ASBESTOS DISCLOSURE

Inspection of district facilities for asbestos has been conducted and Asbestos Management Plans have been developed in accordance with state and federal regulations. There is no need for removal of the asbestos at this time.

Every six months the buildings will be surveyed to see if the condition of the asbestos has changed. If there is a change in the condition, proper steps will be taken to ensure the safety of all students, employees, and other occupants of the buildings.

Asbestos Management Plans are available for review in the administration office.

ATTENDANCE

Attendance is important and a priority at Tuttle Middle School. Chronic absenteeism is linked to diminished success both in school and beyond. Our state adopted chronic absenteeism as the non academic indicator on our School Report Card A-F system. The state compulsory attendance law requires a student to be in attendance at least 90% of the time to earn credit for a course. With the adoption of the chronic absenteeism indicator, all absences are included in the calculation.

A semester at Tuttle is generally around 90 days. As you can see, for attendance to fall above 90%, a student can have no more than 8 absences for the semester to receive credit for a course. While a student, according to district policy, is allowed to miss a maximum of 6 absences per block, the total absences must not be more than 8 for the semester to receive credit for a course. Our attendance practice will be as follows:

1. Students must be in attendance a minimum of 90% (ninety percent) of the time to receive credit. We will determine whether a student will receive no credit at the end of each block.
2. The Tuttle Middle School Attendance Committee will take into consideration the following documented absence reasons:
    a. Documented illness/injury with a note from a physician's office.
    b. Documented doctor/dentist appointments.
    c. Death of immediate family.
    d. Documented court appearances.

Attendance codes that count toward the maximum number of absences per block: **AE, AU, ATR**		
ACV Absent VoTech	**DVA** Distance Virtual	**OSS** Out-of-School Suspension
AD Absent Documented	**DVAP** Distance Virtual Present	**TNV** Tardy Not Parent Verified

ATR Absent Truant	**EZ** No Absence Counted	**VAV** TCLA Absent Verified

Parents are required to call the office at 405-381-2062 to report absences.. Please leave a message if you should receive a voicemail as there are times during the school day where we experience a high volume of calls.

If you are planning on taking a vacation that will exceed the maximum number of days, you are required to to contact the Middle School principal or counselor to approve the extended leave. Planned absences are regularly approved in instances where students are in good academic standing and have a good attendance record, however it must be approved prior to the vacation.

Students with fever or vomiting should not be sent to school. Students with fever and vomiting will be sent home. A student must be fever and vomit free for 24 hours before returning to school.

ATTENDANCE POLICY / UNEXCUSED ABSENCES

An unexcused absence is any absence that is recorded without parent contact with the secretary. A phone call or note from the parent is expected within 2 days of the absence or the absence is subject to become unexcused without further notice. Parents are encouraged to call prior to the students' absence. **To record an absence call 381-2062.**

BULLYING/HARASSMENT/BICKERING/AGITATION

It is the policy of this school district that bullying of students by other students, personnel, or the public will not be tolerated. Students are expected to be civil, polite, and fully engaged in the learning process. Students who act inappropriately are not fully engaged in the learning process. This policy is in effect while the students are on school grounds, in school vehicles, at designated bus stops, at school-sponsored activities, or at school-sanctioned events, and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district. Bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation, or bullying at school.

As used in the School Safety and Bullying Prevention Act, "bullying" means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student. Such behavior is specifically prohibited.

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with students.
2. Conference with parents.
3. In-school suspension.
4. Detention.
5. Referral to counselor.
6. Behavioral contract.
7. Changing student's seat assignment or class assignment.
8. Requiring a student to make financial restitution for damaged property.
9. Requiring a student to clean or straighten items or facilities damaged by the student's behavior.
10. Restriction of privileges.
11. Involvement of local authorities.
12. Referring students to appropriate social agencies.
13. Suspension.
14. Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in school-wide incentive days or class trips.

Harassment set forth above may include, but is not limited to, the following:

1. Verbal, physical, or written harassment or abuse
2. Repeated remarks of a demeaning nature;
3. Implied or explicit threats concerning one's grades, achievements, etc.;
4. Demeaning jokes, stories, or activities directed at the student;
5. Unwelcome physical contact.

