PREFACE

The following policies of Unified School District (USD) 413 are the result of combined effort of the staff at the Kansas Association of School Boards, the Board of Education, and district staff.

KASB has written the policy models and integrated appropriate policies and procedures being used locally. Upon the completion of the first draft of this manual, KASB staff consulted with the board and/or selected district staff members to arrive at the final draft. This final draft was then adopted by the board.

Understanding the Policy System

Policies: principles adopted by the school board to chart a course of action. They tell what is wanted by whom and may include also why and how much. They should be broad enough to provide the administration with flexibility and guidance in handling the day-to-day issues which arise they also should be narrow enough to give the administration clear guidance.

This philosophy was incorporated into the thinking that produced the model and guided the board and the district's staff in developing the final, adopted policies. A binder contains these thirteen sections of policies. These sections are:

- **A -- SCHOOL DISTRICT ORGANIZATION**
- **B -- SCHOOL BOARD OPERATIONS**
- **C -- GENERAL SCHOOL ADMINISTRATION**
- **D -- FISCAL MANAGEMENT**
- **E -- BUSINESS MANAGEMENT**

- **F -- FACILITY EXPANSION PROGRAM**
- **G -- PERSONNEL (Licensed and Non - Licensed)**
- **H -- NEGOTIATIONS**
- **I -- INSTRUCTIONAL PROGRAM**
- **J -- STUDENTS**
- **K -- GENERAL PUBLIC RELATIONS**
- **L -- INTERORGANIZATIONAL RELATIONS**
- **M-- RELATIONS WITH OTHER EDUCATION AGENCIES**

The purpose of policy is to guide the board, administrators, and other staff in operation of the district.

The Index

The index is designed to help the user find the subject described in the appropriate policy.

When Using This Manual

Proper use of this manual includes, looking up the subject matter in the index or tables of contents at the front of each section and proceeding to the policy section first. Proceed to the alpha code in the appropriate section and read the policy. Once this is done, cross- references should also be read if the desired subject is cross- referenced to any other policy.

State Law and Negotiated Contracts

Policies do not contain any statutory language or citations or negotiated contract language unless necessary. They exist in separate documents which should be consulted as needed. If there is doubt about the subject being considered, guidance should be sought from the superintendent or another administrative staff member.

Public Records **CN**

(See BE, CNA, ECA, HAI, IDAE, II, JGGA, and JR et seq.)

The board designates the superintendent as its Freedom of Information Officer. The Freedom of Information Officer shall have the authority to establish and maintain a system of records in accordance with the Kansas Open Records Act and other applicable laws. The board further assigns clerk to handle requests for records and to serve as the custodian of the records. The custodian shall prominently display and distribute or otherwise make available to the public a brochure concerning record access in the form prescribed by the local Freedom of Information Officer.

Types of Records

A public record means any recorded information, regardless of form or characteristics, which is made, maintained, kept by, or in the possession of the district, including those exhibited at public board meetings.

Central Office Records

Records maintained by the superintendent shall include, but may not be limited to, the following: financial, personnel, and property (both real and personal) owned by the district.

Building Records

Records maintained by the building principals shall include, but may not be limited to, the following: activity funds, student records, and personnel records. (See JR et seq.)

Public Access

All records, except those subject to exception by the Kansas Open Records Act, shall be open to inspection by the general public during regular office hours of any school or the district office. The superintendent will establish procedures for making records available on normal business days when district offices are closed. The district may charge and require advance payment of a fee for providing access to or furnishing copies of public records.

Requests for access to open records shall be made in writing to an official custodian of district records. The official custodian shall examine each request to determine whether the record requested is an open record or is subject to an exception of the Kansas Open Records Act that would allow the record to remain closed. The custodian may also refuse to provide access to a public record or to permit inspection if a request places an unreasonable burden in producing public records or if the custodian has reason to believe that repeated requests are intended to disrupt other essential functions of the district. The custodian shall either grant or deny each request.

If the custodian does not grant the request, the person requesting the record shall receive a written explanation of the reason for the denial within three days of the request, if an explanation is requested. If the requester disagrees with the explanation, the freedom of information officer shall settle the dispute.

Each request for access to a public record shall be acted upon as soon as possible, but not later than the end of the third business day following the date that the request is received. If the request is not acted on immediately, the custodian shall inform the requester, within the three-day window, when and where the open record will be made available.

Each custodian shall file all requests and their dispositions in the appropriate office and make reports as requested by the superintendent or the board.

Copies of Records

Copies of open records shall be available upon written request, unless otherwise specified in Kansas or federal law. Requestors may only make abstracts or obtain copies of public records to which they have access under the Kansas Open Records Act. The district shall not be required to provide copies of radio or recording tapes or discs, video tapes, films, pictures, slides, graphics, illustrations, or similar audio or visual items or devices, unless such items or devices were shown or played during open session of a district board meeting. Similarly, the district shall not be required to provide such items or devices which are copyrighted by a person other than the board. Furthermore, nothing in the Kansas Open Records Act requires the district to electronically make copies available by allowing a requestor to obtain copies by inserting, connecting, or otherwise attaching an electronic device provided by the requestor to the computer or other electronic device of the district.

Advance payment of the expense of providing access to or furnishing copies of open records shall be borne by the requestor. Under no circumstances shall the documents be allowed out of their usual building location without approval of the official custodian.

The board may prescribe reasonable fees for providing access to or furnishing copies of public records, subject to the following:

- In the case of fees for copies of records, the fees shall not exceed the actual cost of furnishing the requested records, including the cost of staff time required to make the information available. Actual costs may include the cost to review and redact the requested records but shall not include incidental costs incurred by the district that are not attributable to furnishing the requested records.
- In the case of fees for providing access to records maintained on computer facilities, the fees shall include only the cost of any computer services, including staff time required.

- If the district incurs costs for staff time to provide access to or furnish copies of public records, the district shall use in good faith the lowest-cost category of staff reasonably necessary to provide access to or furnish copies of public records. Charges for staff time shall be based on the employee's salary or hourly wage but shall not include the costs of employee benefits.
- Upon request, the district shall provide to the person requesting access to or copies of public records an itemized statement of costs incurred by the district and charged to such requester. Such itemized statement shall include, but not be limited to, the hourly rates charged for each employee involved in making the requested records available and an itemized list of any other fees charged to provide access to or furnish copies of the requested records.
- When the staff time needed to respond to a records request will exceed five hours or the estimated actual cost for staff time needed to fill the request exceeds $200, the district shall make reasonable efforts to contact the requester and engage in interactive communication about mitigating costs to fill the request. The requester is not obligated to mitigate costs.

If the district has made reasonable efforts to contact the requester in such a case and the requester has failed to respond by the end of the third business day, the records request will be deemed to be withdrawn until a subsequent contact has been made by the requester to the district.

As used in this policy, "reasonable efforts to contact the requester" means contacting the requester through the means of communication that the requester provided to be used by the district to respond to the request.

Fees received by the district for fees charged in accordance with this policy shall be remitted to the treasurer for deposit in the district's general fund.

Disposition

All district office records shall be kept for at least the minimum length of time required by law.

The clerk is designated as the official custodian of all board and district office records maintained by the district. Each building principal is designated as official custodian of all records maintained at the building level. In addition to those records required by law, the clerk shall be responsible for preparing and keeping other records necessary for the district's efficient operation.

- Internal Controls – Effective control and accountability must be maintained for all federal funds, real and personal property purchased therewith, and other assets acquired with federal funding. The district must safeguard all assets and ensure it is used solely for authorized purposes.
- Budget Control – Actual expenditures or outlays must be compared with budgeted amounts for each federal award. Procedures shall be developed to establish determination for allowability of costs for federal funds.

- Cash Management – The district shall maintain written procedures to implement the cash management requirements found in EDGAR.
- Allowability of Costs – The district shall maintain written procedures for determining the allowability of all costs charged to each federal award is accurately determined and documented.

Time and Effort Reporting by Employees

All district employees paid with federal funds shall document the time they expend in work performed in support of each federal program, in accordance with law. Time and effort reporting requirements do not apply to contracted individuals.

Recordkeeping

The district shall develop and maintain a records management plan and related board policy, administrative regulations, and/or procedures for the retention, retrieval, and disposition of print and electronic records, including emails.

The district shall ensure the proper maintenance of federal fiscal records documenting:

- Amount of federal funds,
- How funds are used,
- Total cost of each project,
- Share of total cost of each project provided from other sources,
- Other records to facilitate an effective audit,
- Other records to show compliance with federal program requirements, and
- Significant project experiences and results.

All records must be retrievable and available for programmatic or financial audit.

The district shall provide the federal awarding agency, Inspectors General, the Comptroller General of the United States, and the pass-through entity, or any of their authorized representatives, the right of access to any documents, papers, or other district records which are pertinent to the federal award. The district shall also permit timely and reasonable access to the district's personnel for interview and discussion related to such documents.

Records shall be retained for a minimum of three (3) years from the date on which the final Financial Status Report is submitted, or as otherwise specified in federal law or in the requirements of the federal award, unless a written extension is provided by the awarding agency, cognizant agency for audit, oversight agency for audit, or cognizant agency for indirect costs. If any litigation, claim or audit is

started before the expiration of the standard record retention period, the records shall be retained until all litigation, claims or audits have been resolved, and final action has been taken.

The district shall ensure that all personally identifiable data protected by statute or regulation is handled in accordance with the requirements of applicable law, regulations, board policy, administrative regulations, and procedures.

Subrecipient Monitoring

If the district awards subgrants, the district shall establish procedures to:

- Assess the risk of noncompliance.
- Monitor grant subrecipients to ensure compliance with federal, state, and local laws and board policy, regulations, and procedures.
- Ensure the district's records are adjusted to cure recordkeeping issues discovered through the subrecipient's audits, on-site reviews, or other monitoring.

Mandatory Disclosures

Employees and contractors must promptly disclose whenever, in connection with the federal award (including any activities or subawards thereunder), it has credible evidence of the commission of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United State Code or a violation of the civil False Claims Act (31 U.S.C. 3729-3733). The disclosure must be made in writing to the federal agency, the agency's Office of the Inspector General, and passthrough entity, if applicable. Recipients and subrecipients are also required to report matters related to recipient integrity and performance in accordance with the law.

Employees and contractors involved in federally funded programs and subrecipients shall be made aware that failure to comply with federal law, regulations, or terms and conditions of a federal award may result in the federal awarding agency or pass-through entity imposing additional conditions or terminating the award in whole or in part.

Whistleblower Protections

An employee shall not be discharged, demoted, or otherwise discriminated against as a reprisal for reporting or disclosing information that the employee reasonably believes is evidence of gross mismanagement of a federal contract or grant, a gross waste of federal funds, an abuse of authority relating to a federal contract or grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal contract (including the competition for or negotiation of a contract) or person or body described in paragraph (a)(2) of 41 U.S.C. 4712.

The superintendent or designee shall inform their employees in writing of employee whistleblower rights and protections under the law.

DFAC - ALLOWABILITY OF COSTS – FEDERAL PROGRAMS

(Sample Procedure)

Allowability of Costs – Federal Programs

Expenditures of federal funds must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

Delegation of Responsibility

When determining how the school district will spend its grant funds, the ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* will review the proposed cost to determine whether it is an allowable use of federal grant funds before obligating and spending those funds on the proposed good or service.

Allowability Determinations

All costs supported by federal education funds must meet the standards outlined in EDGAR, 2 CFR Part 3474 and 2 CFR Part 200, Subpart E, which are listed below. The ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* must consider these factors when making an allowability determination. A section entitled, *Helpful Questions for Determining Whether Costs are Allowable,* is located at the end of this document.

Part 200 sets forth general cost guidelines that must be considered, as well as rules for specific types of items, both of which must be considered when determining whether a cost is an allowable expenditure of federal funds. The expenditure must also be allowable under the applicable program statute (e.g., Title I of the Elementary and Secondary Education Act (ESEA), or the Carl D. Perkins Career and Technical Education Act (Perkins)), along with accompanying program regulations, nonregulatory guidance, and grant award notifications.

Restrictions in state and local rules or policy also must be considered. For example, travel and other job-related expenses incurred by employees are not allowable unless they also are in compliance with board policy GAN, administrative regulations, and related procedures.

Whichever allowability requirements are stricter will govern whether a cost is allowable.

General allowability determination factors include the following:

1. **Be Necessary and Reasonable for the performance of the federal award.** A cost is reasonable if it does not exceed an amount that a prudent person would under the circumstances prevailing when the decision to incur the cost. For example, **reasonable** means that sound business practices were followed, and purchases were comparable to market prices.

When determining reasonableness of a cost, consideration must be given to:

- Whether the cost is generally recognized as ordinary and necessary for the operation of the district or the proper and efficient performance of the federal award.

- The restraints or requirements imposed by such factors, as: sound business practices; arm's-length bargaining; federal, state, and other laws and regulations; and terms and conditions of the federal award.

- Market prices for comparable costs for the geographic area.

- Whether the individual incurring the cost acted with prudence in the circumstances considering their responsibility to the district, its employees, its students, the public at large,

and the federal government.

- Whether the cost represents a deviation from the district established written policies and procedures for incurring costs. (2 CFR Sec. 200.404)

Whether a cost is **necessary** will be determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the district can demonstrate that the cost addresses an existing need and can prove it. For example, the school entity may deem a language skills software program necessary for a limited English proficiency program.
When determining whether a cost is necessary, consideration may be given to:

- Whether the cost is needed for the proper and efficient performance of the federal award program.
- Whether the cost is identified in the approved budget or application.
- Whether there is an educational benefit associated with the cost.
- Whether the cost aligns with identified needs based on results and findings from a needs assessment.
- Whether the cost addresses program goals and objectives and is based on program data.

2. **Allocable to the federal award.** A cost is allocable to the federal award if the cost is assignable to the federal award or other cost objective in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. (2 CFR Sec. 200.405)
   For example, if fifty percent (50%) of a teacher's salary is paid with grant funds, then that teacher must spend at least fifty percent (50%) of his/her time on the grant program.
3. **Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the school entity.**
4. **Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.**

5. **Consistent treatment.** A cost must not be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost.

6. **Adequately documented.** All expenditures must be properly documented. (§ 200.300 through 200.309)

7. **Be determined in accordance with generally accepted accounting principles (GAAP), unless provided otherwise in Part 200.**

8. **Not be included as a cost or used to meet cost sharing requirements of federally-financed program in either the current or prior period .** Some federal program statutes require the nonfederal entity to contribute a certain amount of nonfederal resources to be eligible for the federal program.

9. **Be the net of all applicable credits.** The term "applicable credits" refers to transactions that offset or reduce direct or indirect costs allocable to the federal award. Typical examples of such transactions are purchase discounts, rebates or allowances, recoveries or indemnities on losses, and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the direct relate to allowable costs, they must be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. (2 CFR Sec. 200.406)

Selected Items of Cost

Subpart E of Part 200 sets forth principles to be applied in establishing the allowability of fifty-five (55) specific cost items (commonly referred to as Selected Items of Cost), at 2 CFR Sec. 200.420-200.475. These specific cost items are listed in the chart below along with the citation to the section of Subpart E addressing the allowability of that item. These principles are in addition to the other general allowability standards and apply whether or not a particular item of cost is properly treated as direct cost or indirect (F&A) cost. Meeting the specific criteria for a listed item does not by itself mean the cost is allowable, as it may be unallowable under other standards or for other reasons, such as restrictions contained in the terms and conditions of a particular grant or restrictions established by the state or in Board policy. If an item is unallowable for any of these reasons, federal funds cannot be used to purchase it.
School district employees responsible for spending federal grant funds and for determining allowability must be familiar with and refer to the Part 200 selected items of cost section. These rules must be followed when charging these specific expenditures to a federal grant. When applicable, employees must check costs against the selected items of cost requirements to ensure the cost is allowable and also check state, district, and program-specific rules.
The selected item of cost addressed in Part 200 includes the following (in alphabetical order):

Helpful Questions for Determining Whether Costs are Allowable -

In addition to applying the cost principles and standards described above, district staff involved in expending federal funds should ask the following questions when assessing the allowability of a particular cost:

1. Is the proposed cost allowable under the relevant program?

2. Is the proposed cost consistent with an approved program plan and budget?

3. Is the proposed cost consistent with program specific fiscal rules? For example, the school entity may be required to use federal funds only to supplement the amount of funds available from nonfederal (and possibly other federal) sources, or only as a match for funds from nonfederal

sources.

4. Is the proposed cost consistent with EDGAR?

5. Is the proposed cost consistent with specific conditions imposed on the grant (if applicable)?

6. Is the proposed cost consistent with the underlying needs of the program? For example, program funds must benefit the appropriate population of students for which they are allocated. This means that, for instance, funds allocated under Title III of the Elementary and Secondary Education Act (ESEA) governing language instruction programs for Limited English Proficient (LEP) students must only be spent on LEP students and cannot be used to benefit non-LEP students.

7. Will the cost be targeted at addressing specific areas of weakness that are the focus of the program, as indicated by available data?

Any questions related to specific costs should be forwarded to the ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* who shall consult with the board's legal counsel for clarification as appropriate.

DFAC - CASH MANAGEMENT – FEDERAL PROGRAMS

(Sample Procedure)

Cash Management – Federal Programs

Generally, the school district receives payment of federal funds from the Kansas State Department of Education (KSDE) on a reimbursement basis. In some circumstances, the district may receive an advance of federal grant funds. This procedure addresses responsibilities of the district and district staff under those alternative payment methods. In either case, the district shall maintain accounting methods and internal controls and procedures that assure those responsibilities are met when dealing with federal funding.

Payment Methods

Reimbursements -

The school district will initially charge federal grant expenditures to nonfederal funds.

The ☐ *Superintendent* ☒ *Business Manager* ☐ *Federal Programs Coordinator* will request reimbursement for actual expenditures incurred under the federal grants ☒ *monthly* ☐ *quarterly*.

Such requests shall be submitted with appropriate documentation and signed by the requestor.

Requests for reimbursements will be approved by the ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator*.

Reimbursement will be submitted on the appropriate form to the KSDE portal. All reimbursements are based on actual disbursements, not on obligations. KSDE will process reimbursement requests within the timeframes required for disbursement.

Consistent with state and federal requirements, the school district will maintain source documentation supporting the federal expenditures (invoices, time sheets, payroll stubs, etc.) and will make such documentation available for KSDE to review upon request.

Reimbursements of actual expenditures do not involve interest calculations.

Advances -

When the district receives advance payments of federal grant funds, it must minimize the time elapsing between the transfer of funds to the district and the expenditure of those funds on allowable costs of the applicable federal program. (2 CFR Sec. 200.305(b)) The district shall attempt to expend all advances of federal funds within seventy-two (72) hours of receipt.

When applicable, the district shall use existing resources available within a program before requesting additional advances. If available, the recipient or subrecipient must disburse funds available from program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on federal funds before requesting additional cash payments. (2 CFR Sec. 305(b)(5))

Advance payments of Federal funds must be deposited and maintained in insured accounts whenever possible.

The recipient or subrecipient must maintain advance payments of Federal funds in interest-bearing

accounts unless one of the following applies:

(i) The recipient or subrecipient receives less than $250,000 in Federal funding per year;
(ii) The best available interest-bearing account would not reasonably be expected to earn interest in excess of $500 per year on Federal cash balances;
(iii) The depository would require an average or minimum balance so high that it would not be feasible with the expected Federal and non-Federal cash resources;
(iv) A foreign government or banking system prohibits or precludes interest-bearing accounts; or
(v) An interest-bearing account is not readily accessible (for example, due to public or political unrest in a foreign country).

The school district is permitted to retain for administrative expenses up to $500 per year of interest earned on federal funds. Regardless of the federal awarding agency, interest earnings exceeding $500 per year shall be remitted annually to the Department of Health and Human Services Payment Management System (PMS) through either the Automated Clearing House (ACH) network or a Fedwire Funds Service payment. (2 CFR Sec. 200.305(b)(12))

Pursuant to federal guidelines, interest earnings shall be calculated from the date that the federal funds are drawn down from the G5/G6 system until the date on which those funds are disbursed by the district. Consistent with state guidelines, interest accruing on total federal grant cash balances shall be calculated on cash balances per grant and applying the actual or average interest rate earned.

Remittance of interest shall be responsibility of the ☐ *Superintendent* ☒ *Business Manager* ☐ *Federal Programs Coordinator*.

DFAC - GRANT SUBRECIPIENT MONITORING PROCEDURES – FEDERAL PROGRAMS

(Sample Procedure)

Grant Subrecipient Monitoring Procedures – Federal Programs

In the event the district disperses federal funds received through a federal award to other entities and assigns responsibilities to the outside entity to conduct a portion of the work, the district shall be responsible for determining, on a case-by-case basis, whether the agreement with such entity places the outside entity in the role of a subrecipient receiving a subaward of federal funding, or the role of a contractor.

If the district grants subawards of federal funding to other entities as subrecipients, the district shall be responsible for:

1. Evaluating the entity for risk of noncompliance to determine appropriate monitoring practices.

2. Monitoring the subrecipient entity's implementation to ensure compliance with federal, state, and local laws, conditions of the federal funding award, and board policy and procedures.

3. Notifying the subrecipient entity of identified deficiencies found during the monitoring process and ensuring that identified deficiencies are corrected.

4. Documenting and retaining records on subrecipient identification, notification, evaluation, monitoring, and corrective actions taken.

Definitions

For purposes of policies and procedures related to federal programs, the following definitions shall apply:

Contract – a legal instrument by which a non-federal entity conducts procurement transactions under a federal award. The term as used here does not include a legal instrument, even if the entity considers it a contract, when the substance of the transaction meets the definition of a federal program award or subaward. (2 CFR 200.1)

Contractor – an entity that receives a contract by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. (2 CFR 200.1)

Pass-through entity – a recipient or subrecipient that provides a subaward to a subrecipient Including lower tier subrecipients to carry out part of a federal program. The authority of the pass-through entity under this part flows through the subaward agreement between the pass-through entity and subrecipient. (2 CFR 200.1)

Subaward – an award provided by a pass-through entity to a subrecipient for the subrecipient to contribute to the goals and objectives of the project by carrying out part of a federal award received by the pass-through entity. It does not include payments to a contractor beneficiary, participant. A subaward may be provided through any form of legal agreement consistent with criteria in with §200.331, including an agreement the pass-through entity considers a contract. (2 CFR 200.1)

Subrecipient – an entity that receives a subaward from a pass-through entity to carry out part of a federal program. The term subrecipient does not include a beneficiary or participant. A subrecipient may also be a recipient of other federal awards directly from a federal agency. (2 CFR 200.1)

Subrecipient Versus Contractor

The district must determine, on a case-by-case basis, whether an entity receiving funds from the district as part of a federal funding program serves in a role of subrecipient or contractor. (2 CFR 200.331)

The ☐ *Superintendent* ☒ *Federal Programs Coordinator* ☐ *Business Manager* ☐ *other* _____ shall be responsible for analyzing the criteria listed in the chart below. The _____ may consult with the board's legal counsel or other qualified counsel in making such determination.

Subrecipient	Contractor
Creates a Federal assistance relationship	Purpose is to obtain goods and services for the recipient or subrecipient's uses and creates a procurement relationship
Determines who is eligible to receive what Federal assistance	Provides the goods and services within normal business operations
Has its performance measured in relation to whether the objectives of a Federal program were met	Provides similar goods or services to many different purchasers
Has responsibility for programmatic decision making	Normally operates in a competitive environment
Is responsible for adherence to applicable Federal program requirements specified in the Federal award; and	Provides goods or services that are ancillary to the implementation of a Federal program; and
Implements a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the pass-through entity (PTE)	Is not subject to compliance requirements of a Federal program as a result of the agreement. However, similar requirements may apply for other reasons

The district shall notify subrecipients that they have been identified as a subrecipient and that the funding qualifies as a subaward. The district shall provide the subrecipient with the following information as specified at 2 CFR Sec. 200.332(b) regarding the federal funding award, and any subsequent changes,

Required information includes:

1. Federal award identification

   i. Subrecipient's name (must match the name associated with its unique entity identifier);

   ii. Subrecipient's unique entity identifier;

   iii. Federal Award Identification Number (FAIN);

   iv. Federal Award Date;

v. Subaward Period of Performance Start and End Date;

vi. Subaward Budget Period State and End Date;

vii. Amount of Federal Funds Obligated in the subaward;

viii. Total Amount of Federal Funds Obligated to the subrecipient by the pass-through entity including the current obligation;

ix. Total Amount of the Federal Award committed to the subrecipient by the pass-through entity;

x. Federal award project description, as required by the Federal Funding Accountability and Transparency Act (FFATA);

xi. Name of the federal agency, pass-through entity, and contact information for awarding official of the pass-through entity;

xii. Assistance Listings title and number; the pass-through entity must identify the dollar amount made available under each Federal award and the Assistance Listings Number at the time of disbursement;

xiii. Identification of whether the award is for Research and Development; and

xiv. Indirect cost rate for the federal award (including if the de minimis rate is charged per used in accordance with §200.414).

2. All requirements of the subaward, including requirements imposed federal statutes, regulations and the terms and conditions of the federal award;

3. Any additional requirements that the pass-through entity imposes on the subrecipient for the pass-through entity to meet its responsibilities under the federal award. This includes information and certification (see§ 200.415) required for submitting financial and performance reports that the pass-through entity must provide to the federal agency;

4. Indirect cost rate:

i. An approved indirect cost rate negotiated between the subrecipient and the federal government. If no such rate exists, a pass-through entity must determine the appropriate rate in collaboration with the subrecipient. The indirect cost rate may be either:

(A) An indirect cost rate negotiated between the pass-through entity and the subrecipient. These rates may be based on a prior negotiated rate between a different pass-through entity and the subrecipient, in which case the pass-through entity is not required to collect information justifying the rate but may elect to do so; or

(B) The de minimis indirect cost rate.

ii. The pass-through entity must not require the use of the de minimis indirect cost rate if the

subrecipient has an approved indirect cost rate negotiated with the Federal Government. Subrecipient may elect to use the cost allocation method to account for indirect costs in accordance with § 200.405(d).

5. A requirement that the subrecipient permit the pass-through entity and auditors to access the subrecipient's records and financial statements for the pass-through entity to fulfill its monitoring requirements ; and

6. Appropriate terms and conditions concerning the closeout of the subaward.

Evaluation of Risk

The district shall evaluate each subrecipient's fraud risk and risk of noncompliance with a subaward to determine appropriate subrecipient monitoring practices. (2 CFR 200.332(c))

The ☐ *Superintendent* ☒ *Federal Programs Coordinator* ☐ *Business Manager* ☐ *other* _____ or designee shall be responsible for evaluating risk based on the following factors:

1. The subrecipient's prior experience with the same or similar subawards;

2. The results of previous audits, including whether or not the subrecipient receives a single audit and the extent to which the same or similar subawards have been audited as a major program;

3. Whether the subrecipient has new personnel, or new or substantially changed systems and processes;
4. The extent and results of any federal agency monitoring.

The Superintendent or designee shall request adequate documentation from the subrecipient to conduct the evaluation of risk; such documentation may include but may not be limited to ☒ *audit reports* ☒ *financial reports* ☒ *policies and procedures* ☒ *detailed descriptions or users' guides of current systems and processes.*
The district shall evaluate subrecipients for risk of noncompliance ☐ *annually* ☒ *as specified in the legal agreement or contract.*

Based on the results of the risk evaluation, the district may consider imposing specific conditions on implementation of the subaward, in accordance with applicable law and regulations. (2 CFR 200.208, 200.332)

Monitoring

The district shall monitor the implementation and activities of each subrecipient as necessary to ensure that the subrecipient complies with law, regulations and the terms and conditions of the subaward. The pass-through entity is responsible for monitoring the overall performance of a subrecipients to ensure that the goals and objectives of the award are achieved.

As part of the monitoring process, the district shall complete the following steps: (2 CFR 200.331)

1. Review financial and performance reports.

2. Ensure that the subrecipient takes corrective action on all significant development that negatively affect the subaward. Significant developments include Single Audit findings related to the subaward, other audit findings, site visits, and written notifications from a subrecipient of adverse conditions which will impact their ability to meet the milestones or the objectives of a subaward. When significant developments negatively impact the subaward, a subrecipient must provide the pass-through entity with information on their plan for corrective action and any assistance needed to resolve the situation.

3. Issue a management decision for audit findings pertaining to the subaward provided to the subrecipient, in accordance with applicable law and regulations. (2 CFR 200.521)
4. Resolve audit findings specifically related to the subaward. However, the pass-through entity is not responsible for resolving cross-cutting audit findings that apply to the subaward and other Federal awards or subawards. If a subrecipient has a current Single Audit report and has not been excluded from receiving Federal funding (meaning, has not been debarred or suspended), the pass-through entity may rely on the subrecipient's cognizant agency for audit or oversight agency for audit to perform audit follow-up and make management decisions related to cross-cutting audit findings in accordance with section § 200.513(a)(4)(viii). Such reliance does not eliminate the responsibility of the pass-through entity to issue subawards that conform to agency and award-specific requirements, to manage risk through ongoing subaward monitoring, and to monitor the status of the findings that are specifically related to the subaward.

