student needs to be retained based on the educators' professional judgment of the student's academic performance and/or other factors, the parent(s) or guardian(s) of that student would be informed as early in the school year as possible. In all cases, the decision of whether a student should be promoted or retained shall be made on the basis of which grade placement provides the student a better chance of progressing in his/her educational development.

Grades 6-8

Students enrolled in grades six (6) through eight (8) must pass English (or the combined average of separate language and literature classes), math, science, and social studies in order to be promoted to the next higher grade. Students who do not pass required core courses each year will be retained at their current grade level for the next school year unless they successfully meet the requirements in an approved summer school program. Only one core subject may be attempted in summer school.

Placement

If a student is retained twice in any grade or is two (2) or more years older than typical grade level peers, he/she may be placed in the next higher grade level upon teacher recommendation(s) and the approval of the principal. A possible referral for evaluation for special education services for such a student is recommended.

Grades 9-12

For students to be permitted to move to the next higher grade level, the following standards must be met:

Tenth Grade – students who have earned five (5) Carnegie units will be classified as tenth graders.

Eleventh Grade - students who have earned eleven (11) Carnegie units will be classified as eleventh graders.

Twelfth Grade – students who have earned seventeen (17) Carnegie units will be classified as twelfth graders.

Summer School Options

A student who does not pass coursework in a logical and sequential order should be strongly encouraged to attend an approved summer school to earn the required Carnegie unit(s) necessary for orderly progression through the courses required for graduation.

Special Education Students

Promotion of any student in a special education program, with the exception of gifted students, must be based on his/her accomplishments of goals stated in the IEP in conjunction with all other regular program requirements. However, a special education student (except gifted) may not be placed at any grade level unless the student has attended school for a commensurate number of years equal to the proposed grade placement; i.e., for a special education student to be placed at the sixth (6th) grade level, he/she must have been enrolled in school for at least five (5) years.

Beginning in 2024 and in accordance with the Alabama Literacy Act and any future amendments to this Act, if a student in 3rd grade does not demonstrate sufficient reading skills through one of the three pathways or does not qualify for a good cause exemption, the student may not be promoted to the fourth grade.

SPECIAL EDUCATION SERVICES – CHILD FIND

The City of Leeds Board of Education is committed through the *Individuals with Disabilities Education Improvement Act (IDEA) of 2004*, to ensure that children ages birth to twenty-one, regardless of the severity of their disability, and who need special education and related services are identified, located, and evaluated. Child Find applies to children with disabilities who attend private schools, including children attending religious schools, within the education agency's jurisdiction, highly mobile children with disabilities (e.g. migrant), homeless children, or children who are wards of the State and children who are suspected of having a disability and are in need of special education, even though they have not failed, been retained in a course or grade or are advancing from grade to grade. Please contact Amy Terry, Director of Student Services, at (205) 699-5437 for additional information.

Section 504 of the Rehabilitation Act of 1973

Section 504 is an Act which prohibits discrimination against individuals with a disability in any program receiving Federal financial assistance. The Act defines a person with a disability as anyone who:

1. has a mental or physical impairment which substantially limits one or more major life activities (major life activities include activities such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working);
2. has a record of such an impairment; or
3. is regarded as having such an impairment.

In order to fulfill its obligation under Section 504, the Leeds City Schools recognize a responsibility to avoid discrimination in policies and practices regarding its personnel and students. No discrimination against any person solely due to his/her disability will knowingly be permitted in any of the programs and practices in the school system.

The school district has specific responsibilities under the Act, which include the responsibility to identify, evaluate, and if the child is determined to be eligible under Section 504, to afford access to appropriate educational services.

If the parent or guardian disagrees with the determination made by the professional staff of the school district, he/she has a right to a hearing with an impartial hearing officer.

If there are questions contact Dr. Burke Wren, Director of Elementary Education, at (205) 699-5437.

- (b) Decisions regarding the number of PSTs needed by a school should be determined at the school level; however, a minimum of one PST per school is required.
- (c) The documentation requirements for a referral to special education found in the *Alabama Administrative Code*, Chapter 290-8-9.01(2) and (4) [Child Identification] and Chapter 290-8-9.03(10)(b)1., (10)(c)2.(ii), (10)(d)2.(I)(II)(ii) and (10)(d)4. [Disability Definitions, Criteria, and Minimum Required Evaluative Components] must be collected and provided by the PST.
- (d) Any student who is reevaluated and determined not eligible for special education services must be referred to the PST to determine the appropriate supplemental services to facilitate successful transition to the general education program.

Please call Dr. Burke Wren, Director of Elementary Education, at (205) 699-5437 for any additional information.

GIFTED SERVICES

Gifted Education Program

According to the *Alabama Administrative Code* 290-8-9.12(1), gifted is defined as

"Intellectually gifted children and youth are those who perform or who have demonstrated the potential to perform at high levels in academic or creative fields when compared with others of their age, experience, or environment. These children and youth require services not ordinarily provided by the regular school program. Children and youth possessing these abilities can be found in all populations, across all economic strata, and in all areas of human endeavor."

Gifted students are those who perform at or who have demonstrated the potential to perform at high levels in academic or creative fields when compared to others of their age, experience, or environment. These students require services not ordinarily provided by the regular school program. Students possessing these abilities can be found in all populations, across all economic strata, and in all areas of human endeavor.

Teachers, counselors, administrators, parents or guardians, peers, self, or any other individuals with knowledge of the student's abilities may refer a student. Additionally, all

second grade students will be observed as potential gifted referrals using a gifted behavior checklist.

For each student referred, information is gathered in the areas of Aptitude, Characteristics, and Performance. The information is entered on a matrix where points are assigned according to established criteria. The total number of points earned determines if the student qualifies for gifted services.

For more information or to make a referral, contact Amy Terry, Director of Student Services, at (205) 699-5437.

THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

This act offers parents and students over 18 years of age "eligible students" certain rights with respect to the student's education records. They are as follows:

The right to inspect and review the student's education records within 45 days of the day the system receives a request for access. Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent and eligible student of the time and place where the records may be inspected.

The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask City of Leeds Board of Education to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the system decides not to amend a record as requested by the parent or eligible student, the system will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding request for amendment. Additional information regarding the hearing procedures will be provided to the parent and eligible student when notified of the right to a hearing.

The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

The right to file a complaint with the U. S. Department of Education concerning alleged failures by the system to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

HOMELESS STUDENTS

The McKinney-Vento program is designed to address the problems which homeless children and youth have faced in enrolling, attending and succeeding in school. State educational agencies must ensure that each homeless student has equal access to the same free, appropriate public education, including a public preschool education, as other students. Homeless children and youth should have access to the educational and other services that they need to enable them to meet the same challenging State student academic achievement standards to which all students are held.

In addition, homeless students may not be separated from the mainstream school environment. State and system are required to review and undertake steps to revise laws, regulations, practices, or policies that may act as a barrier to the enrollment, attendance, or success in school of homeless children and youth.

Every local education agency (LEA) is required to designate a local liaison for homeless children and youth. The local liaison serves as one of the primary contacts between homeless families and school staff, system personnel, shelter workers, and other service providers. The local liaison must ensure that:

- Homeless children and youth are identified by school personnel and through coordination activities with other agencies and entities;
- Homeless students enroll in, and have full and equal opportunity to succeed in, the schools of the LEA;
- Homeless children and youth receive educational services for which they are eligible, including Head Start, Even Start, and preschool programs administered by the LEA, and referrals to health, mental health, dental and other appropriate services;
- Parents or guardians of homeless children and youth are informed of educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children;
- Parents and guardians and unaccompanied youth are fully informed of any transportation services;
- Enrollment disputes are mediated in accordance with the requirements of the McKinney-Vento Act; and
- Public notice of the educational rights of homeless children and youth receive services under the Act.

In meeting these responsibilities, a local liaison will assist homeless children and youth with activities such as the following:

- Enrolling in school and accessing school services;
- Obtaining immunizations or medical records;
- Informing parents, school personnel, and others of the rights of homeless children and youth;
- Working with school staff to make sure that homeless children and youth are immediately enrolled in school pending resolution of disputes that might arise over school enrollment or placement; and
- Helping to coordinate transportation services for homeless students.

States and local systems may be eligible for federal grants to establish programs to assist in the identification and education of homeless children and youth. Such funds may be used to provide additional educational materials and supplies, student transportation, tutoring, medical services or other demonstrated needs related to the academic achievement of the student. Additional information about best practices for educating homeless children and youth is available from the U.S. Department of Education website (www.usdoe.gov).

Special provisions for homeless students are provided. Please contact the homeless liaison, Dr. Burke Wren at 699-5437 if you have any questions.