The superintendent shall develop procedures providing for:

1. Prompt investigation of allegations of harassment;
2. The expeditious correction of the conditions causing such harassment;
3. Establishment of adequate measures to provide confidentiality in the complaint process;
4. Initiation of appropriate corrective actions;
5. Identification and enactment of methods to prevent reoccurrence
6. A process where the provisions of this policy are disseminated in writing annually to all staff and students.

<u>PROHIBITING HARASSMENT, INTIMIDATION AND BULLYING(REGULATION)</u>

The Tuttle Public Schools' student conduct code prohibits bullying. This regulation further explains the negative effects of that behavior and seeks to promote strategies for prevention.

<u>Statement of Board Purpose in Adopting Policy</u>

The board of education recognizes that bullying of students causes serious educational and personal problems, both for the student-victim and the initiator of the bullying. The board observes that this conduct:

1. Has been shown by national and state studies to have a substantial adverse effect upon school district operations, the safety of students and faculty, and the educational system at large.
2. Substantially disrupts school operations by interfering with the district's mission to instruct students in an atmosphere free from fear, is disruptive of school efforts to encourage students to remain in school until graduation, and is just as disruptive of the district's efforts to prepare students for productive lives in the community as they become adults.
3. Substantially disrupts healthy student behavior and thereby academic achievement. Research indicates that healthy student behavior results in increased student academic achievement. Improvement in student behavior through the prevention or minimization of intimidation, harassment, and bullying towards student-victims simultaneously supports the district's primary and substantial interest in operating schools that foster and promote academic achievement.
4. Substantially interferes with school compliance with federal law that seeks to maximize the mainstreaming of students with disabilities and hinders compliance with Individual Educational Programs containing objectives to increase the socialization of students with disabilities. Targets of bullying are often students with known physical or mental disabilities who, as a result, are perceived by bullies as easy targets for bullying actions.
5. Substantially interferes with the district's mission to advance the social skills and social and emotional well-being of students. Targets of intimidation, harassment, and bullying are often "passive-target" students who already are lacking in social skills because they tend to be extremely sensitive, shy, display insecurity, anxiety and/or distress; may have experienced a traumatic event; may try to use gifts, toys, money, or class assignments or performance bribes to protect themselves from intimidation, harassment, or bullying; are often small for their age and feel vulnerable to bullying acts; and/or may resort to carrying weapons to school for self-protection. Passive-target victims who have been harassed and demeaned by the behavior of bullies often respond by striving to obtain power over others by becoming bullies themselves, and are specifically prone to develop into students who eventually inflict serious physical harm on other students, or, in an effort to gain power over their life or situation, commit suicide.
6. Substantially disrupts school operations by increasing violent acts committed against fellow students. Violence, in this context, is frequently accompanied by criminal acts.
7. Substantially disrupts school operations by interfering with the reasonable expectations of other students that they can feel secure at school and not be subjected to frightening acts or be the victim of mistreatment resulting from bullying behavior.
8. Bullying often involves expressive gestures, speech, physical acts that are sexually suggestive, lewd, vulgar, profane, or offensive to the education or social mission of this school district, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also disrupts and interferes with the student-victim or bystander's ability to concentrate, retain instruction, and study or to operate free from the effects of bullying. This results in a reluctance or resistance to attend school.

<u>Definition of Terms</u>

1. Statutory definition of harassment, intimidation, and bullying: 70 O.S. §24-100.3(c) of the School Safety and Bullying Prevention Act defines the terms "bullying," as including, but not limited to a pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication, directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student that a reasonable person should recognize will:
    A. Harm another student;
    B. Damage another student's property;

C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or
D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

The "Reasonable Person" Standard In determining what a "reasonable person" should recognize as an act placing a student in "reasonable" fear of harm, staff will determine "reasonableness" not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self-esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.

3. General Display of Bullying Acts

Bullying, for purposes of this section of the regulation, includes harassment and intimidation, and vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts by students have been described in several different categories.