Monitoring Tools –

The ☐ *Superintendent* ☒ *Federal Programs Coordinator* ☐ *Business Manager* ☐ *other* _____ or designee shall be responsible for monitoring of subrecipients.to the following monitoring tools may be useful for the pass-through entity to ensure proper accountability and compliance with program requirements and achievement of performance goals:

1. Providing subrecipients with training and technical assistance on program-related matters;

2. Performing site visits to review the subrecipient's program operations; and.

3. Arranging for agreed-upon-procedures engagements as described in§ 200.425.

The district shall verify that subrecipients are audited as required by applicable law and regulations.

Follow-Up Actions –

The Superintendent or designee shall provide subrecipients with written documentation detailing their monitoring results and listing any identified deficiencies. The district shall consider whether the results of monitoring indicate the need to revise existing district policy and procedures. (2 CFR 200.332)

The district shall require subrecipients to take immediate action on issues involving ineligible or illegal use of federal funding and notify the district of corrective action taken.

The district shall require subrecipients to develop a corrective action plan to address other identified deficiencies or noncompliance issues; such plan shall be submitted to the district ☐ *within 60 days* ☒ *as soon as possible* ☐ *as specified in the agreed-upon procedures*, and the district shall evaluate and monitor the activities taken by the subrecipient under the corrective action plan. The district may provide technical assistance and/or training to subrecipients in complying with corrective

action requirements.

The Superintendent or designee shall maintain all documentation on monitoring of subrecipients and corrective action taken during the monitoring process.

The district shall report issues of noncompliance to the appropriate federal agency where required by law, regulations, or requirements of the federal funding program.

Remedies for Noncompliance –

When monitoring activities identify issues of noncompliance that are not addressed through corrective action, the district may take the following actions: (2 CFR 200.332, 200.339)

1. Impose specific conditions on the subrecipient, in accordance with applicable law and regulations. (2 CFR 200.208)

2. Temporarily withhold payments, until the recipient or subrecipient takes corrective action.

3. Disallow costs for all or part of the activity associated with the noncompliance of recipient or subrecipient.

4. Suspend or terminate the federal award in part or in its entirety.

5. Recommend that the federal agency initiate suspension or debarment proceedings.

6. Withhold further awards or agreements for the project or program.

7. Pursue other legal remedies legally available.

Record Retention

The ☐ *Superintendent* ☒ *Federal Programs Coordinator* ☐ *Business Manager* ☐ *other* _____ shall ensure that all documentation regarding subrecipient identification, notification, evaluation, monitoring activities, and corrective action is maintained in accordance with board policy and regulations.

DFAC - PROCUREMENT – FEDERAL PROGRAMS

(Sample Procedure)

Procurement – Federal Programs

This document is intended to integrate standard district purchasing procedures with additional requirements applicable to procurements that are subject to the federal Uniform Grant Guidance regulations concerning the use of federal funds and/or U.S. Department of Agriculture (USDA) regulations governing school food service programs. The district maintains the following purchasing procedures, in accordance with federal and state laws, regulations, and board policy to aid in making purchases with federal funds. (2 CFR 200.318-200.327; 7 CFR 210.16, 210.19, 210.21, 215.14a, 220.16; K.S.A. 72-1151; board policies DFAB, DFAC, DJE, DJEB, DJED, DJEE, DJEF, DJEG, DJEJ, DJFA, and DJFAB)

Procurement Thresholds (reviewed 2024)		
Kansas Bid Threshold	$20,000	For construction, reconstruction or remodeling or for the purchase of materials, goods or wares
Federal Micro-Purchase Threshold	$10,000	Adjusted periodically and published in Federal Register (48 CFR Subpart 2.1)
Federal Simplified Acquisition Threshold	$250,000	Adjusted periodically and published in Federal Register (48 CFR Subpart 2.1)

*Please review this Procurement attachment annually and update amounts accordingly

Responsibility for Purchasing

The board has outlined standard district purchasing responsibility, methods of purchasing, price quotations and bid, requirements in the following board policies and their accompanying administrative regulations and/or procedures:

DFAB: Standard of Conduct for Federally Funded Contracts
DFAC: Federal Fiscal Compliance
DJE: Purchasing
DJEB: Quality Control
DJED: Bids and Quotations Requirements
DJEE: Local Purchasing
DJEF: Requisitions
DJEG: Purchase Orders and Contracts
DJEJ: Payment Procedures
DJFA: Purchasing Authority
DJFAB: Administrative Leeway

Purchase Methods

When a request for expenses for construction, reconstruction, or remodeling or for the purchase of materials, goods, or wares has been submitted and approved as outlined below, the procurement method to be used will be determined based on the type of purchase and the total cost of the purchase as further

outlined below. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law as reflected in Policy DJED must be modified when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply to comply with both state and federal requirements. At each point where requirements for food service-related procurement under USDA regulations differ, a note will refer to the Food Service Program Notes at the end of this procedure. Final determination of which purchasing procedures are to be applied is delegated to the ☐ *Purchasing Agent* ☐ *Superintendent* ☐ *Business Manager* under the authority of the Board.

Standard Procurement Documents and Purchase Request Process

The district shall use ☒ *purchase orders* ☐ *requisitions* for purchase requests in accordance with the applicable purchase method.

The district shall use ☒ *paper* ☒ *electronic* purchasing records, which are pre-numbered and are accessible to designated purchasing staff in ☒ *the district office* ☐ *the business office* ☐ *Purchasing Agent's office* ☐ *Other* _____.

Purchase requests by an employee must be submitted to the building administrator or immediate supervisor. Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order or requisition submitted to the purchasing agent.
Purchase orders and requisitions shall contain information including, but not necessarily limited to:

1. Description of the services to be performed or goods to be purchased;

2. Location of where services will be performed, or goods will be delivered;

3. Appropriate dates of service or delivery;

☐ Other (describe) _____.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district's Public Records policy (CN) and Federal Fiscal Compliance policy (DFAC).

Contracts shall be reviewed by the ☐ *Board Clerk* ☐ *Business Manager* ☒ *Superintendent* ☒ *Board's Attorney* prior to submission to the board for approval.

Contracts to which the Uniform Grant Guidance apply shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.

[See Food Service Program Notes below for specific clauses required by USDA regulations to be included in cost reimbursable procurement contracts.]

Micro-Purchases Not Requiring Quotes or Bidding

For purposes of this procedure**, micro-purchase** means an individual procurement transaction for supplies or services the aggregate amount of which does not exceed a base amount of $10,000. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than $10,000. (48 CFR

Subpart 2.101)

Note: The micro-purchase threshold for federal purposes is lower than the bid threshold amount outlined in K.S.A. 72-1151, which allows purchase for nonfederal purposes to be made without using formal competitive bidding.

The micro-purchase method is used to expedite the completion of its lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

To the extent practicable, the district distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified, and such suppliers offer effectively equivalent rates, prices, and other terms. The ☒ *Superintendent* ☐ *Business Manager* ☐ *Purchasing Agent* ☐ *Board Clerk* ☐ *Board Treasurer* will be responsible to determine the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the district considers the price to be reasonable. The district will maintain evidence of this reasonableness in the records of all micro-purchases. **Reasonable** means that sound business practices were followed, and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

Simplified Acquisition Procedures

For purposes of this procedure, **simplified acquisition procedures** are those relatively simple and informal procurement methods for securing materials, goods, or wares or for completing construction, reconstruction, or remodeling that cost more than the amount qualifying as a micro-purchase and do not cost $20,000 or more, or in the case of services other than construction, reconstruction or remodeling, where the total cost does not exceed the $250,000 federal Simplified Acquisition Threshold at which formal competitive bidding or competitive proposals are required. Small purchase procedures cannot be used for construction, reconstruction or remodeling costing $20,000 or more or for the purchase of materials, goods or wares costing $20,000 or more because the board policy and Kansas law requires formal competitive bidding at that level of cost.

The base amount at which bidding is required under state law for construction, reconstruction or remodeling or for the purchase of materials, goods or wares is $20,000. (K.S.A. 72-1151)

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than $250,000. (48 CFR Subpart 2.101)

Because state law does not require **competitive** bidding for the purchase of services other than for construction, reconstruction or remodeling with a cost in excess of $20.000, simplified acquisition procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other

services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding or competitive proposals are required ($250,000).

[See Food Service Program Notes below for exemption from bidding for purchases of perishable food items costing less than $250,000.]

Formal Competitive Bidding

Publicly Solicited Sealed Competitive Bids:

For construction, reconstruction, or remodeling or for the purchase of materials, goods or wares, sealed competitive bids are publicly solicited and awarded to the lowest responsible bidder as provided in Policy DJED when the total cost is estimated to be $20,000 or more.

Note: The amount at which formal competitive bidding or competitive proposals are required by federal regulations is much higher than the base amount at which the policy and state law requires competitive bidding. Therefore, the lower base amount specified by state law will be used for purchases of equipment or supplies, or for obtaining services for construction, reconstruction or remodeling costing $20,000 or more.

State law does not require bidding for the purchase of services other than for construction, reconstruction or remodeling regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding or competitive proposals will be used when the estimated total cost will be at or over the federal threshold of $250,000.

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if other than $250,000. (48 CFR Subpart 2.101)

For procurement of services costing at or over the $250,000 federal threshold other than for construction, reconstruction or remodeling, the use of competitive sealed bidding is considered feasible and appropriate when:

1. A complete, adequate, and realistic specification or purchase description is available;

2. Two (2) or more responsible bidders have been identified as willing and able to compete effectively for the business; and

3. The procurement lends itself to a firm-fixed-price contract, and the selection of the successful bidder can be made principally based on price.

If sealed bids are used, the following requirements apply:

(A) Bids must be solicited from an adequate number of qualified sources, providing them with sufficient response time prior to the date set for opening the bids. Unless specified by the federal agency, the district may exercise judgment in determining what number is adequate. For local governments the invitation for bids must be publicly advertised.

(B) The invitation for bids must define the items or services with specific information, including any required specifications, for the bidder to properly respond.

(C) All bids will be opened at the time and place prescribed in the invitation for bids. For local governments, the bids must be opened publicly.

(D) A firm-fixed- price contract is awarded in writing to the lowest responsive when specified in the invitation for bids, factors such as discounts, transportation cost, and life-cycle costs must be considered in determining which bid is the lowest. Payment discounts must only be used to determine the low bid when the district determines they are a valid factor based on prior experience.

(E) The district must document and provide a justification for all bids it rejects.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Competitive Proposals

State law does not require public school entities to solicit competitive bids for services other than for construction, reconstruction or remodeling, for which competitive bidding is required if the cost will be a base amount of $20,000 or more.

Federal regulations allow the use of competitive proposals as an alternative to formal competitive bidding when conditions are not appropriate for the use of sealed bids.

In the case of services other than for construction, reconstruction or remodeling costing less than that threshold, the district may use simplified acquisition procedures or micro-purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the simplified acquisition competition requirements under state law and Policy DJED for the acquisition of services other than for construction, reconstruction or remodeling, and can be used if the total cost will be less than $250,000.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated, and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The district shall comply with other applicable state and federal law and regulations, board policy and administrative regulations or procedures regarding purchasing; the district may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

1. Requests for proposals required public notice, and all evaluation factors and their relative importance. To the maximum extent practicable, any proposals submitted in response to the public notice must be considered.

2. Proposals must be solicited from an adequate number of qualified sources.

3. There must be a written method for conducting technical evaluations of the proposals received and for selecting recipients.

4. Contracts must be awarded to the responsible offeror whose proposal is most advantageous to the program, with price and other factors.

5. Competitive proposal procedures for qualifications-based procurement for architectural/engineering (A/E) professional services whereby offeror's qualifications are evaluated and the most qualified offeror is selected, subject to negotiation of fair and reasonable compensation. The method where price is not used as a selection factor can only be used to procure an A/E professional services and cannot be used to purchase other services through A/E firms.

Competitive proposals shall be evaluated by the ☒ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* based on factors including but not limited to:

1. Cost.

☐ *Experience of contractor.*

☐ *Availability.*

☐ *Personnel qualifications.*

☐ *Financial stability.*

☐ *Minority business, women's business enterprise, or labor surplus area firm status.*

☐ *Project management expertise.*

☐ *Understanding of district needs.*

☐ *Other* _____.

Evaluations shall be completed in a timely manner, documented, and shall be reviewed by the ☐ *Board* ☒ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* ☐ *school solicitor*.

Contract/Price Analysis

The district performs a cost or price analysis for every procurement transaction in excess of $250,000, including contract modifications. (2 CFR Sec. 200.324(a)).

A **cost analysis** generally means evaluating the separate cost elements that make up the total price, while a **price analysis** means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis conducted depend on the facts surrounding the particular procurement transaction. However, the ☒ *Superintendent* ☐ *Business Manager* ☐ *Federal Programs Coordinator* must make an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.324(a)). As part of the analysis, the Superintendent will enact established business practices which may include evaluation of similar prior procurements and a review process.

Noncompetitive Proposals (Sole Sourcing)

Procurement by noncompetitive proposals means procurement through solicitation of a proposal from only one (1) source and may be used only when one of the following circumstances apply:

1. The aggregate amount of the procurement transaction does not exceed the micro-purchases threshold as defined in 48 CFR 2.101.

2. The item is available only from a single source.

3. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An **emergency** exists whenever the time required for the board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.

4. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.

5. After solicitation of several sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the district will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item. Documentation must be submitted to and maintained by the district office.

All noncompetitive proposals will ultimately be approved by the board. The district may utilize legal advice regarding noncompetitive proposals.

Profit must be negotiated separately for noncompetitive proposals, and a cost or price analysis will also be performed for noncompetitive proposals when the price exceeds $250,000.

Purchase Cards

The district approves the use of purchase cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, improve controls for small-dollar purchases, and streamline contractor payment.

Purchase cards may be used for purchases under federal programs.

Full and Open Competition

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.320. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids must be excluded from competing on those procurements. Examples of situations that may restrict competition include but are not limited to:

1. Placing unreasonable requirements on firms for them to qualify to do business.

2. Requiring unnecessary experience and excessive bonding.

3. Noncompetitive pricing practices between firms or between affiliated companies.

4. Noncompetitive contracts to consultants that are on retainer contracts.

5. Organizational conflicts of interest.

6. Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance or other relevant requirements of the procurement.

7. Any arbitrary action in the procurement process.

Minority Businesses, Women's Business Enterprises, Labor Surplus Area Firms

The district should ensure that small businesses, minority businesses, women's business enterprises, veteran-owned businesses, and labor surplus area firms are considered when possible. Such consideration means: (2 CFR Sec. 200.321)

1. Placing these business types on solicitation lists.

2. Assuring these business types are solicited whenever they are potential sources.

3. Dividing procurement transactions into separate procurements to permit maximum participation by these business types.

4. Establishing delivery schedules that encourage participation by these business types.

5. Utilizing organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

6. Requiring a contractor under a federal award to apply these considerations to subcontracts.

Prequalified Lists

The district must ensure that all prequalified lists of persons, firms, or products used in procurement transactions are current and include enough qualified sources to ensure maximum open competition. When establishing or amending prequalified lists, the district must consider objective factors that evaluate price and cost to maximize competition. The district must not preclude potential bidders from qualifying during the solicitation period.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Solicitation Language

The district must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the property, equipment, or service to be procured. The description may include a statement of the qualitative nature of the property, equipment, or service to be procured. When necessary, the description must provide minimum essential characteristics and standards to which the property, equipment, or service must conform. Detailed product specifications should be avoided if possible.

When it is impractical or uneconomical to clearly and accurately described the technical requirements, a "brand name or equivalent" description of features may be used to provide procurement requirements. The specific features of the named brand must be clearly stated; and identify any additional requirements

which the offerors must fulfill and all other factors that will be used in evaluating bids or proposals.

Avoiding Acquisition of Unnecessary or Duplicative Items

The district must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis should be made between leasing and purchasing property or equipment to determine the most economical approach.

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. Such considerations are accessible in the procedure to Policy DFAC: Allowability of Costs – Federal Programs.

Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the district enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act**.**

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the district shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable procurement methods, requirements, and standards of the Uniform Grant Guidance as outlined in this procedure.

Use of Federal Excess and Surplus Property

The district encouraged use of federal excess and surplus property instead of purchasing new equipment and property when it is feasible and reduces project costs.

Debarment and Suspension

The district awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

The district may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over $25,000 the district verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR 200.214, Appendix II, and 2 CFR Part 180)

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The ☐ *Business Manager* ☐ *Federal Programs Coordinator* will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

Maintenance of Procurement Records

The district must maintain records sufficient to detail the history of each procurement transaction. These records must include the rationale for the procurement, method, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

Maintenance of records of procurement will be governed by board Policies CN and DFAC.

Time and Materials Contracts

The district may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Settlements of Issues Arising Out of Procurements

The district is responsible for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the district of any contractual responsibilities under its contracts. The district must report violations of law to the local, state, or federal authority having proper jurisdiction.

Protest Procedures to Resolve Dispute

The district maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, board policy and administrative regulations and procedures, and the advice of the board's legal counsel.

Food Service Program Notes:

Exemption from Bidding for Perishable Food Items -

Kansas law exempts purchases of food and foodstuffs necessary for the implementation or operation of any child nutrition program from bidding requirements. Bidding for such items is required only if the cost would be at or over the federal threshold at which formal competitive bidding is required ($250,000). Small purchase procedures may be used for purchases below $250,000, or micro-purchase procedures for purchases below $10,000. Use of bidding should be considered as an option if it is feasible and likely to result in cost savings.

Buy American -

The district shall purchase, to the maximum extent practicable, domestic commodities or products for food service purposes. The term **domestic commodity or product** means: (7 CFR Sec. 210.21, 220.16)

1. An agricultural commodity that is produced in the United States; and

2. A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

Mandatory Contract Clauses -

The following provisions shall be included in all cost reimbursable contracts for food services purchases, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts: (7 CFR Sec. 210.21, 215.14a, 220.16)

1. Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;

2. (a) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or

   (b) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;

3. The contractor's determination of its allowable costs must be made in compliance with the applicable departmental and program regulations and Office of Management and Budget cost circulars;

4. The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the state agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;

5. The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and

6. The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the state agency, or the department.

Contracts with Food Service Management Companies -

Procedures for selecting and contracting with a food service management company (FSMC) shall comply with guidance provided by the Kansas State Department of Education, Division of Child Nutrition and Wellness, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 215.14a, 220.16)

Pre-Plated Meals -

Procedures for selecting and contracting with contractors of pre-plated meals shall comply with guidance provided by the Kansas State Department of Education, Division of Child Nutrition and Wellness, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 220.16)

KASB Recommendation – 6/17; 6/18; 6/21; 12/24

DFAC - TYPE OF COSTS, OBLIGATIONS AND PROPERTY MANAGEMENT – FEDERAL PROGRAM

(Sample Procedure)

Type of Costs, Obligations and Property Management – Federal Programs

The district establishes and maintains board policies, administrative regulations, and administrative procedures on administration of federal funds in federal programs as required by the Uniform Grant Guidance and other federal, state, and local laws, regulations, and requirements. The district's fiscal management system includes internal controls and grant management standards in the following areas when federal funds are involved.

Direct and Indirect Costs

Direct costs – costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

Indirect costs – costs incurred for a common or joint purpose benefiting more than one (1) cost objective and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect costs. (2 CFR Sec. 200.405, 200.413)

The association of costs with a federal award determines whether costs are direct or indirect.

Direct and indirect costs shall be determined in accordance with law, regulations, the terms and conditions of the federal award, and the district's negotiated indirect cost rate.

The district shall develop an indirect cost rate proposal and cost allocation plan in accordance with law, regulations, and the terms and conditions of the federal award.

Timely Obligation of Funds

Financial Obligations – orders placed for property and services, contracts, and subawards made and similar transactions during a given period that require payment by the district during the same or a future period.

The following table illustrates when funds must be obligated under federal regulations:

Obligation is for:	**Obligation is made:**
Acquisition of property	On the date on which the district makes a binding written commitment to acquire the property
Personal services by a district employee	When the services are performed
Personal services by a contractor who is not a	On the date on which the district makes a binding

district employee	written commitment to obtain the services
Public utility services	When the district receives the services
Travel	When the travel occurs
Rental of property	When the district uses the property
A pre-agreement cost that was properly approved by the Secretary under the cost principles in 2 CFR Part 200, Subpart E - Cost Principles	On the first day of the project period

34 CFR §75.707; 34 CFR §76.707

All obligations must occur between the beginning and ending dates of the federal award project, which is known as the period of performance. The period of performance is dictated by law and regulations and will be indicated in the federal award. Specific requirements for carryover funds may be specified in the federal award and must be adhered to by the district. (2 CFR Sec. 200.1, 200.309)

The district will handle obligations and carry over of state-administered and direct grants in accordance with state and federal law and regulations and the terms and conditions of the federal award. Carryover will be calculated and documented by the ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator*.

The district may initiate an extension of the period of performance under a direct grant in accordance with law, regulations, and the terms and conditions of the federal award when written notice is provided to the federal awarding agency at least ten (10) calendar days the conclusion of the period of performance. (2 CFR Sec. 200.308(g)(2))

The ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* will decide when an extension of the period of performance is necessary and will recommend that the board approve this process.

The ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator*
will develop the required written notice that includes that supporting justification and revised period of performance; the notice will be issued no later than ten (10) calendar days prior to the end of the currently documented period of performance in the federal award.

The district must seek approval from the federal awarding agency for an extension of the period of performance when the extension is not contrary to federal law or regulations, and the following conditions apply:

1. The terms and conditions of the federal award prohibit the extension;

2. The extension requires additional federal funds; or

3. The extension involves any change in the approved scope of the project. (2 CFR Sec. §200.308)

The ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* will determine when an extension must be requested for approval by the federal awarding agency, draft the written request and notify the ☒ *Board* ☒ *Superintendent* ☐ *Business Manager* ☐ *Federal Programs Coordinator* of the

requested extension.

Management of Property Acquired with Federal Funds

Contract and Purchasing Administration -

The district maintains internal controls, administrative regulations, and procedures to ensure that contractors deliver goods and services in accordance with the terms, conditions, and specifications of the designated contract, purchase order, or requisition.

Property Classifications -

Property shall be classified as **real or personal property** as defined and specified in accordance with law and regulations.

Inventory Control/Management -

All personal property, other than intangible property, which is purchased with federal funds, regardless of cost, will be inventoried as a safeguard.

Inventory will be received by the department or program requesting the item; designated staff will inspect the property, compare it to the applicable purchase order or requisition, and ensure it is appropriately logged and tagged in the district's property management system.

Items acquired will be physically labeled by source of funding and acquisition date.

Inventory records of equipment and computing devices must be current and available for review and audit, and include the following information:

1. Description of the property.

2. Manufacturer's serial number or another identification number.

3. Identification of funding source including the FAIN, and the title holder.

4. Acquisition date and the property cost.

5. Source of items, such as company name.

6. Percentage of the federal agency contribution towards the original purchase.

7. Present location, use, condition of the property, and date information was reported.

8. Pertinent information on the ultimate transfer, replacement or disposition of the item and sale price of the property.

The recipient and subrecipient are responsible for maintaining and updating property records when there is a change in the status of the property.

Physical Inventory -

Physical inventory of property will be completed by designated district staff in accordance with applicable federal law and regulation and board policy DIC.

The physical inventory of items will be conducted annually, and the results will be reconciled with the inventory records and reported to the federal awarding agency.

Maintenance -

The district establishes regular maintenance procedures to ensure that property is maintained in proper working condition in accordance with law, regulation, and board policy.

Safeguards -

The district ensures that safeguards are in place for preventing loss, damage, or theft. The district will follow the requirements:

1. Any loss, damage or theft will be reported to the ☐ *Superintendent* ☐ *Business Manager* ☐ *Federal Programs Coordinator*, investigated and fully documented, and may be reported to local law enforcement and shall notify the federal agency or pass-through entity of any loss, damage, or theft of equipment that will have an impact on the program.

2. If stolen items are not recovered, the district will submit copies of the investigative report and insurance claim to the federal awarding agency.

3. The district may be responsible for replacing or repairing lost, damaged, destroyed, or stolen items.

4. Replaced equipment is property of the originally funded program and should be inventoried accordingly.

5. District property may only be loaned in accordance with board policy KGA and administrative regulations and procedures.

Disposition of Property Acquired with Federal Funds –

When the district determines that real property, including land, land improvements, structures, and accessories thereto, acquired under a federal award is no longer needed for the originally authorized purpose, the district must obtain disposition instructions from the federal awarding agency or pass-through entity administering the program, in accordance with applicable law and regulations. (2 CFR Sec. 200.313)

When the district determines that equipment or supplies acquired under a federal award are no longer needed for the original project, program or for other activities currently or previously supported by a federal agency, the ☐ *Superintendent* ☐ *Business Manager* ☐ *Federal Programs Coordinator* will contact the federal agency or pass-through entity for disposition instructions if required by the terms and conditions of the federal award.

However, if the equipment has a fair market value of $10,000 or less per unit, the district may retain, sell, or otherwise dispose of equipment or supplies acquired under a federal award with no further responsibility to the federal agency or pass-through entity.

Further, if the equipment has a fair market value in excess of $10,000 and the federal agency or pass-through entity fails to provide requested disposition instructions within 120 days, the district may retain or sell the equipment, however the federal agency is entitled to an amount calculated by multiplying the percentage of the federal agency's contribution towards the original purchase by the current market value or proceeds from the sale. If the equipment is sold, the federal agency or pass-through entity may permit the district to retain from the federal share $1,000 of the proceeds to cover expenses associated with the selling and handling of the equipment.

The district may transfer title to the property to the Federal Government or to an eligible third party. In such cases, the district shall be entitled to compensation for its attributable percentage of the current fair market value of the property.

If the district fails to take appropriate disposition actions, the federal agency or pass-through entity may direct the district to take disposition actions.

When acquiring replacement equipment, the district may either trade-in or sell the equipment and use the proceeds to offset the cost of the replacement equipment.

The district may use the following methods in disposing of unnecessary equipment or supplies acquired with federal funds:

- ☒ *Public auction and/or online sale – generally conducted by a licensed auctioneer.*
- ☒ *Salvage – scrap sold to local dealers.*
- ☒ *Negotiated sale – normally used when disposing of items of substantial value.*
- ☒ *Sealed bid – normally used for items of substantial value or unique qualities.*
- ☒ *Pre-priced sale – large quantities of obsolete or surplus equipment or supplies may be sold by this method.*
- ☒ *Donation to charitable organizations, for equipment or supplies with little to no value.*
- ☒ *Disposition to trash for equipment or supplies with no value.*

The ☐ *Superintendent* ☐ *Business Manager* ☒ *Federal Programs Coordinator* will be responsible for maintaining records of obsolete and surplus property disposed of and will report to the federal agency when required.

The board shall designate the banks, savings and loan associations, and savings banks that shall serve as depositories of the district's funds and the officer(s) and employee(s) that shall serve as depositories of the board's funds on behalf of the district. Any changes in such designations shall be ratified by board action and recorded in board minutes. The depositories designated by the board shall be responsible for investment of school district monies, and no individual authorized to have custody of board and district funds shall deposit such funds other than at banks, savings and loan associations, and savings banks designated by the board.

Any monies not immediately required for the purposes for which the monies were collected or received may be invested as provided by current statute. Investment objectives are to protect the investment principal, provide liquidity, and maximize investment return.

All offerings of monies for investment shall state the type of investment, the amount to be invested, and the maturity date of each investment. All responses shall be directed to the superintendent, or one of the board's designated depositories as designated by the superintendent and shall be specified on the basis of simple interest.

Posting Securities

All investments of district monies not covered by the Federal Deposit Insurance Corporation (F.D.I.C.) coverage shall be secured to 102% of the amount of district monies by a pledge of direct federal obligations, or direct guaranteed federal agency deposits in accordance with requirements of state law or by the public moneys pooled method. Any investments in savings deposits, demand deposits, time deposits, open accounts, certificates of deposit, or time certificates of deposit in excess of the amount insured or guaranteed by the F.D.I.C. shall be secured by the Pool Money Investment Board with the Kansas State Treasurer. All investments acquired by repurchase agreements shall be perfected in the name of the district and shall be delivered to a third-party custodian, which may be the Kansas State Treasurer. Exceptions to the required posting of securities shall be only as provided by law and with approval of the board.

Savings Investments

All banks, savings and loan associations, and savings banks (hereafter "financial institution(s)") with main or branch offices located within the district and the county or counties in which part of the district is located shall be given an opportunity to respond to requests for proposals on monies offered for investment. The depository institution shall have two business days to respond to the request for proposals. Proposals for savings type accounts will be for maturities of not more than two years. If one or

more financial institutions will pay an interest rate equal to or greater than the investment rate, the district shall select one or more of the eligible financial institutions.

Repurchase Investments

The district may also make requests for proposals to invest in repurchase agreements for direct obligations of, or obligations that are insured as the principal and interest by, the United States government or any agency thereof with financial institutions located in the district. If there is no financial institution in the district, or the in-district institutions are not willing to pay an interest rate equal to or greater than the investment rate, then the district may use financial institutions in the county or counties in which the district is located. If no financial institution listed above is willing to enter into an agreement at an interest rate equal to or greater than the investment rate, then the district may enter into agreements with financial institutions located within Kansas.

Selection of Proposals

Distribution of monies for investment shall be as follows:

A depository designated by the board shall inform each eligible financial institution of the total amount of money to be invested on a specified date, the maturity date of the investment, and the type of investment. Each financial institution responding shall submit a proposal for the type of investment and the rate of interest it would pay on each type of investment for all or part of the funds to be invested.