MIGRANT STUDENTS

Federal legislation describes the local education agency's (LEA's) responsibilities for education services to migrant students. Federal legislation also provides the parameters for identifying and developing appropriate instructional programs for students meeting the Federal statutory definition as migrant. A migrant child is defined as one who is, or whose parent, spouse, or guardian is, a migratory agricultural worker, including a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, guardian, in order to obtain temporary or seasonal employment has moved from one (1) school system to another.

Systems are directed annually to conduct surveys to identify migrant students and to submit reports of migrant students enrolled in the system. Federal funds allocated under Title I, subpart C may be used to provide supplemental educational and other services to migrant students and their families.

Please contact the Director of Elementary Education, Dr. Burke Wren, at (205) 699-5437 for additional information.

UNEXCUSED TARDIES FOR STUDENTS IN GRADES K – 5

A student is tardy when the student checks into school after the beginning of the school day. In addition, a student is also marked as tardy when the child checks out of school prior to the end of the school day. If a student has accumulated ten (10) tardies, the student and his/her legal guardian will be referred to an Early Warning Meeting with the school administration and the SRO. (Failure to appear will result in a referral the LCS Hearing Officer.) If a student has accumulated fifteen (15) tardies, the student and his/her legal guardian will be referred to our LCS Hearing Officer for an Early Warning Hearing.

Note: Parents/guardians must submit in writing a reason for each and every tardy no later than three (3) school days following the tardy.

No student under the age of fourteen may participate in ongoing school counseling services including, but not limited to, mental health services, unless (1) the student's parent or legal guardian has submitted a written opt-in granting permission for the student to participate or (2) there is an imminent threat to the health of the student or others.

For purposes of this policy, “mental health services” includes services, treatment, surveys, or assessments relating to mental health; however, it does not include instructional activities designed to educate students regarding topics related to mental health (1) contained in the school system’s approved curriculum or (2) otherwise required to be taught by law (e.g., Erin’s Law; Jason Flatt Act).

This policy is not applicable to any school counseling services or “mental health services” contained in a student’s PST, IEP, or §504 plan. Consent for those services will be obtained in accordance with the specific procedures required by federal and/or state law, and information regarding any mental health services will be provided in the pertinent plan.

A. Written Notification – At least annually, the school system shall provide parents and legal guardians a written notification regarding school-provided or sponsored mental health services. The notification will include the purpose and general description of each of the mental health services available; information regarding ways parents may review materials to be used in guidance and counseling programs available to students; and information regarding ways parents may allow, limit, or prevent their student’s participation in the programs.

The written notification may be provided electronically, including through the school system’s online enrollment portal or by such other means and methods as are customarily used for such purposes.

B. Opt-In To Participate in Mental Health Services

1. General Requirement – For a student under the age of fourteen to participate in mental health services, written permission by the student’s parent or legal guardian is required annually. The written permission must be specific as to any treatment and not broad in nature. Parents and legal guardians may be provided the opportunity to opt-in electronically during online enrollment or by such other means and methods as are customarily used for such purposes.

2. *Rescinding Permission* – A parent or guardian may rescind permission for a student to participate in mental health services at any time by providing written notice to the school administration or the school counselor.

3. *Requests for Opt-In and Referrals Authorized* – If a parent or legal guardian does not initially opt-in to mental health services, school officials may contact the parent or legal guardian to (1) attempt to obtain permission for the student to participate in mental health services if the school official believes that the student would benefit from services or if circumstances arise for which services could be beneficial; and/or (2) provide a parent or legal guardian with a referral or information regarding mental health services that may be available to a student through other agencies or providers.

4. *Exception for Imminent Threat* – If a parent or legal guardian has not opted-in to mental health services, a student may be provided mental health services if there is an imminent threat to the health of the student or others. School employees may determine in their discretion whether such an imminent threat exists and provide any mental health services they deem necessary under the circumstances.

C. Information for Parents/Legal Guardians – If a student’s parent or legal guardian elects to opt-in to mental health services, the counselor providing services shall keep the parent fully informed regarding any diagnosis and any recommendations for additional counseling or treatments beyond the services for which the parent or legal guardian has already opted in. The parent shall have the authority to make final decisions regarding any such recommended counseling and treatments.

D. Recordkeeping – Written records maintained by the school system and directly related to a student’s mental health services will be treated in the same manner as health care records and are subject to the confidentiality protections applicable to education records generally. Such records will be available for examination and review by authorized persons in the manner prescribed and to the extent required by federal and/or state law.

Records pertaining to a student’s mental health services will be kept separately from academic records unless including such record(s) in the student’s academic record is necessary to implement a state and/or federal law (e.g., special education referral process)

Parental Involvement Plan

Title I, Part A

The Leeds City Schools System, with Title I being an integral part of its education plan, encourages parental involvement. Parents are considered vital to the strategic planning process and to its successful implementation. The Leeds City Schools System realizes that the parent is the child's first and most important teacher and that a parent's continued involvement is essential for the success of the child. The Leeds City Schools Parent Involvement Plan was developed to assure an active partnership between the school and parent. The plan will be reviewed twice each year at the Federal Programs Public Meeting and at the Federal Programs Advisory Meeting. Members of the committees will be encouraged to provide suggestions and methods for improving the plan.

Parents Involved in the Planning Process

Parents are invited twice each year (Public Meeting and Advisory Meeting) to review the system Title I plan and are encouraged to make recommendations and address concerns regarding the plan. Parents are also included in the planning process at the local schools when developing each A-CIP. The major purpose of the workshops is to improve student achievement. Parents are provided methods and materials to help their children with the learning process at home.

The Leeds City Schools System reserves a percentage of its allocation for parental involvement. Funds are also used to inform parents through school newsletters and event calendars.

The Leeds City Schools System has developed a Parental Involvement policy that follows the guidelines and meets the requirements on Section 5.73. This policy outlines how the school system will collaborate with parents to meet the guidelines of 5.73 and make every effort to give parents an opportunity to participate in their children's education. Listed below are some of the parental involvement goals:

- Increase the number of parents participating in their child's education
- Involve parents in the decision making process for the school system
- Inform parents of the progress of their children
- Involve parents in assessing their child's performance

The chart on the following page outlines the goals of implementing parental involvement.

Leeds High School Credit Recovery Program

In accordance with new Alabama State Department of Education guidelines which allow for increased flexibility in State regulations regarding remedial high school programs, Leeds City Schools will offer students who have received a failing grade(s) in select core courses which are required for graduation an opportunity to recover the lost credit. The credit recovery program employs a standards-based approach which will target specific knowledge and skills deficits instead of requiring the student to repeat the entire course. Such students must meet eligibility requirements to apply, and the credit recovery program must be operated under the guidelines established by this document.

Leeds High School Credit Recovery Description and Procedures

The goal of Credit Recovery is to give high school students the opportunity to graduate in a timely manner. This program has policies and procedures that allow students who have failed core courses (courses required for graduation) an opportunity to make-up these credits. Leeds High School students may participate in Credit Recovery by adhering to the guidelines outlined below.

Any student failing one or more core courses in grades 9-12 may apply for admission to the Credit Recovery program. Instruction will be delivered via a blended curriculum, but mostly through computer-based instruction managed by a facilitator.

Note: Students should be aware that the National Collegiate Athletic Association (NCAA) does not recognize Credit Recovery for course credit.

Student Eligibility, Admission, and Removal

- Students who earned a final grade between 40% - 59% in a core course are eligible for Credit Recovery.
- Students must complete the Credit Recovery Contract form. Parent/guardian and student signatures on the form signify agreement with the terms of Credit Recovery.
- Credit Recovery is not tied to regular seat hours, with the exception of students who have failed due to excessive absences.
- Excessive absences or tardies, disruptive behaviors, and/or abuse of technology privileges as outlined in the *Technology Acceptable Use Agreement* will result in removal from Credit Recovery and no refund will be given.
- Students participating in Credit Recovery must attend all sessions until the course is completed.
- **No refunds will be given for any reason once the contract is signed.**

Awarding of Grades and Credits

- Recovered credit will only be awarded when students have completed all work satisfactorily and met the attendance requirements set forth by the Credit Recovery procedures.
- A grade of C is the highest grade awarded through Credit Recovery. In order to receive the C the student must complete all lessons at 70% accuracy and 90% accuracy on all tests while adhering to all attendance and other policies.
- Any student who does not complete the course within the designated time frame, or is removed from the program for contract violations will not receive credit for the course. No refund will be given.

Credit Recovery Curriculum

An individualized student prescription will be developed by the Credit Recovery facilitator based on skill-specific diagnostic tools which are offered by the computer-based instructional software. The Credit Recovery facilitator will use his or her professional judgment of this data along with any further diagnostic device deemed necessary to develop a prescriptive plan for specific standards for remediation targeted to individual students.