A. Physical Bullying includes harm or threatened harm to another's body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.
B. Emotional Bullying includes the intentional infliction of harm to another's self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.
C. Social Bullying includes harm to another's group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student; the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities; the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to contempt or ridicule or deprives the victim of the confidence and respect of student peers; or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.
D. Sexual Bullying includes harm to another resulting from, but not limited to, making unwelcome sexual comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would

reasonably be interpreted as a serious threat to force the victim to commit sexual acts or to sexually assault the victim when considering the factual circumstances in which a threat was made and the reaction of the intended victim; off-campus dating violence by a student that adversely affects the victim's school performance or behavior, attendance, participation in school functions or extracurricular activities, or makes the victim fearful at school of the assaulting bully; or the commission of sexual assault, rape, or homicide. Such conduct may also constitute sexual harassment – also prohibited by Tuttle Public Schools.

Procedures Applicable to the Understanding of and Prevention of Bullying of Students

1. Student and Staff Education and Training
   All staff will be provided with a copy of the district's policy on prevention of bullying of students. All students will be provided a summary of the policy and notice that a copy of the entire policy is available on request. Tuttle Public Schools is committed to providing appropriate and relevant training to staff regarding identification of behavior constituting bullying of students and the prevention and management of such conduct.

   Students, like staff members, shall participate in an annual education program that sets out expectations for student behavior and emphasizes an understanding of bullying of students, the district's prohibition of such conduct, and the reasons why the conduct is destructive, unacceptable, and will lead to discipline. Students shall also be informed of the consequences of bullying conduct toward their peers.

2. Tuttle Public Schools' Safe School Committee
   The safe school committee has the responsibility of studying and making recommendations regarding unsafe conditions, strategies for students to avoid harm at school, student victimization, crime prevention, school violence, and other issues that interfere with and adversely affect the maintenance of safe schools.

   With respect to student harassment, intimidation, and bullying, the safe school committee shall consider and make recommendations regarding professional staff development needs of faculty and other staff related to methods to decrease student harassment, intimidation, and bullying and understanding and identifying bullying behaviors. In addition, the committee shall make recommendations regarding: identification of methods to encourage the involvement of the community and students in addressing conduct involving bullying; methods to enhance relationships between students and school staff in order to strengthen communication; and fashioning of problem-solving teams that include counselors and/or school psychologists

   In accomplishing its objectives, the committee shall review traditional and accepted harassment, intimidation, and bullying prevention programs utilized by other states, state agencies, or school districts. (See also the BDFC policy.)

Student Reporting

Students are encouraged to inform school personnel if they are the victim of or a witness to acts of harassment, intimidation, or bullying.

Staff Reporting

An important duty of the staff is to report acts or behavior that the employee witnesses that appear to constitute harassing, intimidating, or bullying. Employees, whether certified or non-certified, shall encourage students who tell them about acts that may constitute intimidation, harassment, or bullying to

complete a report form. For young students, staff members given that information will need to provide direct assistance to the student.

Staff members who witness such events are to complete reports and to submit them to the building principal. Staff members who hear of incidents that may, in the staff member's judgment, constitute harassment, intimidation, or bullying, are to report all relevant information to the building principal.

Parental Responsibilities

Parents/guardians will be informed in writing of the district's program to stop bullying. An administrative response to bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

1. Report bullying when it occurs;
2. Take advantage of opportunities to talk to their children about bullying;
3. Inform the school immediately if they think their child is being bullied or is bullying other students;
4. Watch for symptoms that their child may be a victim of bullying and report those symptoms;
5. Cooperate fully with school personnel in identifying and resolving incidents.

Discipline of Students

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance:

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract
7. Changing student's seat assignment or class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities damaged by the student's

Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, school-wide incentive days, and class trips.

The above consequences will be imposed for any person who commits an act of bullying as well as any person found to have falsely accused another as a means of retaliation, reprisal, or as a means of bullying. Strategies will be created to provide counseling or referral to appropriate services, including guidance, academic intervention, and other protection for students, both targets and perpetrators, and family members affected by bullying, as necessary.

DIGITAL COMMUNICATION

Employee-Student Digital Communication FAQ

House Bill 3958, approved by Oklahoma legislators and signed by Gov. Kevin Stitt this spring, requires school personnel engaging in electronic or digital communication with an individual student to include the student's parent or guardian in the electronic or digital communication, unless the communication is on a school-approved platform and related to school and academics. The law also requires school districts to provide professional development to employees using training materials provided by the State Department of Education, which have not yet been released. Several elements of the law remain unclear, and OSSBA is requesting additional information from SDE that will be shared with members as soon as it is available.

