"A" Honor Roll – 3.66667 and above
"B" Honor Roll – 3.00000 to 3.66666

***High school students maintaining a grade point average of 3.0 or above for the first three quarters of the school year will receive an Academic Letter Award.**

WEIGHTED COURSES

The following weighting scale will be applied to the grades received in classes identified below (based off the 4.0 grading scale): A=5, B=4, C=2

Courses which are weighted include, but may not be limited to:
Algebra II, Anatomy, Chemistry I & II, College Prep English, College Algebra, Statistics, Trigonometry or Any Dual Credit Class

GRADUATION RECOGNITION

As a non-ranking school, graduation honors will include the awarding of Summa Cum Laude (GPA 4.000 and above), Magna Cum Laude (GPA 3.8500-3.9999), and Cum Laude (GPA 3.5000-3.8499). The cum laude system was adopted to encourage students to pursue a rigorous academic program, recognizes all students achieving at high levels and exceeds the minimum standards outlined for graduation.

CLASS STATUS

Class status will be determined prior to the beginning of each school year. Any changes to class status may be made by the school administration. Freshman – first year enrolled in high school; Sophomore – second year enrolled in high school; Junior – third year enrolled in high school; Senior – must have a minimum of 17 units of credit. Junior High School students must successfully complete 5 out of 8 semester units of core solids (English, math, science, or history). Academic performance in electives will be considered if retention of the student is considered. The decision to retain will be made by the administration with input from the counselor and junior high school teachers.

INTERSCHOLASTIC ACTIVITIES AND ATHLETICS

Students may participate in interscholastic athletics, music, speech, and other contests or events approved by the administration. Any such event must be directed or guided by professional school personnel.

1. No student shall participate in an athletic practice or contest without filing a doctor's certificate of good health and parent/guardian permission.
2. In accordance with MSHSAA regulations, a student must pass at least 3.0 units of credit during the semester to participate in any extracurricular activity for the following semester. An incoming freshman who has failed more than one course the previous semester is ineligible to participate for the first semester.
3. Students displaying unacceptable citizenship behaviors may be suspended from participation.

ELIGIBILITY DETERMINATION

Students receiving an F will be considered ineligible and follow these guidelines (Dual-credit ITV courses see below*):

- Students on the ineligibility list will not be allowed to participate in any school extracurricular activities
- If the activity is part of the class grade for a co-curricular class, a student on the ineligibility list **will** be permitted to participate in the activity.
- Ineligible students may practice with teams/activities, but may not represent the team/organization in an official capacity until proof of passing at the next grading period.
- Any exceptions will require administrative approval.

FIRST OFFENSE on the F list = After grade checks, a student earning an F will be ineligible to participate in extracurricular activities, but will have a grace to raise the grade to passing. If a student can provide proof they are passing after the official grade check, with verification by administration, eligibility will be reinstated. Documentation must be provided from the classroom teacher. If a student does not show proof of a passing grade, they will remain on the ineligibility list until the next official grade check.

SECOND OFFENSE on the F list = A student will be placed on the ineligibility list for the minimum two-week period if they have a second offense of earning a non-passing grade. Following that two-week period, student grades will be re-evaluated to determine eligibility. If a student shows proof of passing at the next official grade check, eligibility will be reinstated.

*Semester grades of an F will make the student ineligible for a two week period. If the semester grade earned is a student's third F, the student will remain ineligible until the official mid-term grade check.

DROPPING/ADDING CLASSES

With parental, instructor and administrative approval, high school students may drop/add a course during the first three days of the semester. **Juniors and Seniors may add/drop ITV courses during the first three official ITV class periods. Online courses cannot be dropped beyond the three day add/drop period. See the school counselor for the add/drop form.**

Students who wish to withdraw from a course, including but not limited to any dual-credit course, must obtain written permission from their parents and the instructor of the subject. This permit must be presented to the counselor for approval and change of records. Students may drop/add a course during the first three days of the semester (ITV and dual credit courses, see above). Students who withdraw before the end of the semester for classes offering 1/2 unit of credit, and/or before the end of the year for courses offering one unit of credit, shall receive a grade of F for the course being dropped and will be recorded on the grade card or official transcript.