The student must complete his or her plan within the published operating dates and hours of the Credit Recovery Program. Students may attempt to recover multiple credits, but one credit must be completed before attempting the next.

Instructional assignments, whether computer-based or taught by a classroom teacher will be aligned with the Alabama academic content standards approved by the State Board of Education.

Students will be released from the Credit Recovery Program upon successful completion of individual prescribed plans regardless of the number of hours of instruction.

Credit Recovery Program Authorization and Operation

A tuition fee of \$125.00 must be paid to participate in the program and will be nonrefundable.

The principal will set the operating hours.

Credit Recovery programs operating during the summer term or outside normal school hours will be supervised by an administrator or designee.

Teachers working with students in Credit Recovery programs must be certified and highly qualified in the content area they are teaching or in one content area if they are facilitating a software-based program. They also must be trained in the software program as well. In situations where online courses are being utilized, a facilitator may be used who is an approved adult employee of the school system.

Credit Recovery Program offerings may be limited by the availability of space, teachers, or appropriate computer-based content for specific courses.

The creation of a large and varied technology environment demands that technology usage be conducted in legally and ethically appropriate ways. We recognize that the use of technology always requires attempts to balance the benefits against the possibilities of danger, security problems, and abuse. Rapid changes in technology and growth in the range of content available makes this a constant challenge. Thus, it is the intention of the Leeds City Schools that all technology resources will be used in accordance with any and all school system policies and procedures as well as local, state, and federal laws.

Some of these procedures pertain to technology equipment personally owned by school employees and students and brought into school facilities. All personal technologies used on any LCS campus are subject to this agreement and may be used only if such use is in compliance with all school system policies, procedures, and guidelines as well as local, state, and federal laws. This would also include any external storage medium including Dropbox, Google Docs or similar online storage.

Employees and students are prohibited from emailing outside the school system or storing/saving on external storage devices or portable devices that do not remain on campus, electronic copies of student or staff personal information. This information includes, but is not limited to data containing social security numbers, information protected by FERPA, and any other sensitive and/or protected information. In the event that this type of information is stored on a portable or external device and said device is lost or stolen, the Chief Technology Officer should be notified immediately.

Any questions about this agreement, its interpretation, or specific circumstances shall be directed to the Chief Technology Officer before proceeding. Violations of this agreement will be handled in a manner consistent with comparable situations requiring disciplinary and/or legal action.

I. ACCESS:

A. The use of all Leeds City Schools technology resources is a privilege, not a right, and inappropriate or suspected inappropriate use can result in a cancellation of those privileges, pending investigation. Moreover, users of Leeds City Schools' technology must be aware that

Leeds City Schools cannot assume any liability arising out of the illegal or inappropriate use of technology resources. The Chief Technology Officer, local school Technology Coordinators and/or school system administrators will determine when inappropriate use has occurred, and they have the right to deny, revoke, or suspend specific user accounts.

B. Individuals may use only accounts, files, software, and/or other technology resources that are assigned to, provided, or approved for him/her.

C. Individuals identified as a real or suspected security risk can be denied access.

D. Any use of technology resources that reduces the efficiency of use for others can be considered a violation of this Agreement.

E. Personal technology-related devices (if connected to the LCS network) such as, but not limited to laptops, mobile devices, smart-phones, iPods, etc. used on school grounds are subject to all items covered in this Agreement and other applicable published guidelines.

II. PRIVACY:

A. To maintain network integrity and to insure that the network is being used responsibly, local school Technology Coaches, Technicians and/or other designated technology staff reserve the right to inspect any and all data, including data stored by individual users on individual school or personal devices (if connected to the LCS network). Users should be aware that activities might be monitored at any time, without notice.

B. Users should not have any expectation that their use of technology resources, including files stored by them on the Leeds City Schools' network, will be private and will be secure from access by others. Reasonable steps will be taken to maintain the security of technology resources, but no assurance can be given that penetration of such security will not occur. Because communications on the Internet are public in nature, all users should be careful to maintain appropriate and responsible communications. Leeds City Schools cannot guarantee the privacy, security, or confidentiality of any information sent or received via the Internet, an email correspondence, telephone, etc.

C. Users are encouraged to avoid storing personal and/or private information on technology devices or network resources owned by the district and/or school.

C. In emergency situations, student pictures or other personally identifiable information can be shared with outside agencies in accordance with this signed "Leeds City Schools Acceptable Use Agreement" and in accordance with FERPA guidelines.

D. District or school data, such as but not limited to Powerschool SIS information, accessed through school system technology resources may not be used for any private business activity.

The system-wide technology staff does perform routine backups in an effort to assure continuity of business. There can be no assurance, however, that technology resources will be available within a particular time frame following an outage. There is no guarantee that information that existed prior to an outage, malfunction, or deletion, can be recovered. Users are expected to maintain and back up their critical files and data.

IV. COPYRIGHT:

Any questions about copyright provisions should be directed to the district Chief Technology Officer, local school Technology Coach, or local school media specialist.

A. Legal and ethical practices of appropriate use of technology resources will be taught to students and employees in the system (i.e. as part of the Technology Education Curriculum, during lab orientation, network orientation, or faculty meetings, etc). Again, all questions regarding legal and ethical practices of appropriate use should be directed to the local school Technology Coach and/or district Chief Technology Officer.

B. Copyright is implied for all information (text, data, and graphics) published on the Internet. Student and employee web page authors will be held responsible for the contents of their pages. Do not "borrow" icons, sounds, or graphics from other pages without documented permission. It is the student or employee's responsibility to secure proper usage permission. Duplication of any copyrighted software is prohibited unless specifically allowed in the license agreement and, then, should occur only under the supervision and direction of the technology staff.

V. EMAIL:

Leeds City Schools provide access to email accounts for all employees, long-term substitutes, and, for students. This agreement addresses each user. Email accounts may be granted for school related organizations or classes with designated employee sponsors. Leeds City Schools make a reasonable effort to maintain (backup) email for normal business operations. Backups are maintained for a maximum of 14 days. B. Use of Leeds City Schools' email accounts for harassing or threatening is strictly prohibited.

C. Leeds City Schools' email accounts may not be used for political activity, personal gain, commercial purposes, or profit.

F. Leeds City Schools' email accounts may not be used for posting or forwarding other user's personal communication without the author's consent.

G. Because email is not securely transmitted, discretion must be used when sending, or encouraging the receipt of email containing sensitive information about students, families, school system employees, or any individuals. There can be no assurance that email will be confidential and/or private.

H. There is a system-imposed limit on storage for email accounts. Users meeting or exceeding the limit will be unable to send or receive emails. Users who are required to maintain email for more than 180 days should print said emails.

I. Incoming and outgoing email is filtered by the district for inappropriate content. However, no filtering system is foolproof, and material deemed inappropriate by individual users may be transmitted in spite of filtering. Leeds City Schools cannot assume any liability for such breaches of the filter.

J. At the discretion of the Chief Technology Officer, principal, or superintendent, email accounts may be locked without notice.

VI. INTERNET USE:

The intent of the Leeds City Schools is to provide access to resources available via the Internet with the understanding that staff and students will access and use information that is appropriate for their various curricula. All school rules and guidelines for appropriate technology usage, as well as local, state, and federal laws apply to usage of the Internet. Teachers should always screen all Internet resources before projecting them in the classroom.

All LCS-owned student devices will be filtered according to [CIPA](#) compliance. We do our best to protect your student using their device and account. Please remember that no filter can filter one hundred percent of inappropriate sites. Please monitor your students' use when off campus. If we are alerted to inappropriate behavior, we will disable your student's accounts until they return to campus.

A. Students gain access to the Internet by agreeing to conduct themselves in a considerate and responsible manner and by providing written permission from their parents via this Leeds City Schools Acceptable Use Agreement. The acceptable use agreement is not transferable, and therefore, may not be shared. Existing acceptable use agreements are valid until new forms are received. Students are required to have new forms signed when changing schools or enrolling as a new student.

B. Internet activity can and will be monitored, along with other aspects of technology usage. Internet access for all users is filtered, through one central point, by URL (web address) and by IP address and may be filtered by keyword. URLs (web addresses) and IP addresses may be added to or deleted from the filtered list by the Chief Technology Officer and his or her designee. Staff members may request to review filtered categories. Users requesting sites for blocking or unblocking must list specific URLs.

Successful or unsuccessful attempts to bypass the Internet filter by using proxies or other resources are a violation of this agreement.

VII. WEB PUBLISHING:

The Leeds City Schools' web site is limited to usage associated with activities of Leeds City Schools. The web site cannot be used for personal financial gain, to express personal or political opinions, or to editorialize. G. Caution should be used when photographs of any students are included on web pages. Group photographs without names are preferred for all students.