DIRECTORY INFORMATION

The Tuttle School District proposes to designate the following personally identifiable information contained in a students education record as "directory information". If the release of information is prohibited, the student's information cannot be sent to the newspaper for awards or be in the yearbook.

1. The student's name
2. The names of the student's parents
   *(Requested by Colleges, CVTC and Military Branches for mailing documents)
3. The student's date of birth

The above directory information will not be released if the parent/guardian or student (if he/she is eighteen (18) years or older) notifies Tuttle Public Schools that any or all of the designated information is not to be released. Tuttle Schools should be notified within a reasonable amount of time (three to five days) after this public notice has been given.

Tuttle Middle School can release Directory Information in local newspapers, social media accounts or websites. If a parent/guardian or student (if he/she is eighteen (18) years or older) prohibits the release of information, the school must be notified in writing by September 4th and/or complete the annual update in the parent portal of the student information system.

DISCIPLINARY ACTIONS

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary actions, teachers and

administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultations with parents or to the school counselor to determine the most effective disciplinary measure. Students involved in on-going patterns of harassment, intimidation, or bullying will participate in activities to recognize, prevent, and intervene in the behavior. In all cases of disruptive behavior the penalties in each disciplinary action should always be commensurate with the problem.

In considering alternatives for disciplinary actions, the faculty/administration of the school will consider the following:

1. Conference with student
2. In-school suspension
3. Detention
4. Referral to counselor
5. Behavior contract
6. Conference with parents
7. Changing student's seat assignment or class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities
10. Restriction of privileges
11. Involvement of civil authorities
12. Referring student to appropriate social agency
13. Suspension
14. Other disciplinary action as required and/or indicated by circumstances.

DRESS CODE

The student dress code is based upon the premise of recognizing fashion without sacrificing decency, safety, and general good taste. It is the intent to permit students to dress according to current fashions and at the same time restrict extremes and indecency in grooming which will distract from the main purpose of the educational program. Any attire, which disrupts the educational process, is prohibited. The student dress code applies at school, on school vehicles, at school-sponsored or authorized activities. Students who are dressed inappropriately will be asked to change and may be sent home and counted absent from any classes they miss.

The principal's discretion will judge questionable attire. Violations may result in disciplinary action. The following is a general guide regarding proper dress. Inappropriate attire including but not limited to:

1. Holes that show skin are not acceptable above the approved short length.

Exceptions to this policy are at the discretion of the building principal as there may be clothing, hairstyles, or accessories not specifically addressed herein that are so disruptive to the educational process that the principal may need to take immediate corrective action.

This appeal shall be made in writing within forty-eight (48) hours of the principal's decision. The hearing officer will hear the appeal within five (5) school days after proper notification.

Step 3: If the student and parents are not satisfied with the decision of the hearing officer, an appeal may be made to the Board of Education in the following manner:

FERPA/STUDENT RECORDS POLICY

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal Law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

The Uninterrupted Scholars Act (Public Law 112-278) was enacted on January 14, 2013. The Act amends FERPA to permit educational agencies and institutions to disclose a student's education records, without parental consent, to a caseworker or other representative of a State or local child welfare agency or tribal organization authorized to access a student's case plan "when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student."

FERPA gives parents/guardians certain rights with respect to their children's education records. Education records are defined as all "materials maintained by the school, district, district employee or district agents, which is directly related to a student and maintained by the district or a party acting for the district." Records include, but are not limited to, documents, tape recordings, and video recordings. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

Parents/guardians or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents/guardians or eligible students to review the records. Schools may charge a fee for copies.

ANNUAL NOTICE OF FERPA RIGHTS

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. The right to inspect and review the student's education records within forty-five (45) days of the day the District receives a request for access. Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents of eligible students may ask the District to amend records that they believe to be inaccurate or misleading. They should write to the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator,

supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or, a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his/her professional responsibility.

4. Tuttle Middle School will require an eligible student that is 18 years of age to complete a FERPA waiver in order to give permission to parent/guardian, family member or person of their choice the right to their records This will allow the designated person to pick up a transcript in the event the Alumni is not able to. This release will be kept on file at Tuttle Middle School and will be noted in our student information system.

5. Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties under the following conditions (34 CFR§99.31):

- School officials with legitimate educational interest;
- Other schools to which a student is transferring;
- Specified officials for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for or on behalf of the school;
- Accrediting organizations;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies; and
- State and local authorities, within a juvenile justice system, pursuant to specific State Law.

6. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA are:

Family and Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, S.W.
Washington, D.C. 20202-4605

In case a parent of a student, a student, or former student 18 years old, or a citizen of the Tuttle School District believes that the district is violating the Family Education Rights and Privacy Act (FERPA), that person has a right to file a complaint with the U.S. Department of Education. The address is:

The Family Educational Rights and Privacy Act Office
U.S. Department of Education
Room 4511, Switzer Building
Washington, D.C. 20202
(202) 732-2058

Students are permitted to bring a clear water bottle with a secure lid. (absolutely no Stanley cups or bottles in which contents cannot be seen) NO drink other than water in the clear bottle may be brought to any class. You may bring your lunch to school if you wish, but it is to be kept in your locker until lunchtime. The middle school does provide students with several microwaves in which they can heat up their meal. They are responsible for knowing how to operate and clean up spills themselves.

Oklahoma Honor Society - The top ten percent (10%) of the *middle school enrollment* are eligible for membership in the Oklahoma Honor Society.

IN SCHOOL SUSPENSION (ISS)

The purpose of this school is to provide students with a program of in-school alternative education, which will serve to modify deviant student behavior. ISS prevents short-term out-of-school suspensions. Students receive credit for their attendance and work while in ISS. They are able to keep pace with their classes because they are doing the same assignments.

INTERNET AND OTHER COMPUTER NETWORKS:

ACCEPTABLE USE AND INTERNET SAFETY POLICY:

The Tuttle Public Schools district is pleased to make available to students and staff access to interconnected computer systems within the district and to the Internet, the worldwide network that provides access to significant educational materials and opportunities.

In order for the school district to ensure the continued accessibility of its computer network and the Internet, all students and staff must take responsibility for appropriate and lawful use of this access. Students and staff must understand that one person's misuse of the network and Internet access may jeopardize the ability of all students and staff to enjoy such access. While the school's teachers and other staff will make reasonable efforts to supervise student use of network and Internet access, they must have student cooperation in exercising and promoting responsible use of this access.

Below is the Acceptable Use and Internet Safety Policy ("policy") of the school district and the Data Acquisition Site that provides Internet access to the school district. Upon reviewing, signing, and returning this policy as directed, each student and staff member agrees to follow the policy and will be given the opportunity to enjoy Internet access at school. If a student is under 18 years of age, he or she must have his or her parent or guardian read and sign the policy. The school district shall not provide access to any student who, if 18 or older, fails to sign and submit the policy to the school as directed or, if under 18, does not return the policy as directed with the signatures of the student and his/her parent or guardian.

Listed below are the provisions of the agreement regarding computer network and Internet use. The district has designated a staff member to whom users may direct questions. If any user violates this policy, the user's access will be denied or withdrawn, and the user may be subject to additional disciplinary action.

Personal Responsibility

By signing this policy, the user agrees not only to follow the rules in this policy, but also to report any misuse of the network to the person designated by the school for such reporting. Misuse means any violations of this policy or any other use that is not authorized under this policy, and having the effect of harming another or his or her property.

Term of the Permitted Use

A student or staff member who submits to the school, as directed, a properly signed policy and follows the policy to which she or he has agreed will have computer network and Internet access during the course of the school year only. Students and staff will be asked to sign a new policy each year during which they are students or staff members in the school district before they are given an access account.

Acceptable Uses

1. **Educational Purposes Only.** The school district is providing access to its computer networks and the Internet for educational purposes *only*. If the user has any doubt about whether a contemplated activity is educational, the user may consult with the person(s) designated by the school to help decide if a use is appropriate.
2. **Unacceptable Uses of Network.** Among the uses that are considered unacceptable and which constitute a violation of this policy are the following:
    A. Uses that violate the law or encourage others to violate the law. Do not transmit offensive or harassing messages; offer for sale or use any substance the possession or use of which is prohibited by the school district's student discipline policy; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or computers of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are

not marked with the copyright symbol, the user should assume that all materials are protected unless there is explicit permission on the materials to use them.