Monies shall be invested with the financial institution offering the highest interest rate in such amount as the financial institution will accept, and any remaining amounts shall be invested with the financial institution(s) offering the next highest interest rates in such amounts as it will accept until all funds offered for investment are invested. No financial institution shall be eligible to receive any funds in the same offering at a rate lower than its proposal rate on each type of investment.

No proposal less than the most recently determined investment rate as defined in K.S.A. 12-1675a shall be accepted unless otherwise authorized by K.S.A. 12-1675.

Monies available for reinvestment as a result of maturities may be reinvested with the financial institution holding such monies provided the financial institution agrees to pay the same or higher rate as that offered by the highest proposal at the time the requests for proposals were accepted.

In the event of identical high proposals, the allocation of monies to be invested between the financial institutions offering the high proposals shall be at the discretion of the depository designated by the board superintendent.

The district treasurer shall record the following information: the date of each request for proposal; the name of each financial institution notified; the name of the officer notified; the proposal for each type of investment; the amount of monies the financial institution is willing to accept at the rate proposed.

To be eligible to receive invested funds or deposits from the district, any otherwise eligible financial institution shall have on file in the office of the district treasurer a letter requesting its inclusion in any request for proposal and providing proper assurance of compliance with requirements of applicable laws and board policy relating to maintenance of proper security and assurance of its membership in good standing consistent with current federal regulations. (See GAAC, GAACA, JDDC, JGEC, JGECA, KN, and KNA)

The district is committed to maintaining a working and learning environment free from discrimination, insult, intimidation, and harassment due to race, color, national origin, religion, sex, age, genetic information, or disability.

Discrimination against any individual on the basis of race, color, national origin, sex, disability, age, genetic information, or religion in the admission to, access to, treatment, or employment in the district's programs and activities is prohibited. discrimination on the basis of sex), Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, the Personal Responsibility Work Opportunity Reconciliation Act of 1996, and the Food Stamp Act of 1977, as amended.

Complaints regarding alleged discrimination on the basis of sex, as prohibited by Title IX of the Education Amendments of 1972 and other federal and state laws regulating such discrimination and discriminatory harassment, shall be handled in accordance with the procedures outlined in board policies GAAC and JGEC and shall be directed to the Title IX Coordinator at (Position or name, address, email address, and phone number of Title IX Coordinator). Unless otherwise provided in board policy, general complaints, those not alleging acts of discrimination, will be resolved using the district's general complaint procedures in policy KN.

Any employee who engages in discriminatory, harassing, or retaliatory conduct shall be subject to disciplinary action, up to and including termination.

Except as otherwise provided in this policy and board policies GAAC, JGEC, and KNA, any incident of discrimination in any form shall promptly be reported to an employee's immediate supervisor, the building principal, or the district compliance coordinator for investigation and corrective action by the building or district compliance officer. Complaints alleging discriminatory and/or harassing conduct on the part of the superintendent shall be addressed to the board of education.

Except as otherwise provided in board policy regarding complaints of discrimination on the basis of sex or regarding child nutrition programs, complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures:

Informal Procedures

The building principal shall attempt to resolve complaints of discrimination or harassment in an informal manner at the building level. Any school employee who receives a complaint of such discrimination or harassment from a student, another employee, or any other individual shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint and forward this record to the district compliance coordinator.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved through the informal procedures described herein, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy shall be forwarded to the complainant and the respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion. In no event

shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.

  - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
  - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.

- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

Formal Complaint Appeal

- The complainant or respondent may appeal the determination of the complaint.
- Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or the superintendent, or by the board itself.
- The request to appeal the resolution shall be made within 20 days after the date of the written determination of the complaint at the lower level.
- The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report and shall afford the complainant and the respondent an
- opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed.
- The appeal officer will issue a written determination of the complaint's validity on appeal and a description of its resolution within 30 days after the appeal is filed.

If it is determined at any level that discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

"Complainant" means an individual who is alleged to be a victim of conduct that could constitute sexual harassment.

"Dating violence" means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

"Domestic violence" includes felony or misdemeanor crimes committed by a current or former spouse or intimate partner of the victim under the family or domestic violence laws of Kansas.

" Informal resolution facilitator" is a neutral person, designated by the Title IX Coordinator, who has been trained to assist the parties through the voluntary informal resolution process. The informal resolution facilitator shall not be the Title IX Coordinator, investigator, decision-maker, or appeal-decision maker. "Investigator" is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the school, and other similar measures. The supportive measures provided to the complainant or respondent by the district must remain confidential to the extent that maintaining such confidentiality would not impair the ability of the district to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

"Title IX Coordinator" is the individual designated at the district level who has the responsibility to coordinate compliance with Title IX of the Education Amendments of 1972. Reporting of Sex-Based Discrimination, including Sexual Harassment

The district takes all reports of sex-based discrimination, including sexual harassment, seriously and will respond meaningfully to every such report of which the district has actual knowledge.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Any person may make a verbal or written report of sex discrimination by any means and at any time.

Any act of retaliation or discrimination against any person who has opposed discrimination; filed a complaint; or testified, assisted, or participated in any investigation, proceeding, or appeal involving sex-based discrimination, including sexual harassment, is prohibited. The district will take appropriate available action to address retaliation, which may include student or employee discipline procedures.

It shall be a violation to discourage a student or an employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy. Violation of this policy shall result in appropriate disciplinary action.

False or malicious complaints of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the complainant.

False statements made in the course of an investigation of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the individual.

Complaint Process for Sex-Based Discrimination (Not Sexual Harassment)

Complaints of sex-based discrimination that do not allege sexual harassment will be investigated through the complaint procedure outlined in policy KN to determine whether, under the totality of the circumstances, the alleged behavior constitutes a violation of this policy. Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in appropriate discipline.

Grievance Process for Sexual Harassment

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the Title IX Coordinator, the employee's supervisor, or other designated district official. Employees who fail to appropriately report complaints or incidents of sexual harassment to the Title IX Coordinator, the employee's supervisor, or other designated district official may face disciplinary action.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

The Title IX Coordinator, any investigator, decision-maker, appeal decision-maker, or any informal resolution facilitator shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including avoiding prejudgment of the facts, conflicts of interest, and bias.

Investigators shall receive training on issues of relevance of questions and evidence in order to create investigative reports that fairly summarize relevant evidence. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant.

Within 10 business days of any reports of sexual harassment, the Title IX Coordinator shall, contact the complainant and discuss the availability of supportive measures, with or without the filing of a formal complaint; consider the complainant's wishes as to supportive measures; and inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Informal Resolution Process for Sexual Harassment Complaints

At any time during the formal complaint process regarding alleged sexual harassment and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process requires:

- The informal resolution facilitator is to be a trained educational professional, consultant, or other individual selected by the Title IX Coordinator who has received training on their role;
- the parties to be provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- at any time prior to agreeing to a resolution, any party to have the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and to be informed of any consequences resulting from participating in the informal resolution process;
- that the parties voluntarily consent, in writing, to the informal resolution process; and
- that the informal resolution process is not used to resolve allegations that an employee has sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the resolution, have both parties sign the agreement, provide a copy of the agreement to both parties, and forward it to the Title IX Coordinator. If the matter is not resolved, the informal resolution facilitator will notify the Title IX Coordinator, who will resume the formal complaint process.

Formal Grievance Process for Sexual Harassment Complaints

No formal investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

The procedures for filing a formal complaint are as follows.

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.

Upon receipt of a formal complaint, the Title IX Coordinator shall either dismiss the formal complaint or initiate the formal grievance process by providing notice to the parties of the complaint.

Dismissal of a Formal Complaint of Sexual Harassment

The Title IX Coordinator must dismiss the complaint if it is determined that:

- Even if all the facts alleged are true, the conduct alleged in the formal complaint would not constitute sexual harassment as defined herein;
- the conduct did not occur in the recipient's education program or activity; or
- the conduct did not occur against a person in the United States.

During the course of the formal grievance process, the Title IX Coordinator may dismiss the complaint if:

- A complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- the respondent is no longer enrolled or employed by the district; or
- specific circumstances prevent the recipient from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon a dismissal of a complaint, the Title IX Coordinator must promptly send written notice of the dismissal and reason(s) therefor simultaneously to the parties.

Dismissal of a formal complaint does not preclude an investigation or disciplinary action under another district policy.

Initiation of Formal Grievance Process for Sexual Harassment Complaints

Upon filing of a formal complaint of sexual harassment, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
    - The identities of the parties involved, if known;
    - the conduct allegedly constituting sexual harassment; and
    - the date and location of the alleged incident, if known.
- The district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, the Title IX Coordinator shall provide notice of the additional allegations to known parties.

Formal Complaint Investigations Regarding Sexual Harassment

To ensure a complete and thorough investigation of any sexual harassment complaint and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied by an advisor of their choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party or witness is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint of sexual harassment, including the investigative report, and the opportunity to respond to that evidence before a determination is made;

- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

The investigator shall prepare an initial investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors simultaneously.

The parties shall have 10 days to submit a written response to the initial report for the investigator's consideration.

Following the opportunity for the parties and their advisors to review and respond to the initial report, the investigator shall submit a final report to the parties and the Title IX Coordinator simultaneously. Upon receipt, the Title IX Coordinator shall provide a copy of the final report and supporting documentation to the decision-maker.

Decision-Maker's Determination Regarding Sexual Harassment Complaints

Upon receiving the investigator's final report, but prior to reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with any answers provided, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- include the findings of fact supporting the determination;
- address any district policies and/or conduct rules which apply to the facts;
- a statement of, and rational for, the result as to each allegation, including a determination regarding responsibility; and
- the procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend that, based on respondent's action, respondent be subject to disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in disciplinary action.

A copy of the written determination shall be provided to both parties and the Title IX Coordinator simultaneously.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

If the formal grievance process determines the actions constituted sexual harassment in violation of this policy, the respondent shall be subject to disciplinary action, up to and including termination for employees or expulsion for students. If the formal grievance process determines the actions were in violation of other policies but do not constitute sexual harassment, the respondent may be subject discipline under those policies.

If it is determined that sexual harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Appeals Regarding Sexual Harassment Complaints

The complainant or respondent may appeal the decision-maker's determination regarding responsibility of a sexual harassment complaint or a dismissal of a formal complaint, on any of the following:

- Procedural irregularity that affected the outcomes;
- new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal of the complaint was made that could affect the outcome; and/or
- the Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the investigator, the decision-maker, or informal resolution facilitator that participated in any level of the grievance process that led to the original determination.

The Title IX Coordinator shall notify the parties in writing of the filing of an appeal and implement appeal procedures equally for both parties.

Racial and Disability Harassment: Employees **GAACA**

(See GAF, JGECA and KN)

The board of education is committed to providing a positive and productive working and learning environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Racial and disability harassment will not be tolerated in the school district. Racial or disability harassment of employees or students of the district in any district education program or activity is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial and disability harassment are prohibited at school, on school property, and at all school – sponsored activities, programs or events.

It shall be a violation for any employee to discourage a student or another employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Violations of this policy by any employee shall result in disciplinary action, up to and including termination.

Harassment prohibited by this policy includes racially or disability - motivated conduct which:

- Affords an employee different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the employee to participate in or benefit from the services, activities or programs of the school;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile working environment;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with an individual's work performance or employment opportunities.

Racial or disability harassment may result from verbal or physical conduct or written or graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of racial or disability harassment will be promptly investigated and resolved.

Employees who believe they have been subjected to racial or disability harassment should discuss the problem with their immediate supervisor. If an employee's immediate supervisor is the alleged harasser, the employee should discuss the problem with the building principal or the district compliance coordinator. Employees who do not believe the matter is appropriately resolved through this meeting may file a formal

complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Any employee who witnesses an act of racial or disability harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action, up to and including termination.

Initiation of a complaint of racial or disability harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including termination from employment.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall be published in employee hand books and on the district's website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

This policy shall be made available on the district website with links to the policy available on any individual school pages. "Time-out" means a behavioral intervention in which a student is temporarily removed from a learning activity without being secluded.

Prohibited Types of Restraint

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student's airway;
- Using physical restraint that impacts a student's primary mode of communication;

    - Any device used by a certified law enforcement officer to carry out law enforcement duties; or
    - Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to affect physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition shall be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. In spite of the provisions of this subsection, a student may be subjected to ESI if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall see and hear the student at all times. The presence of another person in the area of purposeful isolation or observing the student from outside the area of purposeful isolation shall not create an exemption from otherwise reporting the incident as seclusion. When a student is placed in or otherwise directed to an area of purposeful isolation, the student shall have reason to believe that the student is prevented from leaving.

If the area of purposeful isolation is equipped with a locking door designed to prevent a student from leaving the area of purposeful isolation, the door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the area of purposeful isolation, or in case of emergency, such as fire or severe weather.

An area of purposeful isolation shall be a safe place with proportional and similar characteristics as those of rooms where students frequent. Such area shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include:

- The events leading up to the incident;
- student behaviors that necessitated the ESI;
- steps taken to transition the student back into the educational setting;
- the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI;
- space or an additional form for parents to provide feedback or comments to the school regarding the incident;

- a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and
- email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year:

- A copy of this policy which indicates when ESI can be used;
- a flyer on the parent's rights;
- information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and
- information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas.

Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. The documentation shall include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,

- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and
- Whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if

the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

Maintaining a drug-free workplace is important in establishing an appropriate learning environment for the students of the district. The unlawful manufacture, distribution, sale, dispensation, possession, or use of a controlled substance is prohibited at school, on or in school district property; and at school-sponsored activities, programs, and events. Possession and/or use of a controlled substance by an employee for the purposes of this policy shall only be permitted if such substance was obtained directly, or pursuant to a valid prescription or order issued thereto, from a person licensed by the state to dispense, prescribe, or administer controlled substances, and any use is in accordance with label directions.

As a condition of employment in the district, employees shall abide by the terms of this policy. Employees shall not unlawfully manufacture, distribute, dispense, possess, and/or use controlled substances in the workplace.

Any employee who is convicted under a criminal drug statute for a violation occurring at the workplace must notify the superintendent of the conviction within five days after the conviction. The superintendent shall then ensure that notice of such conviction is given to any granting agency within 10 days of receiving notice thereof.

Within 30 days after the notice of conviction is received, the school district will take appropriate action with the employee. Such action may include suspension, placement on probationary status, or other disciplinary action including termination. Alternatively, or in addition to any action short of termination, the employee may be required to participate satisfactorily in an approved drug abuse assistance or rehabilitation program as a condition of continued employment. The employee shall bear the cost of participation in such a program. Each employee in the district shall be given a copy of this policy.

This policy is intended to implement the requirements of the federal regulations promulgated under the Drug-Free Workplace Act of 1988. It is not intended to supplant or otherwise diminish disciplinary actions which may be taken under board policies or the negotiated agreement.

Workers' Compensation (See KFD) **GAOE**

(See KFD)

The district will participate in workers compensation as required by current statute. The combined workers compensation benefits and salary received under allowed paid leave shall not exceed one full day's pay.

All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

An injured employee must notify the designated employer's workers compensation coordinator or, if the coordinator is unavailable, his or her supervisor, either orally or in writing within 30 days of the accidental injury or repetitive trauma in order to be eligible for benefits. If the individual no longer works for the district, the former employee has 20 calendar days after the individual's last day of employment with the district to report an injury suffered during a work-related accident or repetitive trauma.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and paid leave benefits shall not exceed a regular daily rate of pay. An employee using paid leave in combination with workers compensation will be charged for one full or partial day of paid leave, as provided for in the applicable leave policy or the negotiated agreement, for each day of absence until the employee's paid leave is exhausted.

Any employee who is off work and receiving workers compensation benefits shall be required to provide the designated workers compensation coordinator with a written doctor's release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under paid leave shall terminate, and those benefits under workers compensation shall be restricted as provided by current statute.

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid leave to supplement the workers compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid leave may be

used for this purpose until 1) available paid leave benefits are exhausted; 2) the employee returns to work; 3) the employee is released by the medical provider and a position is offered by the employer, but the

employee declines to return to work; or 4) employment is terminated. Paid leave shall be calculated on a pro rata amount equal to the percentage of salary paid by the district.

Testing

The board, through its designated workers compensation coordinator, may require employees who claim or are involved in an accident in the course of employment to submit to a post-injury chemical test. This includes instances where the district administration or workers compensation coordinator has actual knowledge of an accident whether the employee has or has not requested medical treatment. If an employee refuses to submit to an employer requested post-injury chemical test, the employee forfeits all related workers compensation benefits as provided in K.S.A. 44-501(b)(1)(E). Testing and the procedures used therefore shall conform to all relevant Kansas statutes.

Choice of Physician

The board shall have the right to choose a designated health care provider to provide medical assistance to any employee who suffers an injury while performing their job. However, if the injured employee chooses to go to a medical provider other than the designated provider, the recovery for such expenses shall be limited to $800.00.

An employee afflicted with a communicable disease dangerous to public health may be excluded from district-owned or operated property for the duration of the contagiousness to provide maximum health protection to other school employees and students.

The employee shall be allowed to return to duty upon recovery from the illness, when the employee is no longer contagious as authorized by the employee's physician or local health officer, or after the expiration of any period of isolation or quarantine.

The board reserves the right to require a written statement from the employee's physician or local health officer indicating that the employee is free from all symptoms of the communicable disease.

If a school employee has been diagnosed as having a communicable disease and the superintendent has been notified by the employee, the superintendent or the superintendent's designee shall determine whether a release shall be obtained from the employee's physician or local health officer before the employee returns to duty.

Decisions regarding the type of employment setting for an employee with a communicable disease shall be made by the superintendent or the superintendent's designee based on consideration of the physical condition of the employee and the following factors:

- The nature of the risk;
- The duration of the risk;
- The severity of the risk; and
- The probability that the disease will be transmitted or cause harm to the employee or to others who will share the same setting.

No information regarding employees with communicable diseases shall be released by school personnel without the employee's consent except as allowed by state or federal law.

Military Leave **GARID**

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Rights Act of 1994. The Act applies to military service that began on or after December 12, 1994, or military service that began before December 12, 1994, if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of "service in the uniformed services." The uniformed services consist of the following military branches:

- Army, Navy, Marine Corps, Air Force or Coast Guard.
- Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve.
- Army National Guard or Air National Guard.
- Commissioned corps of the Public Health Service.
- Any other category of persons designated by the President in time of war or emergency.

"Service" in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:

- Active duty.
- Active duty for training.
- Initial active duty for training.
- Inactive duty training.
- Full-time National Guard duty.
- Absence from work for an examination to determine a person's fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions that can exceed the five (5) year limit. Reemployment protection does not depend on the timing, frequency, duration, or nature of an individual's service. The law enhances protections for disabled veterans, including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for military service, with the same seniority, status, and pay, as well as other rights and benefits determined by law. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded to other individuals on non-military leaves of absence. Individuals performing military duty of more than 30 days may elect to continue employer-sponsored health care for

up to 24 months at a cost of up to 102 percent of the full premium. For military service of less than 31 days, health care coverage is provided as if the individual had never left. All pensions which are a reward for length of service are protected.

Individuals must provide advance written or verbal notice to their employers for all military duty. Notice may be provided by the employee or by the branch of the military in which the individual will be serving.

Notice is not required if military necessity prevents the giving of notice, or if the giving of notice is otherwise impossible or unreasonable.

Accrued vacation or annual leave may be used, but is not required, while performing military duty. The individual's timeframe for returning to work is based upon the time spent on military duty.

TIME SPENT ON MILITARY DUTY	RETURN TO WORK OR APPLICATION FOR REEMPLOYMENT
Less than 31 days:	Must return at the beginning of the next regularly scheduled work period on the first full day after release from service, taking into account safe travel home plus an eight (8) hour rest period.
More than 30 but less than 181 days:	Must submit an application for reemployment within 14 days of release from service.
More than 180 days:	Must submit an application for reemployment within 90 days of release from service.

The individual's separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

- The application for reemployment is timely;
- The five-year service limitation has not been exceeded; and
- Separation from service was under honorable conditions.

If documentation is not readily available or does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Questions regarding military leave should be directed to the Veterans' Employment and Training Service, U.S. Department of Labor.

Kansas law also requires reemployment if an individual is called to active duty by the state.

- The employee has received specific and direct permission from a supervisor to do so; or
- There is an emergency.

Even when these conditions exist, the employee is responsible for obtaining assistance in adequately supervising students during the approved use so that students are supervised at all times.

Use in Vehicles

Regardless of other provisions of this policy, unless there is an emergency, employees shall not use communication devices when:

- Driving district-provided vehicles;
- Operating a vehicle in which a student is being transported when the transportation is provided as part of the employee's job; or
- Supervising students who are entering or exiting a vehicle, crossing thoroughfares, or are otherwise attempting to safely reach their destinations.

Even in emergency situations, employees should first take all possible safety precautions before using communication devices. Employees are subject to local, state, and federal laws governing the use of cell phones while driving and will be solely responsible for all traffic violation liabilities resulting from their use of a phone while driving.

Use of District-Provided Communication Devices

The district may provide communication devices and service to some employees to assist them in carrying out their employment-related duties on and off district property. Use of a district-provided communication device is a privilege. The superintendent or designee has sole discretion as to which employees will be provided communication devices and may recall any previously issued communication device. Employees do not have any expectation of privacy in district-provided communication devices or any information stored on them, and such devices may be confiscated and searched at any time.

Employees are expected to exercise reasonable care to protect district-provided communication devices from damage or theft and must report any such incidents immediately.

The district may require employees to reimburse the district for any damage or theft that was the result of the employee's negligence. Users of district-provided communication devices must abide by any use limitations included in the district's service contract.

Personal Use of District-Provided Communication Devices

Personal use of district-provided communication devices is permissible as long as the use does not exceed the limits of the applicable plan. An employee whose use exceeds plan limitations will be required to reimburse the district for all expenses beyond those covered by the plan and may have privileges suspended or revoked unless the employee can show that all use was for employment-related duties and the device was not used for personal reasons. The amount of personal use of a communication device or service paid for under E-Rate can be no greater than the cost allocation submitted in the request for the E-Rate discount.

Staff Bringing Your Own Device Policy

Use of employees' personal communication devices during work hours shall be restricted to classroom or work-related activities. Such personal communication devices may only be used by the staff member and are not for student use. The security of personal computing devices is solely the responsibility of the staff member. Any loss resulting from damage or theft of personal communication devices in the school setting is not the responsibility of the district.

Prior to administering any such test, questionnaire, survey, or examination, each student shall be informed that such student has the right to refuse to take it and that the student will not suffer any adverse consequences based on refusal to participate.

No personally identifiable student data shall be collected through any such test, questionnaire, survey, or examination.

Textbooks, Instructional Materials, and Media Centers **IF**

(See IKD and KN)

All textbooks, instructional materials, and the selection criteria for district media center materials shall be subject to board approval.

Textbooks and instructional materials shall support the district's instructional program. Media center materials shall support and supplement the curriculum, promote wise use of leisure time, develop literary discrimination and appreciation, and encourage students to become productive citizens.

Selection Criteria: Textbooks and Instructional Materials

Textbooks and instructional materials shall provide:

- An effective education for all students;
- Factual knowledge, literary appreciation, aesthetic values, and ethical standards;
- Practice for students to develop abilities in critical thinking, communication, mathematics, and science skills;
- Information which helps students develop an appreciation of American cultural, ethnic, and racial diversity, and balanced views concerning international, national, state, and local issues and problems; and
- Sufficient flexibility for meeting the special needs of individuals and groups.

The superintendent shall develop selection procedures which meet the above criteria, including a review of available material by appropriate staff members.

Selection Criteria: Media Center Materials

Materials shall be chosen for accuracy, artistic quality, format, and authoritativeness.

Materials shall be chosen on various reading levels presenting different points of view, including current issues.

Books and other media materials shall be evaluated before purchase, either through direct examination or by using reputable, unbiased, professionally prepared selection tools.

The media center(s) shall obtain, process, and circulate materials and equipment and provide references and other services to students and faculty. Media specialists shall work toward providing resources so that students have an opportunity to achieve high levels of performance.

Collection Development

The media collection shall be developed systematically, be well-balanced in coverage of subjects, and include various types of materials and diverse content in multiple formats.

The collection shall reflect, enhance, and complement the broad interests represented in the curriculum. The collection should be large enough to allow materials to be placed in classrooms for extended periods of time.

Challenges of Materials

Any student, parent, or legal guardian of a student currently enrolled in the district who has a complaint about textbooks, media center materials, or other instructional materials shall meet with the teacher, media specialist, or principal. If the concern is addressed to a teacher or media specialist, they shall report the matter to the principal. If the matter cannot be resolved, the principal shall notify the superintendent and ask the complainant to complete a request for review form, which is available through building principals or at the district office. After receiving the completed form, the superintendent shall review and consider the request.

If the issue outlined in the request is not resolved after review by the superintendent, the requestor may seek review by the board.

In determining whether to forward a challenge to a review committee, the board shall consider the following factors:

- The basis of the challenge;
- Whether the material has been previously challenged and reviewed pursuant to this process; and
- Whether it is necessary to submit it for additional review.

If the board chooses not to submit the challenge to the review committee, the superintendent will notify the requestor of the board's decision. If the board chooses to submit the challenge to a review committee, it shall forward all appropriate written materials necessary to the review committee.

Composition of Review Committee

When a review committee is established to handle requests for review concerning textbooks, media center materials, or instructional materials, the review committee shall be composed of:.

The building principal, library media specialist, two subject area specialists, two community members, and one student. If the request for review proposes that the material is inappropriate for minors, the student representative may be left off the committee. The superintendent shall be responsible for appointing review committee members, unless otherwise determined by the board on a case-by-case basis.

Purview of Review Committee

The review committee shall examine and evaluate the material as a whole; consider the district's policy, procedures, and philosophy for the selection of textbooks, instructional materials, and media center materials; weigh strengths and weaknesses; and form opinions based upon the selection criteria.

Written Report

Within 30 days of receiving access to the challenged materials, the review committee shall review the material and prepare a written report containing conclusions and recommendations for the board of education.

If the board receives simultaneous challenges of multiple materials or if circumstances render the 30-day timeline impracticable, the board may extend the committee's deadline to complete its review.

No reviews will be conducted during summer break or when school is not in session for one week or longer. The timeline for any review shall be tolled during such breaks.

Board Review and Action

The board shall review the recommendation of the review committee within 30 days of receipt thereof and may accept the review committee's recommendation, reject the review committee's recommendation, or make its own determination regarding the challenged book or material.

The decision of the board is final.

Removing Challenged Materials

Challenged materials may be removed from use during the review period at the discretion of the superintendent.

Impact of Simultaneous or Repeated Requests

If more than one request for review is received simultaneously, or if one or more requests for review are received while another review is pending, timelines established in this policy may be extended by the superintendent or the board to allow the requests to be processed in turn. When more than one request for review is received for the same book or material, such requests may be consolidated to reduce redundancy in review at any stage of this process.

If a book or material has been reviewed by a review committee, it will not be eligible for an additional review for at least one year from the date the board took action on the previous challenge of the material.

Performance-Based Credits **IIA**

A student may earn credits toward high school graduation by demonstrating mastery of course outcomes through a performance-based assessment. The standards for designing and passing this assessment shall be set sufficiently high to ensure that credits earned through this method are equivalent to those offered within the framework of the Carnegie unit.

A written request to "test out" of a class must be submitted prior to the beginning of each semester or school year. Students may not request to "test out" of a class in which they are currently enrolled or have been previously enrolled.

The request will be evaluated within 30 school days by a review committee composed of a building administrator, a school counselor, a faculty member appointed by the principal, and the student's parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course outcomes. Commercially available instruments may be used if they cover all course objectives. The performance instrument must be approved by the principal. The principal, in consultation with the instructor, will determine the setting, timelines for the administration of the instrument, and criteria for successful completion.

The student will have 10 school days to complete the tasks developed by the teacher and approved by the administration.

Credit for such classes will be awarded on a pass/fail basis only. Students are allowed only one opportunity to "test out" of any particular
class. It is not the responsibility of the school or the instructor to provide instructional or review time for the student. However, the outcomes as noted in the district curriculum guide and class syllabus will be made available.

Graduation Credit Through Integrated Coursework

The board may allow graduation credit for integrated academic or career and technical education coursework. The teacher awarding academic credit must be fully licensed and may collaborate with another instructor to develop a course plan.

The teacher shall monitor the student's progress and achievement. The course plan will be reviewed periodically to ensure it maintains rigor and relevance.

Credit Through Alternative Educational Opportunities

Students enrolled in grades six through twelve may earn course credits through alternative educational opportunities with sponsoring entities. For the purposes of this policy, terms are defined as follows:

- **"**Alternative educational opportunity" means instruction that primarily occurs outside the classroom with a sponsoring entity.
- "Sponsoring entity**"** means a business, not-for-profit organization, nonprofit organization, trade association, parent of a student, teacher, or administrator that partners with a school district to provide an alternative educational opportunity to students.

Eligibility Requirements for Sponsoring Entities

The board may accept a proposal from a sponsoring entity if the alternative educational opportunity provided by the sponsoring entity provides an additional learning opportunity for students through a work-based, pre-apprenticeship, apprenticeship, internship, industry certification, or community program; and either the proposal is approved by the state board of education as an alternative educational opportunity, or it complies with the requirements of this policy regarding such opportunities.