VIII. SOCIAL MEDIA RECOMMENDATIONS

Social media can be a valuable tool for both personal and professional use. However, as with any tool, it must be used with skill and care. The guidelines below have been developed to help protect students and employees from charges of inappropriate use. Although many of the items below specifically reference Facebook or Twitter, the guidelines and cautions apply to all social networking venues.

It is strongly recommended that teachers do not "friend" current students and/or students under 18 years of age. There may be exceptions, such as a relative, a friend's child, etc.; however, as a general rule, it is recommended that teachers do not "friend" students, and they assume personal responsibility if they choose to do so.

Leeds City Schools has created and hosts several options for teachers to safely use social media for instructional purposes including, but not limited to, Edmodo and Moodle. District technology personnel have immediate access to online dialogue when challenges are made regarding inappropriate use if the sites are hosted by Leeds City Schools. A potential danger exists when employees communicate directly with students or instruct students to communicate directly to each other or the general public on social media sites that are not hosted by Leeds City Schools.

District sponsored and approved teacher websites, including email and SchoolMessenger along with the iNOW parent portal should be the primary means for electronic parent communication.

A. Remember, once something is posted on a social networking site, it may be available forever.

B. Please avoid posting comments that discuss or criticize others.

C. Only post what could be shared in a face-to-face meeting with the public. No confidential student information.

D. Make sure posts and pictures are presented in a professional role or manner.

At the beginning of each school year, a parent/guardian must sign the Acceptable Use Agreement via online registration granting the district permission to provide the student with a device. The device will be issued with one charger. A student will not receive a device if registration isn't completed online. Leeds City Schools reserves the right to collect a device if residency cannot be verified.

Annually the device and charger must be assessed and may be reissued by a member of the technology team. Students owing fees and Seniors must turn their devices in by the date set by the school district. If the case is a student-owned item, the student will keep their case. If a student withdraws or is expelled from LCS, the device, charger, and case if LCS property must be immediately returned at that time. When returned, each device will be inspected. If any damage occurs, payment must be made for the item to be repaired or replaced. Parents/guardians assume sole financial responsibility for these damages regardless of the circumstances.

TRANSPORTATION

The Leeds City School System provides daily transportation for students. If you have questions regarding bus transportation, bus routes, bus stops, etc. please contact Lee Gibson, Director of Transportation and Athletics, at (205) 699-5437.

The buses are equipped with a video camera. Students are video recorded on each trip. The videos provide a record of student's behavior on the bus. School personnel may review the video to determine actual events.

All students transported by Leeds City School System buses shall be picked up and returned to approved stops which are configured by transportation personnel specifically for students in close proximity areas. Stops shall not be made specifically to accommodate the wishes of any financial enterprise, (i.e. daycare centers, dance studios). Exceptions to the policy would be buses which transport special education students for educational purposes as specified in the student's Individualized Educational Plan (IEP).

Students will be assigned a bus and must ride only that bus. In an emergency situation, the parent shall contact the principal of the school and if space permits, arrangements may be made.

Students will be picked up at their designated bus stop and returned to their designated bus stop. It is responsibility of the Leeds City School System to transport students from bus stop to school and from school to bus stop. Parents are responsible for the child during the time he/she is at the designated bus stop. Leeds City School System shall not be responsible for the student after he/she returns to the designated bus stop or before boarding the bus.

The Leeds City School System shall not provide transportation for non-resident students.

Safety Tips

- Students must be at the bus stop ten (10) minutes prior to the scheduled arrival of the school bus.
- Students who must cross a road to board a bus should never do so until the bus has arrived, the proper warning signs are displayed, and the driver signals for the students to cross.
- Students should never cross behind the bus.
- Students should always stand a safe distance from the road (at least five (5) feet).
- Students should never run to or from the bus.

Students who must cross the road after exiting the bus should always cross at least ten (10) feet in front of the bus after looking in both directions to be sure no traffic is approaching and after the driver signals that it is okay for them to cross.

BUS CONDUCT

Rules and Regulations

1. The school bus is an extension of the classroom.

2. Bus drivers have complete charge of students while riding the bus. Drivers are responsible for the student's conduct, safety, and transportation. Bus drivers will report promptly to the principal or his/her designee any violation of the Code of Conduct. Principals and/or designee, NOT BUS DRIVERS, are responsible for disciplining students for violation of Code of Conduct.
3. Bus drivers, with the assistance of the principal or designee, may assign seats to all students.
4. Students must take their seats promptly when loading the bus.
5. Students must remain in their seats while the bus is in motion.
6. Students shall not be allowed to enter or leave a bus at any place other than at the student's usual bus stop or school unless authorized by the principal of the school. Students shall be picked up at their designated bus stop and returned to their designated bus stop. It is the responsibility of the Leeds City School System to transport students from bus stop to school and from school to bus stop. Parents are responsible for the child after he/she is deposited at designated bus stop. The City of Leeds Board of Education shall not be responsible for the student after he/she returns to the designated bus stop.
7. Bus drivers will not put students off the bus after accepting students, but will carry students to the school or to their homes.
8. Students will cooperate in keeping the bus clean and free of damage. Students causing damage to the school bus may be punished by suspension from the school bus. Parents/Guardians/Students shall be required to repay the cost of any damage to any bus by any student.
9. Students are not allowed to transport animals (dead or alive), balloons, glass containers, or items too large for the student to hold in his/her lap (including, but not limited to large band instruments, etc.) on the bus.
10. Students are permitted to use electronic devices while riding the bus provided the content is age appropriate for a school related setting. In addition, students who are using electronic devices on the bus must use headphones, ear buds, etc. or must have the device on silent while the device is in use. No sounds through a speaker are allowed. Also, students are responsible for their own devices and lost or stolen devices are not the responsibility of the driver or the school. Moreover, students are not allowed to video others while riding the school bus.

In addition, for the safety of students, electronic devices are prohibited from use by students who are entering or exiting the school bus or in other emergency circumstances.

Note: If behavior due to the inappropriate use of electronic devices becomes an issue for the bus driver and/or other students, the privilege to use the device while on the bus may be removed by the administrator.

11. Students shall be prohibited from using mirrors, lasers, flash cameras, or any other lights or reflective devices in a manner that might interfere with the school bus driver's operation of the school bus.
12. Misconduct on a school bus will result in the application of the normal discipline procedures of the Leeds City Schools. The following is a noninclusive list of infractions, which will result in the principal suspending students from the school bus or school or both:
 - a. Being insubordinate to the bus driver including, but not limited to, giving the bus driver an incorrect name and address,
 - b. Failing to obey orders and directions of the bus driver,
 - c. Using vulgar or obscene language whether written or spoken,
 - d. Using obscene gestures,
 - e. Smoking/vaping, possessing and/or using tobacco or any smoking/vaping paraphernalia,
 - f. Getting on or off the bus at improper locations,
 - g. Damaging the bus, throwing objects on the bus or out the window,
 - h. Making threats, bullying, or engaging in acts of physical violence,
 - i. Possession of contraband items, including weapons, drugs, alcohol, or electronic devices,
 - j. Tampering with emergency exits (back door),
 - k. Eating, drinking, or chewing,
 - l. Failure to remain silent at railroad crossings
13. In cases of extreme student misbehavior while being transported to and from school or school related activities, appropriate law enforcement officials may be called to remove the student(s) from the bus. In this event, the Transportation Department or the police will notify the parent or legal guardian that the student has been removed from the bus and as to where the law officer has transported the student. In addition to removal by the appropriate law enforcement official, the student may be suspended from the school bus for the remainder of the school year.
14. Students shall be prohibited from acts of physical violence, bullying, physical assault or battery of other persons on the school bus, verbal assault of other persons on the school bus, disrespectful conduct toward the school bus driver or other persons on the school bus, and other unruly behavior. Fighting on a school bus is among the most serious offenses committed by students. Students who fight endanger themselves and everyone riding the bus by causing the bus driver's attention to be diverted. Fighting on a school bus will result in immediate suspension from the bus with no prior warning or prior disciplinary action being taken.
15. No luggage carriers and/or luggage carts are allowed on the bus.

CLASSIFICATION OF BUS VIOLATIONS

Bus conduct is stated in accordance with the City of Leeds Board of Education Code of Student Conduct. After determining the classification of a violation, the principal/designee will implement the appropriate disciplinary procedure indicated by category. The categories indicate disciplinary measures to accommodate each grade level with the administration to make the determination of those measures best suited to the grade level and the situation.

CONSEQUENCES FOR VIOLATING SCHOOL BUS RULES AND REGULATIONS

The Principal is authorized to take disciplinary action up to and including loss of transportation for offense(s) which have a direct impact on the welfare of students following an investigation and due process procedures.

Each bus driver is expected to maintain safety and appropriate behavior on his/her bus and is also expected to contact parents as the first line of correction as students are warned of inappropriate behaviors.