B. Uses that cause harm to others or damage to their property. For example, do not engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than the user is communicating or otherwise using his/her access to the network or the Internet; upload a worm, virus, "Trojan horse," "time bomb," or other harmful form of programming or vandalism; participate in "hacking" activities or any form of unauthorized access to other computers, networks, or information systems.

C. Uses that jeopardize the security of student and staff access and of the computer network or other networks on the Internet. For example, do not disclose or share your password with others; do not impersonate another user.

D. Uses that are commercial transactions. Students, staff, and other users may not sell or buy anything over the Internet. The user should not give others private information about the user or others, including credit card numbers and social security numbers.

3. **Netiquette.** All users must abide by rules of network etiquette, which include the following:

   A. Be polite. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent, or threatening language.

   B. Avoid language and uses that may be offensive to other users. Do not use access to make, distribute, or redistribute jokes, stories, or other material that is based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, or sexual orientation.

   C. Do not assume that a sender of email is giving his or her permission for the user to forward or redistribute the message to third parties or to give his/her email address to third parties. This should be done only with permission or when the user knows that the individual would have no objection.

   D. Be considerate when sending attachments with email (where this is permitted). Be sure that the file is not too large to be accommodated by the recipient's system and is in a format that the recipient can open.

4. ***Cyber Bullying*** - Cyber bullying is when one or more people intentionally harm, harass, intimidate, or reject another person using technology. This includes but is not limited to the following:

   - Sending mean or threatening messages via Social Media, Email, IM (instant messaging), or Text Messages.
   - Spreading rumors about others through Social Media, Email, IM, or Text Messages.
   - Creating a Web site or other social-networking account that targets another student or other person(s).
   - Sharing fake or embarrassing photos or videos of someone with others via a cellphone or the Web.
   - Stealing another person's login and password to send mean or embarrassing

messages from his or her account.

It shall be the policy of Tuttle Public Schools that cyber bullying will not be tolerated under any circumstances. A student caught violating this policy will lose computer privileges and these actions may result in further disciplinary action including suspension or expulsion from school of the student(s) involved. In addition, violators and their parents/guardians may be subject to civil and/or criminal penalties as specified by Oklahoma and/or federal law.

Internet Safety

1. **General Warning; Individual Responsibility of Parents and Users.** All student users and their parents/guardians are advised that access to the electronic network may include the potential for access to materials inappropriate for school-aged students. Every user must take responsibility for his or her use of the computer network and Internet and stay away from these sites. Parents of minors are the best guides regarding materials to shun. If a student or staff member finds that other users are visiting offensive or harmful sites, he or she should report such use to the appropriate school designee.

2. **Personal Safety.** Be safe. In using the computer network and Internet, the user should not reveal personal information such as the user's home address or telephone number. The user should not use his/her real last name or any other information which might allow a person to locate the user without first obtaining the permission of a supervising teacher. Do not arrange a face-to-face meeting with someone "met" on the computer network or Internet without a parent's permission (if the user is under 18). Regardless of the user's age, the user should never agree to meet a person the user has only communicated with on the Internet in a secluded place or in a private setting.
3. **"Hacking" and Other Illegal Activities.** It is a violation of this policy to use the school's computer network or the Internet to gain unauthorized access to other computers or computer systems, or to attempt to gain such unauthorized access. Any use which violates state or federal law relating to copyright, trade secrets, the distribution of obscene or pornographic materials, or which violates any other applicable law or municipal ordinance, is strictly prohibited.
4. **Confidentiality of Student Information.** Personally identifiable information concerning students may not be disclosed or used in any way on the Internet without the permission of a parent or guardian or, if the student is 18 or over, the permission of the student. Users should never give out private or confidential information about themselves or others on the Internet, particularly credit card numbers and Social Security numbers. A supervising teacher or administrator may authorize the release of directory information, as defined by law, for internal administrative purposes or approved educational projects and activities.
5. **Active Restriction Measures.** The school, either by itself or in combination with the Data Acquisition Site providing Internet access, will utilize filtering software or other technologies to prevent users from accessing visual depictions that are (1) obscene, (2) pornographic, or (3) harmful to minors. We are using FortiGuard for our technology protection measure to ensure that users are not accessing such depictions or any other material that is inappropriate for minors.
   Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes

of bona fide research or other educational projects being conducted by students age 17 and older.
The term "harmful to minors" is defined by the Communications Act of 1934 (47 USC Section 254 [h][7]), as meaning any picture, image, graphic image file, or other visual depiction that
- taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

6. All students will be educated about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response.

Privacy

Network and Internet access is provided as a tool for the user's education. The school district reserves the right to monitor, inspect, copy, review, and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the school district and no user shall have any expectation of privacy regarding such materials.