SCHOOL COUNSELOR

A school counselor is available for consultation at various times throughout the week. The counselor can provide the student with educational and vocational guidance as well as assist with any problems or questions concerning the student's well-being. The counselor has information concerning college entrance requirements as well as information that would assist you in selecting, preparing for, and entering an occupation.

ATTENDANCE

School attendance is an important part of each student's high school record. Regular attendance is the responsibility of each individual student and his/her parents or guardian. Since attendance is a part of the permanent record, it is very important that each student be in school every day. Missouri law currently requires that students be in attendance during the school year; therefore, the Pilot Grove C-4 Schools shall require that all students attend school days as scheduled on the official school calendar. The school will not differentiate between excused or unexcused absences; however, when absent, the following conditions shall be considered:

1. Dental or Medical Appointments: Please attempt to schedule appointments for after school hours. If this is not possible, students must notify the school before the absence and homework turned in prior to the absence.
2. Funeral of relatives: Students must notify school to prearrange the absence.
3. If it is necessary for a student to be hospitalized or out-of-school for an extended period of time due to illness, contact with school administration must be made to make arrangements to complete necessary course work.
4. Students will not receive credit with more than eight (8) absences per semester. Students missing a single class or classes in excess of eight (8) days will not be awarded credit for that class or classes. PLEASE SEE BELOW **

*Students are expected to take tests and submit homework upon returning to school from an absence. Upon returning to school from an absence, students are not expected to take tests and submit

homework that was assigned during an absence. In this situation, students will be allowed one day to make up work for each day of absence. For example, if a student is absent two days, they will be allowed two days to make up the work that was missed. Students who are suspended may make up work if requested by the student during the suspension. Any work requested after the suspension will not be given credit. The student is responsible for picking up missed assignments from the instructor.

**In order to receive credit for a class, a student must maintain a passing grade as determined by the teacher AND not miss more than 8 class periods in any one semester *(school sponsored activities are an exception)*. Students who have absences in excess of eight (8) periods in any individual class will not be awarded credit for that course. On the 9th day of absence in any class period in any one semester, the student will be required to make up the hours missed to earn credit for those classes. The administration and the student will develop a plan to gain back instructional time outside of the regular school day including, but not limited to, after school detention and Saturday detention. To receive credit, make up hours must be completed before the end of the semester in which the overage occurs. As outlined in Board Policy IKFB, seniors who do not fulfill graduation requirements:

1. Will not participate in the graduation ceremony.
2. Will begin credit recovery after the last day of the school year.
3. Must complete all necessary credit recovery work within 10 business days following the last day of school.
4. Will receive their diploma upon completion of deficit credits.

The district will contact the Children's Division of Family Services or the local prosecutor in cases where the District has a reasonable suspicion that a student's lack of attendance constitutes educational neglect on the part of the parents/guardians, or that parents/guardians are in violation of the compulsory attendance law. No such action will be taken unless other strategies and interventions have been implemented and proven effective. *Note: Students absent due to extenuating circumstances have two levels of appeal to be awarded credit. The first level will be to the Attendance Review Committee and the second level of appeal will be to the Board of Education. It is the responsibility of the student and/or parent to provide documentation of the extenuating circumstances that led to the absences.*

Parent/Guardian Responsibility in Case of Absence

When a student is absent from school with parent/guardian permission, it will be necessary for the parent/guardian to call the school office by 8:30 a.m. Our voice mail is a convenient way to contact the school and leave a message whenever a student will be absent from school. You may also directly email the secondary secretary or principal.

COLLEGE/UNIVERSITY ABSENCES

Students have one day their junior year and two days their senior year to visit a college/university campus. When visiting a college or university, the College Visitation form must be completed and returned to the High School office for the absence to be considered excused. This form is available from the School Counselor.

SCHOOL SPONSORED EVENTS

1. Any high school/middle school student who wishes to participate in or attend a school-sponsored activity conducted after the regular school hours must have been in attendance at least four periods during the day of the event and must have received an excused absence from the principal for any periods missed.

2. Any high school/middle school student who participates in or attends a school-sponsored activity during the regular school hours must be in attendance at least four periods during the previous day of the event and receive an excused absence from the principal for any periods missed.

5. Once a student leaves the activity, he/she will not be able to return.
6. Events in which students participate or attend during school hours, or as representatives of the school, but at places outside of the school, must be sponsored and supervised by professional school personnel. Rules of behavior shall be the same as any in-school activity or event.