The principal/designee is responsible for administering discipline for inappropriate conduct on a school bus. The disciplinary actions are guidelines to be applied according to the seriousness of the offense and to ensure that the student is provided the right to due process.

First Offense – Class I

The driver will speak with the student, possibly reassigning the student to another seat. The driver will document this, will give a copy to the principal or the principal's designee, and the student, and parents will be contacted.

Subsequent Offenses - Class I, II, and III

As appropriate - Disciplinary Action by the Principal or Designee

The driver shall document and give a written report to the principal. The principal/designee will take appropriate disciplinary action up to and including the loss of the privilege of transportation after due process.

The principal/designee will notify the parent/guardian of any warnings, disciplinary actions, or bus suspension.

No student shall be allowed to ride any Leeds City School bus if the student's riding privilege has been suspended. **If the school year ends and the student has not served his/her entire bus suspension, then the student shall finish the bus suspension at the beginning of the next school year.**

Transportation from School: Students are often involved in extracurricular activities which keep them from returning home through the school transportation system. If a parent cannot provide transportation for the student, the parent should ensure that a means of transportation is provided to the student. The school system does not take responsibility to provide transportation for students outside of the normal busing schedules. Parents should not allow students to loiter on school property after extra-

curricular activities have been completed. **Students who repeatedly loiter on school property after the conclusion of extra-curricular activities may lose the privilege to participate in those activities.**

- It is the leading cause of bacterial meningitis in children 2-18 years of age in U.S.
- Meningococcal disease can be very serious, even life-threatening in 48 hours or less.
- The two most severe and common illnesses caused by meningococcal bacteria include;
 - Meningitis - an infection of the fluid and lining around the brain and spinal cord
 - Septicemia - a bloodstream infection

What are the symptoms?

- Symptoms of meningococcal disease are similar to influenza (flu) and may include:
 - Sudden onset of a high fever
 - Headache
 - Stiff neck
 - Nausea
 - Vomiting
 - Increased sensitivity to light
 - Rash
 - Confusion
 - Severe aches and pain in the muscles, joints, chest or belly

How does meningococcal disease spread?

- Meningococcal disease is spread person to person by sharing respiratory secretions, through kissing or coughing, close or lengthy contact, and among people who share a room or live in the same household.
- Anyone can get meningococcal disease, but teens and college freshmen who live in residence halls are at increased risk.
- Some people can “carry” meningococcal bacteria in their nose and throat without getting meningococcal disease, but can still infect other people.
- Most cases of meningococcal disease are spread by people who “carry” the bacteria with no symptoms, appear to be random, and not linked to other cases.
- Meningococcal outbreaks can occur in communities, schools, colleges, prisons, and in other high risk populations.

- Teenagers who missed a dose and are heading off to college as a freshman living in a residence hall. Ask your doctor about getting the vaccine now.
- Teenagers with HIV should get three doses of MCV4.
- People 55 years of age and older should get Meningococcal polysaccharide vaccine (MPSV4).

- Anyone exposed during a meningococcal meningitis outbreak.

What are the vaccine side effects and risks?

- MCV4 is safe, but side effects can occur.
- Most side effects are mild or moderate and do not affect daily activities.
- The most common side effects in preteens and teens occur where the injection is given and may include pain, tenderness, swelling, and hardness of the skin.
- Other common side effects may include nausea, feeling a little run down, and headache.
- Some preteens and teens may also faint after getting a vaccine.
- Reactions usually last a short time and get better within a few days.

4.12

The Superintendent or designee shall develop, for the Leeds City Board of Education's approval, a plan for at-risk students addressing drop-out prevention. Components of the plans for academically at-risk students may include but are not limited to High Hopes grants/programs, Childrens' First, Title I, Title VI, Title IV Safe and Drug Free Schools programs, and other state, federal, or local initiatives.

The Board shall also maintain an alternative education program for students who, because of disciplinary problems, cannot be appropriately educated in the regular school environment or who, because of academic difficulty, have been identified as at-risk of academic failure.

The Leeds City Board of Education maintains a comprehensive career awareness program in middle schools to help students appreciate the value of a high school education and understand the consequences of not acquiring a high school diploma. The Board places strong emphasis on the utilization of school counselors for early identification of and intervention for students deemed to be at-risk.

Students will abide by the same attendance regulations outlined in their school's handbook. Students must make up any days missed while assigned to Alternative School.

Academic Requirements

Students will receive academic assignments from their home school on a regular basis. Assignments are to be completed in a reasonable time to allow teachers an opportunity to grade and document the student's progress. Students will receive their report card during the regularly scheduled dates based on the school calendar.

Transportation

Parents will be responsible for the transporting of their child to and from Alternative School.

Discipline

Students assigned to Alternative School will follow the Leeds City Schools Code of Conduct.

Students will follow the same rules and regulations of the Alternative School when assigned to In-School Suspension.

Additional Guidelines of Dress and Grooming for LCS Alternative School Students

However, students shall at all times observe all school rules governing the possession and use of medications. **All drugs shall be kept in the original container in the school office unless a physician's statement requires a medication to be kept with a student.**

In addition, parents are responsible for the repair or replacement costs of any technology devices checked out to students. School issued devices (i.e. Chromebooks, iPads, etc.) to students are subject to normal wear and tear as students use them throughout the school year. However, school issued devices to students that need repairs as the result of misuse, vandalism, user accidents, etc. will be assessed a repair cost of \$15 to \$150 depending on the nature of the repair. In addition, repair costs that exceed \$150 will be subject to the replacement cost for the device.

STUDENTS WHO WITHDRAW WITH DISCIPLINE PENDING

Any student who is subject to a disciplinary order in the City of Leeds Board of Education who withdraws from school and then seeks to re-enter school shall remain subject to such disciplinary order for any period of time remaining on such order at the time of the student's withdrawal.

SAFE AND DRUG FREE SCHOOLS

The City of Leeds Board of Education is committed to providing a learning environment free from alcohol, drugs, controlled substances and weapons. This Code of Student Conduct includes serious consequences for those who violate its provisions relating to drugs, alcohol, controlled substances and weapons. The Board's policy is "zero tolerance." The Board is sympathetic to assisting parents with the dispensing of both prescription and non-prescription/over-the-counter medications. Specific instructions concerning the dispensing of medications are available at the local schools. Failure to follow the local school directives can result in the student being disciplined under the Class III section of the Code of Student Conduct.

The possession, use, sale, attempted sale, attempted possession or any other involvement with drugs, alcohol, controlled substances or weapons will not be tolerated and will subject the violating individual to immediate disciplinary action, up to and including expulsion. Violation of Board and State policies, rules and regulations involving drugs, alcohol, controlled substances and weapons or physical harm to persons may subject the student, parent or other individual to criminal charges and a restriction from entering the public schools of the State of Alabama. In accordance with state law, the Board also strictly prohibits the possession of firearms in a Board facility, on Board property, on school buses, at Board or school sponsored functions, or at any Board or school-related activity. Any violation regarding firearms will result in involvement by appropriate law enforcement authorities and may also result in expulsion from the school system.

Drug Testing Program-Procedures

It is the responsibility of the Board of Education to safeguard the health, character, citizenship, and personality development of the pupils in its schools. We, therefore, must maintain that the use of drugs and the unlawful possession and use of alcohol and drugs is wrong and harmful. The Board recognizes that the misuse of drugs, alcohol, or steroids threatens the positive development of pupils and the welfare of the entire school community. The Leeds City Board of Education is committed to the prevention of drugs, alcohol, and steroid abuse and the rehabilitation of identified users.

The Board of Education recognizes the problem of illegal drug and alcohol use presents a continuing challenge in its schools and a clear danger to the pupil population as a whole. The district's commitment to maintaining athletics and extra-curricular programs in a safe, healthy, and secure educational environment requires a clear policy and supportive programs relating to the detection and prevention of substance use by pupils involved in athletics, extra-curricular activities, and those who drive an automobile to school.

Consistent with the U.S. Supreme Court Ruling, *Board of Education of Independent School District No.92 of Pottawatomie County et al v. Earls et al.*, 536 US 822 (2002), it is the policy of the Board of Education, namely 5.83, to direct the Superintendent and other appropriate school personnel to develop, implement, and conduct a program of school-based random drug testing of pupils in athletics, extra-curricular activities, school clubs with competitive components, and students who drive an automobile to school. Pupils in grades seven through twelve (7-12) are eligible for participation in the drug testing program. Eligibility shall apply until graduation or a drop form is completed. The principal or his/her designee at each school shall oversee the policy and procedure.