Requirements for the Provision of Alternative Educational Opportunities

Each approved alternative educational opportunity with a sponsoring entity shall be managed and directed by a licensed teacher employed by the school district. The teacher may work collaboratively with the principal, the sponsoring entity, or another teacher to develop a course plan for instruction with learning outcomes identified. The teacher shall monitor the student's progress and level of achievement based on this plan. The plan will be reviewed periodically and adjusted as needed to promote a quality learning experience. The principal shall provide a report annually, or as requested, to the superintendent evaluating the additional educational opportunity provided to participating students and making recommendations to the superintendent on continuation, termination, or modification of the opportunity.

Processes for Submitting a Proposal for an Additional Educational Opportunity

Sponsoring entities wishing to partner with the district to provide additional educational opportunities to students shall submit a proposal to the superintendent outlining the contact information and credentials of the person(s) that would be working directly with the student participants in this experience; educational goals for the partnership; any time, place, manner, and number of participant restrictions regarding how the learning opportunity would be provided; proposed learning outcomes for participating students; and any details regarding prerequisite coursework, certification, or experience a candidate for this experience should possess prior to entering the program.

Criteria for Evaluating Such Proposals

Prior to making a recommendation to the board on whether the district should partner with or continue to partner with a sponsoring entity, the superintendent shall review the proposed alternative educational opportunity in comparison with the board-approved curriculum and goals, consulting other staff members as necessary in that process. Before recommending action to continue such partnership from year-to-year,

the superintendent may seek and shall review any available reports on the opportunity provided by the principal in accordance with this policy.

The board should consider the recommendation of the superintendent in determining whether to partner with or continue partnership with a sponsoring entity. In order for the board to partner with a sponsoring entity and to maintain such partnership, the sponsoring entity must first meet the eligibility requirements as outlined in this policy.

Additional considerations weighing into the decision to partner with a sponsoring entity may include, but may not be limited to: whether the learning experience meets the curricular, rigor, and relevance needs of the student and/or the district; qualifications, experience, reputation, and responsibility of the sponsoring entity and/or individuals that would be working directly with students; related costs for the district, regarding the provision of transportation, equipment, human resources to monitor the experience, etc.; space and time constraints if the experience will be provided in district facilities; student and staff safety; the need for and/or availability of insurance coverage, as applicable; effect on other district course offerings and activities; and student interest. As the welfare of students is of paramount importance to the board, the district reserves the right to complete background checks on any individuals working directly with students on behalf of the sponsoring entity and to base decisions on entering or exiting such a partnership, in whole or in part, on the results thereof.

Determining the Course Credit that May Be Earned Through These Opportunities

The superintendent may develop procedures for review of the experience and the award of credit in accordance with board-approved curriculum. The superintendent may award credit for the experience as deemed appropriate for district elective offerings based on meeting local standards for those offerings. In order for any alternative educational experience to be approved for credit in a state-required course, such experience must meet all applicable statutory, regulatory, and Kansas State Board of Education-approved standards for the award of such credit.

State Reporting Requirements

The superintendent or the superintendent's designee shall make reports to the Kansas State Department of Education as required thereby. Such reports will include information regarding the alternative educational opportunities offered at each school, the names of sponsoring entities, the number of students participating in such opportunities, and credits earned.

The school district, however, cannot and does not guarantee the effectiveness of filtering software. Any student who connects to such an item must immediately disconnect from the site and notify a teacher. An employee who accidentally connects to such an item must immediately disconnect from the site and notify a supervisor. If a user sees another user accessing inappropriate sites, he or she should notify a teacher or supervisor immediately. The school district administration reserves the right to prohibit access to any network or internet it deems inappropriate or harmful. The school district shall instruct students regarding appropriate online behavior, including cyberbullying.

Penalties for Improper Use

Access to the network and internet is a privilege, not a right, and inappropriate use will result in the restriction or cancellation of that access. The school district has the right to make the determination of what constitutes inappropriate use and use as an educational tool. Inappropriate use may lead to any disciplinary and/or legal action, up to and including suspension and/or expulsion of district students and suspension and/or termination of employees. Law enforcement shall be notified of inappropriate use which may constitute a violation of federal or state law, and such use may result in criminal prosecution.

For purposes of this policy, "official school purposes" means the broadcasting or posting of public, one-way communications that pertain to school functions, activities, or events. "Official school purposes" does not include private communications, direct communications, or two-way communications with any student.

Use of Social Media for District Purposes

In order for district employees to utilize a social media platform for instructional, administrative, or other work-related communication purposes, they shall comply with the following:

1. They shall request permission from the superintendent or the superintendent's designee(s) prior to using any social media platform for district purposes.
2. If permission is granted, staff members will set up the page or account following all district policy, administrative procedures, and directives. This shall include, but may not be limited to, limiting the employee to using only board approved social media platforms for official school purposes and giving administrative access and editing rights to designated district or school officials.
3. If the expenditure of district funds is required to complete the setup or maintenance of the page or account, the requesting staff member shall present an itemized summary of such costs to the superintendent for appropriate approval.
4. Once the page or account is in use, the sponsoring staff member is responsible for the following:
    a. Monitoring and managing the page or account to promote safe and acceptable use and compliance with district policies, administrative guidelines, directives, and applicable law; and
    b. Observing confidentiality restrictions concerning release of personally identifiable student information under state and federal law.

- District email accounts;
- district learning management systems;
- board approved messaging, notification, or collaboration platforms; and
- direct messaging applications.

Training and Compliance

The superintendent or designee shall provide training to employees regarding acceptable social media platform communication practices as necessary for implementation of new requirements and then periodically thereafter.

Disciplinary Actions

Staff members are strongly discouraged from creating personal social media accounts with which they connect with current or future students. Employees taking such action do so at their own risk. All employees shall be subject to disciplinary action if their conduct relating to use of technology, social media, or online resources violates board policy, administrative regulations and/or procedures, or supervisory directives; Kansas law regarding social media platform use by school employees; statutory or regulatory provisions governing employee conduct or the protection of student record information; or if it impairs the staff member's job performance or effectiveness in the work setting.

District staff shall protect the health, safety, and emotional well-being of students and confidentiality of student information both in the school setting and in their offsite, online actions. Students and staff members may be excused from participating in practices contrary to their religious beliefs, and staff members are responsible for ensuring proper notice and opportunity for opt-out is given in accordance with board policy IKDA, as applicable.

Teaching About Religion

Teachers may teach about religion, religious literature and history but are prohibited from promoting, expounding upon, criticizing or ridiculing a religion. Religious texts may be used to teach about religion, but the use of religious texts is prohibited if used to promote a particular religious doctrine.

Religion in the Curriculum and School Activities

In compliance with this policy, religious themes may be presented in the curriculum and as part of school activities. Music, art, literature and drama having a religious theme or basis are permitted as part of the curriculum or as part of a school activity if they are presented in a balanced and objective manner and are a traditional part of the cultural and religious tradition of a particular holiday or field of study. IKDA - Religious Objections to Activities

(See IF and IKD)

The board recognizes parents have the fundamental right to direct the religious upbringing of their children. Furthermore, Kansas law supports the ability of a parent or person acting as a parent to request their child not be required to participate in a school activity which is contrary to the religious teachings of their child. To assist district staff in consistently accommodating these rights, the board adopts the following policy.

For the purposes of this policy, terms shall have the following meanings.

"Activity" shall be deemed to include, but may not be limited to, any academic assignment, curricular lecture, presentation or planned classroom discussion; classroom project; subject-specific instruction; direct exposure to assigned reading material (whether read to or by the class or assigned to the student for independent consumption); or assembly. This term shall not be interpreted to apply to an entire course of study, except when a course of study is an elective course not required for graduation and alternative courses are available for the student's enrollment and participation at the time of objection.

Parents or persons acting as parents shall be notified in advance and given the opportunity to opt their child out of any activity addressing topics that are known to be or are reasonably ascertainable to be contrary to the religious beliefs of the parents, persons acting as parents, or students themselves.

A parent or person acting as a parent (or a student eighteen years of age or older) may request that the student be excused from participating in activities for religious reasons. The parent, person acting as a parent, or adult student must complete the district opt-out form for religious objections, stating the specific activity, the portion of the curriculum in which the activity exists, and the reasons for the request. The request may be granted, or denied, or partially granted and partially denied.

A parent or person acting as a parent seeking to remove their child from activities contrary to the child's religious teachings must complete the district's Activity Participation Opt-Out Form regarding religious objections which is available in the school office. Parents and persons acting as parents desiring to opt their children out of activities due to religious reasons must return the completed and signed form to the principal. The form must be submitted within a reasonable amount of time prior to the scheduled activity in order to allow time for the principal to consider the request. The completed form shall be kept on file in the school office, and the principal shall receive a copy.

The principal shall review the request and determine whether the request should be granted or denied. The principal shall notify the parents or persons acting as parents of the decision within a

reasonable amount of time after the request is submitted. If the parents are dissatisfied with the principal's decision, they may appeal in writing to the superintendent.

If the opt-out request is granted, the school may provide an appropriate alternative assignment or academic activity aligned with the same learning goals without penalty to the student.

Opt-out requests must be submitted annually and are valid only for the school year in which they are submitted.

Nothing in this policy shall be interpreted to allow a parent, person acting as a parent, or adult student to opt a student out of entire courses which have been deemed required graduation requirements by the board or by the state of Kansas, except as otherwise provided by law. Parents and persons acting as parents of middle or high school students are encouraged to assist students in monitoring available course offerings and their descriptions near enrollment periods in order to make appropriate course selections in line with state required graduation requirements while still accommodating the child's sincerely held religious beliefs.

With the prior approval of the principal, animals or plants may be brought to school for instructional purposes.

If someone is injured by an animal or comes into contact with a toxic plant, the incident shall be immediately reported to the administration by the supervising teacher. The principal shall notify the appropriate persons.

Service Animals in the Schools

Service animals are permitted in the schools and on school property in accordance with federal law. To accommodate the health and safety of our students and staff while maintaining our educational services, programs, and activities, employees and students are encouraged to notify their building administrator prior to bringing a service animal to school for the first time. Patrons or individuals attending functions or having short-term business on school property are not required to provide advance notice to school staff in order to be accompanied by a service animal.

Access to school buildings will not be denied to a service animal as long as the animal is individually trained and required to do work or perform tasks for the benefit of an individual with a disability. Such work or tasks must be directly related to the individual's disability. District staff shall not be responsible for providing care or control of a service animal, and any service animal that is out of control or is not housebroken may be excluded by district staff.

For the purpose of this policy, "service animals" does not include animals provided by the school for instructional purposes or therapy or comfort animals.

JBC - Enrollment

(See IIBGB, JBCA, JBCB, JBCC, and JQKA)

Resident Students

A "resident student" is any student who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. For purposes of this policy, "parent" means the natural parents, adoptive parents, step-parents, and foster parents. For purposes of this policy, "person acting as a parent" means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support, or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Homeless Students

Any student who has attained the age of eligibility for school attendance may attend school in the district where the student resides or is staying if the student is homeless as defined by law. Details concerning the education of homeless students may be found in board policy JBCA.

Foster Students

Any student in the custody of the Secretary of the Department for Children and Families ("DCF") who has attained the age of eligibility for school attendance shall be permitted to enroll in and attend school in any school district of the state or remain enrolled in and continue attending school in the student's school of origin.

If a court or DCF changes the placement of a student across a school boundary within the school district, the student shall be permitted to:

- enroll in and attend the school where the student is placed; or
- remain enrolled in and continue attending the student's school of origin.

DCF shall determine the child's enrollment and attendance based on the best interests of the child.

The district shall not deny or delay enrollment and attendance of any foster student whose placement has changed on the basis that the school district or school is not in possession of the student's educational records.

Details concerning the education of foster students may be found in board policy JBCB.

Nonresident Students

Details concerning the enrollment and continued enrollment process for nonresident students may be found in board policy JBCC.

Military Students

Details concerning the enrollment and attendance of military students, as defined in state law, may be found in board policy JBCD.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

The board allows any child to enroll part-time in the school district to allow the student to attend any courses, programs, or services offered by the school district if the child:

- Is also enrolled in a nonaccredited private elementary or secondary school or in any other private, denominational, or parochial school as required by law;
- requests to enroll part-time in the school district; and
- meets the age of eligibility requirements for school attendance.

District administrators shall make a good faith attempt to accommodate scheduling requests of students enrolling in the school district in these situations but shall not be required to make adjustments to accommodate every such request.

Part-time students, other than those specified previously in this policy may enroll with the administration's permission if they complete all paperwork in a timely fashion and are in attendance no later than September 10. Such part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available, and the students follow the district's student conduct policies and rules.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of DCF, or other documentation which the board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript, similar pupil records or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the

McKinney-Vento Act as amended by ESSA. The district shall work with DCF, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate or as changed by a court order and the name, address, and telephone number of the lawful custodian. The records shall also provide proper proof of identity.

Assignment to a School Building, Grade Level, or Classes

Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal's decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In middle school and high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student's documented past educational experiences and performance on tests administered to determine grade level placement.

JBCB - Foster Care Students

(See EDAA, JBC, JBCA, and JRB)

The district, in accordance with state and federal law and the Kansas state plan, will ensure students placed in foster care within the school district have access to a public education in a stable educational environment. For the purposes of this policy and its applicable regulations, "foster care" means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties.

Point of Contact

The board shall designate an employee to serve as a point of contact for child welfare agencies on behalf of the district.

Mobile Crisis Helpline

JBCB – FOSTER CARE STUDENT REGULATIONS

Foster Care Student Regulations

To Aid in Implementation of Federal Law

NOTE: This document MUST be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

The Every Student Succeeds Act ("ESSA") addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education ("KSDE"), and the Kansas Department for Children and Families ("DCF") to ensure the educational stability of students in foster care.

For the purposes of these regulations, "foster care" means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care (See sample transportation procedure below)
ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student's best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

Additional Costs
"Additional costs" reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

School of Origin
The "school of origin" is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student's best interest to stay at that school.

Best-Interest Determination
DCF will make the final decision regarding whether it is in a student's best interest to remain in the school of origin. District staff may be asked to provide information on the "educational best interest" of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the best interest determination process, as the district will still be

required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student's educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child's preference, the parents' preference, the child's attachment to the school of origin, where siblings will be placed, and the availability of needed services. The "best-interest determination" may not be made based on transportation costs or funding.

District Foster Care Liaison

The "district foster care liaison" is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district's foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

The District has designated the following staff person as the District foster care liaison:

Name: Tyler Applegate
Position: Director of Teaching and Learning
E-mail: applegatet@usd413.org
Address:321 E Main
Telephone:620-432-2500

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services ("CPS") division of DCF will typically be the division that works with the district on issues related to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

Approved: *July 1, 2026*

KASB Recommended Regulations – 12/16; 5/2

JBCC - Enrollment of Nonresident Students

(See JBC, JBCA, JBCB, and JQKA)

Kansas law requires the board to allow nonresident students to enroll in and attend the schools of the district if the board's capacity determination finds there are open seats for such students. In order to determine the district's capacity to accept nonresident students at each grade level in each district school, the board has adopted this policy.

Details concerning the nonresident enrollment and continued enrollment processes for nonresident students may be found in this policy, while general processes on enrollment documentation, assignment to buildings and classes, etc., may be found in board policy JBC.

This policy does not apply to any virtual school, as defined by Kansas law, or to any school located on a military installation.

Any child who is experiencing homelessness shall be permitted to enroll in and attend the school district of origin or the school district of residence without application and acceptance through this policy.

Any student in custody of the Department for Children and Families who has attained the age of eligibility for school attendance shall be permitted to enroll in and attend any school in any school district of the state or remain enrolled in and continue attending school in the student's school of origin without application and acceptance through this policy.

Any foreign exchange student who resides, or will reside, with a host family in the district may be permitted to enroll in and attend school in the district as if the student were a resident and shall not be subjected to the open-seat lottery for enrollment and attendance purposes.

Definitions

For the purposes of this policy, the following definitions apply.

"Homeless child" means a child who lacks a fixed, regular and adequate nighttime residence and whose primary nighttime residence is:

A. A supervised publicly or privately operated shelter designed to provide temporary living accommodations, including welfare hotels, congregate shelters and transitional housing for the mentally ill;

B. an institution that provides a temporary residence for individuals intended to be institutionalized; or

C. a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for humans.

Except as otherwise provided in this policy, "nonresident student" means a child of school age, pursuant to Kansas law, who resides in Kansas and is enrolled and in attendance at or seeking to enroll and attend a school located in a district where such student is not a resident.

"Parent" means and includes natural parents, adoptive parents, stepparents, and foster parents.

"Person acting as parent" means:

A. A guardian or conservator; or

B. a person, other than a parent, who:

   i. Is liable by law to maintain, care for or support the child;

   ii. has actual care and control of the child and is contributing the major portion of the cost of support of the child;

   iii. has actual care and control of the child with the written consent of a person who has legal custody of the child; or

   iv. has been granted custody of the child by a court of competent jurisdiction.

"Receiving school district" means a school district of nonresidence of a student who attends school in such school district.

"Sibling" means a brother or sister of the whole or half blood, adoptive brother or sister, a stepbrother or stepsister or a foster brother or foster sister.

Determining Capacity for Nonresident Enrollment

The superintendent or designee has the responsibility for studying capacity in each school of the school district and at each grade level within each school and for making recommendations to the board regarding the district's capacity to accept nonresident students. To make recommendations to the board to assist with determining capacity, the superintendent or the superintendent's designee(s) shall do the following.

The superintendent or designee shall develop recommendations on capacity and classroom student-to-teacher ratios in each grade level in each school serving kindergarten students and students in grades one through eight. Such recommendations may be based on, but not be limited to, the following factors:

- Present classroom student-teacher ratios in each grade level in each school;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends; and

- maximum capacity of the classroom and associated learning, activity, and common area spaces.

The superintendent or designee shall develop recommendations on capacity and student-to-teacher ratios for each school building or program serving students in grades nine through twelve. Such recommendations may be based on, but not be limited to, the following factors:

- Present building or program student-teacher ratios;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends;
- anticipated demand for particular courses or programming; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

On or before May 1st of each year, the superintendent shall present the recommendations concerning capacity and student-to-teacher ratios to the board for adoption or modification, and the board shall determine, for each grade level in each school building of the school district for the next succeeding school year, the following:

- Capacity based on the study conducted by the superintendent or the superintendent's designee;
- the number of students expected to attend school in the school district; and
- the number of open seats available to nonresidents at each grade, building, or program level.

On or before June 1st of each year, the district shall publish the number of open seats available to nonresident students in each grade level for each school building of the district for the next succeeding school year on the school district's website.

From January 1st through June 15th, district administration shall accept applications from nonresident students seeking to enroll in and attend the district in the next school year.

If the number of applications for a grade level in a school building is fewer than the number of available seats for that grade level in the school building, the nonresident students shall be accepted for enrollment and attendance at the school district, unless the nonresident student is deemed not in good standing.

If the number of applications for a grade level in a school building is greater than the number of available seats for the grade level in the school building, district administration shall randomly select

nonresident students deemed in good standing using a confidential, open-seat lottery process. This process shall be completed on or before July 15th of each year.

The district shall provide to the parent or person acting as a parent of a nonresident student who was not accepted for or denied enrollment at such school district the reason for the nonacceptance or denial and an explanation of the nonresident student selection process on or before July 30th of each year.

Priority in Filling Open Seats

Regardless of capacity determinations, any nonresident student whose parent or person acting as parent is employed by the district shall be allowed to enroll as if a resident student while the parent or person acting as a parent remains employed by the district, and the student is deemed to be in good standing by district administration.

Subject to having capacity to enroll nonresident students, the district shall give priority in enrollment to the following nonresident students deemed in good standing to enroll. These students shall receive open seats without necessity of being selected through any open-seat lottery:

- Any sibling of a nonresident student who is enrolled in and attending school in the district or who is accepted to enroll in and attend school in the district, with priority given when the nonresident student is first accepted and, if necessary, at any other time the district considers transfer applications; and
- any nonresident student who is a military student as defined in K.S.A. 72-5139, with priority given when the student is first accepted and, if necessary, at any other time the district considers transfer applications.

If one of these exceptions no longer applies to the student, the student's enrollment status would be subject to review based upon the considerations for determining good standing in this policy.

Prohibitions Regarding Open Enrollment Provisions of this Policy

The district shall not:

- Charge tuition or fees to any nonresident student who transfers to the district pursuant to this policy, except fees that are otherwise charged to every student enrolled in and attending school in the district; or
- accept or deny a nonresident student transfer based on ethnicity; national origin; gender; income level; disabling condition; proficiency in the English language; or measure of achievement, aptitude, or athletic ability.

Except for a child in the custody of the Department for Children and Families or a child who is experiencing homelessness, a nonresident student shall not transfer more than once per school year to

one or more receiving school districts pursuant to the provisions of this policy or authorizing Kansas law.

Transportation of Students

Neither a resident school district nor a receiving school district shall be required to provide transportation to nonresident students unless otherwise required by applicable law. If space is available on district transportation vehicles, the district may assign nonresident students an in-district bus stop to and from which transportation may be provided by the district for nonresident students. The receiving district may provide transportation from the student's residence by notifying the sending district of the receiving district's intent to provide transportation. The district shall ensure that transportation for nonresident homeless students is provided comparably to that of housed students.

KSHSAA Eligibility

Nothing in this policy or state law shall exempt a nonresident student who transfers into the district from the requirements of the Kansas State High School Activities Association ("KSHSAA") regarding eligibility to participate in KSHSAA activities.

Information Share with the Kansas State Department of Education

The superintendent shall annually submit, or have submitted, to the Kansas State Department of Education this policy, the number of nonresident student transfers approved and denied in each grade level, and whether the denials were based on capacity or in accordance with the policy's terms.

Nonresident Student Continued Enrollment

A nonresident student who has been accepted for enrollment and attendance at a district school shall be permitted to continue enrollment and attendance in the district until such student graduates from high school, reaches the age of 21 (if the student is a student with an exceptionality, not solely eligible for gifted services under an individualized education program), or receives a G.E.D., unless such student is no longer deemed by district administration to be in good standing.

Except as otherwise specified herein, nonresident students who were enrolled in and attending the district during school year 2023-2024, who were attending the district as a resident student in 2023-2024 but have since moved out of the district, or who have been accepted for enrollment by the school district on or after June 1, 2024, will be allowed to continue enrollment in the district as specified above. The district will not require parents of such students or adult or emancipated students to resubmit a new application each school year.

Determining Good Standing

Regardless of capacity to accept nonresident students at a nonresident student's grade level or in the student's designated school or program, an individual student may be denied enrollment or continued enrollment for not being in good standing. Nonresident student applicants for enrollment and nonresident

students already enrolled in and attending school in the district shall be evaluated by district administration to determine standing for enrollment or continued enrollment.

Students may be denied enrollment or continued enrollment for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Similarly, administration shall consider the adverse impact of homelessness on a student's attendance and any resulting suspensions or expulsions before making a determination on the enrollment or continued enrollment of a student who is homeless. As part of this reflection, administration shall consider the obstacles a homeless student faces to arrive at school on time or each day due to housing instability, lack of transportation, or lack of other basic resources that can hinder consistent attendance.

A student meeting one or more of the following criteria shall automatically be deemed not in good standing and may be denied enrollment or continued enrollment based solely thereon.

- The nonresident student failed to maintain a 90% attendance rate in the last school year, excluding excused absences under board policy JBD and/or any relevant student handbook language;
- the nonresident student or the student's parent or person acting as a parent provided false or fraudulent information in the application process;
- the nonresident student is not a Kansas resident;
- the student is currently under a period of suspension or expulsion from any Kansas school district, and such suspension or expulsion will not expire until after the next school year has begun.
- the student has had three or more out-of-school suspensions in the current school year, excluding suspensions determined to be a manifestation of the student's disability or a failure on the part of school staff to implement an individualized education program, Section 504 plan, or behavior intervention plan; or
- the student has been given a long-term suspension or expulsion by a school district in the current school year.

Parents shall be informed of any administrative decision not to enroll or to discontinue enrollment of a nonresident student.

If district administration denies the enrollment application of a nonresident student due to the school district deeming the nonresident student as not in good standing, the parent or person acting as a parent of such student may appeal the decision to the board. A current nonresident student who is determined not to be in good standing shall not be entitled to the appeal process outlined herein.

Any student who has been denied enrollment or continued enrollment due to being deemed not in good standing may reapply for nonresident enrollment in subsequent school years.

Appeal Process

If a nonresident student's application for enrollment is denied because the student is determined not to be in good standing, the parent or person acting as a parent may appeal the administrative decision to the board.

If a parent or person acting as a parent wishes to appeal this decision, a written request for an appeal must be submitted to the clerk of the board within 10 days of receiving notice the student's application has been denied for lack of good standing. Such request shall include the individual's reasons for disagreeing with the administration's decision.

The board shall consider any appeal of these decisions and any supplemental documentation provided therewith at the next regularly scheduled board meeting following receipt of the request for appeal, and the board's designee shall notify the requestor of the result of the appeal in writing within 10 days of the board's decision thereon.

Enrollment of Out-of-State Students

If capacity for nonresident student enrollment remains after the aforementioned application, enrollment, and the disenrollment process has concluded, district administration may consider applications for enrollment submitted by students who are not Kansas residents. However, priority in enrollment shall be given to Kansas residents.

If a student who is an out-of-state resident is in good standing and has a parent or a person acting as a parent who is employed by the district, district administration may allow the student to enroll in and attend school in the district as if they were a resident of the district.

JBD - Absences and Excuses

(See AEB, IHEA, JB, JBE, JBH, and JDD)

When a student is absent from school, an attempt shall be made to contact the parent or guardian to determine the reason for the absence. The principal has been designated to determine the acceptability and validity of excuses presented by the parent(s) or the student.

Procedures for notifying parents on the day of a student's absence shall be published in the student handbook.

Excused/Unexcused Absences

- Absences prearranged by parents and approved by the principal; and

Significant Part of a School Day

An absence of two or more hours in any school day shall be considered an absence for a significant part of the school day.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester, or seven unexcused absences in a school year, whichever comes first. Truancy shall not apply to students who have attained a high school diploma, a general educational development credential, or a high school equivalency credential. School year means the period from July 1 to June 30. Students who are absent without a valid excuse for a significant part of any school day shall be given an unexcused absence for truancy accounting purposes and considered truant.

Prior to reporting to either the Department for Children and Families (if the student is under 13) or the county or district attorney (if the student is 13 or more years of age but less than 18 years of age), a letter shall be sent to the student's parent(s) or guardian notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported truant.

<u>Waiver of Compulsory Attendance Requirements</u>

Students 16 or 17 years of age may be exempt from compulsory attendance regulations if:

- The student is regularly enrolled in and attending a program recognized by the board as an approved alternative educational program;
- the parent(s) or person acting as parent provides written consent to allow the student to be exempt from the compulsory attendance requirement and the student and the student's parent or person acting as parent attend the counseling session required by law and sign the appropriate consent and waiver form;
- the student is not subject to truancy law in accordance with law or this policy.
- the child is regularly enrolled and continuously attending school as required by law and is concurrently enrolled in a postsecondary educational institution; or

- the student is exempt from compulsory attendance requirements pursuant to a court order.

Law enforcement officers may return truant children to the school where the child is enrolled, to the child's parent or guardian, or to another location designated by the board to address truancy issues.

Reporting to Parents

If a truant child is returned to school by a law enforcement official, the principal shall notify the parent or guardian.

Dual Enrollment Students

Eligible students who are enrolled in a board-approved dual enrollment program shall not be considered truant for the hours during the school day they attend classes at a Regent's university, community college, technical college, vocational educational school, or Washburn University.

(See EBC, GAAD, JCABB, JCEC and JHCAA)

Building administrators and others designated by the superintendent may conduct investigations and question students about violation of school rules or the student conduct code . Unless otherwise provided herein, such investigators shall not be required to contact the student's parent, guardian, or representative prior to questioning. If administration requests law enforcement, including a school resource officer, school security officer, or campus police officer, for assistance in conducting interviews during an investigation, administration shall contact a parent, guardian, or representative of the student prior to any questioning.

If there is reason to believe a violation of criminal law has been committed, the building administrator or the superintendent's designee shall notify the appropriate law enforcement agency of criminal conduct as provided in law, the district's juvenile justice memorandum of understanding, or board policy and may request further investigation of the alleged violation.

When a school resource officer, school security officer, or campus police officer initiates an investigation of a potential violation of criminal law by a student on the officer's own initiative and not at the request of a building administrator or the superintendent's designee, such officer will notify the building administrator and will contact the student's parent, guardian, or representative prior to initiating questioning.

Coordination with Law Enforcement

School administrators or the superintendent's designee shall meet as needed with relevant stakeholders, including law enforcement agencies, the courts, and the district and county attorneys, to discuss the district's juvenile justice memorandum of understanding to establish clear guidelines for how and when school-based behaviors are referred to law enforcement or the juvenile justice system.