Exceptions to this may include, but are not limited to, the funeral of a family member within the four degrees of relation as set by Board policy, any school-sponsored activity, or a doctor's visit.
8. Parents must sign a release form with the coach, sponsor, or teacher before leaving with the student from a school-sponsored event. For special circumstances, a note or personal parental contact must be made with the administration.

ILLNESS AT SCHOOL

If a student becomes ill while at school, he/she should report to the classroom teacher, then to the nurse's office. If a student is too ill to remain in school, the staff will try to notify parent(s) or other designated relatives to ensure that someone will be at the home or will pick up the student at school. STUDENT DISCIPLINE

The Student Discipline Policy is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, any aggravated circumstance of any offense, or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or Board of Education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on district property, including playgrounds, parking lots and district transportation, or at a district activity, whether on or off district property. BULLYING POLICY JFCF

General

In order to promote a safe learning environment for all students, the Pilot Grove C-4 School District prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students.

Definitions

Bullying – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft, or property damage; oral, written, or electronic communication, including name-calling, put-downs, extortion, or threats; or threats of reprisal or retaliation for reporting such acts.

Cyberbullying – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device, computer or pager. The district has jurisdiction over cyberbullying that uses the district's technology resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

School Day – A day on the school calendar when students are required to attend school.

Designated Officials

The principal of each building is hereby designated as the individual to receive and investigate reports of bullying. Each building principal shall designate at least two teachers or administrators in the building who are authorized to receive and investigate reports of bullying in the principal's absence or at the principal's discretion.

The district compliance officer appointed in policy AC will serve as the district wide antibullying coordinator. The antibullying coordinator will receive all completed investigative reports from all buildings and analyze the reports to identify any information that would inform the district's antidiscrimination and antibullying education and training programs. In addition, the antibullying coordinator will assist in making any relevant reports as required by state and federal law.

Reporting Bullying

School employees, substitutes or volunteers are expected to intervene to prevent student bullying, appropriately discipline the perpetrator, assist the victim and report the incident to the building principal or designee for further investigation and action. Any school employee, substitute or volunteer who witnesses or has firsthand knowledge of bullying of a student must report the incident to the building principal or designee as soon as possible, but no later than two school days after the incident.

Students who have been subjected to bullying, or who have witnessed or have knowledge of bullying, are encouraged to promptly report such incidents to a school employee. Any school

employee receiving such a report shall promptly transmit the report to the building principal or designee.

If the bullying incident involves students from more than one district building, the report should be made to the principal or designee of the building in which the incident took place or, if more appropriate, to the principal or designee of the building attended by the majority of the participants in the incident.

Investigation
Within two school days of receiving a report of bullying, the principal or designee will initiate an investigation of the incident. Reports that involve students from multiple buildings will be investigated cooperatively by the principals of each building involved, or those principals may request that the district's compliance officer designated in policy AC conduct the investigation. If at any time during the investigation the principal determines that the bullying involves illegal discrimination, harassment or retaliation as described in policy AC, the principal will report the incident to the compliance officer designated in that policy, who will assist in the investigation. If the alleged bullying involves a special education student or a student with disabilities, the principal will also notify the special education director.

The investigation shall be completed within ten school days of the date the report of bullying was received unless good cause exists to extend the investigation. Upon completion of the investigation, the principal will decide whether bullying or harassment occurred and, if so, whether additional discipline is warranted in accordance with the district's student discipline code. The principal will generate a written report of the investigation and findings and send a copy of the completed report to the district's antibullying coordinator. The principal or designee will document the report in the files of the victim and the alleged or actual perpetrator of bullying. All reports will be kept confidential in accordance with state and federal law.

If the incident involved allegations of illegal discrimination or harassment, the principal's decision may be appealed in accordance with policy AC. Student discipline may be appealed when allowed by law in accordance with Board policy.

The principal or other appropriate district staff will work with victims and their families to access resources and services to help them deal with any negative effects that resulted from the incident.

Consequences
Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's discipline code. Such discipline may include detention, in-school suspension, out-of-school suspension, expulsion, removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent. The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate.

Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. Such actions may include, but are not limited to, contacting the parents/guardians of the victim and the alleged perpetrator, communicating that this behavior is not allowed on district grounds or at district activities, notifying the appropriate district staff to assist the victim, and taking additional action

when appropriate, such as notifying law enforcement or social media companies of inappropriate online activity.

District employees and substitutes who violate this policy will be disciplined or terminated. The Pilot Grove C-4 School District's technology exists for the purpose of enhancing the educational opportunities and achievement of district students. The district will periodically conduct a technology census to ensure that instructional resources and equipment that support and extend the curriculum are readily available to teachers and students.
The purpose of this agreement is to facilitate access to district technology and to create a safe environment in which to use that technology.

The Pilot Grove C-4 School District operates under the procedure of not making personally identifiable student information available unless permission is granted by parents, or as is provided in the Family Educational Rights and Privacy Act of 1974 (FERPA), 20 U.S. Code 1232g. There is certain directory information, however, that the district may provide the public. This information includes a student's name; date and place of birth; parents' names; grade level; enrollment status (e.g., full-time, or part-time); participation in district-sponsored or district-recognized activities and sports; weight and height of members of athletic teams; athletic performance data; dates of attendance; degrees, honors and awards received; artwork or course work displayed by the district; schools or school districts previously attended; and photographs, videotapes, digital images, and recorded sound unless such records would be considered harmful or an invasion of privacy.

In addition to general directory information, the following information the district maintains about a personally identifiable student may be disclosed to: parent groups or booster clubs that are recognized by the Board and are created solely to work with the district, its staff, students, and parents and to raise funds for district activities; parents of other students enrolled in the same school as the student whose information is released; students enrolled in the same school as the student whose information is released; governmental entities including, but not limited to, law enforcement, the juvenile office and the Children's Division (CD) of the Department of Social Services: The student's address, telephone number and e-mail address and the parents' addresses, telephone numbers and e-mail addresses.

STUDENT RECORDS (POLICY JO)

A cumulative record is maintained for every student in the Pilot Grove C-4 School District. This record includes family data, school achievement data, attendance data, immunization records, and test data. Legal guardians have the right to inspect and review all official records directly related to their children. Schools shall provide a school employee to interpret the information within the folder to parents. Procedures for the release of information on student records shall be in accordance with the provisions of the Family Education Rights and Privacy Act (FERPA). Notification of Rights under FERPA for Elementary and Secondary Schools FERPA affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day that Pilot Grove C-4 School receives a request for access. a. Parents or eligible students who wish to inspect their child’s or their education records should submit to the school principal a written request that identifies the records they wish to inspect. The school official will decide on access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

a. Parents or eligible students who wish to ask Pilot Grove C-4 to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want to be changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

a. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be outlined in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school,

i. performs an institutional service or function for which the school would otherwise use its employees;

ii. has been determined to meet the criteria set forth in the school's or district's annual notification of FERPA rights for being a school official with a legitimate educational interest in the education records;

iii. is under the direct control of the agency or institution with respect to the use and maintenance of education records;

iv. uses education records only for authorized purposes and may not re-disclose PII from education records to other parties unless the provider has specific authorization from the school or district to do so and it is otherwise permitted by FERPA. (See 34 CFR § 99.31(a)(1)(i)); and the school or district is responsible for its protection. PII from education records disclosed under FERPA's school official exception to consent may only be used for the purposes authorized by the respective school or district. In the relationship between the provider and the school or district, providers should remember that the school or district may require transparency about how student data obtained or collected under a contract or agreement are used, plans for data security and confidentiality of PII, and evidence that the school or district retains direct control with respect to the use and maintenance of PII at all times;

v. is under the direct control of the school concerning the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in

performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Pilot Grove C-4 School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance
Office U.S. Department of Education
400 Maryland Avenue,
SW Washington, DC 20202

It is the responsibility of the legal guardian to inform the school when changes occur with respect to legal custody of a student. Generally, in written policies of the Board of Education the term “parents” shall be understood to include those who have legal custody of a child. However, for purposes of FERPA, “parent” includes a natural parent, guardian, or an individual acting as a parent in the absence of a parent or a guardian. Therefore, noncustodial parents have access to student records in the same manner a custodial parent does unless the district receives a copy of a court order restricting those rights.

A student’s records are maintained under his/her legal name until official court documentation of a name change is received by the school.