Primary emphasis in administering this program should be directed toward deterrence and remediation rather than punishment of pupils who test positive for alcohol, non-prescribed medications, illegal drugs or their metabolites. Consequences for a pupil who tests positive for illegal drugs or their metabolites will be followed according to Board regulation. The policy is NOT intended to be disciplinary or punitive in nature as indicated by existing court decisions as it relates to loss of instructional time. No pupil shall be expelled or suspended from school as a sole result of any verified positive test conducted by the school under the random drug testing grant program.

The Board of Education recognizes that the dangers of drugs and alcohol are a threat to middle school pupils as well as those in the high school. As the district is committed to a proactive approach to protecting our pupils, middle school grades, namely seven and eight (7th-8th grades) within the district will be eligible to participate in the drug testing program, provided that funding is available. The policy will apply to middle school grades as it does in the high school grades, except as noted. Priority will be given to high school grades, nine through twelve.

This procedure and its implementing regulations will supplement our existing comprehensive program of drug, alcohol, and steroid education, prevention and intervention. This program will expand our existing programs aimed at the identification and remediation of pupils involved with drugs, alcohol, or steroids. This program will be therapeutic in nature allowing for the opportunity to refer identified users of drugs, alcohol, or steroids to an appropriate counselor in the school setting.

This policy-regulation will comply with the confidentiality requirements established in federal regulation found at 42 CFR Part II.

This implementing regulation will apply to all pupils in grades 7-12 in the Leeds City Schools who participate in any athletics, extra-curricular activities, school clubs with competitive components, and pupil drivers.

Policy 5.83 and its implementing regulations will be made available to all project staff, school personnel, pupils, and parents/guardians on an annual basis. Policy 5.83 and its implementing regulations shall be available on line and in each school's office.

A vital element of this atmosphere is the Board's commitment to equal opportunities and the eradication of discriminatory practices including sexual harassment. Sexual harassment is specifically prohibited by state and federal law and instances of harassment may result in both civil and criminal liability on the part of the individual harasser as well as the Leeds City Board of Education. Sexual harassment's destructive impact wastes human potential, demoralizes students, and perpetuates the tendency toward further unacceptable behavior. For these reasons, the Leeds City Board of Education forbids harassment against any student on the basis of gender. The Board will not tolerate harassment activity by any of its students.

A. Definition – Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, and other inappropriate verbal or physical conduct of a sexual nature, wherever such harassment occurs on school property or at a school-sponsored event, that is aimed at coercing an unwilling person into a sexual relationship whether or not it involves physical contact, or that substantially interferes with a student's academic performance, or creates an intimidating, hostile, or offensive school environment.

Examples of sexual harassment may include but are not limited to the following:

1. Verbal harassment or abuse of a sexual nature;
2. Subtle pressure for sexual activity;
3. Repeated remarks to a person with sexual or demeaning implications, *e.g.*, a person's body, clothes or sexual activity;

B. Specific Prohibition - It is sexual harassment for a student to subject another student or a school employee to any unwelcome conduct of a sexual nature on school property or at a school-sponsored event. Students who engage in such conduct shall be subject to penalties as described herein.

C. Procedures - Any student who alleges sexual harassment by an employee or another student should report the harassment to the building principal, assistant principal(s), guidance counselor(s) or Superintendent's designee. Filing of a complaint or otherwise reporting sexual harassment will not affect the student's status, extracurricular activities, grade or any other assignments. The complaint should be in writing; should state the act or acts, date(s), and names of witnesses; and should be signed by the complainant.

IV. Sexual Harassment by Employees – Definition – Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors and other inappropriate verbal, non-verbal or physical conduct of a sexual nature when:

- A. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or a student's education;

- B. Submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting such individual;

- C. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or student's educational performance or creating an intimidating, hostile or offensive work or school environment.

- D. Examples of sexual harassment may include, but are not limited to, the following:

6. Display of sexually suggestive objects, pictures, or written materials.

E. Sexual harassment does not refer to occasional compliments or welcomed interactions of a socially acceptable nature.

F. Any suspected child abuse shall be reported in accordance with state law.

G. Specific Prohibition – Sexual harassment in any form is prohibited. All claims of sexual harassment will be subject to prompt and thorough investigation.

1. It is sexual harassment for an administrator or supervisor to use his/her authority to solicit sexual favors or attention from subordinates, including, but not limited to, incidents when the subordinate's failure to submit will result in adverse treatment, or when the subordinate's acquiescence will result in preferential treatment. Administrators and supervisors who either engage in sexual harassment or tolerate such conduct by other employees shall be subject to penalties.

2. It is sexual harassment for a non-administrator and non-supervisory employee to subject another such employee to any unwelcome conduct of a sexual nature. Employees who engage in such conduct shall be subject to penalties.

3. It is sexual harassment for a Leeds City Board of Education employee to use his or her authority to solicit sexual favors or attention from students. Board employees who either engage in sexual harassment or tolerate such conduct by other employees shall be subject to penalties.

H. Procedures – It is the responsibility of any employee to promptly report any occurrence of alleged sexual harassment. This policy on sexual harassment shall be communicated to all employees to inform them that a procedure exists for reporting claims of sexual harassment, that administration will promptly investigate all alleged incidents of sexual harassment, and appropriate corrective action will be taken. Complaints should be reported to the Superintendent or designee and should be in writing, state the act(s), state the date(s), state the name(s) of witnesses and be signed by the complainant.

Investigations will be conducted with discretion. The right to confidentiality, both of the complainant and of the accused, will be respected, consistent with the Board's legal obligations and with the necessity to investigate allegations of misconduct and take corrective action when this conduct has occurred. Claims found to be factually supported will be promptly acted upon. No employee or student shall be retaliated against, in any manner, for reporting conduct which is

believed to be a violation of this rule or for participating in an investigation of a possible violation of this rule.

In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, nature of the conduct, and the context in which the alleged conduct occurred will be investigated. The Superintendent or designee has the responsibility of investigating and resolving complaints of sexual harassment.

I. Penalties – Necessary disciplinary action, up to and including termination, may result if sexual harassment occurs. Any employee who makes false allegations of sexual harassment will be subject to appropriate disciplinary action, up to and including termination.

USE OF METAL DETECTORS

In view of the potential presence of weapons in our schools, the Board of Education has authorized the use of hand-held and walk-through metal detectors to check a student's person or personal effects as follows:

School officials or law enforcement officers may conduct metal detector checks of groups of individuals if the checks are done in a minimally-intrusive, nondiscriminatory manner (e.g., on all students in a randomly selected class, on every third individual entering an athletic event). Metal detector checks of groups of individuals may not be used to single out a particular individual or category of individuals. If a school official or a law enforcement officer has reasonable suspicion to believe that a particular student is in possession of an illegal or unauthorized metal-containing object or weapon, he or she may conduct a metal detector check of the student's person and personal effects.

A student's failure to permit a metal detector check as provided in this code will result in disciplinary action, including suspension.

Any student wearing a pacemaker, defibrillator, or similar device who objects to being scanned by a metal detector may so notify the appropriate school official and may be subjected to an alternate means of search.

Metal Detector Checks of Classes of Students:

When a principal decides to conduct a group metal detector check, he or she will select the class to be checked at random by blindly drawing one or more classrooms from all of the classrooms within the school. The drawing shall be conducted in the presence of another adult.

Before conducting the metal detector checks, the participating administrator or law enforcement officer will enter the classroom and explain the scanning process to students in the class, emphasizing that the checks are intended to maintain safe schools.

An administrator or officer will check each student by visually searching the student's desk and then escorting the student and his/her personal effects into the hall to proceed with the metal detector check. An adult will closely observe students at their desks to make sure that no objects are removed from pockets or personal effects.

In the hall, the administrator or officer will ask the student to remove all metal-containing objects from his or her clothing and personal effects. The administrator or officer will then scan the student without touching his or her body and scan the outside of the student's personal effects. The metal detector scan of the student's person will be done by an adult who is the same sex as the student. If the student refuses to cooperate, the administrator or officer may proceed with the check in the presence of another adult.

If the metal detector is activated during the scanning of the student's effects, the administrator or officer will open the bag, purse, etc., and look for weapons. If the metal detector is activated during the scanning of the student's person, the student will be given a second opportunity to remove any metal-containing object from his person. If the metal detector is again activated, a same-sex administrator or officer will conduct a pat-down search of the student's outer clothing in the presence of an adult witness, when feasible. If the administrator or officer feels an object on the student's person, the student will be given an opportunity to remove the object. If he or she refuses, the administrator or officer will escort the student into a private room and remove the object from the student in the presence of an adult witness of the same sex.

Metal Detector Checks of Individual Students:

Before conducting a metal detector check of an individual student, the administrator or officer must have individualized reasonable suspicion that the student is in possession of an illegal or unauthorized metal-containing object or weapon. The provisions regarding personal searches as set forth shall be followed under the circumstances.