Child Abuse and Identity Investigations Conducted by Law Enforcement Officers

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse or neglect or concerning the student's identity. For any investigations concerning known or suspected child abuse or neglect, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

Law Enforcement Initiated Investigations at School

the building administrator for such purpose, or in demonstrated emergency situations. Contact with the parent, guardian, or representative shall be documented by the administrator involved. If a student's parent, guardian, or representative gives permission for the interview but is not present during the questioning of the student, the principal may be present unless otherwise specified in law or board policy. If a demonstrated emergency is found, the building administrator shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the building administrator is not satisfied with either the identification or the reason, the request shall not be granted. The building administrator shall attempt to notify the superintendent and the officer's superiors of the reasons for the refusal.

Taking Students Into Custody

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement or Department for Children and Families ("DCF") authorities pursuant to a child abuse investigation. Except as otherwise specified in this policy or as specified in a court order or arrest warrant, a reasonable effort shall be made to notify the student's parent, guardian, or representative when students are removed from school for any reason. Such notification efforts shall be documented. Parents shall not be notified by school officials when their child is taken into custody by DCF or law enforcement as a result of allegations of abuse or neglect and there is reason to believe sharing the information may lead to harm of the child or others.

When a student has been taken into custody or arrested on school premises without prior notification to the building administrator, the school staff present shall ask the law enforcement officer to notify the building administrator of the circumstances as quickly as possible and shall themselves contact the building administrator with any information they have regarding the child being taken into custody.

Disturbance of School Environment

Law enforcement officers, school resource officers, school security officers, or campus police officers may be requested to assist in controlling disturbances at school and, if necessary, to take students or other persons into custody.

Students are prohibited from using or accessing personal electronic communication devices during the school day while on district owned or operated property, except as expressly permitted by this policy or by law.

This policy does not apply to any virtual school, as defined by Kansas law.

When personal electronic communication device use is not permitted, students are allowed reasonable access to a school-provided telephone or communication device during the school day to contact a parent or person acting as a parent.

Device Storage

All student personal electronic communication devices shall be powered off and securely stored away from the student's person in an inaccessible location during the school day, unless an exception applies to this requirement as specified in this policy.

Students may choose not to bring personal electronic communication devices to school by leaving such devices at home or in a vehicle, including a vehicle located on school premises. As students will not have the ability to access or use such devices during the school day, students are encouraged to leave any personal electronic communication devices not necessary for the implementation of their Individualized Education Program (hereafter "IEP") or Section 504 accommodation plan (hereafter "504 plan"), communication during their commute to or from school, for work, or learning experience that is not located on the school premises at home. The superintendent or superintendent's designee(s) shall develop procedures to ensure all personal electronic communication devices are turned off and securely stored away from the student's person in an inaccessible location during the school day. Such procedures shall be included in student handbooks as adopted by the board and communicated to students and parents/guardians as deemed appropriate by district administration.

Definitions

For purposes of this policy, the following definitions apply:

"School day" is the time from the start of school until dismissal at the end of the day on the school premises, including, but not limited to, the time in any classroom, structured or unstructured learning setting, recess, lunch or passing period. The term "school day" excludes any time associated with a student's travel to or from a learning experience that is not located on the school premises, including any postsecondary educational course, career technical education course, work-based learning program, or other alternative educational opportunity.

Permitted Exception

A student may be permitted to use a personal electronic communication device during the school day under the following circumstances.

- Approved by a licensed physician as a medical necessity to support the health or well-being of the student.

Use During School-Sponsored Activities Before and After the School Day

Students [*may/shall not*] use or access personal electronic communication devices during school-sponsored activities, programs, or events occurring before and after the regular school day, subject to district-approved procedures, event-specific rules, and staff direction.

complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution and forward this record to the district compliance coordinator.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint and the matter has not been adequately resolved through the informal procedures described herein, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant and the respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion.

In no event shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.

- If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

- If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

Formal Complaint Appeal

- The complainant or respondent may appeal the determination of the complaint.
- Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or the superintendent, or by the board itself.
- The request to appeal the resolution shall be made within 20 days after the date of the written determination of the complaint at the lower level.
- The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report and shall afford the complainant and the respondent an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed.
- The appeal officer will issue a written determination of the complaint's validity on appeal and a description of its resolution within 30 days after the appeal is filed.

The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education or the Kansas Human Rights Commission.

A list of area drug and alcohol counseling and rehabilitation programs, along with names and addresses of contact persons for the programs, is on file with the board clerk. Parents or students should contact the directors of the programs to determine the cost and length of the program.

Communicable Diseases **JGCC**

Any student noted by a physician, the school nurse, or local health officer as having a communicable disease may be excluded from school for the duration of the illness. The student will be readmitted to regular classes upon termination of the illness, as authorized by the student's physician, the local health officer, or after the expiration of any period of isolation or quarantine.

The board reserves the right to require a written statement from the student's physician or local health officer indicating that the student is free from all symptoms of the disease.

Health Screenings **JGCD**

Vision, hearing, and dental screenings will be conducted in the district as part of the overall health services program. Such screenings will be administered in accordance with state law. When appropriate, other screenings deemed beneficial to students may be performed in the school health program.

When these screenings cannot be performed by district staff, the board authorizes the superintendent to identify healthcare service providers to provide them. Such healthcare service providers shall be required to enter into a contract with the district prior to providing any screenings or other services to students in the school setting.

Vision Screenings

Basic vision screenings shall be provided to students without charge according to the following schedule:

- Annually for every child participating in IDEA Part B programs;
- At least once each school year for students in kindergarten and grades one, two, three, five, seven, and ten;
- Within the first year of enrollment in the district;
- Upon request by the parent or guardian of a student enrolled in an accredited nonpublic school who resides in the school district.

These basic vision screenings shall be performed by a vision screener designated by the board, who shall follow current state vision screening guidelines for performing the screenings. The results of the screening and, if necessary, referral for an examination by an ophthalmologist or optometrist shall be reported to the parents or guardians of the student. Any referral shall not show a preference in favor of any particular ophthalmologist or optometrist to provide an additional examination.

While not part of the board-provided vision screening program, each student needing assistance in achieving mastery of basic reading, writing, and mathematics skills shall be encouraged to obtain an eye examination by an optometrist or ophthalmologist to determine if the student suffers from conditions impairing the ability to read. Expenses for such an examination, if not reimbursed through Medicaid, private insurance, or any other governmental or private program, shall be the responsibility of the student's parent or guardian.

Hearing Screening

Each year, hearing screening procedures will be conducted for students in their first year of school attendance in the district. Such procedures will be provided for other students at a frequency of not less than once every three years unless otherwise specified by state law. Students known to have hearing difficulties and students referred by teachers, parents, and/or physicians will be screened regardless of grade level.

Under certain conditions, hearing screening services are provided for students residing within district boundaries who are enrolled in accredited non-public schools. These services are coordinated between the administration of the accredited nonpublic school and district administration and require a request from the student's parent or guardian. Implementation of the program for nonpublic school students follows the same guidelines as for district students.

The results of the test and, if necessary, the desirability of examinations by a qualified physician shall be reported to the parents or guardians of students screened.

Dental Screenings

Free dental inspections will be provided to students annually, planned for by designated school staff, and conducted by appropriate dental care providers. Students presenting a certificate from a legally qualified dentist proving that a dental examination was completed in the three months prior to the school dental inspection need not be provided with an inspection.

A certificate of the result of a school dental inspection, together with suggestions of requirements for the curing of any defects found, shall be made by the dental care provider making such inspection.

One copy of this certificate is to be furnished to the child examined, and another will be filed with the clerk of the board. No dental work other than the inspection and provision of the certificate shall be performed by the examining dental care provider without the consent of the parents or guardian of the child.

Selected Screenings

Other screening procedures may be deemed appropriate and beneficial to students. Designated staff will assist in the planning and implementation of other screening programs following standard procedures.

Screening results and referrals, when necessary, will be communicated to parents.

In accordance with state law, the parent or guardian of any child entering school for the first time shall be informed of the availability of sickle cell screening and of the location of the nearest facility providing blood tests for sickle cell trait and sickle cell anemia.

JGEC – Sex-Based Discrimination

(See GAAC, GAAD, GAF, JDDC and KN)

The board of education is committed to providing a positive and productive working and learning environment, free from discrimination on the basis of sex, including sexual harassment. The district does not discriminate on the basis of sex in admissions, employment, or the educational programs or activities it operates. Discrimination on the basis of sex, including sexual harassment, of employees or students of the district in any district education program or activity will not be tolerated in the school district and is strictly prohibited.

Sex-based discrimination, including sexual harassment, is unlawful discrimination under Title IX of the Education Amendments of 1972. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs, or events within the United States.

Dr. Heather Burris 321 E Main St. Chanute, KS 66720 burrish@usd413.org (620) 432-2500, has been designated to coordinate compliance with nondiscrimination requirements contained in Title IX of the Education Amendments of 1972. Information concerning the provisions of this Act, and the rights provided thereunder, are available from the Title IX Coordinator. Inquiries about the application of Title IX to the district may be referred to the Title IX Coordinator; to the Assistant Secretary for Civil Rights at the U.S. Department of Education, Office of Civil Rights, 400 Maryland Avenue, SW, Washington D.C. 20202-1100, (800)421-3481; at OCR@ed.gov; or both.

Definitions

For the purposes of this policy, the following definitions apply.

"Appeal decision-maker" reviews the appeal along with written statements in support of, or challenging, the outcome of the written determination regarding responsibility, and other relevant documentation collected during the formal grievance process. The appeal decision-make shall not be the Title IX Coordinator, investigator, decision-maker, or formal resolution facilitator.

"Complainant" means an individual who is alleged to be a victim of conduct that could constitute sexual harassment.

"Dating violence" means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

"Decision-maker" reviews all the evidence and prepares an impartial written responsibility determination as to whether the alleged conduct occurred and provides an opportunity for the parties and

their representatives to prepare written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator, investigator, appeal decision-maker, or formal resolution facilitator.

"Domestic violence" includes felony or misdemeanor crimes committed by a current or former spouse or intimate partner of the victim under the family or domestic violence laws of Kansas.

"Formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

"Informal resolution facilitator" is a neutral person, designated by the Title IX Coordinator, who has been trained to assist the parties through the voluntary informal resolution process. The informal resolution facilitator shall not be the Title IX Coordinator, investigator, decision-maker, or appeal-decision maker.

"Investigator" is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report. The investigator shall not be the Title IX Coordinator, decision-maker, appeal decision-maker, or informal resolution facilitator.

"Respondent" is an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

"Sex-based discrimination" means any unfair treatment, unequal opportunity, or harassment on the basis of sex in the district's programs or activities.

"Sexual assault" means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

"Sexual harassment" means conduct on the basis of sex involving one or more of the following: (1) A district employee conditioning the provision of an aid, benefit, or service of the district on an individual's participation in unwelcomed sexual conduct; (2) unwelcomed conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's educational program or activity; or (3) sexual assault, dating violence, domestic violence, or stalking.

"Stalking" means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

"Supportive measures" means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complaint or the respondent regardless of whether a formal complaint has been filed. Such measures are designed to restore or

preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the recipient's educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the school, and other similar measures. The supportive measures provided to the complainant or respondent by the district must remain confidential to the extent that maintaining such confidentiality would not impair the ability of the district to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

"Title IX Coordinator" is the individual designated at the district level who has the responsibility to coordinate compliance with Title IX of the Education Amendments of 1972. The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

Reporting of Sex-Based Discrimination, including Sexual Harassment

The district takes all reports of sex-based discrimination, including sexual harassment, seriously and will respond meaningfully to every such report of which the district has actual knowledge.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Any person may make a verbal or written report of sex discrimination by any means and at any time.

Any act of retaliation or discrimination against any person who has opposed discrimination; filed a complaint; or testified, assisted, or participated in any investigation, proceeding, or appeal involving sex-based discrimination, including sexual harassment, is prohibited. The district will take appropriate available action to address retaliation, which may include student or employee discipline procedures.

It shall be a violation to discourage a student or an employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy. Violation of this policy shall result in appropriate disciplinary action.

False or malicious complaints of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the complainant.

False statements made in the course of an investigation of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the individual.

Complaint Process for Sex-Based Discrimination (Not Sexual Harassment)

Complaints of sex-based discrimination that do not allege sexual harassment will be investigated through the complaint procedure outlined in policy KN to determine whether, under the totality of the circumstances, the alleged behavior constitutes a violation of this policy.

Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in appropriate discipline.

Grievance Process for Sexual Harassment

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the Title IX Coordinator, the employee's supervisor, or other designated district official. Employees who fail to appropriately report complaints or incidents of sexual harassment to the Title IX Coordinator, their supervisor, or other designated district official may face disciplinary action.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education.

The Title IX Coordinator, any investigator, decision-maker, appeal decision-maker, or any informal resolution facilitator shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including avoiding prejudgment of the facts, conflicts of interest, and bias.

Investigators shall receive training on issues of relevance of questions and evidence in order to create investigative reports that fairly summarize relevant evidence. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant.

Within 10 business days of any reports of sexual harassment, the Title IX Coordinator shall contact the complainant and discuss the availability of supportive measures, with or without the filing of a formal complaint; consider the complainant's wishes as to supportive measures; and inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Informal Resolution Process for Sexual Harassment Complaints

At any time during the formal complaint process regarding alleged sexual harassment and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process requires:

- The informal resolution facilitator is to be a trained educational professional, consultant, or other individual selected by the Title IX Coordinator who has received training on their role;
- the parties to be provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- at any time prior to agreeing to a resolution, any party to have the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and to be informed of any consequences resulting from participating in the informal resolution process;
- that the parties voluntarily consent, in writing, to the informal resolution process; and
- that the informal resolution process is not used to resolve allegations that an employee has sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the resolution, have both parties sign the agreement, provide a copy of the agreement to both parties, and forward it to the Title IX Coordinator. If the matter is not resolved, the informal resolution facilitator will notify the Title IX Coordinator, who will resume the formal complaint process.

Formal Grievance Process for Sexual Harassment Complaints

No formal investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

The procedures for filing a formal complaint are as follows.

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been

adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.

- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.

Upon receipt of a formal complaint, the Title IX Coordinator shall either dismiss the formal complaint or initiate the formal grievance process by providing notice to the parties of the complaint.

Dismissal of a Formal Complaint of Sexual Harassment

The Title IX Coordinator must dismiss the complaint if it is determined that:

- Even if all the facts alleged are true, the conduct alleged in the formal complaint would not constitute sexual harassment as defined herein;
- the conduct did not occur in the recipient's education program or activity; or
- the conduct did not occur against a person in the United States.

During the course of the formal grievance process, the Title IX Coordinator may dismiss the complaint if:

- A complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- the respondent is no longer enrolled in or employed by the district; or
- specific circumstances prevent the recipient from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon a dismissal of a complaint, the Title IX Coordinator must promptly send written notice of the dismissal and reason(s) therefor simultaneously to the parties.

Dismissal of a formal complaint does not preclude an investigation or disciplinary action under another district policy.

Initiation of Formal Grievance Process for Sexual Harassment Complaint

Upon filing of a formal complaint of sexual harassment, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
    - the identities of the parties involved, if known;
    - the conduct allegedly constituting sexual harassment; and
    - the date and location of the alleged incident, if known.

- The district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, the Title IX Coordinator shall provide notice of the additional allegations to known parties.

Formal Complaint Investigations Regarding Sexual Harassment

To ensure a complete and thorough investigation of any sexual harassment complaint and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied by an advisor of their choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party or witness is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint of sexual harassment, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

The investigator shall prepare an initial investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors simultaneously.

The parties shall have 10 days to submit a written response to the initial report for the investigator's consideration.

Following the opportunity for the parties and their advisors to review and respond to the initial report, the investigator shall submit a final report to the parties and the Title IX Coordinator simultaneously. Upon receipt, the Title IX Coordinator shall provide a copy of the final report and supporting documentation to the decision-maker.

Decision-Maker's Determination Regarding Sexual Harassment Complaints

Upon receiving the investigator's final report, but prior to reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with any answers provided, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- include the findings of fact supporting the determination;
- address any district policies and/or conduct rules which apply to the facts;
- a statement of, and rational for, the result as to each allegation, including a determination regarding responsibility; and
- the procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend that, based on respondent's action, respondent be subject to disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in disciplinary action.

A copy of the written determination shall be provided to both parties and the Title IX Coordinator simultaneously.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

If the formal grievance process determines the actions constituted sexual harassment in violation of this policy, the respondent shall be subject to disciplinary action, up to and including termination for employees or expulsion for students. If the formal grievance process determines the actions were in violation of other policies but do not constitute sexual harassment, the respondent may be subject to discipline under those policies.

If it is determined that sexual harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Appeals Regarding Sexual Harassment Complaints

The complainant or respondent may appeal the decision-maker's determination regarding responsibility of a sexual harassment complaint or a dismissal of a formal complaint, on any of the following:

- Procedural irregularity that affected the outcomes;
- new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal of the complaint was made that could affect the outcome; and/or
- the Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the investigator, the decision-maker, or informal resolution facilitator that participated in any level of the grievance process that led to the original determination.

The Title IX Coordinator shall notify the parties in writing of the filing of an appeal and implement appeal procedures equally for both parties.

The appeal decision-maker shall give the parties an equal opportunity to submit a written statement in support of, or challenging, the outcome of the determination regarding responsibility. Within 30 days after the appeal is filed, the appeal decision-maker shall issue a written decision, including the rationale for the decision, and provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Recordkeeping

Records relating to sexual harassment complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

Dissemination of Policy

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be published in district handbooks and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices in district or school publications, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees.

In addition, the district is required to include a statement of nondiscrimination in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

Racial and Disability Harassment; Students **JGECA**

(See GAACA, GAAB, GAF, JDDC and KN)

The Board of Education is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Discrimination or harassment on the basis of race, color, or national origin ("racial harassment") or on the basis of disability ("disability harassment") shall not be tolerated in the school district. Racial or disability harassment of employees or students of the district in any district education program or activity is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color, or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial or disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs, or events.

It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation any complaint lodged under the provisions of this policy.

Prohibited conduct under this policy includes racially or disability-motivated conduct which:

- Affords a student different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities, or programs of the school;
- Is sufficiently severe, pervasive, or persistent so as to have the purpose or effect of creating a hostile academic environment; or
- Is sufficiently severe, pervasive, or persistent so as to have the purpose or effect of interfering with a student's academic performance or ability to participate in or benefit from the services, activities, or programs of the school.

Racial or disability harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial or disability harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial or disability harassment or has witnessed an act of alleged racial or disability harassment should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial or disability harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the

complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure in Policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable student

conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially or disability-motivated.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its recurrence.

An employee who witnesses an act of racial or disability harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action, or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial or disability harassment shall not reflect upon the student's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall be published in student handbooks and on the district's website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually, if applicable.

Rules and procedures concerning the use of vehicles and bicycles on school property may be included in the student and/or other district handbooks.

Student Accidents and Health emergencies **JGFG**

When a staff member becomes aware that a student has been involved in an accident or is in need of emergency care at school, on school property, or at a school-sponsored activity, the staff member shall follow the rules for the care of an injured student and report the accident to the building principal. If a student has an accident that appears to require medical treatment, an employee shall send for medical help and try to make the student as comfortable as possible while waiting for medical assistance to arrive.

When appropriate, the student's parent(s) shall be notified of the student's condition as soon as possible to determine appropriate action. If the student needs medical attention and the parents cannot be reached, the principal shall seek emergency medical treatment.

Emergency Care

At the scene of an emergency or accident when medical help is not readily available, an employee may render emergency care or assistance, including, but not limited to, first aid, as deemed reasonably necessary until medical help arrives. Kansas law provides protection from civil liability for any person who, in good faith and without compensation, renders emergency care or assistance to any person, including a minor, without first obtaining the consent of the parent or guardian of such minor, at the scene of an emergency or accident. However, this protection does not extend to individuals whose acts or omissions in rendering emergency care in these circumstances were grossly or wantonly negligent.

Records

Appropriate records documenting student accidents shall be maintained.

JGFGA - Administration of Emergency Opioid Antagonists

Kansas law creates standards governing the use and administration of emergency opioid antagonists approved by the U.S. Food and Drug Administration ("FDA") to inhibit the effects of opioids and for the treatment of an opioid overdose. Any first responder or school nurse is authorized to possess, store, distribute, and administer emergency opioid antagonists as clinically indicated, provided that all personnel with access to emergency opioid antagonists are trained in proper protocol.

Similarly, Kansas law allows a patient or bystander (meaning a family member, friend, caregiver, or other person in a position to assist a person who the bystander believes to be experiencing an opioid overdose) to acquire and utilize emergency opioid antagonists.

Therefore, to further prioritize student health and safety in its schools, programs, and activities, the district shall obtain, store, and administer the emergency opioid antagonist Naloxone, which is commonly known by the brand name Narcan, for emergency use in its schools. A stock supply of Naloxone may consist of one or more standard-dose prepackaged nasal spray devices. The school nurse and other properly trained and designated district staff members may administer such medication in emergency situations to an individual who displays the signs and symptoms of opioid overdose at school, on school property, or at a school-sponsored event if such school nurse or designated school staff member reasonably believes that an individual is exhibiting the signs and symptoms of an overdose. Opioid antagonists may be available during the regularly scheduled school day. They may be available at other times at the discretion of the superintendent.

The board establishes the following rules governing the utilization and administration of emergency opioid antagonists, such as, but not necessarily limited to, Naloxone, by members of district staff.

Training

If obtaining the emergency opioid antagonist through a pharmacy, the providing pharmacy of the emergency opioid antagonist (hereafter "the product") shall provide written education and training materials to the individual to whom the product is dispensed. First Aid for Opioid Overdose must be obtained by each school nurse and other staff members designated by the superintendent to respond to potential opioid overdose situations. In addition, all district staff members with access to emergency opioid antagonists shall be trained, at a minimum, on the following:

- Techniques to prevent opioid overdose, to recognize signs of such an overdose and to effectively respond thereto;

- Standards and procedures to safely store the emergency opioid antagonist where readily accessible to the school nurse, if applicable, or other designated school staff members responsible for distribution and administration of the emergency opioid antagonist;
- Spotting potential side effects or adverse events that may occur as a result of administering an emergency opioid antagonist;
- Emergency follow-up procedures, including the requirement to summon emergency medical services either immediately before or immediately after administering an emergency opioid antagonist to a patient;
- Inventory requirements, recordkeeping, and reporting any administration of an emergency opioid antagonist to the school nurse or another healthcare provider; and
- Availability of drug treatment programs.

District staff members personally acquiring such products for use as a patient or bystander are encouraged to inform the school nurse or the superintendent's designee, so that they may be trained in proper protocol and included in the school or district's crisis response plan regarding potential opioid overdose.

Procurement of the Product

The school nurse or other staff member(s) designated by the superintendent will be responsible for the procurement of the product.

Storage

The following storage protocols shall be followed:

- The product will be clearly marked and stored in an accessible place at the discretion of the school nurse or the superintendent's designee.
- The product will be stored in accordance with the manufacturer's instructions to avoid extreme cold, heat, and direct sunlight.
- Inspection of the product shall be conducted at least quarterly.
- The individual responsible for the product's safekeeping shall check, document, and track the expiration date found on the box. Pursuant to Kansas law, "emergency opioid antagonist" is defined to include an expired emergency opioid antagonist up to 10 years past the products expiration date. Therefore, the individual responsible for the product's safekeeping shall replace the product on or before the 10th anniversary of its expiration date.

Use of the Product

In case of a suspected opioid overdose, the school nurse, designee, or other individual shall follow the protocols outlined in the training or product instructions in administering the product.

Follow-up

- After administration of the product, the school nurse, or other designated staff, will report appropriate information to emergency services, parents (guardians), central office personnel, and if determined necessary, the patient will be transported to a hospital.
- The school nurse or other designated staff will complete the designated incident report and file the report with the school nurse or district office, whichever is applicable.

Limitations on School Nurses

While Kansas law supports the use of emergency opioid antagonists for up to 10 years after their expiration dates, school nurses are not to prescribe, dispense, distribute, or furnish expired emergency opioid antagonist, in order to protect their professional licenses.

Gifts, Grants, and Donations

The board is authorized by law to accept monetary gifts, grants, and donations to provide a stock supply of Naloxone for emergency use in its schools or may accept Naloxone nasal spray devices from manufacture or wholesalers.

Protection from Liability

Any patient, bystander, school nurse, a first responder, or technician operating under a first responder agency, who, in good faith and with reasonable care, receives and administers an emergency opioid antagonist pursuant to this policy to a person experiencing a suspected opioid overdose shall not, by an act or omission, be subject to civil liability or criminal prosecution, unless personal injury results from the gross negligence or willful or wanton misconduct in the administration of the emergency opioid antagonist.

Publish Policies and Procedures

The district shall publish information related to its Naloxone policies and procedures in student handbooks and any other locations, as determined by appropriate by the superintendent.

JGFGAA - Stock Supply of Emergency Medication

Any school may maintain a stock supply of emergency medication, such as epinephrine and/or albuterol, upon obtaining a prescription from a physician, certified nurse-midwife, a licensed advanced practice registered nurse, or a licensed physician assistant.

A stock supply of epinephrine may consist of one or more standard-dose or pediatric-dose epinephrine delivery systems. Supervision of Medications **JGFGB**

(See JGFGBA)

The supervision of medications shall be in strict compliance with the rules and regulations of the board as carried out by district personnel. Diagnosis and treatment of illness and the prescribing of drugs and medicines are not the responsibility of the public schools and are not to be practiced by any school personnel, including school nurses, unless authorized. No medications shall be dispensed or administered if prohibited by state law.

In certain circumstances when medication is necessary for the student to remain in school, the school may cooperate with parents in the supervision of medication that the student will use. However, the medical person authorized to prescribe medication or the parent if it is a non-prescription medication must send a written order to the building administrator who may supervise the administration of the medication or treatment. The parents must submit a written request to the building administrator requesting the school's cooperation in such supervision and releasing the school district and personnel from liability.

School personnel shall not be required to be custodians of any medication except as required by a written order of a licensed medical person or in the case of nonprescription medication when requested in writing by the parents.

The medication shall be examined by the school employee administering it to determine that it appears to be in the original container, to be properly labeled, and to be properly authorized by the written order of licensed medical person. Two containers, one for home and one for school, should be requested from the pharmacist.

Any changes in type of drugs, dosage, and/or time of administration should be accompanied by updated physician and parent permission signatures and a newly labeled pharmacy container.

All medication maintained in the school setting should be kept in a locked container. This includes medication requiring refrigeration.

Medications should be inventoried every semester. Out-of-date stock should be returned to the parent or destroyed.

Over-the-counter medications should not be maintained on any school premises, including athletic areas, unless written parent permission to administer is obtained.

The building administrator may choose to discontinue the administration of medication provided that the parents or medical person are notified in advance of the date and the reasons for the discontinuance.

After medication is administered, students should be observed for possible reactions to the medication. This observation may occur at the site of administration or in the classroom as a part of the normal routine.

This policy shall be shared with all local physicians and dentists where practicable. Forms should also be made available to the health care providers in the community.

An individual record should be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.

In the administration of medication, the school employee shall not be deemed to have assumed any legal responsibility other than acting as a duly authorized employee of the school district.

Any request shall be granted or denied pursuant to guidelines for using personal property or equipment approved by the board. Disposal of District Property **KK**

(See DFM)

Except when disposing of a building as defined herein, the board may dispose of district property in a manner the board deems to be in the district's best interest. Whenever such excess district property is to be sold at auction, all sales shall be to the highest bidder. No credit shall be extended.

When disposing of any school district property, neither the board nor its agent shall refuse to sell, lease, or convey any interest in a building or property to a prospective buyer or lessee solely because the prospective buyer or lessee may use or intends to use the building or property as a nonpublic school building.

Disposal of a School District Building

For the purposes of this policy, terms have the following meanings:

- "Building" means any building that was used in any prior school year as an attendance center for students enrolled in kindergarten or any of the grades one through 12.
- "State agency" means any state agency, department, authority, institution, division, bureau, or other state governmental entity.

Within 30 days after the board of education adopts a resolution to dispose of a building, the board shall submit written notice of its intention to dispose of such building to the legislature. Such notice shall be filed with the chief clerk of the house of representatives and the secretary of the senate and shall contain the following:

- A description of the school district's use of such building immediately prior to the decision to dispose of such building;
- The reason for such building's disuse and the decision to dispose of such building;
- The legal description of the real property that is to be disposed of; and
- A copy of the resolution adopted by the board of education.

Upon receipt of the notice, the legislature may adopt a concurrent resolution stating the legislature's intention that the state acquire the building in the following manner. Such concurrent resolution shall include:

- The name of the school district that owns such building;
- The information contained in the written notice as outlined herein; and
- The state agency that intends to acquire such building and the intended use of such building upon acquisition.

If the notice is received by the legislature during a regular legislative session, the legislature shall have 45 days to adopt such a concurrent resolution.

If the notice is received when the legislature is not in regular session, then, not more than 45 days after the notice is received by the legislature, the Legislative Coordinating Council may deny the legislative option for the state to acquire the building. If the Legislative Coordinating Council denies this option, the district may proceed with disposing of the building in accordance with Kansas law. If the Legislative Coordinating Council does not deny the option for the state to acquire the building within the 45-day period, then the legislature shall have 45 days from the commencement of the next regular session to adopt a concurrent resolution as outlined herein.