Failure To Follow Policy

The user's use of the computer network and Internet is a privilege, not a right. A user who violates this policy, shall at a minimum, have his or her access to the computer network and Internet terminated, which the school district may refuse to reinstate for the remainder of the student's enrollment or the staff member's employment in the school district. A user violates this policy by his or her own action or by failing to report any violations by other users that come to the attention of the user. Further, a user violates this policy if he or she permits another to use his or her account or password to access the computer network and Internet, including any user whose access has been denied or terminated. The school district may also take other disciplinary action in such circumstances.

Warranties/Indemnification

The school district makes no warranties of any kind, either express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this policy. It shall not be responsible for any claims, losses, damages, or costs (including attorney's fees) of any kind suffered, directly or indirectly, by any user (or his or her parents or guardian) arising out of the user's use of its computer networks or the Internet under this policy. By signing this policy, users are taking full responsibility for their own use, and the user who is 18 or older or the parent(s) or guardian(s) of a minor student are agreeing to indemnify and hold the school, the school district, the Data Acquisition Site that provides the computer and Internet access opportunity to the school district and all of their administrators, teachers, and staff harmless from any and all loss, costs, claims, or damages resulting from the user's access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user. The user or the parent(s) or guardian(s) of a minor student agree to cooperate with the school in the event of the school's initiating an investigation of a user's use of his or her access to its computer network and the Internet, whether that use is on a school computer or on another computer outside the school district's network.

Updates
Users, and if appropriate, their parents/guardians, may be asked from time to time to provide new or additional registration and account information or to sign a new policy reflecting developments in the law or technology or changes in district policy. Such information must be provided by the user (or his/her parents or guardian) or such new policy must be signed if the user wishes to continue to receive service. If after account information is provided, some or all of the information changes, the user must notify the person designated by the school to receive such information.

LOCKERS
Lockers are not to be shared with anyone. Students are responsible for keeping the assigned locker neat and clean. Any vandalism, including stickers and writing on lockers, is prohibited. Violations will result in paying replacement costs and administrative disciplinary action. Students shall have no reasonable expectation for privacy rights from school officials in regard to school lockers, desks or other school property.

If a student places a lock on their assigned locker, the combination must be left with the front office. .

MAKE-UP/ABSENT WORK
Students, upon returning from an absence will have one day for each day missed to make up work. IT IS THE RESPONSIBILITY OF EACH STUDENT TO MAKE ARRANGEMENTS FOR MAKE-UP WORK. Extensions may be granted by the teacher. Pre-dated assignments are due on the date assigned. For an extended illness, parents may request work be sent home by calling (405)381-2062. We ask that 24 hour notice be given so that work may be collected.

PARENT TEACHER CONFERENCES
Parent Teacher conferences will be held twice a year, once during the fall and again in the spring. We encourage parents to come and meet with teachers about your child's progress.

RESIDENCY VERIFICATION
Student(s) are required to provide (2) proofs of residency each school year to verify residency within the Tuttle School District. This information is required prior to the student receiving their schedule. The information has to be (2) current bills listing the guardian's name and service address or service description address. The mailing coupon, disconnection notices or cut-off notices will not be accepted. This will be submitted in the Annual Update each summer.

SCHEDULE CHANGES
Schedule changes are made on a case by case basis with administrator discretion. Class sizes, openings, test scores, and grades will all factor into decisions in making a schedule change.

Students desiring to make a change in their class schedule must do so with the guidance of their assigned counselor. No changes in schedule will be made after the second week of school except at the request of the teacher or the counselor along with the approval of the principal.

- 1st offense: Student will be assigned detention.
- 2nd offense: Device will not be allowed for the remainder of the semester.