If a properly conducted search yields a weapon or any other illegal material, it shall be turned over to the proper legal authorities for ultimate disposition.

INTERROGATIONS AND SEARCHES

5.31

Search of Property

The Leeds City Board of Education fully recognizes the implications of constitutional law in the area of student privacy. The Board is equally aware that such tangible personal property items as student desks, student lockers, and related properties are and remain the property of the Board.

The Board is charged with maintenance of such property and thus authorizes inspection for any maintenance-related reasons. With respect to opening of lockers or desks for other reasons, the following shall apply through the Leeds City School System.

Desks, lockers and other equipment at school belong to the school board and, although assigned to particular students for use, may be entered and searched by school officials whenever said school officials have reasonable belief that some object, item, article, substance or other material is contained therein which is illegal, harmful to the safety of the student himself or the student body as a whole, or significantly disruptive of or dangerous to the overall discipline of the school.

Vehicles driven by students and parked on school property are subject to search with or without the consent of students. Students shall not be allowed to park automobiles on campus until such time that the "*Acknowledgement Concerning Use of Student Parking Lots*" form has been properly completed and returned to the school. Such forms shall be maintained on file at the school.

Any items which are specifically prohibited by law, by Board policy, or by fair and reasonable local school regulations may be impounded by school officials. In such cases, students shall be given a receipt for said impounded items. Such prohibited items shall include, but not be limited to the following:

1. Any weapons;
2. Drugs of any sort;
3. Alcoholic beverages;
4. Pornographic or otherwise obscene material; or
5. Any other object, controlled substance or material which would be a violation or evidence of a violation of federal or state law, of Board policy, or of the local school's fair and reasonable regulations.

If possible, the student or students shall be contacted prior to any search of a desk or locker assigned to such student, and the desk or locker shall be opened in his/her presence. A witness from the professional staff shall be present during the inspection at all times when students cannot be contacted.

The content of this policy shall be communicated to all students and staff at the beginning of each year.

II. Search of a Student's Person

The Board authorizes teachers and administrative personnel who have reasonable belief that a student(s) is in possession of weapons, illegal drugs or other items harmful to the student or students or to the welfare of the student body to search the person of said student(s) under the following conditions:

- Any such action shall not be taken unless there is a reasonable belief of violation of law or policy which can be substantiated if necessary;
- Any such action shall not be deliberately intended to embarrass, harass, or intimidate the student(s);
- Parents/Guardians shall be notified, in writing, of all such searches of a student's person. A copy of said notice shall be retained by the principal.

The search of a student's person shall be with the knowledge, and under the supervision, of the principal or his/her designee.

Any search of a student's person shall be done privately by a teacher or administrator of the same sex as the student to be searched. At least one witness who is an administrator or teacher, also of the same sex as said student, shall be present throughout the search. A record of the search shall be made. One copy shall be filed in the principal's office. One copy shall be sent to the Superintendent of Education. Students shall be given a receipt for all items impounded.

Reasonable belief of a violation of law or policy may be based upon information from such sources as faculty members, reliable students, a law enforcement officer, visual evidence or any of these factors.

III. Detection of Illegal Drugs

The Board authorizes law enforcement agencies to make periodic, unannounced visits to any of its schools for the purpose of detecting the presence of illegal drugs. Such visits are unannounced to any one except the Superintendent and building Principal.

IV. Interrogation

A student enrolled in the Leeds City School System shall not be interrogated by any non-school authority without the knowledge of the school principal or the assistant principal. When law enforcement officers make it known that they wish to talk to a student while under the supervision of the school, the student will be informed by the principal or assistant principal that the student has three choices:

- He/she may converse by telephone with his/her parent/guardian.
- He/she may decline to talk to the officers until his/her parent/guardian is present.
- He/she may talk with the officers either in or outside the presence of a school official.

School officials will make every reasonable effort in every case to notify the parent/guardian. In those instances where a parent/guardian cannot be present within a reasonable period of time, school officials must allow interviews by law enforcement officials to proceed in the absence of the parent/guardian. Other non-school persons, with the exception of parent/guardian, shall not interview students during school hours.

No student shall be removed from the school without a warrant or petition being officially served.

DISCIPLINE OF STUDENTS WITH DISABILITIES

Students served through the special education program under the *Individuals with Disabilities Education Improvement Act* or students served through *Section 504 of the Rehabilitation Act of 1973* will comply with this Code of Student Conduct unless otherwise specified in an Individual Education Program (IEP) or 504 Accommodation Plan.

1. Prior to the administration of discipline to any student, the school official authorized to administer discipline shall ascertain, on the basis of reasonably available data, whether the student has been classified as a student with a disability within the meaning of the Individuals with Disabilities Education Improvement Act (IDEA) or Section 504 of the Rehabilitation Act of 1973.
2. Students with disabilities shall be subject to imposition of reasonable disciplinary measures in the furtherance of the school's legitimate interests in maintaining order and harmony and in providing an atmosphere conducive to learning for all students. However, disciplinary decisions affecting a student with a disability shall be made with reference to, and in consideration of, the following factors as indicated by each student's Individual Education Plan (IEP) or 504 Accommodation Plan:
 - a. the nature of the student's disabling condition and the appropriateness of the discipline contemplated in light of that condition,
 - b. the cause or causes of the disciplinary problem,
 - c. the disciplinary history of the child,
 - d. the availability and advisability of alternative disciplinary responses to traditional ones,
 - e. recommendations, if any, from teachers and appropriate exceptional education staff,
 - f. such other rules and regulations governing disciplinary practices and procedures needed to comply with state and federal laws, rules and regulations,
 - g. environmental and other circumstances ordinarily taken into account in fashioning appropriate discipline for non-student with a disability.
3. Suspension of a student with a disability (under IDEA or 504) shall conform to generally applicable substantive and procedural criteria, but shall not exceed ten school days without prior consultation with the Director of Student Services.
4. In no event shall disciplinary action resulting in permanent or indefinite cessation of educational services to a student with a disability be proposed or approved without prior consultation with the Director of Student Services.

GUIDELINES OF DRESS AND GROOMING

Parents should familiarize themselves with the dress code policy of the City of Leeds Board of Education and ensure that their children are appropriately dressed in the required attire specified in this Code of Student Conduct.

- (1) Hair must be clean and well groomed, and should not impair vision. Male students with facial hair must keep it neat and well groomed. A hairstyle, hair color (such as non-natural colors), body piercing, clothing, or other article which is disruptive to the learning environment or which identifies a student as being a member of a gang or any subversive or unlawful organization shall not be allowed.
- (2) Nose jewelry **shall not** be worn by boys or girls while they are in school. Jewelry (studs, pins, etc.) **shall not** be worn in any visible pierced areas (excluding ears) of the body, including, but not limited to, the tongue. Band-Aids may not be worn to conceal unauthorized jewelry.
- (3) Students are to wear clothing in the manner for which it is designed. No clothing shall be worn inside out, suspenders/braces shall be fastened and belts buckled. Pants must be worn at the waist. School administration may require that shirts and blouses be tucked in and coats be removed upon entering the building.
- (4) Sun dresses and backless dresses or tops shall be worn with a jacket or appropriate covering. (Jacket or covering shall not be sheer or mesh).
- (5) Bracelets, belts, and other clothing and accessories with spikes, studs, or chains are not allowed.
- (6) Jeans and other articles of clothing must be clean. In addition, any shreds or holes more than four inches above the knee cap must have leggings, shorts, etc. underneath the shreds or holes so that no skin is showing.
- (7) Grades PreK - 12 sweat pants and sweat suits appropriate to the school setting are permitted.
- (8) Articles of clothing must be appropriate for school wear. Skirts, dresses, and shorts may be no shorter than four inches above the top of the knee, except that students in grades pre K-5 may wear shorts appropriate for school. Slits in skirts must meet the four inches above the knee regulation.
- (9) Clothing shall not be worn in such a way as to be a disruption to the school environment or a safety concern.
- (10) Shoes appropriate to the school setting must be worn at all times. No beach/shower style flip-flops, house slippers, athletic "slides," or shoes equipped with skates are permitted.
- (11) Hats, sunglasses, caps, bandanas, and hoods shall not be worn at any time inside the building unless otherwise designated by the school administrator. Cases with extenuating circumstances are handled by the principal on an individual basis. (Examples of this would be children with hair loss from chemotherapy or recovering from surgical procedures having required the head to be shaved).

- (12) Underclothing must be worn and not visible. (Parents should pay particular note to underclothing that may be exposed during physical education classes.)
- (13) Tops must cover the top of the pants and reveal no bare stomach when the student is standing or when the arms are raised. The material must be such that the body is not seen through it.