Upon adoption of a concurrent resolution, the state agency named in such resolution shall have 180 days to complete the acquisition of such building and take title to the real property. Upon request of the state agency acquiring the building, the Legislative Coordinating Council may extend the 180-day period for a period of not more than 60 days.

The board shall not sell, gift, lease, or otherwise convey the building or any of the real property described in the written notice or take any action or refrain from taking any action that would diminish the value of such property during the 180-day period or any extension thereof.

If the legislature does not adopt a concurrent resolution as described herein within the 45-day period, or if the state agency does not take title to the property within the 180-day period or any extension thereof, the school district may proceed with disposition of such property in such manner and upon such terms and conditions the board deems to be in the best interest of the district. Conveyances of buildings and real property described in any legislative notice described herein shall be executed by the president of the board and attested to by the clerk.

School district buildings not meeting the definition of "building" as defined herein may be disposed of in any manner deemed to be in the best interest of the district by the board, without need for legislative notice under this policy.

KM - Visitors to the School

The board encourages patrons and parents to visit district facilities. Patron visits shall be scheduled with the teacher and the building principal.

Notices shall be posted in school buildings to require visitors to check in at the office before proceeding to contact any other person in the building or on the grounds.

Any person who visits a building and/or grounds of the district will be under the jurisdiction of the building principal who shall be responsible for developing rules and regulations governing the presence of visitors in the buildings.

In accordance with Kansas law, off-duty law enforcement officers identifying themselves as such upon entry into a district building cannot be requested or required to provide or record personal information such as their email address, home phone number, or home address. Nor shall such officers be required to wear any item identifying them as a law enforcement officer or as being armed. School personnel may request to see the identification required by such officer's law enforcement agency to verify the individual is a law enforcement officer.

The principal has authority to request assistance from law enforcement if any visitor to the district's buildings or grounds refuses to leave or creates a disturbance. Violation of this rule may lead to removal from the building or grounds and denial of further access to the building or grounds. Violators of this board policy may be subject to the state trespass law.

(See G A O C and J C DA A)

The use of any tobacco product by parents, contractors, volunteers, and all other visitors is prohibited at all times in any district facility, in school-owned or operated property.

The following definitions apply to this policy:

This definition does not include FDA-approved nicotine replacement therapies including transdermal nicotine patches, nicotine gum, and nicotine lozenges.

"Electronic nicotine delivery system" or "ENDS" means any device that delivers a vaporized solution (including nicotine, THC, or any other substance) by means of cartridges or other chemical delivery systems. Complaints **KN**

(See BCBI, DE, GAAC, GAACA, GAAB, GAAF, IF, IKD, JCE, JGEC, JGECA, and KNA)

General Complaints

The board encourages all complaints regarding the district to be resolved at the lowest possible administrative level. If the investigation and determination procedures of a complaint are not regulated in another board policy or the negotiated agreement, as applicable, it will be designated a general complaint subject to processing under this policy. Whenever a general complaint is made directly to the board as a whole or to a board member as an individual, it will be referred to the administration for study and possible resolution pursuant to the procedures outlined in this policy.

Informal Procedures

The building principal shall attempt to resolve general complaints in an informal manner at the building level. Any school employee who receives a general complaint shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. Upon becoming aware of a complaint, the building principal shall, within a reasonable time, but without delay, discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution and forward this record to the district compliance coordinator.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed within 10 school days of the conclusion of the informal procedures. The formal complaint shall be in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved through the informal procedures, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity

to submit written or oral evidence relevant to the complaint and to provide the names of potential witnesses who may have useful information.

- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator and forwarded to the complainant and the respondent. If the investigator anticipates a determination will not be issued within 45 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion.
    - If the investigation results in a recommendation that a student or staff member be subject to discipline, the specifics will not be included in the written determination provided to the parties to protect the privacy rights of the student or staff member.
    - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
    - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

Appeal Procedures

The complainant or respondent may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or superintendent, or by the board itself. The request to appeal the determination shall be made within 20 days after the date of the written determination of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report and shall afford the complainant and the respondent an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed. Whenever an appeal officer is appointed to review an appeal, the appeal officer will prepare a written report to the board within 30 days after the appeal is submitted for decision. The board shall render its decision not later than the next regularly scheduled meeting of the board following the receipt of the report and provide the parties with notice of the result of the appeal. Any matter determined by the board in accordance with this process shall be valid to the same extent as if the matter were fully heard by the board without an appeal officer.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

If it is determined at any level that a violation of board policy or school rules occurred, the district will take prompt, remedial action to prevent reoccurrence. The district prohibits retaliation or discrimination against any person for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Complaints Against the Superintendent

A complaint against the superintendent shall be filed in writing with the clerk of the board of education as soon as possible after the conduct occurs that led to filing a complaint but not later than 20 days after the complainant becomes aware of the alleged violation, unless the conduct forming the complaint is ongoing. If appropriate, the board, or the board's designee, shall investigate the complaint. If the board appoints a designee to conduct the investigation, the designee shall submit a report of the designee's findings upon which the board will decide the complaint. The board shall review the report and decide the matter as soon as reasonably possible but not later than sixty (60) days after the complaint is filed. After the board has reviewed the report, it may, in its sole discretion, request a meeting with the investigator or any party. The board may extend the timeframe for issuing a decision by providing the complainant with written notice of the proposed decision date. There is no appeal from the board's decision.

Complaints regarding alleged discrimination on the basis of sex, as prohibited by Title IX of the Education Amendments of 1972 and other federal and state laws regulating such discrimination and discriminatory harassment, shall be handled in accordance with the procedures outlined in board policies GAAC, for staff, and JGEC, for students, and shall be directed to the Title IX Coordinator at (Position or name, address, email address, and phone number of Title IX Coordinator).

DFAC ALLOWABILITY OF COSTS – FEDERAL PROGRAMS (Sample Procedure)

Allowability of Costs – Federal Programs

Expenditures of federal funds must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

Delegation of Responsibility

When determining how the school district will spend its grant funds, the *{ } Superintendent { } Business Manager { } Federal Programs Coordinator* will review the proposed cost to determine whether it is an allowable use of federal grant funds before obligating and spending those funds on the proposed good or service.

Allowability Determinations

All costs supported by federal education funds must meet the standards outlined in EDGAR, 2 CFR Part 3474, and 2 CFR Part 200, Subpart E, which are listed below. The *{ } Superintendent { } Business Manager { } Federal Programs Coordinator* must consider these factors when making an allowability determination. A section entitled *Helpful Questions for Determining Whether Costs are Allowable* is located at the end of this document.

Part 200 sets forth general cost guidelines that must be considered, as well as rules for specific types of items, both of which must be considered when determining whether a cost is an allowable expenditure of federal funds. The expenditure must also be allowable under the applicable program statute (e.g., Title I of the Elementary and Secondary Education Act (ESEA), or the Carl D. Perkins Career and Technical Education Act (Perkins)), along with accompanying program regulations, nonregulatory guidance, and grant award notifications.

Restrictions in state and local rules or policy also must be considered. For example, travel and other job-related expenses incurred by employees are not allowable unless they also are in compliance with board policy GAN, administrative regulations, and related procedures.

Whichever allowability requirements are stricter will govern whether a cost is allowable.

General allowability determination factors include the following:

1. **Be Necessary and Reasonable for the performance of the federal award**. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. For example, **reasonable** means that sound business practices were followed, and purchases were comparable to market prices.

When determining the reasonableness of a cost, consideration must be given to:

- Whether the cost is a type generally recognized as ordinary and necessary for the operation of the district or the proper and efficient performance of the federal award.
- The restraints or requirements imposed by factors such as sound business practices; arm's-length bargaining; federal, state, and other laws and regulations; and the terms and conditions of the federal award.
- Market prices for comparable goods or services for the geographic area.
- Whether the individual incurring the cost acted with prudence in the circumstances, considering responsibilities to the district, its employees, its students, the public at large, and the federal government.
- Whether the district significantly deviates from its established practices and policies regarding the incurrence of costs, which may unjustifiably increase the federal award's cost. (2 CFR Sec. 200.404)

Whether a cost is **necessary** will be determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the district can demonstrate that the cost addresses an existing need and can prove it. For example, the school entity may deem a language skills software program necessary for a limited English proficiency program.

When determining whether a cost is necessary, consideration may be given to:

- Whether the cost is needed for the proper and efficient performance of the federal award program.
- Whether the cost is identified in the approved budget or application.
- Whether there is an educational benefit associated with the cost.
- Whether the cost aligns with identified needs based on results and findings from a needs assessment.
- Whether the cost addresses program goals and objectives and is based on program data.

2. **Allocable to the federal award**. A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. (2 CFR Sec. 200.405)

For example, if fifty percent (50%) of a teacher's salary is paid with grant funds, then that teacher must spend at least fifty percent (50%) of his/her time on the grant program.

3. **Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the school entity.**

4. **Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.**
5. **Consistent treatment.** A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.
6. **Adequately documented.** All expenditures must be properly documented.
7. **Be calculated in accordance with generally accepted accounting principles (GAAP), unless provided otherwise in Part 200.**
8. **Not included as a match or cost-share, unless the specific federal program authorizes federal costs to be treated as such.** Some federal program statutes require the nonfederal entity to contribute a certain amount of nonfederal resources to be eligible for the federal program.
9. **Be the net of all applicable credits. The** term "applicable credits" refers to those receipts or reductions of expenditures that operate to offset or reduce expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the state relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. (2 CFR Sec. 200.406)

Selected Items of Cost

Subpart E of Part 200 sets forth principles to be applied in establishing the allowability of fifty-five (55) specific cost items (commonly referred to as Selected Items of Cost), at 2 CFR Sec. 200.420-200.475. These specific cost items are listed in the chart below along with the citation to the section of Subpart E addressing the allowability of that item. These principles are in addition to the other general allowability standards and apply whether or not a particular item of cost is properly treated as a direct cost or indirect (F&A) cost. Meeting the specific criteria for a listed item does not by itself mean the cost is allowable, as it may be unallowable under other standards or for other reasons, such as restrictions contained in the terms and conditions of a particular grant or restrictions established by the state or in Board policy. If an item is unallowable for any of these reasons, federal funds cannot be used to purchase it.

School district employees responsible for spending federal grant funds and for determining allowability must be familiar with and refer to the Part 200 selected items of cost section. These rules must be followed when charging these specific expenditures to a federal grant. When applicable, employees must check costs against the selected items of cost requirements to ensure the cost is allowable and also check state, district, and program-specific rules.

The selected items of cost addressed in Part 200 include the following (in alphabetical order):

Helpful Questions for Determining Whether Costs are Allowable

In addition to applying the cost principles and standards described above, district staff involved in expending federal funds should ask the following questions when assessing the allowability of a particular cost:

1. Is the proposed cost allowable under the relevant program?
2. Is the proposed cost consistent with an approved program plan and budget?
3. Is the proposed cost consistent with program-specific fiscal rules? For example, the school entity may be required to use federal funds only to supplement the amount of funds available from nonfederal (and possibly other federal) sources, or only as a match for funds from nonfederal sources.
4. Is the proposed cost consistent with DGAR?
5. Is the proposed cost consistent with specific conditions imposed on the grant (if applicable)?
6. Is the proposed cost consistent with the underlying needs of the program? For example, program funds must benefit the appropriate population of students for which they are allocated. This means that, for instance, funds allocated under Title III of the Elementary and Secondary Education Act (ESEA) governing language instruction programs for Limited English Proficient (LEP) students must only be spent on LEP students and cannot be used to benefit non-LEP students.
7. Will the cost be targeted at addressing specific areas of weakness that are the focus of the program, as indicated by available data?

Any questions related to specific costs should be forwarded to the { } Superintendent { } Business Manager { } Federal Programs Coordinator, who shall consult with the board's legal counsel for clarification as appropriate.

DFAC CASH MANAGEMENT – FEDERAL PROGRAMS

(Sample Procedure)

Cash Management – Federal Programs

Generally, the school district receives payment of federal funds from the Kansas State Department of Education (KSDE) on a reimbursement basis. In some circumstances, the district may receive an advance of federal grant funds. This procedure addresses responsibilities of the district and district staff under those alternative payment methods. In either case, the district shall maintain accounting methods and internal controls and procedures that assure those responsibilities are met when dealing with federal funding.

Payment Methods

Reimbursements

The school district will initially charge federal grant expenditures to nonfederal funds.

The { } Superintendent { } Business Manager { } Federal Programs Coordinator will request reimbursement for actual expenditures incurred under the federal grants { } monthly { } quarterly.

Such requests shall be submitted with appropriate documentation and signed by the requestor.

Requests for reimbursements will be approved by the { } Superintendent { } Business Manager { } Federal Programs Coordinator.

Reimbursement will be submitted on the appropriate form to the KSDE portal. All reimbursements are based on actual disbursements, not on obligations. KSDE will process reimbursement requests within the timeframes required for disbursement.

Consistent with state and federal requirements, the school district will maintain source documentation supporting the federal expenditures (invoices, time sheets, payroll stubs, etc.) and will make such documentation available for KSDE to review upon request.

Reimbursements of actual expenditures do not involve interest calculations.

Advances

When the district receives advance payments of federal grant funds, it must minimize the time elapsing between the transfer of funds to the district and the expenditure of those funds on allowable costs of the applicable federal program. (2 CFR Sec. 200.305(b)) The district shall attempt to expend all advances of federal funds within seventy-two (72) hours of receipt.

When applicable, the district shall use existing resources available within a program before requesting additional advances. Such resources include program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds. (2 CFR Sec. 200.305(b)(5))

The district shall hold federal advance payments in insured, interest-bearing accounts. The school district is permitted to retain for administrative expenses up to $500 per year of interest earned on federal grant

cash balances. Regardless of the federal awarding agency, interest earnings exceeding $500 per year shall be remitted annually to the Department of Health and Human Services Payment Management System (PMS) through an electronic medium using either Automated Clearing House (ACH) network or a Fedwire Funds Service payment. (2 CFR Sec. 200.305(b)(9))

Pursuant to federal guidelines, interest earnings shall be calculated from the date that the federal funds are drawn down from the G5 system until the date on which those funds are disbursed by the district. Consistent with state guidelines, interest accruing on total federal grant cash balances shall be calculated on cash balances per grant and applying the actual or average interest rate earned.

Remittance of interest shall be the responsibility of the { } Superintendent { } Business Manager { } Federal Programs Coordinator.

DFAC GRANT SUBRECIPIENT MONITORING PROCEDURES – FEDERAL PROGRAMS (Sample Procedure)

Grant Subrecipient Monitoring Procedures – Federal Programs

In the event the district disperses federal funds received through a federal award to other entities and assigns responsibilities to the outside entity to conduct a portion of the work, the district shall be responsible for determining, on a case-by-case basis, whether the agreement with such entity places the outside entity in the role of a subrecipient receiving a subaward of federal funding, or the role of a contractor.

If the district grants subawards of federal funding to other entities as subrecipients, the district shall be responsible for:

1. Evaluating the entity for risk of noncompliance to determine appropriate monitoring practices.
2. Monitoring the subrecipient entity's implementation to ensure compliance with federal, state, and local laws, conditions of the federal funding award, and board policy and procedures.
3. Notifying the subrecipient entity of identified deficiencies found during the monitoring process and ensuring that identified deficiencies are corrected.
4. Documenting and retaining records on subrecipient identification, notification, evaluation, monitoring, and corrective actions taken.

Definitions

For purposes of policies and procedures related to federal programs, the following definitions shall apply:

Contract – A legal instrument by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. The term as used here does not include a legal instrument, even if the entity considers it a contract, when the substance of the transaction meets the definition of a federal program award or subaward. (2 CFR 200.22)

Contractor – An entity that receives a contract, as defined in law and regulations, by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. (2 CFR 200.23)

Pass-through entity – A non-federal entity that provides a subaward to a subrecipient to carry out part of a federal program. The district serves as the pass-through entity in cases where it awards federal funding to a subrecipient as defined in this procedure. (2 CFR 200.74)

Subaward – An award provided by a pass-through entity to a subrecipient in order to carry out part of a federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract. (2 CFR 200.92)

Subrecipient – a non-federal entity that receives a subaward to carry out part of a federal program; but does not include an individual who is a beneficiary of such a program. (A subrecipient may also be a recipient of other federal awards directly from a federal awarding agency.) (2 CFR 200.93)

Subrecipient Versus Contractor

The district must determine, on a case-by-case basis, whether an entity receiving funds from the district as part of a federal funding program serves in the role of subrecipient or contractor. (2 CFR 200.330)

The { } Superintendent { } Federal Programs Coordinator { } Business Manager { } other _____ shall be responsible for analyzing the criteria listed in the chart below and evaluating the relationship with the entity based on the substance of the legal agreement, rather than the form of the agreement. The _____ may consult with the board's legal counsel or other qualified counsel in making such determination.

Subrecipient	Contractor
Creates a Federal assistance relationship	Purpose is to obtain goods and services for the non-Federal entity's own use and creates a procurement relationship
Determines who is eligible to receive what Federal assistance	Provides the goods and services within normal business operations
Has its performance measured in relation to whether objectives of a Federal program were met	Provides similar goods or services to many different purchasers
Has responsibility for programmatic decision making	Normally operates in a competitive environment
Is responsible for adherence to applicable Federal program requirements specified in the Federal award; and	Provides goods or services that are ancillary to the operation of the Federal program; and
In accordance with its agreement, uses the Federal funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the pass-through entity (PTE)	Is not subject to compliance requirements of the Federal program as a result of the agreement, though similar requirements may apply for other reasons

The district shall notify subrecipients that they have been identified as a subrecipient and that the funding qualifies as a subaward. The district shall provide the subrecipient with the following information as specified in 2 CFR Sec. 200.331(a) regarding the federal funding award, and any subsequent changes:

1. Federal Award Identification information, including:
   - (i). Subrecipient name (which must match the name associated with its unique entity identifier);
   - (ii). Subrecipient's unique entity identifier;
   - (iii). Federal Award Identification Number (FAIN);
   - (iv). Federal Award Date (see §200.39 federal award date) of award to the recipient by the federal agency;

4. An approved federally recognized indirect cost rate negotiated between the subrecipient and the federal government or, if no such rate exists, either a rate negotiated between the pass-through

entity and the subrecipient (in compliance with this part), or a de minimis indirect cost rate as defined in §200.414 Indirect (F&A) costs, paragraph (f);

5. A requirement that the subrecipient permit the pass-through entity and auditors to have access to the subrecipient's records and financial statements as necessary for the pass-through entity to meet the requirements of this part; and
6. Appropriate terms and conditions concerning the closeout of the subaward.

Evaluation of Risk

The district shall evaluate each subrecipient's risk of noncompliance with laws, regulations, and the terms and conditions of the subaward to determine appropriate monitoring practices. (2 CFR 200.331)

The *{ } Superintendent { } Federal Programs Coordinator { } Business Manager { } other* _____ or designee shall be responsible for evaluating risk based on the following factors:

1. The subrecipient's prior experience with the same or similar subawards;
2. The results of previous audits, including whether the subrecipient receives a single audit and the extent to which the same or similar subaward has been audited;
3. Whether the subrecipient has new personnel, or new or substantially changed systems and processes;
4. The extent and results of any federal awarding agency's monitoring of the subrecipient.

The _____ or designee shall request adequate documentation from the subrecipient to conduct the evaluation of risk; such documentation may include, but is not limited to, *{ } audit reports { } financial reports { } policies and procedures { } detailed descriptions or users' guides of current systems and processes.*

The district shall evaluate subrecipients for risk of noncompliance *{ } annually { } as specified in the legal agreement or contract.*

Based on the results of the risk evaluation, the district may consider imposing specific conditions on the implementation of the subaward, in accordance with applicable law and regulations. (2 CFR 200.207, 200.331)

Monitoring

The district shall monitor the implementation and activities of each subrecipient as necessary to ensure that the subaward is used for authorized purposes, in accordance with laws, regulations, and the terms and conditions of the subaward. The district shall notify subrecipients of monitoring requirements and may provide technical assistance to subrecipients in complying with monitoring requirements.

As part of the monitoring process, the district shall complete the following steps: (2 CFR 200.331)

1. Review financial and performance reports required by the district.

2. Follow up and ensure that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the subaward detected during monitoring through audits, on-site reviews, and other means.
3. Issue a management decision for audit findings pertaining to the subaward provided to the subrecipient, in accordance with applicable law and regulations. (2 CFR 200.521)

Monitoring

The *{ } Superintendent { } Federal Programs Coordinator { } Business Manager { } other* _____ or designee shall be responsible for monitoring subrecipients. Monitoring activities may include, but shall not be limited to:

1. Review of progress reports, financial reports, and data quality.
2. On-site visits.
3. Review of federal or state debarment lists.
4. Review of other agreed-upon procedures specified in the legal agreement or contract. (2 CFR 200.425)

The district shall verify that subrecipients are audited as required by applicable law and regulations. (2 CFR 200.331, 2 CFR 200.500-200.521)

Follow-Up Actions

The _____ or designee shall provide subrecipients with written documentation detailing their monitoring results and listing any identified deficiencies. The district shall consider whether the results of monitoring indicate the need to revise existing district policies and procedures. (2 CFR 200.331)The district shall require subrecipients to take immediate action on issues involving ineligible or illegal use of federal funding and notify the district of corrective action taken.

The district shall require subrecipients to develop a corrective action plan to address other identified deficiencies or noncompliance issues; such a plan shall be submitted to the district { } within 60 days { } as soon as possible { } as specified in the agreed-upon procedures, and the district shall evaluate and monitor the activities taken by the subrecipient under the corrective action plan. The district may provide technical assistance and/or training to subrecipients in complying with corrective action requirements.

The _____ or designee shall maintain all documentation on monitoring of subrecipients and corrective action taken during the monitoring process.

The district shall report issues of noncompliance to the appropriate federal agency where required by law, regulations, or requirements of the federal funding program.

Remedies for Noncompliance

When monitoring activities identify issues of noncompliance that are not addressed through corrective action, the district may take the following actions: (2 CFR 200.331, 200.338)

KASB Recommendation – 6/17

DFAC PROCUREMENT – FEDERAL PROGRAMS

(Sample Procedure)

Procurement – Federal Programs

This document is intended to integrate standard district purchasing procedures with additional requirements applicable to procurements that are subject to the federal Uniform Grant Guidance regulations concerning the use of federal funds and/or U.S. Department of Agriculture (USDA) regulations governing school food service programs. The district maintains the following purchasing procedures, in accordance with federal and state laws, regulations, and board policy, to aid in making purchases with federal funds. (2 CFR 200.318-200.325; 7 CFR 210.16, 210.19, 210.21, 215.14a, 220.16; K.S.A. 72-1151; board policies DFAB, DFAC, DJE, DJEB, DJED, DJEE, DJEF, DJEG, DJEJ, DJFA, and DJFAB)

2021 Procurement Thresholds		
Kansas Bid Threshold	$20,000	For construction, reconstruction or remodeling or for the purchase of materials, goods or wares
Federal Micro-Purchase Threshold	$10,000	Adjusted periodically and published in Federal Register (48 CFR Subpart 2.1)
Federal Simplified Acquisition Threshold	$250,000	Adjusted periodically and published in Federal Register (48 CFR Subpart 2.1)

**Please review this Procurement attachment annually and update amounts accordingly.*

Responsibility for Purchasing

The board has outlined standard district purchasing responsibilities, methods of purchasing, price quotations and bid requirements in the following board policies and their accompanying administrative regulations and/or procedures:

DFAB: Standard of Conduct for Federally Funded Contracts

DFAC: Federal Fiscal Compliance

DJE**:** Purchasing

DJEB**:** Quality Control

DJED: Bids and Quotations Requirements

DJEE**:** Local Purchasing

DJEF**:** Requisitions

DJEG: Purchase Orders and Contracts

DJEJ**:** Payment Procedures
DJFA**:** Purchasing Authority
DJFAB: Administrative Leeway

Purchase Methods

When a request for expenses related to construction, reconstruction, or remodeling, or for the purchase of materials, goods, or wares has been submitted and approved as outlined below, the procurement method to be used will be determined based on the type of purchase and the total cost of the Purchase. This procedure outlines how the cost thresholds for determining when quote or formal bidding procedures are required by state law (as reflected in Policy DJED) must be modified when making purchases for federally funded purposes to comply with both state and federal requirements. At each point where requirements for food service-related procurement under USDA regulations differ, a note will refer to the Food Service Program Notes at the end of this procedure. The final determination of which purchasing procedures are to be applied is delegated to the { } Purchasing Agent { } Superintendent { } Business Manager under the authority of the Board.

Standard Procurement Documents and Purchase Request Process

The district shall use *{ } purchase orders { }* requisitions for purchase requests in accordance with the applicable purchase method.

The district shall use *{ } paper { } electronic purchasing records, which are pre-numbered and accessible to designated purchasing staff in { } the district office { } the business office { } Purchasing Agent's office { } Other.* _____.

Purchase requests by an employee must be submitted to the building administrator or immediate supervisor. The purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by using a purchase order or requisition submitted to the purchasing agent. Purchase orders and requisitions shall contain information including, but not necessarily limited to:

1. Description of the services to be performed or goods to be purchased;
2. Location of where services will be performed or goods will be delivered;
3. Appropriate dates of service or delivery;

4. { } Other (describe)._____.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district's Public Records policy (CN) and Federal Fiscal Compliance policy (DFAC).

Contracts shall be reviewed by the { } Board Clerk { } Business Manager { } Superintendent { } Board's Attorney prior to submission to the board for approval.

Contracts to which the Uniform Grant Guidance applies shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.

[See Food Service Program Notes below for specific clauses required by USDA regulations to be included in cost-reimbursable procurement contracts.]

Micro-Purchases Not Requiring Quotes or Bidding

For purposes of this procedure, a micro-purchase refers to a purchase of supplies or services for use in federally funded programs using simplified acquisition procedures, with an aggregate amount that does not exceed a base amount of $10,000. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if it is different from $10,000. (48 CFR Subpart 2.1)

Note: The micro-purchase maximum for federal purposes is lower than the amount below which Policy DJED allows purchases for nonfederal purposes to be made without using formal competitive bidding.

The micro-purchase method is used to expedite the completion of the lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase involves the acquisition of supplies or services with an aggregate dollar amount that does not exceed the micro-purchase threshold.

To the extent practicable, the district distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices, and other terms. The *{ } Superintendent { } Business Manager { } Purchasing Agent*

{ } Board Clerk { } Board Treasurer will be responsible for determining the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the district considers the price to be reasonable. The district will maintain evidence of this reasonableness in the records of all micro-purchases. **Reasonable** means that sound business practices were followed, and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include a comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

Small Purchase Procedures

For purposes of this procedure**, small purchase procedures** are those relatively simple and informal procurement methods for securing materials, goods, or wares, or for completing construction, reconstruction, or remodeling that cost more than the amount qualifying as a micro-purchase but do not cost $20,000 or more. For services other than construction, reconstruction, or remodeling, the total cost must not exceed the $250,000 federal Simplified Acquisition Threshold at which formal competitive bidding or competitive proposals are required. Small purchase procedures cannot be used for construction, reconstruction, or remodeling costing $20,000 or more, or for the purchase of materials, goods, or wares costing $20,000 or more, because board policy and Kansas law require formal competitive bidding at that level of cost.

The base amount at which bidding is required under state law for construction, reconstruction, or remodeling, or for the purchase of materials, goods, or wares is $20,000. (K.S.A. 72-1151)

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if it is other than $250,000. (48 CFR Subpart 2.1)

Because state law does not require competitive bidding for the purchase of services other than for construction, reconstruction, or remodeling with a cost in excess of $20,000, small purchase procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding or competitive proposals are required ($250,000).

[See Food Service Program Notes below for exemption from bidding for purchases of perishable food items costing less than $250,000.]

Formal Competitive Bidding

Publicly Solicited Sealed Competitive Bids:

For construction, reconstruction, or remodeling, or for the purchase of materials, goods, or wares, sealed competitive bids are publicly solicited and awarded to the lowest responsible bidder as provided in Policy DJED when the total cost is estimated to be $20,000 or more.

Note: The amount at which formal competitive bidding or competitive proposals are required by federal regulations is much higher than the base amount at which the policy and state law require competitive bidding. Therefore, the lower base amount specified by Policy DJED will be used for purchases of equipment or supplies, or for obtaining services for construction, reconstruction, or remodeling costing $20,000 or more.

State law does not require bidding for the purchase of services other than for construction, reconstruction, or remodeling regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding or competitive proposals will be used when the estimated total cost will be at or over the federal threshold of $250,000.

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register shall apply if it is other than $150,000. (48 CFR Subpart 2.1)

For procurement of services costing at or over the $150,000 federal threshold other than for construction, reconstruction, or remodeling, the use of competitive sealed bidding is considered feasible and appropriate when:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed-price contract, and the selection of the successful bidder can be made principally on the basis of price.

Where specified in bidding documents, factors such as discounts, transportation costs, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Competitive Proposals

State law does not require public school entities to solicit competitive bids for services other than construction, reconstruction, or remodeling, for which competitive bidding is required if the cost will be a base amount of $20,000 or more.

Federal regulations allow the use of competitive proposals as an alternative to formal competitive bidding when conditions are not appropriate for the use of sealed bids.

In the case of services other than construction, reconstruction, or remodeling costing less than that threshold, the district may use small purchase procedures or micro-purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the small purchase competition requirements under state law and Policy DJED for the acquisition of services other than construction, reconstruction, or remodeling, and can be used if the total cost will be less than $250,000.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded.

Competitors' qualifications are evaluated, and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The district shall comply with other applicable state and federal law and regulations, board policy, and administrative regulations or procedures regarding purchasing; the district may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
2. Proposals must be solicited from an adequate number of qualified sources.
3. There must be a written method for conducting technical evaluations of the proposals received and for selecting recipients.
4. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.
5. Competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services, whereby competitors' qualifications are evaluated and the most qualified is selected, subject to negotiation of fair and reasonable compensation, are allowed. The method where price is not used as a selection factor can only be used in the procurement of A/E professional services and cannot be used to purchase other services through A/E firms.

Competitive proposals shall be evaluated by the { } Superintendent { } Business Manager { } Federal Programs Coordinator based on factors including but not limited to:

1. Cost.

{ } Experience of contractor.

{ } Availability.

{ } Personnel qualifications.

{ } Financial stability.

{ } Minority business, women's business enterprise, or labor surplus area firm status.

{ } Project management expertise.

{ } Understanding of district needs.

{ } Other . _____

Evaluations shall be completed in a timely manner, documented, and shall be reviewed by the *{ } Board { } Superintendent { } Business Manager { } Federal Programs Coordinator { } school solicitor.*

Contract/Price Analysis

The district performs a cost or price analysis in connection with every procurement action in excess of $250,000, including contract modifications. (2 CFR Sec. 200.323(a)).

A **cost analysis** generally means evaluating the separate cost elements that make up the total price, while a **price analysis** means evaluating the total price without looking at the individual cost elements.

The method and degree of analysis are dependent on the facts surrounding the particular procurement situation; however, the *{ } Superintendent { } Business Manager { } Federal Programs Coordinator* must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)). As part of the analysis, the _____ will enact established business practices which may include evaluation of similar prior procurements and a review process.

Negotiated Profit

In any procurement in which there has been no price competition or in which a cost analysis is performed, profit must be negotiated separately as an element of price. Accordingly, solicitations of bids, proposals, or quotes shall require that bids, proposals, or quotes be limited to costs other than profit and exclude profit.

To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR Sec. 200.323(b)).

When profit must be negotiated as a separate element of the total price, it shall be negotiated by the *{ } Superintendent { } Business Manager { } Federal Programs Coordinator.*

Noncompetitive Proposals (Sole Sourcing)

Procurement by noncompetitive proposals means procurement through the solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An emergency exists whenever the time required for the board to act in accordance with regular procedures would endanger life or property or threaten the continuance of existing school classes.
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.
4. After solicitation of a number of sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the district will document the grounds for using the noncompetitive method in lieu of otherwise required competitive methods of procurement. Documentation may include written confirmation from the contractor as the sole source of the item and must be submitted to and maintained by the district office.

All noncompetitive proposals will ultimately be approved by the board. The district may seek legal advice regarding noncompetitive proposals to ensure compliance and appropriateness.

Profit must be negotiated separately for noncompetitive proposals. Additionally, a cost or price analysis will be performed for noncompetitive proposals when the price exceeds $250,000.

Purchase Cards

The district approves the use of procurement cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, enhance controls for small-dollar purchases, and streamline contractor payments.

Procurement cards may be used for purchases under federal programs in accordance with the district's purchasing policies.

Full and Open Competition

All procurement transactions must be conducted in a manner that provides full and open competition, consistent with 2 CFR Sec. 200.319. To ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work,

or invitations for bids or requests for proposals must be excluded from competing for such procurements. Situations considered restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms to qualify for business.
2. Requiring unnecessary experience and excessive bonding.
3. Engaging in noncompetitive pricing practices between firms or affiliated companies.
4. Awarding noncompetitive contracts to consultants on retainer contracts.
5. Creating organizational conflicts of interest.
6. Specifying only a "brand name" product instead of allowing "an equal" product to be offered, with a clear description of performance or other relevant requirements.
7. Any arbitrary action in the procurement process.

Minority Businesses, Women's Business Enterprises, Labor Surplus Area Firms

The district must take affirmative steps to ensure that minority businesses, women's business enterprises, and labor surplus area firms are utilized whenever possible. These affirmative steps must include: (2 CFR Sec. 200.321)

1. Inclusion on Solicitation Lists: Placing qualified small, minority, and women's business enterprises on solicitation lists.
2. Solicitation: Ensuring that small, minority, and women's business enterprises are solicited whenever they are potential sources.
3. Dividing Requirements: Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to allow maximum participation by small, minority, and women's business enterprises.
4. Encouraging Participation: Establishing delivery schedules that encourage participation by small, minority, and women's business enterprises, where possible.
5. Utilizing Assistance: Using the services and assistance of organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce, as appropriate.
6. Prime Contractor Requirements: Requiring the prime contractor, if subcontracts are let, to undertake the affirmative steps listed above.

Geographical Preferences Prohibited

The district must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals for purchases made with federal funds. Exceptions apply only when federal statutes expressly mandate or encourage geographic preference. For contracting architectural and engineering (A/E) services, geographic location may be a criterion if it allows an appropriate number of qualified firms to compete for the contract, given the project's nature and size.

[See Food Service Program Notes below for details on the permissibility of geographic preferences and "Buy American" practices in purchasing certain food products.]

Prequalified Lists

The district must ensure that all prequalified lists of persons, firms, or products used in acquiring goods and services are current and include a sufficient number of qualified sources to ensure maximum open and free competition. Additionally, the district must not preclude potential bidders from qualifying during the solicitation period.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Solicitation Language

The district must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such descriptions must not, in competitive procurements, contain features that unduly restrict competition. The description may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used to define the performance or other salient requirements of procurement. The specific features of the named brand that must be met by offers must be clearly stated; and all requirements that the offerors must fulfill and all other factors to be used in evaluating bids or proposals must be identified.

Avoiding Acquisition of Unnecessary or Duplicative Items

The district must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

These considerations are part of the process to determine the allowability of each purchase made with federal funds. Such considerations are accessible in the procedure to Policy DFAC: Allowability of Costs – Federal Programs.

Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the district enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act.

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the district shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable procurement methods, requirements, and standards of the Uniform Grant Guidance as outlined in this procedure.

Use of Federal Excess and Surplus Property

The district considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

Debarment and Suspension

The district awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

[See Food Service Program Notes below for reference to state requirements regarding contracts with

food service management companies and contractors of pre-plated meals.]

The district may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over $25,000 the district verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR Part 200, Appendix II, and 2 CFR Sec. 180.220 and 180.300).

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The *{ } Business Manager { } Federal Programs Coordinator* will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

Maintenance of Procurement Records

The district must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.
Maintenance of records of procurement will be governed by board Policies CN and DFAC

Time and Materials Contracts

The district may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency.

Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Settlements of Issues Arising Out of Procurements

The district alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the district of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

Protest Procedures to Resolve Dispute

The district maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, board policy and administrative regulations and procedures, and the advice of the board's legal counsel.

Food Service Program Notes:

Exemption from Bidding for Perishable Food Items -

Kansas law exempts purchases of food and foodstuffs necessary for the implementation or operation of any child nutrition program from bidding requirements. Bidding for such items is required only if the cost would be at or over the federal threshold at which formal competitive bidding is required ($250,000). Small purchase procedures may be used for purchases below
$250,000, or micro-purchase procedures for purchases below $10,000. Use of bidding should be considered as an option if it is feasible and likely to result in cost savings.

Geographic Preferences -

The district is permitted to apply a geographic preference when procuring unprocessed, locally grown or locally raised agricultural products. When a geographic preference is applied, the district has discretion to determine the local area to which the geographic preference option will be applied.

Unprocessed locally grown or locally raised agricultural products means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or

character: cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two (2) or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk. (7 CFR Sec. 210.21, 215.14a, 220.16)

Buy American -

The district shall purchase, to the maximum extent practicable, domestic commodities or products for food service purposes. The term **domestic commodity or product** means: (7 CFR Sec. 210.21, 220.16)

1. An agricultural commodity that is produced in the United States; and
2. A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

Mandatory Contract Clauses -

DFAC TYPE OF COSTS, OBLIGATIONS AND PROPERTY MANAGEMENT – FEDERAL PROGRAMS

(Sample Procedure)

Type of Costs, Obligations and Property Management – Federal Programs

The district establishes and maintains board policies, administrative regulations, and administrative procedures on administration of federal funds in federal programs as required by the Uniform Grant Guidance and other federal, state, and local laws, regulations, and requirements. The district's fiscal management system includes internal controls and grant management standards in the following areas when federal funds are involved.

Direct and Indirect Costs

Direct costs – costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

Indirect costs – costs incurred for a common or joint purpose benefiting more than one (1) cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect costs. (2 CFR Sec. 200.405, 200.413)

Identification with the federal award rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs.

Direct and indirect costs shall be determined in accordance with law, regulations, the terms and conditions of the federal award, and the district's negotiated indirect cost rate.

The district shall develop an indirect cost rate proposal and cost allocation plan in accordance with law, regulations, and the terms and conditions of the federal award.

Timely Obligation of Funds

Obligations – orders placed for property and services, contracts, and subawards made and similar transactions during a given period that require payment by the district during the same or a future period.

The following table illustrates when funds must be obligated under federal regulations:

Obligation is for:	**Obligation is made:**
Acquisition of property	On the date on which the district makes a binding written commitment to acquire the property
Personal services by a district employee	When the services are performed

Personal services by a contractor who is not a district employee	On the date on which the district makes a binding written commitment to obtain the services
Public utility services	When the district receives the services
Travel	When the travel occurs
Rental of property	When the district uses the property
A pre-agreement cost that was properly approved by the Secretary under the cost principles in 2 CFR Part 200, Subpart E - Cost Principles	On the first day of the project period

34 CFR §75.707; 34 CFR §76.707

All obligations must occur between the beginning and ending dates of the federal award project, which is known as the period of performance. The period of performance is dictated by law and regulations and will be indicated in the federal award. Specific requirements for carryover funds may be specified in the federal award and must be adhered to by the district. (2 CFR Sec. 200.77, 200.309)

The district will handle obligations and carry over of state-administered and direct grants in accordance with state and federal law and regulations and the terms and conditions of the federal award. Carryover will be calculated and documented by the *{ } Superintendent { } Business Manager { } Federal Programs Coordinator*.

The district may exercise an extension of the period of performance under a direct grant in accordance with law, regulations, and the terms and conditions of the federal award when written notice is provided to the federal awarding agency at least ten (10) calendar days prior to the end of the period of performance. (2 CFR Sec. 200.308(d)(2))

The *{ } Superintendent { } Business Manager { } Federal Programs Coordinator* will decide when an extension of the period of performance is necessary and will recommend that the board approve this process.

The *{ } Superintendent { } Business Manager { } Federal Programs Coordinator* will develop the required written notice, including the reasons for the extension and revised period of performance; the notice will be issued no later than ten (10) calendar days prior to the end of the currently documented period of performance in the federal award.

The district must seek approval from the federal awarding agency for an extension of the period of performance when the extension is not contrary to federal law or regulations, and the following conditions apply:

1. The terms and conditions of the federal award prohibit the extension;
2. The extension requires additional federal funds; or
3. The extension involves any change in the approved objectives or scope of the project. (2 CFR Sec. §200.308)

The { } Superintendent { } Business Manager { } Federal Programs Coordinator will determine when an extension must be requested for approval by the federal awarding agency, draft the written request, and notify the { } Board { } Superintendent { } Business Manager { } Federal Programs Coordinator of the requested extension.

Management of Property Acquired With Federal Funds

Contract and Purchasing Administration

The district maintains internal controls, administrative regulations, and procedures to ensure that contractors deliver goods and services in accordance with the terms, conditions, and specifications of the designated contract, purchase order, or requisition.

Property Classifications

Property shall be classified as **real or personal property** as defined and specified in accordance with law and regulations.

Inventory Control/Management

All personal property, other than intangible property, which is purchased with federal funds, regardless of cost, will be inventoried as a safeguard.

Inventory will be received by the department or program requesting the item; designated staff will inspect the property, compare it to the applicable purchase order or requisition, and ensure it is appropriately logged and tagged in the district's property management system. Items acquired will be physically labeled by source of funding and acquisition date.

Inventory records of equipment and computing devices must be current and available for review and audit, and include the following information:

1. Description of the item, including any manufacturer's model number.
2. Manufacturer's serial number or other identification number.
3. Identification of funding source.
4. Acquisition date and unit cost.
5. Source of items, such as company name.
6. Percentage of federal funds used in the purchase.
7. Present location, use, condition of item, and date information was reported.
8. Pertinent information on the ultimate transfer, replacement, or disposition of the item and the sale price of the property.

Inventory will be updated as items are sold, lost, stolen, or cannot be repaired, and new items are purchased.

Physical Inventory

Physical inventory of property will be completed by designated district staff in accordance with applicable federal law and regulation and board policy DIC. The physical inventory of items will be conducted annually, and the results will be reconciled with the inventory records and reported to the federal awarding agency.

Maintenance

The district establishes adequate maintenance procedures to ensure that property is maintained in good condition in accordance with law, regulation, and board policy.

Safeguards

The district ensures that adequate safeguards are in place to prevent loss, damage, or theft of property:

1. Any loss, damage, or theft will be reported to the { } Superintendent { } Business Manager { } Federal Programs Coordinator, investigated and fully documented, and may be reported to local law enforcement.
2. If stolen items are not recovered, the district will submit copies of the investigative report and insurance claim to the federal awarding agency.
3. The district may be responsible for replacing or repairing lost, damaged, destroyed, or stolen items.
4. Replaced equipment is the property of the originally funded program and should be inventoried accordingly.
5. District property may only be loaned in accordance with board policy KGA and administrative regulations and procedures.

Disposition of Property Acquired with Federal Funds

When the district determines that real property, including land, land improvements, structures, and accessories thereto, acquired under a federal award is no longer needed for the originally authorized purpose, the district must obtain disposition instructions from the federal awarding agency or pass-through entity administering the program, in accordance with applicable law and regulations. (2 CFR Sec. 200.311)

When the district determines that equipment or supplies acquired under a federal award are no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, the { } Superintendent { } Business Manager { } Federal Programs Coordinator will contact the federal awarding agency or pass-through entity administering the program to obtain disposition instructions, based on the fair market value of the equipment or supplies.

Generally, items with a fair market value of $5,000 or less that are no longer effective may be retained, sold, purged, or transferred to the district. For items with a fair market value greater than $5,000, the federal awarding agency is entitled to the federal share of the current market value or sales proceeds.

If the district will be replacing the equipment or supplies, the district may use the existing equipment or supplies as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property.

The { } Superintendent { } Business Manager { } Federal Programs Coordinator will be responsible for contacting the federal awarding agency and determining the process for disposition of equipment or supplies.

The district may use the following methods in disposing of unnecessary equipment or supplies acquired with federal funds:

{ } Public auction and/or online sale – generally conducted by a licensed auctioneer.

{ } Salvage – scrap sold to local dealers.

{ } Negotiated sale – normally used when disposing of items of substantial value.

{ } Sealed bid – normally used for items of substantial value or unique qualities.

{ } Pre-priced sale – large quantities of obsolete or surplus equipment or supplies may be sold by this method.

{ } Donation to charitable organizations, for equipment or supplies with little to no value.

{ } Disposition to trash for equipment or supplies with no value.

The { } Superintendent { } Business Manager { } Federal Programs Coordinator will be responsible for maintaining records of obsolete and surplus property disposed of and will report to the federal awarding agency when required.

ECH PRINTING AND DUPLICATING SERVICES

Copyright Regulations and "Fair Use" Rules for Educators

Suggested Handbook Language

In accordance with school board policy ECH, the following regulations will be observed to comply with the copyright laws of the United States.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship, or research. If duplicating or altering a product is to fall within the bounds of fair use, these four standards must be met for any of the purposes:

The Purpose and Character of the Use

The use must be for such purposes as teaching or scholarship and must be nonprofit. Fair use would probably allow teachers acting on their own to copy small portions of work for the classroom but would not allow a school system or an institution to do so.

The Nature of the Copyrighted Work

Copying portions of a news article may fall under fair use but not copying from a workbook designed for a course of study.

The Amount and Substantiality of the Portion Used

Copying the whole of a work cannot be considered fair use; copying a small portion may be. At the same time, however, extracting a short sequence from a 16mm film may be far different from a short excerpt from a textbook, because two or three minutes out of a 20-minute film might be the very essence of that production and thus outside fair use. Under normal circumstances, extracting small amounts out of an entire work would be fair use, but a quantitative test alone does not suffice.

The Effect of the Use Upon the Potential Market for or Value of the Copyrighted Work

If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials is an infringement, and making multiple copies can result in greater penalties.

Prohibited Practice

No one may make multiple copies of a work for classroom use if it has already been copied for another class in the same institution; make multiple copies of a short poem, article, story, or essay from the same author more than once in a class term; make multiple copies from the same collective work or periodical issue more than three times a term; make multiple copies of works more than nine times in the same class term; make a copy of works to take the place of an anthology; and may not make a copy of "consumable" materials, such as workbooks.

Permitted Practice

A teacher may make—for use in scholarly research, in teaching, or in preparation for teaching a class—a single copy of the following: a chapter from a book; an article from a periodical or newspaper; a short story, short essay, or short poem (whether or not from a collected work); a chart, graph, diagram, drawing, cartoon, or picture from a book, periodical, or newspaper. A teacher may also make (for classroom use only and not to exceed one per student in a class) multiple copies of the following: a complete poem (if it has fewer than 250 words and is printed on not more than two pages), an excerpt from a prose work (if the excerpt has fewer than 1,000 words or 10 percent of the work, whichever is less), and one chart, graph, diagram, cartoon, or picture per book or periodical.

A library may, for interlibrary loan purposes, make up to six copies a year of a periodical published within the last five years, make up to six copies a year of small excerpts from longer works, make copies of unpublished works for purposes of preservation and security, and make copies of out-of-print works that cannot be obtained at a fair price.

Guidelines for Off-Air Recording of Broadcast Programming for Educational Purposes

A broadcast program may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained for a period not to exceed the first 45 consecutive calendar days after the date of recording. Upon conclusion of such retention period, all off-air recordings must be erased or destroyed immediately.

Off-air recordings may be used once by individual teachers in the course of relevant teaching activities and repeated once, only when instructional reinforcement is necessary, in classrooms and similar places devoted to instruction within a single building, cluster, or campus, as well as in the homes of students receiving formalized home instruction, during the first 10 consecutive school days in the 45 calendar day retention period. “School days” are school session days—not counting weekends, holidays, vacations, examination periods, or other scheduled interruptions—within the 45 calendar day retention period.

Off-air recordings may be made only at the request of and used by individual teachers and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast.

A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers under these guidelines. Each such additional copy shall be subject to all provisions governing the original recordings.

After the first 10 consecutive school days, off-air recordings may be used up to the end of the 45-calendar-day retention period only for evaluation purposes by the teacher, i.e., to determine whether or not to include the broadcast program in the teaching curriculum. They may not be used for student exhibition or any other non-evaluation purpose without authorization.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered

from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations.

All copies of off-air recordings must include the copyright notice on the broadcast programs as recorded.

Computer Software

District employees may make a back-up copy of computer programs as permitted by current federal law. Back-up copies may be used for archival purposes only, and all archival copies shall be destroyed in the event that continued possession of the computer program should cease to be rightful.

When software is used on a disk-sharing system, efforts shall be made to secure this software from copying.

Illegal copies of copyrighted programs shall not be made or used on school equipment.

GARA BLOODBORNE PATHOGEN PLAN

SAMPLE

EXPOSURE CONTROL PLAN

FOR BLOODBORNE PATHOGENS IN

U.S.D. NO. _____, _____ COUNTY, KANSAS

INTRODUCTION

In late 1991, the Occupational Safety and Health Administration issued safety standard regulations for the handling of bloodborne pathogens by entities subject to its control. Although public entities in the State of Kansas are not subject to OSHA, state statutes gave the Kansas Department of Human Resources the authority to inspect public entities, such as school districts, for safety. In the spring of 1992, KDHR announced that it would apply the OSHA standard for bloodborne pathogens to public entities in the State of Kansas. Although the KDHR is no longer in existence, this Exposure Control Plan will be implemented in U.S.D. No. to achieve compliance with the prior state directive and is considered best practice procedure to help protect our staff and students in the school setting.

EXPOSURE DETERMINATION

For purposes of this plan "occupational exposure" means reasonably anticipated skin, eye, mucous membrane, or parenteral (piercing mucous membranes or the skin barrier through needle sticks, human bites, cuts, abrasions, etc.) contact with blood or other potentially infectious materials (OPIMs) that may result from the performance of the employee's duties. OPIMs include body fluids such as semen, vaginal secretions, respiratory discharge, tears, vomitus, urine, feces, saliva in dental procedures, etc. For purposes of this plan, employees of the district, by job classifications have been divided into three categories:

<u>Category I</u>

All employees in the following job classifications at U.S.D. No. _____ have occupational exposure:

[The district here should fill in all job classifications in which occupational exposure will occur. Custodians, school nurses, athletic trainers, coaches, and special education teachers or paraprofessionals who work with exceptional children who are at high risk for Hepatitis B are likely to fall in this category.]

Category II

Some employees in the following job classifications in U.S.D. No. _____ may have an occasional occupational exposure:
[Fill in all job classifications in which occupational exposure may occur for some employees within the classification. Teachers, teacher aides, some paraprofessionals, and persons who occasionally render first aid are likely to fall in this category.]

Category III

Some employees in U.S.D. No. _____ are unlikely to have occupational exposure. Their job classifications include:

[Fill in all job classifications in which exposure is unlikely. Central office administrators and clerical personnel are likely to fall within this category.]

The following is a list of tasks and procedures or groups of closely related tasks and procedures in the school district in which occupational exposure occurs or is likely to occur, and by which employees in which job classifications such tasks are performed.

TASK OR PROCEDURE JOB CLASSIFICATION

Cleaning and bandaging scrapes, Teachers, teacher-aides, school cuts or abrasions nurse, coaches, athletic trainers Cleaning vomitus from the floor Custodians

[The district should consider all situations in which employees may be exposed to blood or OPIMs, and include a comprehensive list in this portion of the control plan. The preceding are only examples of the

types of tasks which should be included.]

IMPLEMENTATION SCHEDULE AND METHODOLOGY

METHODS OF COMPLIANCE

"Universal Precautions" is an approach to infection control. According to the concept of Universal Precautions, all human blood and certain human body fluids are treated as if known to be infectious for Human Immunodeficiency Virus (HIV) or Hepatitis B Virus (HBV). Universal Precautions shall be observed in U.S.D. No. to prevent contact with blood and OPIMs.

ENGINEERING AND WORK PRACTICE CONTROLS

Engineering and work practice controls will be used to eliminate or minimize all employee exposure. Where exposure potential remains, personal protective equipment shall also be used.

ENGINEERING CONTROLS

Engineering controls are controls which isolate or remove the bloodborne pathogen hazard from the workplace. The following engineering controls will be used in the district:

The district will maintain appropriate containers for the disposal of needles or sharps in the following areas:

[List any area where a person may use a needle for injection, e.g., injections of insulin for a student or employee. The district may want to limit the areas in which such injections will be allowed to the nurse's office or other central area in the building.]

The district will maintain appropriate receptacles for the deposit of contaminated clothing, protective clothing, and other articles.

Engineering controls will be examined, maintained, or replaced on a regularly scheduled basis.

CONTROL	INSPECTED	BY TIMELINE

Sharps disposal containers	School nurse	Monthly
Receptacles	Custodian	Daily

[List any engineering controls the district will use and the schedule for their inspection. The preceding are examples of the types of controls which should be included.

WORK PRACTICE CONTROLS

Work practice controls are those controls that reduce the likelihood of an exposure by altering the manner in which the task is performed.

The following work practice controls apply in U.S.D. No. _____

Contaminated needles will not be bent, recapped or removed and will be disposed of in appropriately labeled containers.

Eating, drinking, smoking, applying cosmetics, applying lip balm and the handling of contact lenses is prohibited in areas where there is a reasonable likelihood of occupational exposure.

Food and drink cannot be kept in any area where blood or OPIMs are present.

Procedures involving blood or OPIMs will be performed in a manner to minimize splashing, spraying, or spattering. Mouth suctioning of blood or OPIMs is prohibited.

Specimens of blood or OPIMs should not be brought to or taken in the school. If specimens of blood or OPIMs are present in the school they should be in leakproof containers, appropriately labeled, and closed prior to storing or transporting.

Equipment which may become contaminated with blood or OPIMs shall be decontaminated, or appropriately labeled, as soon as is feasible after the contamination occurs. Affected employees and, if necessary, outside servicing agents, will be informed of the contamination of the equipment prior to any handling, servicing or shipping of the equipment.

HANDWASHING FACILITIES

Handwashing facilities are provided for all students and employees of the district. Because washing one's hands with soap and running water is one of the most effective ways to prevent the spread of disease through blood or OPIMs, employees shall wash their hands with soap and water whenever exposure occurs. Although handwashing may be advisable in other situations, employees must thoroughly wash their hands, or any other exposed or contaminated skin with soap and water in these situations:

1. Immediately after the removal of gloves or other personal protective equipment.
2. Following contact of hands or other skin with blood or OPIMs.

In some situations, such as on athletic facilities or field trips, handwashing facilities may not be available. In this case, the person in charge of the event (football coach, teacher who is taking the class on a field trip, etc.) shall ensure that antiseptic towelettes are available for use. Antiseptic towelettes which may be used for this purpose are stored (place of storage) and may be obtained through (name of person to contact). Whenever an employee uses an antiseptic towelette, the employee shall thoroughly wash his or her hands with soap and water as soon as it is feasible to get to a handwashing facility.

PERSONAL PROTECTIVE EQUIPMENT

It shall be the responsibility of each building principal to ensure that appropriate personal protective equipment is available and readily accessible for each employee's use at no cost to the employee. The principal shall also ensure that all employees use personal protective equipment when there is occupational exposure. In the event that an employee, exercising his or her personal judgment, fails to use protective equipment, the circumstances will be investigated and documented in order to determine whether changes can be instituted to prevent future occurrences.

It shall be the responsibility of any employee who uses personal protective equipment to place the equipment in the appropriately designated receptacle for storage, washing, decontamination or disposal after its use. These receptacles are located (place where the receptacles are located). The school district shall be responsible for storing, cleaning, laundering, decontaminating, repairing, replacing or disposing of such equipment.

All personal protective equipment which is penetrated by blood or OPIMs should be removed as soon as is

feasible and placed in the appropriate receptacle.

Personal protective equipment is stored (place of storage). The equipment may be checked out or obtained for use by contacting (name of the person to contact). The following personal protective equipment is available in the district for use by its employees:

Gloves. Gloves shall be worn by any employee when it is reasonably anticipated that there will be hand contact with blood, OPIMs, mucous membranes or non-intact skin. Gloves shall also be worn when handling or touching contaminated items or surfaces.

Disposable (single use) gloves are available for employee use in situations where such use is warranted or directed. These gloves should be deposited by the employee in the appropriate container for disposal immediately following their use. Handwashing after removing the gloves is required.

Utility gloves are assigned to some employees. These gloves may be decontaminated for reuse, and should be deposited in the appropriate container for washing of decontamination. Any employee to whom utility gloves are assigned shall be responsible for regularly inspecting these gloves for punctures, cracking or deterioration. The employee shall dispose of such gloves when their ability to function as a barrier is compromised. The employee shall report the disposal of the gloves to (name) who shall ensure that a new pair of utility gloves is assigned to the employee.

Masks, eye protection, and face shields. This type of protective equipment shall be worn whenever splashes, spray, splatter or droplets of blood or OPIMs may be generated and eye, nose or mouth contamination can be reasonably anticipated.

Gowns, lab coats, aprons, and other protective body clothing. This type of protective clothing shall be worn in occupational exposure situations. The type of protective clothing necessary will depend on the degree of exposure, and shall be left to the employee's judgment.

HOUSEKEEPING

It shall be the responsibility of (name(s) of person responsible) to see that each worksite and building in the district is maintained in a clean and sanitary condition.

All equipment and environmental and working surfaces shall be cleaned and decontaminated with an appropriate disinfectant as soon as feasible after contact with blood of OPIMs.
Protective coverings used to cover equipment and environmental surfaces shall be removed and decontaminated or replaced as soon as feasible when they become overtly contaminated.

All bins, pails, cans, and waste paper baskets shall be inspected, cleaned, and decontaminated on a regularly scheduled basis, or as soon as feasible upon visible contamination.

Broken glassware shall not be picked up by hand, but by using a broom and dustpan, tongs, vacuum cleaner or other mechanical means.

The following cleaning schedule and method of decontamination will be implemented in the district:

AREA SCHEDULED CLEANING METHOD

[The cleaning schedule for all worksites and areas in the district's buildings should be listed here. The method by which the areas will be decontaminated (e.g., disinfectant) should also be listed.]

All contaminated and regulated waste will be disposed of in compliance with state and federal regulations.

LAUNDRY

The school district will use Universal Precautions with all soiled or contaminated laundry. Any contaminated items which can be laundered will be bagged at the site of the contamination and handled as little as possible. If the items are wet, leakproof bags or containers shall be used. Such items shall not be sorted or rinsed at the site of the contamination. The bags shall be deposited in the appropriately labeled receptacle in the building.