Clothing with vulgar or profane language, racial or religious slurs, sexually suggestive placing, memorial shirts, or degrading language or graphics are not acceptable for school. Clothing advertising tobacco, alcohol products, weapons, and drugs are prohibited.
- (17) Book bags with rollers are not permissible in any grade level. If any student in any grade level requires a book bag with rollers, there must proper medical documentation provided to the principal.
- (18) Leggings or other tight fitting bottoms (including pants and jeans) must be appropriately covered in the front and back.

The school administrator determines what is and what is not appropriate for the school setting.

Note: You are asked to cooperate with the dress code guidelines since it can be inconvenient and upsetting for you to be sent home to change. It also upsets the educational climate of which we are all a part. This is another way you can make school a positive experience.

Any student who fails to dress appropriately will not be allowed to attend class until proper clothes can be secured. If necessary, parents will be called to bring proper clothes to school. Until proper clothing can be secured, the student will be isolated and will be responsible for all class work missed. Nonconformity to the dress code is a Class I offense.

ADDITIONAL GUIDELINES FOR COMPLIANCE WITH STUDENT DISCIPLINE ACT 2024-262

1. The student shall be given reasonable written notice of the hearing delivered personally or by mail and if requested, the hearing is held within 10 school days of the student's initial suspension.
2. At least five (5) days before the hearing, the student will be provided any evidence that may be used against him at the hearing (e.g. documents, video, written statements, etc.)
3. A written decision will be issued within five school days of the hearing that states the provision of the Code of Conduct and/or state law that the student has violated, a statement of what will be included in the official student records, and how the student can appeal the decision.
4. If requested, an electronic or written record of the hearing will be provided to the student.
5. If a student is recommended for expulsion and this disciplinary action is subsequently approved by the local Board of Education, then the student shall be notified of the procedure to appeal this decision to the local Juvenile Court. Then, the student must file a notice of appeal with the Juvenile Court within fourteen (14) days of the board's decision.

The Board recognizes that observance of applicable substantive due process entails two basic considerations: (1) any objective sought relative to student governance must be legally defensible, e.g., based upon a rational or compelling state interest; and (2) the means taken to accomplish such objective must be within the constitutional limitations applicable to the in loco parentis position of school officials within the School District. To assure compliance with these two substantive aspects, the Board has approved the following guidelines as applicable to all policies, rules, and regulations.

1. Each local school policy, rule, or regulation shall specify its purpose as it relates to accomplishment of a legally defensible objective.
2. Each local regulation shall be based on a Board policy.
3. All policies, rules, and regulations at any level shall be consistent with local, county, or city ordinances, statutes of the State of Alabama, and administrative regulations of duly authorized agencies; e.g. State Board or State Department of Education.
4. Both policies of the Board and regulations designated by local school administrators shall be specific and precise.
5. No Board policies or local school codes of conduct shall deny any student his/her constitutional rights.
6. Discharge of administrative responsibilities and exercise of authority shall recognize applicable legal parameters placed upon the in loco parentis position of school officials.
7. Authority exercised by administrators, teachers or school officials, shall be capable of withstanding close judicial scrutiny and be free from arbitrary, capricious, discriminatory, or otherwise illegal practices.
8. Students, parents, citizens, teachers, and administrators should be participants in developing local school codes of conduct.

Procedural due process within the School System shall relate primarily to the area of discipline and disciplinary measures, e.g., short-term suspension, long-term suspension, and expulsion.

The degree of procedural due process afforded in each of the above situations shall be dependent upon: (1) the gravity of the offense a student is alleged to have committed; and (2) the severity of the contemplated penalty.

Before being punished for violation of Board policies or school regulations, a student shall have the right of the following minimum due process procedures:

1. The student shall be given oral or written notice of the charges against him;
2. The evidence against the student shall be explained to him; and
3. The student shall be given an opportunity to present his own version of the facts concerning the charges.

When a student is facing possible long-term suspension (more than 10 days) or expulsion, the Board shall afford the student the following:

1. The right to an administrative hearing;
2. The right to be represented by an attorney and to present evidence on his/her behalf;
3. The opportunity to question witnesses;
4. A written record of the hearing and a written record of the decision; and,
5. The right of appeal to the Leeds City Board of Education.

A school may not unilaterally expel or cease the provision of educational services to a student with a disability whose education is governed by an individualized education plan (IEP).

Academic Honesty means performing all academic work without plagiarism, cheating, lying, tampering, stealing, and receiving unauthorized or illegitimate assistance from any other person.

Academic Dishonesty means knowingly performing, attempting to perform, or assisting any other person in performing any academic work that does not meet the standard of academic honesty. Assistance by another, when authorized by a teacher, will not be considered academically dishonest, nor will using information that is fairly attributed to the source.

Examples of Academic Dishonesty. The following acts by a student are examples of behavior constituting academic dishonesty:

Plagiarism- This means submitting for academic advancement the words, ideas, opinions or theories of another (**including artificial intelligence sources**) that are not common knowledge, without fair attribution to that other person and/or source. Unfair attribution includes, but is not limited to, a direct quotation of all or part of another's words without identifying that fact by appropriate marks, and/or merely stating the source generally in a bibliography without having noted the specified sources within the body of the work.

Unauthorized Assistance – Giving or receiving assistance in connection with any examination or other academic work that has not been authorized by a teacher. During examinations, quizzes, lab work, and similar activities, students are to assume that any assistance (such as books, notes, calculators, and conversations with others) is unauthorized unless it has been specifically authorized by the teacher. Examples of prohibited behavior include, but are not limited to, the following when not authorized:

- i. Copying, or allowing another student to copy, answers to a test or examination,
- ii. Transmitting or receiving, during a test or examination, information that is within the scope of the material to be covered by the examination (including transmission orally, in writing, by sign, electronic signal, or other manner),
- iii. Giving or receiving answers to a test or examination scheduled for a later time,
- iv. Completing for another, or allowing another to complete for you, all or part of an assignment (such as a paper, exercise, homework assignment, presentation, report, computer application, laboratory experiment, or computation),
- v. Submitting a group assignment, or allowing that assignment to be submitted, representing that the project is the work of all of the members of the group when some of the group members did not assist substantially in its preparation,
- vi. Unauthorized use of a programmable calculator or other electronic device.

Lying/Tampering/Bribery – Bribery or giving any false information in connection with the performance of any academic work or in connection with any proceeding under this policy. This includes, but is not limited to:

- i. Giving false reasons (in advance or after the fact) for failure to complete academic work. This includes, for examples, giving false excuses to a teacher for failure to attend an exam or to complete academic work,
- ii. Falsifying the results of any laboratory or experimental work or fabricating any data or information,
- iii. Altering any academic work after it has been submitted, unless such alterations are part of an assignment (such as a request of a teacher to revise the academic work),
- iv. Altering grade, lab, or attendance records,
- v. - The Consent to Test Form must be submitted to the appropriate project coordinator, principal, coach, and/or sponsor.

- Testing will only occur on pupil contact days during the academic year.
- Selection of eligible pupils for testing will be conducted in a purely and entirely random basis which will be carried out as follows:

 - 7) Alternate pupil selection will be made in the event of the pupil's absence.
 - 8) The names and/or personally identifiable information of the pupil will remain confidential.

The policy treats a pupil's test results as a confidential health record pursuant to both federal and state regulations. As such, any information obtained by the program which would identify the pupil as a drug or alcohol user may be disclosed only for those purposes and under those conditions permitted by federal regulations in accordance with 42 CFR-Part II. No testing record of any pupil will be used to initiate or substantiate any criminal charges against a pupil or to conduct any investigation of him or her, and the district will not share pupils' individual test results with law enforcement authorities.
- Any information transmitted to an approved outside agency for testing or processing will not contain any personally identifiable information of the pupil. The approved outside agency will guide the collection of specimens with federal Substance Abuse and Mental Health Services Administration (SAMHSA) standards.

- All pupils randomly selected for testing shall complete a Specimen Control Form which bears an assigned identification number. This identification number shall be the means for identifying the specimen by all laboratory personnel. Only the project coordinator and/or principal shall know the assigned number for each pupil.
- The pupil shall submit to a saliva or urine sample-screen according to the Consent to Test Form.
- The collection of the saliva or urine sample will be done in a manner that is confidential and respects the privacy of the pupil.
- The laboratory personnel will collect specimens from the selected pupil and conduct an initial on-site test on the specimen. If the specimen produced is determined to be a non-negative, the specimen will be forwarded to a licensed laboratory for confirmatory testing. Any information transmitted to a licensed laboratory for testing or processing will not contain any personally identifiable information of the pupil.
- Specimens will be kept by the testing facility for at least 90 days pending a request for retesting of a specimen, if an appeal occurs.

- When a pupil's test is non-negative, the pupil's parent will be contacted directly by the Medical Review Officer to conduct a consultation within twenty-four (24) hours following the completion of the testing process.