Any employee who comes into contact with contaminated items or laundry shall wear gloves and other personal protective equipment as deemed necessary or appropriate.

[If the district uses a laundry service which does not use Universal Precautions the following sentences should be added: Any contaminated laundry will be transported in red or appropriately labeled leakproof bags. The district will provide the laundry service with a copy of the OSHA bloodborne pathogen standard.]

HEPATITIS B VACCINATION

The School District will make the Hepatitis B vaccine and vaccination series available to any employee of the district who has occupational exposure and falls within Category I of the exposure determination. In light of the OSHA directive in early July, 1992, indicating that persons who render first aid only as a collateral duty, responding solely to injuries resulting from work place incidents, generally at the location where the injury occurred may be offered post-exposure vaccination rather than pre-exposure vaccination, the district will make the Hepatitis B vaccine and vaccination series available to employees in categories II and III within 24 hours of possible exposure to HBV.

The Hepatitis B vaccination and any medical evaluation required before the vaccine can be administered will be provided to the employee at no cost. No employee shall be required to participate in a prescreening program as a prerequisite for receiving the Hepatitis B vaccination. The vaccine will be offered after the employee has received training on bloodborne pathogens and within 10 working days of an employee's initial assignment to work involving the potential for occupational exposure, unless the employee has previously been vaccinated, antibody testing has revealed that the employee is immune, or the vaccine is contradicted for medical reasons.

Employees who decline the Hepatitis B vaccine will sign a waiver form as required by Appendix A of the OSHA standard. (A copy of the required waiver form is attached to this plan.) (Name of person) shall be responsible for assuring that the vaccine is offered, and that the necessary waiver is signed and appropriately filed for any employee who declines to accept the Hepatitis B vaccination which was offered.

Any employee who initially declines the Hepatitis B vaccination may later request the vaccination. The district will provide the vaccination for the employee at that time.

(Name of physician or health care professional) will administer the vaccine to employees of the district at (name of clinic, office, or hospital). [The district should determine how and where the vaccine will be administered and fill in the details here after consulting with the local physician who will be administering the vaccine. Because the district is responsible for paying for the vaccine, you may want to have an administrator in the district arrange appointments for the employees.]

Although booster doses of Hepatitis B vaccine are not currently recommended by the U.S. Public Health

Service, if such booster doses are recommended in the future, the district will make the booster doses available at no cost to all employees who have occupational exposure.

REPORTING PROCEDURES FOR FIRST AID INCIDENTS

Whenever an employee in category II or III is involved in a first aid incident which results in potential exposure, the employee shall report the incident to (name) before the end of the work shift during which the incident occurred. The employee must provide (name) with the names of all first aid providers involved in the incident, a description of the circumstances of the accident, the date and time of the incident, and a determination of whether an exposure incident, as defined in the OSHA standard and this policy, has occurred. The information shall be reduced to writing by (name) and maintained in the first aid incident report file. The district will maintain a list of such first aid incidents which will be readily available to all employees and provided to applicable investigatory government agencies upon request. Any employee who renders first aid or other assistance in any situation involving the presence of blood or OPIMs, regardless of whether or not a specific exposure incident occurs, will be offered the full Hepatitis B immunization series as soon as possible, but in no event later than 24 hours after the incident occurs. If an exposure incident has occurred, other post-exposure evaluation and follow-up procedures will be initiated as well.

POST-EXPOSURE EVALUATION AND FOLLOW-UP

An exposure incident occurs when there is specific mucous membrane, non-intact skin or parenteral contact with blood or OPIMs. Whenever an employee has an exposure incident in the performance of his or her duties, an opportunity for a confidential post-exposure evaluation and follow-up will be provided to the employee at the expense of the district.

Post-exposure evaluation and follow-up shall be performed by (name(s) of physician(s) or other qualified licensed health care professional(s)) at (name of place(s)) according to recommendations of the U.S. Public Health Service current at the time these evaluations and procedures take place. The district will make sure that any laboratory tests required by the evaluation or follow-up procedures are conducted at an accredited laboratory at no cost to the employee.

Whenever an exposure incident occurs, the exposed employee shall report the incident to (name), who will explain to the employee his or her right to a post-exposure evaluation and follow-up. If the employee desires an evaluation, (name) will contact (name of person who will do the evaluation) as soon as feasible to arrange

for the post-exposure evaluation for the employee.

A post-exposure evaluation and follow-up will include the following elements:

1. Documentation of the circumstances under which the exposure incident occurred, including the route(s) of the employee's exposure.
2. Identification and documentation of the source individual whose blood or OPIMs caused the exposure, unless identification is infeasible or prohibited by law.
3. Unless the source individual is known to be infected with HBV or HIV, the school district through (name) will seek the consent of the source individual for blood testing for HBV or HIV. Failure to obtain consent will be documented by the district.
4. If the source individual consents, results of the source individual's blood testing will be made available to the exposed employee, along with information on laws concerning the disclosure of the identity and infectious status of the source individual.
5. If the exposed employee consents, blood testing of his or her blood will be completed as soon as possible. If the employee consents to baseline blood collection, but not to HIV serologic testing, the blood sample will be retained for 90 days. The employee may request testing of the sample at any time during the 90-day period.
6. The exposed employee will be offered post-exposure prophylaxis in accordance with current recommendations of the U.S. Public Health Service. These recommendations are currently as follows: If the source individual has AIDS, is HIV positive, or refuses to be tested, the employee should be counseled regarding the risk of infection and evaluated clinically and serologically for evidence of HIV infection as soon as possible after the exposure. The employee should be advised to report and seek medical evaluation for any acute febrile illness that occurs within 12 weeks after the exposure. Retesting on a periodic basis may be necessary. During this follow-up period, especially the first 6-12 weeks after exposure, the employee should follow recommendations for preventing the transmission of the virus.
7. The exposed employee will be offered counseling concerning precautions to take during the period after the exposure incident. The employee will also be given information on what potential illnesses to be alert for and to report any related experiences to appropriate personnel. Reports should be made to (name).

WORKING WITH THE HEALTH CARE PROFESSIONAL

(Name of responsible person) will provide (name of physician(s) or licensed health care professional(s)) with a copy of the OSHA regulation governing bloodborne pathogens, and ensure that (name of physician(s) or licensed health care professional(s)) are provided with: a description of the employee's duties as they relate to the exposure incident, documentation of the circumstances under which the exposure incident occurred, results of the source individual's blood test (if available), and all medical records which the district is required to maintain which are relevant to the appropriate treatment of the employee, including the employee's vaccination status.

WRITTEN OPINION OF THE HEALTH CARE PROFESSIONAL

Following post-exposure evaluation, the health care professional shall provide the school district with a copy of his or her written opinion within 15 days after the completion of the evaluation. This opinion shall include:

1. An opinion on whether Hepatitis B vaccination is indicated for the employee, and if the employee has received the vaccination.
2. A statement that the employee has been informed of the results of the evaluation and about any medical conditions resulting from exposure to blood or OPIMs which require further evaluation or treatment.

All other findings or diagnoses shall remain confidential between the employee and the healthcare provider and shall not be included in the written opinion.

COMMUNICATION OF HAZARDS TO EMPLOYEES

LABELING

Any container which contains used needles, blood or OPIMs in the district shall be appropriately labeled with a "BIOHAZARD" label, or shall be red in color. All "BIOHAZARD" labels will have a fluorescent orange or orange- red background and have the biohazard symbol and the word "BIOHAZARD" in a contrasting color.

Any receptacle used for the disposal or deposit of contaminated materials for laundering or discard will be red in color, appropriately labeled or lined with red bags.

Any equipment which is contaminated will be appropriately labeled.

TRAINING

A training program on bloodborne pathogens will be provided for all employees with occupational exposure. Training will be provided during working hours, and at no cost to the employee. Attendance at training sessions is mandatory.

Initial training will be provided for all employees within 60 days after the adoption of this exposure control plan. Thereafter an employee will be provided with training at the time of initial assignment to tasks where occupational exposure may occur. Annual training for all employees will be provided within one year of their previous training. Additional training will be provided if changes in an employee's assignments affect the employee's occupational exposure.

The training program will be conducted by a person who is knowledgeable in the subject matter covered by the elements contained in the training program as it relates to the workplace that the training will address, and presented in a manner which is understandable for all employees.

GARI FAMILY AND MEDICAL LEAVE PLAN

(Remove this page from the policy book)

SAMPLE: FAMILY AND MEDICAL LEAVE PLAN

Family and medical leave as required by federal law shall be granted for a period of up to 12 weeks during a 12-month period. For purposes of this policy, a 12-month period shall be defined as a fiscal year beginning on July 1 and ending the following June 30. Spouses who are eligible for FMLA leave and are both employed by the district may be limited to a combined total of 12 weeks of leave during any 12-month period if the leave is taken for the birth of the employee's son or daughter or to care for the child after birth, for placement of a son or daughter with the employee for adoption or foster care, or to care for the employee's parent with a serious health condition.

Leave is available for the following:

1. The birth of a son or daughter of the employee and to care for the newborn child.
2. The placement of a son or daughter with the employee for adoption or foster care and to care for the newly placed child.
3. To allow the employee to care for the employee's spouse, son, daughter, or parent with a serious health condition.
4. A serious health condition of the employee that makes the employee unable to perform the functions of his or her job.
5. Any qualifying exigency arising out of the fact that the employee's spouse, son, daughter, or parent is a covered military member on active duty (or has been notified of an impending call or order to achieve active duty) in support of a contingency operation.
6. The need to care for a covered service member with a serious injury or illness if the employee is the spouse, son, daughter, parent, or next of kin of the service member. Eligible employees are, for reason (6) only, entitled to a combined total of 26 workweeks of leave during a 12-month period.

This leave shall normally be unpaid leave. However, if the employee has any paid vacation, personal, or sick leave that is available for use because of the reason for the leave, the paid leave shall be used concurrently with the annual family and medical leave. The superintendent will notify the employee of the beginning date of family and medical leave and the amount of the employee's accrued paid leave designated as family and medical leave.

The employee is eligible for family and medical leave if he or she has been employed by the district for at least 12 months and has worked at least 1,250 hours during the 12-month period immediately preceding the commencement of the FMLA leave.

During the period of any unpaid family and medical leave, the board shall continue to pay the employer's share of the cost of group health benefits in the same manner as paid immediately prior to the leave. Any employee portion of the cost shall be paid by the employee to the clerk of the board on the payroll date or other time as the employee and superintendent may agree prior to the commencement of the leave. The board may terminate group health coverage if the employee's portion of the payment is not received within 30 days of the due date, so long as written notice of the delinquency in payment and the notice of intent to terminate coverage are sent at least 15 days prior to the termination.

When leave is foreseeable, the employee shall give written notice 30 days in advance. If leave is not foreseeable, notice will be given as soon as is practicable.
Upon the employee providing notice of need for leave, the employer will notify the employee of the following within 5 business days, absent extenuating circumstances:

Whether or not the employee is eligible for FMLA leave, and the reasons that leave will or will not count as family and medical leave;
Any requirements for medical certification;
Employer requirement of substituting paid leave;
Requirements for premium payments for health benefits and employee responsibility for repayment if employer pays employee share;
Right to be restored to same or equivalent job; and
Any employer-required fitness-for-duty certifications.

The superintendent may require an instructional employee to continue leave until the end of a semester if the leave begins more than five (5) weeks before the end of a semester, lasts more than three (3) weeks, and the return would occur during the last three (3) weeks of the semester.

Leave for reason 1 or 2 must be taken within 12 months of the date of birth or placement of the child. Family leave for reasons 1 or 2 may not be used intermittently or on a part-time basis without the prior approval of the superintendent.

If the leave is for a reason other than the employee's serious health conditions or for a qualifying exigency as described in section (5) above, the superintendent may require an instructional employee to continue leave until the end of a semester if:

1. The leave begins in the last five (5) weeks of a semester, will last more than two (2) weeks, and the return to work would occur in the last two (2) weeks of a semester, or
2. The leave begins in the last three (3) weeks of a semester and lasts more than five (5) days.

IIBGA CHILDREN'S INTERNET PROTECTION PLAN

Children's Internet Protection Plan (CIPA) Plan

Children's Internet Protection Act (CIPA) Safety Plan
[Revise and edit as necessary to fit USD goals and include in Handbook]

Goals:

It is the policy of USD 413 to take the following technology protection or other specified measures in order to better protect our district students from harmful online and electronically transmitted content:

- Install blocks or Internet filters to the district network in order to limit access by both minors and adults to child pornography and visual depictions or materials that are obscene, inappropriate, or harmful to minors and/or the transmission thereof;
- Monitor the online activities of students while at school, at school-sponsored activities, or while utilizing the district's network, computer system, computers, e-mail system, or electronic devices having access to the Internet;
- Address issues related to the safety of students when using e-mail, chat rooms, and other electronic communication;
- Educate students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms as well as on cyberbullying awareness and response;
- Hinder unauthorized access (hacking) and other unlawful online activities by students; and
- Prevent unauthorized disclosure, use, or dissemination of personal information regarding minors, which shall include, but may not be limited to, personally identifiable information contained in student records; and
- Comply with the Children's Internet Protection Act.

<u>Access to Inappropriate Material</u>

To the extent practicable, technology protection measures or Internet filters shall be used to block or filter the Internet or other forms of electronic devices from accessing child pornography as well as obscene, inappropriate, or harmful material given the age and maturity levels of district students. It is the district's goal to implement and enforce technology protection measures under this plan in such a way as to ensure no minor has access to visual depictions that are child pornography, harmful to minors, or obscene. Subject to administrative approval, technology protection measures may be minimized only for bona fide research or other lawful purposes that are closely monitored by district staff.

Inappropriate Network Usage

To the extent practicable, steps shall be taken to promote the safety and security of users of the district's online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. Specifically, in accordance with CIPA, measures to prevent inappropriate network usage shall include frequent monitoring of the district's network, computer systems, and equipment to detect any unauthorized access to prohibited materials as described earlier in this plan, hacking, and other unlawful activities by students or staff members. Such monitoring shall also strive to detect unauthorized disclosure, use, and dissemination of personally identifiable information regarding students.

Education, Supervision, and Monitoring

It shall be the responsibility of all members of the District's staff to educate, supervise, and monitor appropriate usage of online computer network access to the Internet in accordance with this policy and CIPA. If, during the course of such monitoring, a student or staff member discovers a violation of this policy, the student or staff member shall make a report as follows:

1. Students shall report suspected violations of this policy to any classroom teacher.
2. Staff members shall report suspected violations of this policy to their immediate supervisor when possible.

Homeless Student Regulations
Required by Federal and State Law

NOTE: This document MUST be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

Homeless students shall, by definition, include the following:

1. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.
2. Children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.
3. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.
4. Migratory children who meet one of the above-described circumstances.

Enrollment/Placement (See JBC)

The district, according to the child's or youth's best interest, shall either continue the child's or youth's education in the school of origin for the duration of homelessness in any case in which:

1. A family becomes homeless between academic years or during an academic year; and
2. For the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or enroll the child or youth in any public school that non-homeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

School Stability

In determining the best interest of the child or youth, the district homeless student liaison shall:

1. Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
2. Consider student-centered factors related to the child's or youth's best interest, including factors

related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;

3. If, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and
4. In the case of an unaccompanied youth, ensure that the district homeless student liaison assists in placement or enrollment decisions under this subparagraph, giving priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

Immediate Enrollment

The school selected shall immediately enroll the homeless child or youth, even if the child or youth:
Is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation; or
Has missed application or enrollment deadlines during any period of homelessness.

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained so that the records involved are available, in a timely fashion, when a child or youth enters a new school district and in a manner consistent with the Family Educational Rights and Privacy Act
See policies JR through JRD.

Enrollment Disputes

If a dispute arises over eligibility, school selection, or enrollment in a school:

1. The child or youth shall be immediately enrolled in the school in which enrollment is sought (whether sought by the parent, guardian, or unaccompanied youth), pending final resolution of the dispute, including all available appeals;
2. The parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the state educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and
3. The parent, guardian, or unaccompanied youth shall be referred to the district homeless student liaison, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute.

Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

Privacy

Information about a homeless child's or youth's living situation shall be treated as a student education record and shall not be deemed to be directory information under policy JRB.

Contact Information

Nothing shall prohibit the district from requiring a parent or guardian of a homeless child or youth to submit contact information.

Definition

The term "school of origin" means the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool.

When the child or youth completes the final grade level served by the school of origin, the term "school of origin" shall include the designated receiving school at the next grade level for all feeder schools.

Comparable Services

Each homeless child or youth shall be provided services comparable to services offered to other students in the school selected, including:

1. Transportation services;
2. Educational services for which the child or youth meets the eligibility criteria, such as services provided under Title I of the Elementary and Secondary Education Act of 1965 or similar state or local programs, educational programs for children with disabilities, and educational programs for English learners;

3. Programs in career and technical education;
4. Programs for gifted and talented students; and
5. School nutrition programs.

Coordination

The district shall coordinate the provision of services under these regulations with the Department for Children and Families and other agencies or entities providing services to homeless children and youths and their families, including services and programs funded under the Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.), and transportation, transfer of school records, and other interdistrict activities with other local educational agencies.

Housing Assistance

If applicable, the district shall coordinate with state and local housing agencies responsible for developing the comprehensive housing affordability strategy to minimize educational disruption for children and youths who become homeless.

The coordination required shall be designed to:

1. Ensure that all homeless children and youths are promptly identified;
2. Ensure that all homeless children and youths have access to, and are in reasonable proximity to, available education and related support services; and
3. Raise the awareness of school personnel and service providers of the effects of short-term stays in shelters and other challenges associated with homelessness.

Homeless Children and Youths With Disabilities

For children and youths who are both homeless and eligible for services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the district shall coordinate the provision of services under these regulations with the provision of programs for children with disabilities served by the district and other involved local educational agencies.

District Homeless Student Liaison

The board designates the following individual to act as the district's homeless student liaison: (Name of Office) (Business Address) (Phone - Fax). The district shall inform school personnel, service providers, and advocates working with homeless families of the duties of this liaison.

The district homeless student liaison shall ensure:

1. Homeless children and youths are identified by school personnel through outreach and coordination activities with other entities and agencies;
2. Homeless children and youths are enrolled in, and have a full and equal opportunity to succeed in, district schools;
3. Homeless families and homeless children and youths have access to and receive educational

services for which such families, children, and youths are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act (42 U.S.C. 9831 et seq.), early intervention services under part C of the Individuals with Disabilities Education Act (20 U.S.C. 1431 et seq.), and other preschool programs administered by the local educational agency;

4. Homeless families and homeless children and youths receive referrals to healthcare services, dental services, mental health and substance abuse services, housing services, and other appropriate services;
5. The parents or guardians of homeless children and youths are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
6. Public notice of the educational rights of homeless children and youths is disseminated in locations frequented by parents or guardians of such children and youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form understandable to the parents and guardians of homeless children and youths, and unaccompanied youths;
7. Enrollment disputes are mediated in accordance with these regulations;
8. The parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school that is selected;
9. School personnel providing services under these regulations receive professional development and other support; and
10. Unaccompanied youths:

a) Are enrolled in school;
b) Have opportunities to meet the same challenging state academic standards as established for other children and youth; and
c) Are informed of their status as independent students under federal law regarding student financial assistance for higher education acquisition and that the youths may obtain assistance from the district homeless student liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid

The liaison shall also work with the state coordinator for the education of homeless children and youth to request and receive needed technical assistance and monitoring to ensure the district complies with federal and state law regarding homeless students. Similarly, the liaison will coordinate with the state coordinator in order to provide professional development opportunities for district personnel to aid them in

identifying and meeting the needs of homeless children and youths and will respond to inquiries from parents, guardians, and homeless children and youths to ensure they are provided with the full protection of the law and services they are due.

Notice

The district shall inform school personnel, service providers, advocates working with homeless families, parents and guardians of homeless children and youths, and homeless children and youths of the duties of the district homeless student liaison, and publish annually updated contact information for the liaison on the district's website.

Local and State Coordination

The district homeless student liaison, as a part of assigned duties, shall coordinate and collaborate with state coordinators, the community, and school personnel responsible for the provision of education and related services to homeless children and youths. Such coordination shall include collecting and providing to the state coordinator reliable, valid, and comprehensive data.

Homeless Status

The district homeless student liaison may affirm, without further agency action by the Department of Housing and Urban Development, that a child or youth who is eligible for and participating in a program provided by the district, or the immediate family of such a child or youth, who meets the eligibility requirements, is eligible for such program or service.

Dispute Resolution Process

A complaint regarding the placement or education of a homeless child or youth shall first be presented orally and informally to the district's homeless student liaison. If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless student liaison. The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved, and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the liaison shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the liaison will inform the superintendent of the formal complaint and the disposition.

Transportation (See EDAA, JBC, and JGG)

If it is in the best interest of the homeless child or youth to attend the school of origin, transportation to and from that school will be provided at the request of the parent or guardian or, in the case of an unaccompanied youth, the homeless coordinator. If the student’s temporary housing is outside the attendance area of the school of origin, then the district will work with the school of origin to agree on a method to apportion the responsibility and costs for transporting the child. If an agreement cannot be reached, the costs will be shared equally.

Foster Care Student Regulations
To Aid In Implementation of Federal Law

NOTE: This document MUST be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

The Every Student Succeeds Act (ESSA) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (KSDE), and the Kansas Department for Children and Families (DCF) to ensure the educational stability of students in foster care.

For the purposes of these regulations, "foster care" means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student's best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. They must also address how additional costs will be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

Additional Costs

"Additional costs" reflect the difference between what the district would spend to transport a

student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

School of Origin

The "school of origin" is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student's best interest to stay at that school.

Best-Interest Determination

DCF will make the final decision regarding whether it is in a student's best interest to remain in the school of origin. District staff may be asked to provide information on the "educational best interest" of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individuals with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student's educational best interest, which include the appropriateness of the current setting, proximity of placement to school attendance centers, the child's preference, the parents' preference, the child's attachment to the school of origin, where siblings will be placed, and the availability of needed services. The "best-interest determination" may not be made based on transportation costs or funding.

District Foster Care Liaison

The "district foster care liaison" is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district's foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.
The district has designated the following staff person as the district foster care liaison:

- Name:
- Position:
- Email:
- Address:
- Telephone:

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (CPS) division of DCF will typically be the division that works with the district on issues related to students in foster care. However, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to

apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

General Transportation Procedures (OPTIONAL)

To ensure that transportation is provided promptly when it is determined to be in the best interest of a student in foster care to remain in the school of origin, the district has developed the following transportation procedures. These procedures will guide the development of an individual transportation plan for a student needing transportation to his or her school of origin.

Funding Strategies

The district and DCF have identified the following funding options that may be implemented if additional costs to transport a student in foster care to the school of origin are determined: (Adjust the items below to include those agreed upon by the district and DCF. Consider any cost-sharing strategies that the district has used successfully with neighboring districts in transporting students who are homeless to and from their school of origin or any other programs where transportation costs are shared.)

1. Cost sharing between the district and DCF through use of a specific transportation strategy in which each party is responsible for a segment of the transportation;
2. Offset of costs by DCF, such as using Title IV-E funds paid to a foster parent or caregiver for transportation;
3. Cost sharing between the school district of attendance and the school district where the student is living;
4. Use of the district's Title I funds;
5. Use of Medicaid reimbursements if the IEP for a student receiving special education services will include transportation as a related service;
6. Use of any available grant funds; and
7. [Other].

Transportation Strategies

The following transportation strategies may be considered in achieving transportation to a student's school of origin: (Adjust the items below to include those agreed upon by the district and DCF. Consider any strategies that have been used successfully to transport students who are homeless to and from their school of origin and effective practices currently used to share transportation costs with neighboring districts, community partners, or others.)

1. Arranging transportation by the foster parent or caregiver to the school of origin or to a bus stop on a route to the school of origin, such as when the foster parent lives within a certain distance from the school of origin;
2. Arranging transportation by a relative or another adult approved by DCF with whom the student

has a relationship and whose existing commute aligns with the student's transportation need to the school of origin or a bus stop on a route to the school of origin;

3. Maximizing the existing district transportation system by exploring ways the student can be transported to an existing bus stop that serves the school of origin (options to transport the student to an existing bus stop could occur through use of public transportation with a bus pass or transportation voucher, or transportation by the foster parent or caregiver, a relative, or another adult with whom the student has a relationship);
4. Using existing in district transportation options that allow students to be transported within the district, such as routes for students who are homeless, students attending magnet programs, or students receiving special education services (this option may require the addition of a bus stop on an existing route or that an existing route be rerouted to accommodate the transportation needs);
5. Coordinating with the district in which the student is living to provide transportation to the district boundaries or an existing bus stop within the district;
6. Evaluating whether an IEP for a student receiving special education services will include transportation to the student's special education program at the school of origin as a related service;
7. Contracting with a private transportation company, such as a taxi service, for the student's transportation needs;
8. Using public transportation with a bus pass or transportation voucher;
9. Adding a district transportation route; or
10. [Other].

Individual Transportation Plan

When DCF determines that the best interest of a student in foster care is to remain in the school of origin, the district foster care liaison will take steps to promptly collaborate with relevant DCF staff on how transportation to the school of origin will be provided, arranged, and funded. When possible, and to allow for adequate consideration of the student's needs, individual transportation planning will begin in advance of placement changes and will occur in coordination with the consultation on the student's educational best interest.

The district foster care liaison will convene a meeting to establish an individualized transportation plan for the student. The liaison will attempt to include the student's DCF education decision-maker and others who may be involved in education decision-making for the student, such as the student's caseworker, foster parent or caregiver, and the court-appointed special advocate (CASA) liaison. The district foster care liaison may also involve other district staff, as appropriate. The liaison will involve the district transportation director if the individual transportation plan will involve adjustments to existing bus routes.

If necessary, the district foster care liaison will identify a short-term transportation strategy that

may be used until the final transportation plan is completed so that the student can remain at the school of origin without interruption.

In evaluating transportation options to the school of origin, participants will prioritize student safety, cost-effectiveness, reliability, and time and distance of the commute.

Determining Additional Costs

To identify whether additional costs will be incurred in an individual transportation plan to transport the student to the school of origin, the foster care liaison will consult with the district transportation director to calculate the cost of transporting the student to the school that the student would otherwise attend, which will be used as a comparison. In accordance with the federal Non-Regulatory Guidance, if the district is able to provide transportation through an established bus route, there are no additional costs. If the district will reroute buses or provide transportation through a private vehicle or transportation company, the district may consider as additional costs the cost of rerouting buses or the difference between the special transportation costs and the usual transportation costs.

Administrative costs, such as additional staff time to coordinate transportation, will also be considered in determining whether there are additional costs to transport the student in foster care to the school of origin.

Plan Elements

The individual transportation plan may include:

1. A daily transportation strategy;
2. One or more backup transportation strategies;
3. Transportation strategies to allow participation in after-school and extracurricular activities;
4. A description of the funding strategy that will be used if additional costs to transport the student to the school of origin are identified;
5. Identification of who is responsible for each aspect of the transportation strategy;
6. Designation of an adult to accompany younger students, if necessary, such as when public transportation is used;
7. For transportation strategies with multiple segments, sign-off procedures to ensure that the student safely and successfully completes each segment;
8. A communication protocol between the district and DCF when transportation for a student is no longer needed; and
9. A regular review process for adjusting transportation strategies when circumstances change.

The final individual transportation plan will require a signature by the foster care liaison and a district official who has authority to approve any additional expenditure. The DCF education decision-maker and the foster parent or caregiver, if different from the education decision-maker, will also be asked

to sign the plan.

(Also see Policies GAAE and JDDC)

Bullying means: Any intentional gesture or any intentional written, verbal, electronic, or physical act or threat either by any student, staff member, or parent towards a student or by any student, staff member or parent towards a staff member that is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment that a reasonable person, under the circumstances, knows or should know will have the effect of:

- Harming a student or staff member, whether physically or mentally;
- Damaging a student's or staff member's property:
- Placing a student or staff member in reasonable fear of harm; or
- Placing a student or staff member in reasonable fear of damage to the student's or staff member's property.

Bullying also includes cyberbullying. "Cyberbullying" means bullying by use of any electronic communication device through means including, but not limited to, e-mail, instant messaging, text messages, blogs, mobile phones, pagers, online games, and websites.

Additionally, bullying means any form of intimidation or harassment prohibited by the board of education of the school district in policies concerning bullying adopted pursuant to K.S.A. 72-6147 or subsection (e) of K.S.A. 72-1138, and amendments thereto. Training concerning identifying, reporting, investigating, and preventing bullying behaviors as outlined in district policies and this plan shall be provided to students and staff members using resources available for such purpose and shall be provided through school assemblies, staff development, or other appropriate forums at least {annually/biannually}.

No teacher, administrator, or school district employee shall engage in, permit, or tolerate bullying.

Retaliation against a victim, good faith reporter, or a witness to bullying is prohibited. A student or staff member who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying, shall be subject to discipline in accordance with school district policy and procedures. The school administration and/or board may consider the following factors when determining an appropriate disciplinary action for such prohibited conduct: the ages of the parties involved; the developmental and maturity levels, special education needs of the parties involved, and the nature, frequency, and severity of the behavior.

Discipline guidelines for student bullying may be found in student and employee handbooks.
